

HANOVER INSURANCE GROUP, INC.  
Form 10-Q  
May 02, 2019

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2019

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission File Number 1-13754

THE HANOVER INSURANCE GROUP, INC.

(Exact name of registrant as specified in its charter)

Delaware 04-3263626  
(State or other jurisdiction of (I.R.S. Employer

incorporation or organization) Identification No.)

440 Lincoln Street, Worcester, Massachusetts 01653

(Address of principal executive offices) (Zip Code)

(508) 855-1000

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer  
Non-accelerated filer Smaller reporting company  
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbols	Name of each exchange on which registered
Common Stock, \$.01 par value	THG	New York Stock Exchange
7 5/8% Senior Debentures due 2025	THG	New York Stock Exchange
6.35% Subordinated Debentures due 2053	THGA	New York Stock Exchange

The number of shares outstanding of the registrant's common stock was 40,701,200 as of April 30, 2019.

Table of Contents

THE HANOVER INSURANCE GROUP, INC. AND SUBSIDIARIES

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. Basis of Presentation and Principles of Consolidation

The accompanying unaudited consolidated financial statements of The Hanover Insurance Group, Inc. and subsidiaries (“THG” or the “Company”) have been prepared in accordance with generally accepted accounting principles in the United States of America (“U.S. GAAP”) for interim financial information and with the requirements of Form 10-Q. Certain financial information that is provided in annual financial statements, but is not required in interim reports, has been omitted.

The interim consolidated financial statements of THG include the accounts of The Hanover Insurance Company (“Hanover Insurance”) and Citizens Insurance Company of America, THG’s principal property and casualty companies; and other insurance and non-insurance subsidiaries. These legal entities conduct their operations through several business segments discussed in Note 9 – “Segment Information”. The interim consolidated financial statements also include the Company’s discontinued operations consisting of Chaucer Holdings Limited (“Chaucer”), a United Kingdom (“U.K.”) domiciled specialist insurance underwriting group which operates through the Society and Corporation of Lloyd’s (“Lloyds”), and the international insurance and non-insurance subsidiaries, which collectively constituted the former Chaucer segment. On December 28, 2018, the Company completed the sale of Chaucer to China Reinsurance (Group) Corporation (“China Re”), and subsequently completed the sales of the Chaucer-related Irish and Australian entities on February 14, 2019 and April 10, 2019, respectively. Discontinued operations also include the Company’s accident and health and former life insurance businesses. All intercompany accounts and transactions have been eliminated.

The preparation of financial statements in conformity with U.S. GAAP requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

In the opinion of the Company’s management, the accompanying interim consolidated financial statements reflect all adjustments, consisting of normal recurring items, necessary for a fair presentation of the financial position and results of operations. The results of operations for the three months ended March 31, 2019 are not necessarily indicative of the results to be expected for the full year. These financial statements should be read in conjunction with the Company’s Annual Report on Form 10-K filed with the Securities and Exchange Commission (“SEC”) on February 22, 2019.

2. New Accounting Pronouncements

Recently Implemented Standards

In February 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Codification (“ASC”) Update No. 2016-02, (Topic 842) Leases. This ASC update requires a lessee to recognize a right-of-use asset, which represents the lessee’s right to use a specified asset for the lease term, and a corresponding lease liability, which represents a lessee’s obligation to make lease payments arising from a lease, measured on a discounted basis, for all leases that extend beyond 12 months. For finance or capital leases, interest on the lease liability will be recognized separately from amortization of the right-of-use asset in the statements of income and comprehensive income. In

