NOTE 1 – ORGANIZATION AND DESCRIPTION OF BUSINESS

Staffing 360 Solutions, Inc. (“we,” “us,” “our,” “Staffing 360,” or the “Company”) was incorporated in the State of Nevada on December 22, 2009, as Golden Fork Corporation, which changed its name to Staffing 360 Solutions, Inc., ticker symbol “STAF,” on March 16, 2012. On June 15, 2017, the Company changed its state of domicile to Delaware.

The Company effected a one-for-ten reverse stock split on September 17, 2015 and a one-for-five reverse stock split on January 3, 2018. All share and per share information in these consolidated financial statements has been retroactively adjusted to reflect these reverse stock splits.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation and Principles of Consolidation

These condensed consolidated financial statements and related notes are presented in accordance with generally accepted accounting principles in the United States (“GAAP”), expressed in U.S. dollars.

The unaudited condensed consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation.

These unaudited condensed consolidated financial statements reflect all adjustments including normal recurring adjustments, which, in the opinion of management, are necessary to present fairly the financial position, results of operations and cash flows for the periods presented in accordance with the GAAP.

These unaudited condensed consolidated financial statements should be read in conjunction with the Company’s consolidated financial statements and notes thereto for the fiscal year ended December 30, 2017, the transition period ended December 31, 2016 and fiscal year ended May 31, 2016, which are included in the Company’s December 30, 2017 Form 10-K, filed with the United States Securities and Exchange Commission on March 29, 2018. The Company assumes that the users of the interim financial information herein have read, or have access to, the audited consolidated financial statements for the preceding period, and that the adequacy of additional disclosure needed for a fair presentation may be determined in that context. The results of operations for the period ended September 29, 2018

are not necessarily indicative of results for the entire year ending December 29, 2018. This report is for the periods July 1, 2018 to September 29, 2018 (“Q3 2018”), July 2, 2017 to September 30, 2017 (“Q3 2017”), December 31, 2017 to September 29, 2018 (“Q3 2018 YTD”) and January 1, 2017 to September 30, 2017 (“Q3 2017 YTD”).

PeopleServe Disposition

On June 6, 2018, the Company divested the stock of PeopleServe Inc., and PeopleServe PRS, Inc. for a total consideration of \$1,502, net of \$567 that was remitted back to the buyer on July 31, 2018 in connection with a net working capital true up. The Company recorded a gain of \$238 from sale of the business.

Clement May Acquisition

On June 28, 2018, the Company and Staffing 360 Solutions Limited (formerly known as Longbridge Recruitment 360 Limited), a whollyowned subsidiary of the Company, entered into share purchase agreements (“Share Purchase Agreements”) to acquire all of the share capital of Clement May Limited (“CML”). Consideration for the acquisition of all the shares was (i) an aggregate cash payment of £1,550 (\$2,047), (ii) 15,000 shares of the Company’s common stock, (iii) an earn-out payment of up to £500, the amount to be calculated pursuant to that Share Purchase Agreement and to be paid on or around December 28, 2018, and (iv) deferred consideration of £350, to be paid on or around June 28, 2019, depending on the satisfaction of certain conditions set forth in that Share Purchase Agreement. To finance the above transaction, the Company entered into a term loan with HSBC Bank plc. Refer to Note 5 for further details.

Key Resources Inc. Acquisition

On August 27, 2018, the Company and Monroe Staffing Services, LLC (“Monroe Staffing”), an indirect subsidiary of the Company, entered into a share purchase agreement with Pamela D. Whitaker (“Seller”), pursuant to which the Seller sold 100% of the common shares of Key Resources Inc. (“KRI”) to Monroe Staffing (the “KRI Transaction”).

The KRI Transaction closed simultaneously with the signing of the share purchase agreement. The purchase price in connection with the KRI Transaction was approximately \$12,163, of which (a) approximately \$8,109 was paid to the Seller at closing, (b) up to approximately \$2,027 is payable as earnout consideration to the Seller on August 27, 2019 and (c) up to \$2,027 is payable as earnout consideration to the Seller on August 27, 2020. The payment of the Earnout Consideration is contingent on KRI's achievement of certain trailing gross profit amounts.