addition, the repayment of the principal portion of the lease liability will be classified as a financing activity while the interest component will be included in the operating section of the statement of cash flows. For operating leases, the asset and liability will be amortized as a single lease cost, such that the cost of the lease is allocated over the lease term, on a generally straight-line basis, with all cash flows included within operating activities in the statement of cash flows. ASC Update No. 2016-02 requires that implementation of this guidance be through a modified retrospective transition approach. In July 2018, the FASB issued ASC Update No. 2018-11, (Topic 842) Leases Targeted Improvements, which provides entities with an additional transition method to adopt ASC Update No. 2016-02. Under this optional transition method, an entity can initially apply the new guidance at the adoption date and recognize a cumulative-effect adjustment to the opening balance of retained earnings in the period of adoption. The Company implemented this guidance effective January 1, 2019 using the optional transition method provided in ASC Update No. 2018-11 and elected to utilize the practical expedient package available in ASC Update 2016-02. The Company has also elected to utilize the practical expedient which allows an entity not to separate lease and nonlease components for all of its asset classes. The effect of implementing this guidance increased total assets and total liabilities each by approximately \$35 million on January 1, 2019 and did not have a material effect on the results of operations for the three months ended March 31, 2019.

In March 2019, the FASB issued ASC Update No. 2019-01, Leases (Topic 842) – Codification Improvements (“ASC Update No. 2019-01”). This ASC update modifies interim disclosure requirements related to the implementation of Topic 842. This ASC update explicitly provides an exception to certain disclosures required under Topic 250 Accounting Changes and Error Corrections. An entity should apply the amendments as of the date that it first applied Topic 842, using the same transition methodology. Consistent with the Company’s implementation of Topic 842 on January 1, 2019, the updated guidance is effective for interim and annual periods beginning after December 15, 2018. The Company implemented this guidance effective January 1, 2019 and it did not have an impact on the Company’s financial position or results of operations as the update is disclosure related.

Table of Contents

In March 2017, the FASB issued ASC Update No. 2017-08, (Subtopic 310-20) Receivables – Nonrefundable Fees and Other Costs: Premium Amortization on Purchased Callable Debt Securities. This guidance shortens the amortization period of premiums on certain purchased callable debt securities to the earliest call date. The updated guidance is effective for annual and interim periods beginning after December 15, 2018, and should be applied on a modified retrospective basis through a cumulative-effect adjustment directly to retained earnings as of the beginning of the period of adoption. The Company implemented this guidance effective January 1, 2019. The effect of implementing this guidance resulted in a cumulative effect adjustment reclassifying unrealized losses, net of tax, of \$1.5 million from accumulated other comprehensive income to retained earnings.

Recently Issued Standards

In August 2018, the FASB issued ASC Update No. 2018-15, Intangibles – Goodwill and Other – Internal-Use Software (Subtopic 350-40): Customer’s Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract (“ASC Update No. 2018-15”). This ASC update requires the capitalization of implementation costs incurred in a hosting arrangement that is a service contract consistent with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software (and hosting arrangements that include an internal-use software license). The guidance also requires an entity to expense the capitalized implementation costs of a hosting arrangement that is a service contract over the term of the hosting agreement, and apply impairment guidance consistent with long-lived assets. ASC Update No. 2018-15 also provides specific guidelines related to the presentation of these capitalized implementation costs and related expenses in the financial statements. The updated guidance is effective for interim and annual periods beginning after December 15, 2019, and should be applied either retrospectively or prospectively to all implementation costs incurred after the date of adoption. Early adoption is permitted, including interim periods. The Company does not expect the adoption of ASC Update No. 2018-15 to have a material impact on its financial position or results of operations.

In August 2018, the FASB issued ASC Update No. 2018-14 (Topic 715-20) Compensation – Retirement Benefits – Defined Benefit Plans – General – Disclosure Framework – Changes to the Disclosure Requirements for the Defined Benefit Plans. This ASC update modifies disclosures related to defined benefit pension or other postretirement plans. This ASC update removes the disclosure of amounts in accumulated other comprehensive income expected to be recognized over the next fiscal year and the effects of a one percentage point change of health care cost trends on net periodic benefit costs and postretirement benefit obligations and clarifies the specific requirements of disclosures related to the project benefit obligation and accumulated benefit obligation. This ASC Update also adds disclosures related to weighted average crediting rates for cash balance plans and requires disclosure of an explanation of any significant gains and losses related to changes in benefit obligations for the period. The amendments in this ASC update are effective for fiscal years ending after December 15, 2020, and should be applied on a retrospective basis to all periods presented. Early adoption is permitted. Implementing this guidance is not expected to have an impact on the Company’s financial position or results of operations as the update is disclosure related.

In August 2018, the FASB issued ASC Update No. 2018-13 (Topic 820) Fair Value Measurement, Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement. The update removes the requirement for disclosure of the following: 1) the amount and reasons for transfers between level 1 and level 2 of the fair value hierarchy, 2) the policy for timing of transfers between levels, and 3) the valuation processes for level 3 fair value measurements. This update also added a requirement to disclose the changes in unrealized gains and losses for the period included in other comprehensive income for recurring level 3 fair value measurements held at the end of the reporting period and the range and weighted average of significant unobservable inputs used to develop level 3 fair

value measurements, in addition to other fair value disclosure modifications. The updated guidance is effective for interim and annual periods beginning after December 15, 2019, and should be applied prospectively for certain of the disclosure requirements and retrospectively to all periods presented upon the effective date for other disclosure requirements. An entity is permitted to early adopt any removed or modified disclosures upon issuance of the update and delay adoption of additional disclosures until periods beginning after December 15, 2019, the effective date of the standard. Implementing this guidance is not expected to have an impact on the Company's financial position or results of operations as the update is disclosure related.

In January 2017, the FASB issued ASC Update No. 2017-04, (Topic 350) Intangibles – Goodwill and Other: Simplifying the Test for Goodwill Impairment. This guidance eliminates step 2 from the goodwill impairment test. Instead, an entity should perform its goodwill impairment test by comparing the fair value of the reporting unit with its carrying amount, including any applicable income tax effects, and recognize an impairment for the amount by which the carrying amount exceeds the reporting unit's fair value. However, the loss recognized should not exceed the total amount of goodwill allocated to that reporting unit. The updated guidance is effective for annual or interim goodwill impairment tests performed in fiscal years beginning after December 15, 2019. Early adoption is permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. The Company does not expect the adoption of ASC Update No. 2017-04 to have a material impact on its financial position or results of operations.

In June 2016, the FASB issued ASC Update No. 2016-13, (Topic 326) Financial Instruments – Credit Losses: Measurement of Credit Losses on Financial Instruments. This ASC update introduces new guidance for the accounting for credit losses on financial instruments within its scope. A new model, referred to as the current expected credit losses model, requires an entity to determine credit-related impairment losses for financial instruments held at amortized cost and to estimate these expected credit losses over the life of an exposure (or pool of exposures). The estimate of expected credit losses should consider both historical and current

Table of Contents

information, reasonable and supportable forecasts, as well as estimates of prepayments. The estimated credit losses and subsequent adjustment to such loss estimates, will be recorded through an allowance account which is deducted from the amortized cost of the financial instrument, with the offset recorded in current earnings. ASC No. 2016-13 also modifies the impairment model for available-for-sale debt securities. The new model will require an estimate of expected credit losses only when the fair value is below the amortized cost of the asset, thus the length of time the fair value of an available-for-sale debt security has been below the amortized cost will no longer affect the determination of whether a credit loss exists. In addition, credit losses on available-for-sale debt securities will be limited to the difference between the security's amortized cost basis and its fair value. In November 2018, the FASB issued ASC Update No. 2018-19, Codification Improvements to Topic 326, Financial Instruments – Credit Losses, which explicitly states that receivables arising from operating leases are not within the scope of Subtopic 326-20. ASC Update 2016-13 and related guidance is effective for interim and annual periods beginning after December 15, 2019. Early adoption is permitted for periods beginning after December 15, 2018. The Company expects to adopt ASC Update No. 2016-13 on January 1, 2020 and is evaluating the impact on its financial position and results of operations, which it does not expect to be material.

### 3. Discontinued Operations – Chaucer Business

On December 28, 2018, the Company completed the sale of its former subsidiary, Chaucer, to China Re. On February 14, 2019, the Company completed the sale of its Chaucer-related Irish entity for total proceeds of \$28 million and on April 10, 2019, finalized the sale of the Australian entities for total proceeds of \$13 million, completing the transfer of all Chaucer-related companies. Collectively, these entities constituted the Chaucer business in 2018 and prior, whereas just the Irish and Australian Chaucer-related entities comprised the Chaucer business reported in the Company's results in 2019, until their respective sales to China Re.