To finance the above transaction, the Company entered into an agreement with Jackson Investment Group, LLC ("Jackson") on August 27, 2018, pursuant to which the note purchase agreement dated as of September 15, 2017 was amended to add an additional senior debt investment of approximately \$8,428 in the Company in exchange for a senior secured note in the principal amount of approximately \$8,428.

Revenue Recognition

On January 1, 2018, the Company adopted the new accounting standard ASC 606, Revenue from Contracts with Customers for all open contracts and related amendments as of January 1, 2018 using the modified retrospective method. The adoption had no impact to the reported results. Results for reporting periods beginning after January 1, 2018 will be presented under ASC 606, while the comparative information will not be restated and will continue to be reported under the accounting standards in effect for those periods.

The Company accounts for revenues when both parties to the contract have approved the contract, the rights and obligations of the parties are identified, payment terms are identified, and collectability of consideration is probable. Payment terms vary by client and the services offered.

The Company has primarily two main forms of revenue – temporary contractor revenue and permanent placement revenue. Temporary contractor revenue is accounted for as a single performance obligation satisfied over time because the customer simultaneously receives and consumes the benefits of the Company's performance on an hourly basis. The contracts stipulate weekly billing and the Company has elected the "as invoiced" practical expedient to recognize revenue based on the hours incurred at the contractual rate as we have the right to payment in an amount that corresponds directly with the value of performance completed to date. Permanent placement revenue is recognized on the date the candidate's full-time employment with the customer has commenced. The customer is invoiced on the start date, and the contract stipulates payment due under varying terms, typically 30 days. The contract with the customer stipulates a guarantee period whereby the customer may be refunded if the employee is terminated within a short period time, however this has historically been infrequent, and immaterial upon occurrence. As such, the Company's performance obligations are satisfied upon commencement of the employment, at which point control has transferred to the customer. Revenue in Q3 2018 was comprised of \$68,683 of temporary contractor revenue and \$2,634 of permanent placement revenue, compared with \$48,970 and \$1,375 for Q3 2017, respectively. Revenue in Q3 2018 YTD was comprised of \$178,518 of temporary contractor revenue and \$8,317 of permanent placement revenue, compared with \$130,220 and \$2,954 for Q3 2017 YTD, respectively. Refer to Note 8 for further details on breakdown by segments.

Reclassifications

We may make certain reclassifications to prior period amounts to conform with the current year's presentation. These reclassifications did not have a material effect on our condensed consolidated statement of financial position, results of operations or cash flows.

Income Taxes

The Company's provision for income taxes is based upon an estimated annual tax rate for the year applied to federal, state and foreign income. On a quarterly basis, the annual effective tax rate is adjusted, as appropriate, based upon changed facts and circumstances, if any, as compared to those forecasted at the beginning of the fiscal year and each interim period thereafter. The Company's effective tax rate may change from period to period based on recurring and non-recurring factors including the geographical mix of earnings, enacted tax legislation, state and local income taxes, and tax audit settlements. The effective income tax rate was (0.31)%, 4.0%, 1.59% and 2.3% for the period ending Q3 2018, Q3 2017, Q3 2018 YTD and Q3 2017 YTD, respectively.

On December 22, 2017, the Tax Cuts and Jobs Act of 2017 (the "Tax Act") was signed into law making significant changes to the Internal Revenue Code. The changes include, but are not limited to, a U.S. corporate tax rate decrease from 35% to 21%, the transition of U.S. international taxation from a worldwide tax system to a territorial system, allowing for immediate expensing of certain qualified property, modifications to many business deductions and credits, and providing various tax incentives. Shortly after the Tax Act was enacted, Staff Accounting Bulletin No. 118 ("SAB 118") was issued to address the application of U.S. GAAP in situations when a registrant does not have the necessary information available, prepared, or analyzed (including computations) in reasonable

STAFFING 360 SOLUTIONS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(All amounts in thousands, except share, per share and stated value per share)

(UNAUDITED)

detail to complete the accounting for certain income tax effects of the Tax Act. SAB 118 provides that in these cases a registrant should continue to apply Financial Accounting Standards Board ("FASB") Accounting Standards Update No. 2009-06, Income Taxes ("Topic 740") based on the provisions of the tax laws that were in effect immediately prior to the Tax Act. SAB 118 provides a measurement period that should not extend beyond one year from the Tax Act enactment date for registrants to complete the accounting under Topic 740.

The Company remeasured domestic deferred tax assets and liabilities based on the rates at which they are expected to reverse in the future, which is generally the 21% rate imposed by the Tax Act. The Company recorded an expense of \$3.7 million to reduce the net deferred tax assets, along with a corresponding benefit for the reduction of the valuation allowance recorded against these balances in our financial statements for the year ended December 30, 2017.

At September 29, 2018, in accordance with SAB 118, the Company has not completed its accounting for the tax effects of the one-time transition tax imposed by the Tax Act. In order to determine the amount of the liability with respect to the one-time transition tax, the Company must determine, in addition to other factors, the amount of post-1986 Earnings & Profits of the relevant subsidiaries, as well as the amount of non-U.S. income taxes paid on such earnings. In order to quantify the liability, we are awaiting further interpretative guidance, continuing to assess available tax methods and elections, and continuing to gather additional information to more precisely compute the amount of the transition tax. Therefore, we have not recorded an estimate of the transition tax in our financial statements.

In addition, the Company is continuing to evaluate whether Global Intangible Low Tax Income taxes ("GILTI") are recorded as a current period expense when incurred or whether such amounts should be factored into the Company's measurement of its deferred taxes. As a result, the Company has not included an estimate of the tax impacts related to GILTI in the third quarter of 2018. The Company has not elected a method and will only do so after completing their analysis of the GILTI provisions.

Foreign Currency

Staffing 360 Solutions, Inc. has an intercompany note due from Staffing 360 Solutions Limited (formerly known as Longbridge Recruitment 360 Limited), denominated in U.S. dollars. Staffing 360 Solutions Limited's functional currency is Pound Sterling. The note matures in September 15, 2022, bears interest at a rate of interest equal to the mid-term monthly Applicable Federal Rate (AFR), as published each month by the U.S. Internal Revenue Service pursuant to Section 1274(d) of the Internal Revenue Code, compounded semiannually. Interest is payable in cash quarterly on the first business day of each calendar quarter. Staffing 360 Solutions Limited may prepay all or any portion of the principal amount of this Note at any time, in whole or in part, without premium or penalty. As the note is denominated in U.S. dollars and due to weakening of the Pound Sterling, the Company recorded a non cash foreign currency remeasurement loss of \$186 and \$332 in Q3 2018 and Q3 2018 YTD, respectively.

Recent Accounting Pronouncements

In February 2016, the FASB issued ASU 2016-02, "Leases" (Topic 842). This guidance will be effective for public entities for fiscal years beginning after December 15, 2018 including the interim periods within those fiscal years. Early application is permitted. Under the new provisions, all lessees will report a right-of-use asset and a liability for the obligation to make payments for all leases with the exception of those leases with a term of 12 months or less. All other leases will fall into one of two categories: (i) Financing leases, similar to capital leases, which will require the recognition of an asset and liability, measured at the present value of the lease payments and (ii) Operating leases which will require the recognition of an asset and liability measured at the present value of the lease payments. Lessor accounting remains substantially unchanged with the exception that no leases entered into after the effective date will be classified as leveraged leases. For sale leaseback transactions, the sale will only be recognized if the criteria in the new revenue recognition standard are met. The Company is currently evaluating the impact of adopting this guidance.