Three months ended March 31, 2019

Revenues from the Chaucer business were \$2.9 million during the first quarter of 2019 and operating losses in this business totaled \$0.3 million during that period.

Three months ended March 31, 2018

The following table summarizes the results of Chaucer's operations for the three months ended March 31, 2018:

	Three Months Ended March 31, 2018
(in millions)	
Revenues	
Net premiums earned	\$ 221.1

Edgar Filing: HANOVER INSURANCE GROUP, INC. - Form 10-Q

Net investment income	16.4
Other income	1.9
	239.4
Losses and operating expenses	
Losses and LAE	115.0
Amortization of deferred acquisition costs	69.3
Other expenses	32.2
	216.5
Income from Chaucer business before income taxes and other items	
(previously presented as Chaucer's operating income)	22.9
Other items:	
Interest expense	(1.1 )
Net realized and unrealized investment losses	(0.5 )
Other income	0.2
Income from Chaucer business before income taxes	21.5
Income tax expense	(4.2 )
Income from Chaucer business, net of income taxes	\$ 17.3

Total assets held-for-sale were \$23.6 million at March 31, 2019 and \$57.4 million at December 31, 2018. Total liabilities held-for-sale were \$12.0 million at March 31, 2019 and \$22.2 million at December 31, 2018. Assets and liabilities held-for-sale decreased in the quarter due to the aforementioned sale of the Chaucer-related Irish entity. These balances are reflected in the Consolidated Balance Sheets under the caption “Assets held-for-sale” and “Liabilities held-for-sale”, respectively.

Table of Contents

The following table details the cash flows associated with the Chaucer business for the three months ended March 31, 2018:

	Three Months Ended March 31, 2018
(in millions)	
Net cash used in operating activities	\$ (5.9 )
Net cash provided by investing activities	\$ 47.7

## 4. Income Taxes

Income tax expense for the three months ended March 31, 2019 and 2018 has been computed using estimated annual effective tax rates. The prior year's rate reflects the recomputed income to exclude the Chaucer business. These rates are revised, if necessary, at the end of each successive interim period to reflect current estimates of the annual effective tax rates.

The tax provision was comprised of U.S. federal income tax expense of \$26.0 million and \$8.6 million for the three months ended March 31, 2019 and 2018, respectively. The tax provision recorded in discontinued operations related to the Chaucer business for the three months ended March 31, 2018 was comprised of a \$5.9 million U.S. federal income tax expense and a \$1.7 million foreign income tax benefit.

The Company or its subsidiaries files income tax returns in the U.S. federal jurisdiction and various state jurisdictions, as well as foreign jurisdictions. The Company and its subsidiaries are subject to U.S. federal and state income tax examinations and foreign examinations for years after 2014.

## 5. Investments

## A. Fixed maturities

The amortized cost and fair value of available-for-sale fixed maturities were as follows:

	March 31, 2019			Fair Value	OTTI Unrealized Losses
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses		
(in millions)					
U.S. Treasury and government agencies	\$404.5	\$ 4.7	\$ 2.5	\$406.7	\$ —
Foreign government	7.3	0.1	—	7.4	—
Municipal	848.1	20.8	3.4	865.5	—

Edgar Filing: HANOVER INSURANCE GROUP, INC. - Form 10-Q

Corporate	3,635.7	66.3	27.4	3,674.6	4.8
Residential mortgage-backed	819.2	6.8	6.1	819.9	—
Commercial mortgage-backed	684.9	9.4	2.4	691.9	—
Asset-backed	93.0	0.6	0.2	93.4	—
Total fixed maturities	\$6,492.7	\$ 108.7	\$ 42.0	\$6,559.4	\$ 4.8