NOTE 3 – LOSS PER COMMON SHARE

The Company utilizes the guidance per ASC 260, "Earnings per Share." Basic earnings per share are calculated by dividing income available to stockholders by the weighted average number of common stock shares outstanding during each period. Our Series A preferred stock holders (related parties) receive certain dividends or dividend equivalents that are considered participating securities and our loss per share is computed using the two-class method. For Q3 2018, Q3 2017, Q3 2018 YTD and Q3 2017 YTD, pursuant to the two-class method, as a result of the net loss, losses were not allocated to the participating securities.

Diluted earnings per share are computed using the weighted average number of common stock shares and dilutive common share equivalents outstanding during the period. Dilutive common stock equivalents consist of common shares issuable upon the conversion of preferred stock, convertible notes and the exercise of stock options and warrants (calculated using the modified treasury stock method). The Complaint sought payment of the amount allegedly owed under SPA § 2.7 and acceleration of earn-out payments provided for in the Stock Purchase Agreement of \$1,400, less amounts paid to date, and attorneys’ fees.

On December 31, 2014, NewCSI filed an amended complaint to which NewCSI added an additional count asserting an “Adjustment Event” had occurred requiring an acceleration of earn-out payments provided for in the CSI Stock Purchase Agreement of \$2,100, less amounts paid as of December 31, 2014 totaling \$429 (balance of \$1,671 at December 31, 2014), should the Company or CSI “be unable, or admit in writing its inability, to pay its debts as they mature.” The Company responded denying the material allegations and interposing numerous affirmative defenses, including that the earn-out liability was fully expensed at the time of the acquisition and fully accrued for on the Company’s balance sheet as part of the purchase accounting at the time of the acquisition. A the trial was held May 18-20, 2015. On June 3, 2015, NewCSI filed a Motion for Entry of Judgment as Matter of Law seeking entry of a judgment in the amount of \$154, plus accelerated earn-out payments in the amount of \$1,152, plus statutory interest. NewCSI did not challenge the jury verdict on the ability to pay issue. Also on June 3, 2015, the Company filed a Motion for Entry of Judgment as a Matter of Law seeking entry of judgment against NewCSI on the jury’s finding that the Company had not complied with SPA § 2.7, or, in the alternative, for a reduction of damages to \$154 and to hold that NewCSI may not be awarded accelerated earn-out payments as that would result in an illegal penalty.

NOTE 9 – ACQUISITIONS

In accordance with ASC 805, the Company accounts for acquisitions using the purchase method under which the acquisition purchase price is allocated to the assets acquired and liabilities assumed based upon their respective fair values. The Company utilizes management estimates and, in some instances, may retain the services of an independent third-party valuation firm to assist in determining the fair values of assets acquired, liabilities assumed and contingent consideration granted. Such estimates and valuations require the Company to make significant assumptions, including projections of future events and operating performance.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion and analysis of our results of operations and financial condition should be read in conjunction with our consolidated financial statements and related notes appearing elsewhere in this Quarterly Report. This section includes a number of forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995, that reflect our current views with respect to future events and financial performance. All statements that address expectations or projections about the future, including, but not limited to, statements about our plans, strategies, adequacy of resources and future financial results (such as revenue, gross profit, operating profit, cash flow), are forward-looking statements. Some of the forward-looking statements can be identified by words like “anticipates,” “believes,” “expects,” “may,” “will,” “can,” “could,” “should,” “intends,” “project,” “predict,” “plans,” “estimate,” “possible,” “potential,” “would,” “seek,” and similar references to future periods. These statements are not guarantees of future performance and involve a number of risks, uncertainties and assumptions that are difficult to predict. Because these forward-looking statements are based on estimates and assumptions that are subject to significant business, economic and competitive uncertainties, many of which are beyond our control or are subject to change, actual outcomes and results may differ materially from what is expressed or forecasted in these forward-looking statements. Important factors that could cause actual results to differ materially from these forward-looking statements include, but are not limited to: negative outcome of pending and future claims and litigation; our ability to access the capital markets by pursuing additional debt and equity financing to fund our business plan and expenses on terms acceptable to us or at all; and our ability to comply with our contractual covenants, including in respect of our debt; potential cost overruns and possible rejection of our business model and/or sales methods; weakness in general economic conditions and levels of capital spending by customers in the industries we serve; weakness or volatility in the financial and capital markets, which may result in the postponement or cancellation of our customers' capital projects or the inability of our customers to pay our fees; delays or reductions in U.S. government spending; credit risks associated with our customers; competitive market pressures; the availability and cost of qualified labor; our level of success in attracting, training and retaining qualified management personnel and other staff employees; changes in tax laws and other government regulations, including the impact of health care reform laws and regulations; the possibility of incurring liability for our business activities, including, but not limited to, the activities of our temporary employees; our performance on customer contracts; and government policies, legislation or judicial decisions adverse to our businesses. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. We assume no obligation to update such statements, whether as a result of new information, future events or otherwise, except as required by law. We recommend readers to carefully review the reports and documents we file from time to time with the Securities and Exchange Commission (“SEC”), particularly our Quarterly Reports on Form 10-Q and our Current Reports on Form 8-K.

options of CBS Butler sold all of their shares and options of CBS Butler to Staffing 360 Solutions Limited (the "CBS Butler Acquisition"), in exchange for (i) an aggregate cash payment of £13,810, (ii) an aggregate of 100,000 shares of the Company's common stock, (iii) an earn-out payment of up to £4,214 (payable in October 2018 based upon CBS Butler's operating performance during the period September 1, 2017 through August 31, 2018), and (iv) deferred consideration of £150 less the aggregate amount of each CBS Butler Shareholder's portion of the net asset shortfall amount, if any, as determined pursuant to the Share Purchase Agreement and the Option Purchase Agreement.

Revenue

For Q3 2018, revenue increased by 41.7% to \$71,317, as compared with \$50,345, for Q3 2017. Of that growth, \$26,888 was from the acquisitions of CBS Butler, Firstpro, Clement May, and KRI. This was partially offset by a decline of \$4,374 from divesting of PeopleServe, an organic decline of \$1,481 from the remaining core business, and \$61 from unfavorable foreign currency translation. Temporary contractor revenue declined \$1,290 and permanent placement declined \$191.

Revenue in Q3 2018 was comprised of \$68,683 of temporary contractor revenue and \$2,634 of permanent placement revenue, compared with \$48,970 and \$1,375 for Q3 2017, respectively.

Direct cost of revenue, Gross profit and gross margin

Direct cost of services includes the variable cost of labor and various non-variable costs (e.g., workers' compensation insurance) relating to employees (temporary and permanent) as well as sub-contractors and consultants. For Q3 2018, direct cost of revenue was \$58,821, an increase of 44.3% from \$40,768 in Q3 2017, compared with revenue growth of 41.7%.

Gross profit for Q3 2018 was \$12,496, an increase of 30.5% over \$9,577, for Q3 2017, representing gross margin of 17.5% and 19.0% for each period, respectively. Gross profit growth was primarily attributable to the impact of acquisitions. This was partly offset by lower savings from workers' compensation insurance versus the savings realized in the corresponding period in 2017, the divestiture of the lower margin PeopleServe business, and organic decline on lower permanent placement and contract revenue.

Operating expenses

Operating expenses for Q3 2018 were \$11,838, an increase of 23.4% over \$9,590 for Q3 2017. The acquisitions of CBS Butler, Firstpro, Clement May, and KRI drove an increase of 32.3% in operating expense. Excluding the acquisitions, operating expenses decreased by 8.9% driven by lower non-recurring costs, legal, and other costs associated with acquisitions, lower variable costs from lower organic revenue, and savings that are materializing which are attributable to synergies within the subsidiaries, cost savings initiatives, and PeopleServe divesture.