(in millions)	December 31, 2018				
	Cost	Gross		Fair Value	OTTI Unrealized Losses
		Unrealized Gains	Unrealized Losses		
U.S. Treasury and government agencies	\$414.7	\$ 2.4	\$ 7.2	\$409.9	\$ —
Foreign government	7.3	0.1	—	7.4	—
Municipal	879.0	16.6	9.8	885.8	—
Corporate	3,476.6	26.1	92.0	3,410.7	6.6
Residential mortgage-backed	728.4	2.7	14.7	716.4	—
Commercial mortgage-backed	648.4	1.7	9.8	640.3	—
Asset-backed	91.5	0.2	0.7	91.0	—
Fixed maturities, excluding held-for-sale (Chaucer)	6,245.9	49.8	134.2	6,161.5	6.6
Fixed maturities, held-for-sale	24.9	—	0.4	24.5	—
Total fixed maturities	\$6,270.8	\$ 49.8	\$ 134.6	\$6,186.0	\$ 6.6

Other-than-temporary impairments (“OTTI”) unrealized losses in the tables above represent OTTI recognized in accumulated other comprehensive income (“AOCI”). This amount excludes net unrealized gains on impaired securities relating to changes in the value of such securities subsequent to the impairment measurement date of \$7.4 million as of both March 31, 2019 and December 31, 2018.

Table of Contents

The Company deposits funds with various state and governmental authorities. For a discussion of the Company's deposits with state and governmental authorities, see also Note 3 – "Investments" of the Notes to Consolidated Financial Statements in the Company's 2018 Annual Report on Form 10-K.

The amortized cost and fair value by maturity periods for fixed maturities are shown in the following table. Actual maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties, or the Company may have the right to put or sell the obligations back to the issuers.

(in millions)	March 31, 2019	
	Amortized Cost	Fair Value
Due in one year or less	\$249.2	\$250.9
Due after one year through five years	1,969.6	2,001.6
Due after five years through ten years	2,407.4	2,423.2
Due after ten years	269.4	278.5
	4,895.6	4,954.2
Mortgage-backed and asset-backed securities	1,597.1	1,605.2
Total fixed maturities	\$6,492.7	\$6,559.4

#### B. Fixed maturity securities in an unrealized loss position

The following tables provide information about the Company's available-for-sale fixed maturity securities that were in an unrealized loss position at March 31, 2019 and December 31, 2018 including the length of time the securities have been in an unrealized loss position:

(in millions)	March 31, 2019

The Company views gross unrealized losses on fixed maturities as being temporary since it is its assessment that these securities will recover in the near term, allowing the Company to realize the anticipated long-term economic value. The Company employs a systematic methodology to evaluate declines in fair value below amortized cost for fixed maturity securities. In determining OTTI, the Company evaluates several factors and circumstances, including the issuer's overall financial condition; the issuer's credit and financial strength ratings; the issuer's financial performance, including earnings trends and asset quality; any specific events which may influence the operations of the issuer; the general outlook for market conditions in the industry or geographic region in which the issuer operates; and the length of time and the degree to which the fair value of an issuer's securities remains below the Company's amortized cost. The Company also considers any factors that might raise doubt about the issuer's ability to make contractual payments as they come due and whether the Company expects to recover the entire amortized cost basis of the security.

## C. Proceeds from sales

The proceeds from sales of available-for-sale securities and gross realized gains and gross realized losses on those sales were as follows:

Three Months Ended March 31,					
2019			2018		
Proceeds	Gross	Gross	Proceeds	Gross	Gross

Edgar Filing: HANOVER INSURANCE GROUP, INC. - Form 10-Q

(in millions)	Sales	Gains	Losses	Sales	Gains	Losses
Fixed maturities, excluding held-for-sale (Chaucer)	\$60.1	\$ 1.0	\$ 1.5	\$57.1	\$ 0.2	\$ 1.7
Fixed maturities, held-for-sale	0.3	—	—	70.7	0.4	0.6
Total fixed maturities	\$60.4	\$ 1.0	\$ 1.5	\$127.8	\$ 0.6	\$ 2.3

D. Other-than-temporary impairments

For the three months ended March 31, 2019, the Company recognized no OTTI.

For the three months ended March 31, 2018, total OTTI from continuing operations was \$0.9 million, consisting primarily of fixed maturities. Of this amount, \$0.6 million was recognized in earnings and the remaining \$0.3 million was recorded as unrealized losses in AOCI.