Other Expenses

Other expenses for Q3 2018 was \$2,635, a decrease of 64.6% from \$7,435 in Q3 2017. For Q3 2018 compared with Q3 2017, other expenses primarily reflects higher interest of \$1,518 driven mainly by the higher debt and cost of capital resulting from the refinancing in September 2017 and financing of The Clement May and Key Resources acquisitions; a loss on extinguishment of debt in Q3 2017 of \$4,764 attributable to the refinancing of convertible notes in January 2017 and Jackson Notes in September 2017, with no corresponding loss in Q3 2018, a loss of \$186 from remeasuring the Company's intercompany note; lower amortization of debt discount and deferred financing costs by \$1,056 also attributable to the refinancing; a loss of \$688 from fair valuing warrants in Q3 2017, with no corresponding loss in Q3 2018.

Direct cost of services includes the variable cost of labor and various non-variable costs (e.g., workers' compensation insurance) relating to employees (temporary and permanent) as well as sub-contractors and consultants. For Q3 2018 YTD, direct cost of revenue was \$150,876, an increase of 39.3% from \$108,347, in Q3 2017 YTD, compared with revenue growth of 40.3%.

Gross profit for Q3 2018 YTD was \$35,959, an increase of 44.8% over \$24,827, for Q3 2017 YTD, representing gross margin of 19.2% and 18.6% for each period, respectively. Gross profit growth was attributed to the impact of acquisitions. This was partly offset by lower savings from workers' compensation insurance versus the savings realized in the corresponding period in 2017, organic decline on lower permanent placement and contract revenue, and the divestiture of the lower margin PeopleServe business.

Operating expenses

Operating expenses for Q3 2018 YTD was \$35,566, an increase of 44.2% over \$24,672, for Q3 2017 YTD. Of that increase, 42.6% can be attributed to acquisition of CBS Butler, Firstpro, Clement May, and KRI. The remaining increase is primarily stemming from other non-recurring costs and other costs associated with acquisitions, capital raising, and non-cash charges or credits. This was partly offset by lower variable costs from lower organic revenue, savings that are materializing which are attributable to synergies within the subsidiaries, cost savings initiatives, PeopleServe divesture and higher commissions on the higher gross profit.

Other Expenses

Other expenses for Q3 2018 YTD was \$5,566, a decrease of 49.9% from \$11,109, in Q3 2017 YTD. For Q3 2018 YTD compared with Q3 2017 YTD, other expenses primarily reflects higher interest of \$4,342 driven mainly by the higher debt and cost of capital resulting from the refinancing in September 2017; lower amortization of debt discount and deferred financing costs by \$2,217 also attributable to the refinancing; a loss on extinguishment of debt in Q3 2017 YTD of \$6,132 attributable to the refinancing of convertible notes in January 2017, with no corresponding loss in Q3 2018 YTD; a higher gain of \$1,372 from fair valuing warrants in; a gain of \$238 from the sale of PeopleServe; a loss of \$332 from remeasuring the Company's intercompany note; and, other income of \$258 primarily from investment income on the Company's workers' compensation collateral.

Non-GAAP Measures

To supplement our consolidated financial statements presented in accordance with accounting principles generally accepted in the United States of America ("GAAP"), we also use non-GAAP financial measures and Key Performance Indicators ("KPIs") in addition to our GAAP results. We believe non-GAAP financial measures and KPIs may provide useful information for evaluating our cash operating performance, ability to service debt, compliance with debt covenants and measurement against competitors. This information should be considered as supplemental in nature and should not be considered in isolation or as a substitute for the related financial information prepared in accordance with GAAP. In addition, these non-GAAP financial measures may not be comparable to similarly entitled measures reported by other companies.

We present the following non-GAAP financial measure and KPIs in this report:

Revenue and Gross Profit by Sector We use this KPI to measure the Company's mix of Revenue and respective profitability between its two main lines of business due to their differing margins. For clarity, these lines of business are not the Company's operating segments, as this information is not currently regularly reviewed by the chief operating decision maker to allocate capital and resources. Rather, we use this KPI to benchmark the Company against the industry.

The following table details Revenue and Gross Profit by Sector:

Operating Cash Flow Including Proceeds from Accounts Receivable Financing calculated as net cash (used in) provided by operating activities plus net proceeds from accounts receivable financing. Because much of the Company's temporary payroll expense is paid weekly and in advance of clients remitting payment for invoices, operating cash flow is often weaker in staffing companies where revenue and accounts receivable are growing. Accounts receivable financing is essentially an advance on client remittances and is primarily used to fund temporary payroll. As such, we believe this measure is helpful to investors as an indicator of the Company's underlying operating cash flow.

On February 8, 2018, CBS Butler, Staffing 360 Solutions Limited and The JM Group, entered into a new arrangement with HSBC Invoice Finance (UK) Ltd ("HSBC") which provides for HSBC to purchase the subsidiaries' accounts receivable up to an aggregate amount of £11,500 across all three subsidiaries. The terms of the arrangement provide for HSBC to fund 90% of the purchased accounts receivable upfront and, a secured borrowing line of 70% of unbilled receivables capped at £1,000 (within the overall aggregate total facility of £11,500). Under ASU 2016-16, "Statement of Cash Flows (Topic 230, Classification of Certain Cash Receipts and Cash Payments, a consensus of the FASB Emerging Issues Task Force, the upfront portion of the sale of accounts receivable is classified within operating activities, while the deferred purchase price portion (or beneficial interest), once collected, is classified within investing activities.

On June 28, 2018, Clement May Limited entered into a new agreement for purchase of debt ("APD") with HSBC, joining CBS Butler, Staffing 360 Solutions Limited and The JM Group (collectively, with Clement May, the "Borrowers") as "Connected Clients" as defined in the APD. The new Connected Client APDs carry an aggregate Facility Limit of £20,000 across all Borrowers and the Clement May APD matures on June 28, 2019, unless otherwise accelerated or terminated earlier. The obligations of the Borrowers are secured by a fixed charge and a floating charge on the Borrowers' respective accounts receivable and are subject to cross-company guarantees among the Borrowers. In addition the secured borrowing line against unbilled receivables was increased to £1,500 for a period of 90 days.

Liquidity and Capital Resources

Liquidity is the ability of a company to generate funds to support its current and future operations, satisfy its obligations, and otherwise operate on an ongoing basis. Historically, we have funded our operations through term loans, promissory notes, bonds, convertible notes, private placement offerings and sales of equity.

Our primary uses of cash have been for professional fees related to our operations and financial reporting requirements and for the payment of compensation, benefits and consulting fees. The following trends may occur as the Company continues to execute on its strategy:

- An increase in working capital requirements to finance organic growth,
- Addition of administrative and sales personnel as the business grows,
- Increases in advertising, public relations and sales promotions for existing and new brands as we expand within existing markets or enter new markets,
- A continuation of the costs associated with being a public company, and
- Capital expenditures to add technologies.

Our liquidity may be negatively impacted by the significant costs associated with our public company reporting requirements, costs associated with newly applicable corporate governance requirements, including requirements under the Sarbanes-Oxley Act of 2002 and other rules implemented by the Securities and Exchange Commission. We

expect all of these applicable rules and regulations could significantly increase our legal and financial compliance costs and increase the use of resources.

As of and for the period ended September 29, 2018, the Company had a working capital deficiency of \$14,562, an accumulated deficit of \$70,237, and a net loss of \$5,095.

On September 15, 2017, the Company entered into the Jackson Note for \$40,000. The proceeds of the sale of the secured note were used to (i) repay the existing subordinated notes previously issued to Jackson in the aggregate principal amount of \$11,165, (ii) to fund a portion of the upfront cash portion of purchase price consideration of the Firstpro Acquisition and the CBS Butler Acquisition, (iii) repay substantially all other outstanding indebtedness of the Company and (iv) for general working capital purposes. The maturity date for the Jackson Note is September 15, 2020. The Jackson Note will accrue interest at 12% per annum, due quarterly on January 1, April 1, July 1 and October 1 in each year, with the first such payment due on January 1, 2018. Interest on any overdue payment of principal or interest due under the Jackson Note will accrue at a rate per annum that is 5% in excess of the rate of interest otherwise payable thereunder.