Table of Contents

The methodology and significant inputs used to measure the amount of credit losses on fixed maturities in 2018 were as follows:

Corporate bonds – the Company utilized a financial model that derives expected cash flows based on probability-of-default factors by credit rating and asset duration and loss-given-default factors based on security type. These factors are based on historical data provided by an independent third-party rating agency. In addition, other market data relevant to the realizability of contractual cash flows may be considered.

The following table provides rollforwards of the cumulative amounts related to the Company’s credit loss portion of the OTTI losses on fixed maturity securities from continuing operations for which the non-credit portion of the loss is included in other comprehensive income.

(in millions)	Three Months Ended March 31,	
	2019	2018
Credit losses as of the beginning of the period	\$3.8	\$3.6
Credit losses on securities for which an OTTI was not previously recognized	—	0.2
Reductions for securities sold, matured or called	(0.5)	(0.7)
Credit losses as of the end of the period	\$3.3	\$3.1

## E. Equity securities

Equity securities are carried at fair value and all increases or decreases in fair value are reported in net realized and unrealized investment gains (losses) on the Consolidated Statements of Income. The following table provides pre-tax net realized and unrealized gains (losses) on equity securities from continuing operations:

(in millions)	Three Months Ended March 31,	
	2019	2018
Net gains (losses) recognized during the period	\$48.6	\$(22.9)
Less: net gains recognized on equity securities sold during the period	1.1	0.5
Net unrealized gains (losses) recognized during the period on equity securities still held	\$47.5	\$(23.4)

## 6. Fair Value

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability, i.e., exit price, in an orderly transaction between market participants. The Company emphasizes the use of observable market data whenever available in determining fair value. Fair values presented for certain financial instruments are estimates

which, in many cases, may differ significantly from the amounts that could be realized upon immediate liquidation. A hierarchy of the three broad levels of fair value are as follows, with the highest priority given to Level 1 as these are the most observable, and the lowest priority given to Level 3:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 – Quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data, including model-derived valuations.

Level 3 – Unobservable inputs that are supported by little or no market activity.

When more than one level of input is used to determine fair value, the financial instrument is classified as Level 2 or 3 according to the lowest level input that has a significant impact on the fair value measurement.

The following methods and assumptions were used to estimate the fair value of each class of financial instruments and have not changed since last year.

#### Fixed Maturities

Level 1 securities generally include U.S. Treasury issues and other securities that are highly liquid and for which quoted market prices are available. Level 2 securities are valued using pricing for similar securities and pricing models that incorporate observable inputs including, but not limited to yield curves and issuer spreads. Level 3 securities include issues for which little observable data can be obtained, primarily due to the illiquid nature of the securities, and for which significant inputs used to determine fair value are based on the Company's own assumptions.

Table of Contents

The Company utilizes a third party pricing service for the valuation of the majority of its fixed maturity securities and receives one quote per security. When quoted market prices in an active market are available, they are provided by the pricing service as the fair value and such values are classified as Level 1. Since fixed maturities other than U.S. Treasury securities generally do not trade on a daily basis, the pricing service prepares estimates of fair value for those securities using pricing techniques based on a market approach. Inputs into the fair value pricing common to all asset classes include: benchmark U.S. Treasury security yield curves; reported trades of identical or similar fixed maturity securities; broker/dealer quotes of identical or similar fixed maturity securities and structural characteristics such as maturity date, coupon, mandatory principal payment dates, frequency of interest and principal payments, and optional redemption features. Inputs into the fair value applications that are unique by asset class include, but are not limited to:

- U.S. government agencies – determination of direct versus indirect government support and whether any contingencies exist with respect to the timely payment of principal and interest.
- Foreign government – estimates of appropriate market spread versus underlying related sovereign treasury curve(s) dependent on liquidity and direct or contingent support.
- Municipals – overall credit quality, including assessments of the level and variability of: sources of payment such as income, sales or property taxes, levies or user fees; credit support such as insurance; state or local economic and political base; natural resource availability; and susceptibility to natural or man-made catastrophic events such as hurricanes, earthquakes or acts of terrorism.
- Corporate fixed maturities – overall credit quality, including assessments of the level and variability of: economic sensitivity; liquidity; corporate financial policies; management quality; regulatory environment; competitive position; ownership; restrictive covenants; and security or collateral.
- Residential mortgage-backed securities – estimates of prepayment speeds based upon: historical prepayment rate trends; underlying collateral interest rates; geographic concentration; vintage year; borrower credit quality characteristics; interest rate and yield curve forecasts; government or monetary authority support programs; tax policies; delinquency/default trends; and, in the case of non-agency collateralized mortgage obligations, severity of loss upon default and length of time to recover proceeds following default.
- Commercial mortgage-backed securities – overall credit quality, including assessments of the value and supply/demand characteristics of: collateral type such as office, retail, residential, lodging, or other; geographic concentration by region, state, metropolitan statistical area and locale; vintage year; historical collateral performance including defeasance, delinquency, default and special servicer trends; and capital structure support features.
- Asset-backed securities – overall credit quality, including assessments of the underlying collateral type such as credit card receivables, auto loan receivables and equipment lease receivables; geographic diversification; vintage year; historical collateral performance including delinquency, default and casualty trends; economic conditions influencing use rates and resale values; and contract structural support features.

Generally, all prices provided by the pricing service, except actively traded securities with quoted market prices, are reported as Level 2.

The Company holds privately placed fixed maturity securities and certain other fixed maturity securities that do not have an active market and for which the pricing service cannot provide fair values. The Company determines fair values for these securities using either matrix pricing utilizing the market approach or broker quotes. The Company will use observable market data as inputs into the fair value techniques, as discussed in the determination of Level 2 fair values, to the extent it is available, but is also required to use a certain amount of unobservable judgment due to the illiquid nature of the securities involved. Unobservable judgment reflected in the Company's matrix model accounts for estimates of additional spread required by market participants for factors such as issue size, structural complexity, high bond coupon or other unique features. These matrix-priced securities are reported as Level 2 or Level 3, depending on the significance of the impact of unobservable judgment on the security's value. Additionally,

the Company may obtain non-binding broker quotes which are reported as Level 3.

#### Equity Securities

Level 1 consists of publicly traded securities, including exchange traded funds, valued at quoted market prices. Level 2 includes securities that are valued using pricing for similar securities and pricing models that incorporate observable inputs. Level 3 consists of common or preferred stock of private companies for which observable inputs are not available.

Table of Contents

The Company utilizes a third party pricing service for the valuation of the majority of its equity securities and receives one quote for each equity security. When quoted market prices in an active market are available, they are provided by the pricing service as the fair value and such values are classified as Level 1. The Company holds certain equity securities that have been issued by privately-held entities that do not have an active market and for which the pricing service cannot provide fair values. Generally, the Company estimates fair value for these securities based on the issuer's book value and market multiples and reports them as Level 3. Additionally, the Company may obtain non-binding broker quotes which are reported as Level 3.

## Other Investments

Other investments primarily include mortgage participations and limited partnerships not subject to the equity method of accounting. The fair values of limited partnerships not subject to the equity method of accounting are based on the net asset value provided by the general partner adjusted for recent financial information and are excluded from the fair value hierarchy.

The estimated fair value of the financial instruments were as follows:

(in millions)	March 31, 2019		December 31, 2018	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Financial Assets carried at:				
Fair Value through AOCI:				
Fixed maturities	\$6,559.4	\$6,559.4	\$6,161.5	\$6,161.5
Fair Value through Net Income:				
Equity securities	504.7	504.7	464.4	464.4
Other investments	180.3	180.3	175.0	175.0
Amortized Cost/Cost:				
Other investments	421.5	425.7	414.4	418.9
Cash and cash equivalents	168.5	168.5	1,020.7	1,020.7
Total financial instruments, excluding held-for-sale	7,834.4	7,838.6	8,236.0	8,240.5
Financial instruments, held-for-sale (Chaucer)	2.8	2.8	27.8	27.8
Total financial instruments	\$7,837.2	\$7,841.4	\$8,263.8	\$8,268.3
Financial Liabilities carried at:				
Amortized Cost:				
Debt	\$653.0	\$694.2	\$777.9	\$825.0

The Company has processes designed to ensure that the values received from its third party pricing service are accurately recorded, that the data inputs and valuation approaches and techniques utilized are appropriate and consistently applied, and that the assumptions are reasonable and consistent with the objective of determining fair value. The Company performs a review of the fair value hierarchy classifications and of prices received from its pricing service on a quarterly basis. The Company reviews the pricing services' policies describing its methodology, processes, practices and inputs, including various financial models used to value securities. Also, the Company reviews the portfolio pricing, including a process for which securities with changes in prices that exceed a defined

threshold are verified to independent sources, if available. If upon review, the Company is not satisfied with the validity of a given price, a pricing challenge would be submitted to the pricing service along with supporting documentation for its review. The Company does not adjust quotes or prices obtained from the pricing service unless the pricing service agrees with the Company's challenge. During 2019 and 2018, the Company did not adjust any prices received from its pricing service.

Changes in the observability of valuation inputs may result in a reclassification of certain financial assets or liabilities within the fair value hierarchy. As previously discussed, the Company utilizes a third-party pricing service for the valuation of the majority of its fixed maturities and equity securities. The pricing service has indicated that it will only produce an estimate of fair value if there is objectively verifiable information to produce a valuation. If the pricing service discontinues pricing an investment, the Company will use observable market data to the extent it is available, but may also be required to make assumptions for market based inputs that are unavailable due to market conditions.

Table of Contents

The following tables provide, for each hierarchy level, the Company's investment assets that were measured at fair value on a recurring basis.

(in millions)	March 31, 2019

Balance March 31, 2018, excluding held-for-sale (Chaucer)	\$23.1	\$ 0.8	\$ 13.5	\$37.4	\$ 4.7	\$42.1

There were no transfers between Level 2 and Level 3, and there were no Level 3 liabilities held by the Company for the three months ended March 31, 2019 and 2018.

Table of Contents

The following table provides quantitative information about the significant unobservable inputs used by the Company in the fair value measurements of Level 3 assets. Where discounted cash flows were used in the valuation of fixed maturities, the internally-developed discount rate was adjusted by the significant unobservable inputs shown in the table.

(in millions)	Valuation Technique	Significant Unobservable Inputs	March 31, 2019		December 31, 2018	
			Fair Value	Range (Wtd Average)	Fair Value	Range (Wtd Average)
<b>Fixed maturities:</b>						
Municipal	Discounted	Discount for:	\$20.5		\$21.1	
	cash flow	Small issue size		0.7 - 6.8% (3.3%)		0.7 - 6.8% (3.4%)
		Credit stress		1.3% (1.3%)		1.3% (1.3%)
		Above-market coupon		0.3 - 0.5% (0.5%)		0.3 - 0.5% (0.5%)
Corporate	Discounted	Discount for:	0.7		0.8	
	cash flow	Small issue size		2.5% (2.5%)		2.5% (2.5%)
		Above-market coupon		0.3% (0.3%)		0.3% (0.3%)
Commercial	Discounted	Discount for:	12.8		13.1	
	mortgage-backed cash flow	Small issue size		1.9 - 3.1% (2.7%)		1.9 - 3.1% (2.7%)
		Above-market coupon		0.5% (0.5%)		0.5% (0.5%)
		Lease structure		0.3% (0.3%)		0.3% (0.3%)
Equity securities	Market	Net tangible asset				
	comparables	market multiples	1.1	1.0X (1.0X)	1.1	1.0X (1.0X)
Other	Discounted	Discount rate				
	cash flow		3.5	18.0% (18.0%)	3.5	18.0% (18.0%)

Significant increases (decreases) in any of the above inputs in isolation would result in a significantly lower (higher) fair value measurement. There were no interrelationships between these inputs which might magnify or mitigate the effect of changes in unobservable inputs on the fair value measurement.

#### 7. Pension and Other Postretirement Benefit Plans

The components of net periodic pension cost for defined benefit pension and other postretirement benefit plans included in the Company's results of operations are as follows:

(in millions)	