Recent Accounting Pronouncements

In February 2016, the FASB issued ASU 2016-02, "Leases" (Topic 842). This guidance will be effective for public entities for fiscal years beginning after December 15, 2018 including the interim periods within those fiscal years. Early application is permitted. Under the new provisions, all lessees will report a right-of-use asset and a liability for the obligation to make payments for all leases with the exception of those leases with a term of 12 months or less. All other leases will fall into one of two categories: (i) Financing leases, similar to capital leases, which will require the recognition of an asset and liability, measured at the present value of the lease payments and (ii) Operating leases which will require the recognition of an asset and liability measured at the present value of the lease payments. Lessor accounting remains substantially unchanged with the exception that no leases entered into after the effective date will be classified as leveraged leases. For sale leaseback transactions, the sale will only be recognized if the criteria in the new revenue recognition standard are met. The Company is currently evaluating the impact of adopting this guidance.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Not applicable.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

As required by Rule 13a-15 of the Securities Exchange Act of 1934, as amended (“Exchange Act”), under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we evaluated the effectiveness of the design and operation of the Company’s “disclosure controls and procedures” and “internal control over financial reporting” as of the end of the period covered by this Quarterly Report.

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act that are designed to ensure that information required to be disclosed in our reports filed or submitted to the SEC under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the SEC’s rules and forms, and that information is accumulated and communicated to management, including the principal executive and financial officer as appropriate, to allow timely decisions regarding required disclosures. Our principal executive officer and principal financial officer evaluated the effectiveness of disclosure controls and procedures as of the end of the period covered by this Quarterly Report (“Evaluation Date”), pursuant to Rule 13a-15(b) under the Exchange Act. Based on that evaluation, the Company identified a material weakness relating to the accounting for complex debt and equity instruments. As such, our principal executive officer and principal financial officer concluded that, as of the Evaluation Date, our disclosure controls and procedures were not operating effectively.

Management believes that the condensed consolidated financial statements in this quarterly report on Form 10-Q fairly present, in all material respects, the Company’s financial condition as of the Evaluation Date, and results of its operations and cash flows for the Evaluation Date, in conformity with United States Generally Accepted Accounting Principles (“GAAP”).

Management's Annual Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f). Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting. Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that

- a) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- b) provide reasonable assurance that transactions are recorded as necessary to permit the preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the Company are being made only in accordance with authorizations of our management and directors; and
- c)

provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Based on our evaluation under the framework described above, our management concluded that our internal controls over financial reporting were not effective in accordance with Item 308(a)(3) of Regulation S-K as we had "material weaknesses" (as such term is defined below) in our control environment and financial reporting process relating to the accounting for complex debt and equity instruments.

A "material weakness" is defined under SEC rules as a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of a company's annual or interim financial statements will not be prevented or detected on a timely basis by the company's internal controls.

The Company intends to remedy the foregoing material weakness in our control environment and financial reporting process by pursuing third party technical accounting consultation in the matter of transactions that involve complex debt and equity instruments.

A system of controls, no matter how well designed and operated, cannot provide absolute assurance that the objectives of the system of controls are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected. Based on our evaluation under the framework described above, aside from the material

weakness discussed above, our management concluded that our internal controls over financial reporting were effective in accordance with Item 308(a)(3) of Regulation S-K.

Attestation report of the registered public accounting firm

This Quarterly Report does not include an attestation report of the Company's independent registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's independent registered public accounting firm pursuant to the rules of the SEC.

Changes in Internal Control over Financial Reporting

No change in our system of internal control over financial reporting occurred during the period ended September 29, 2018 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
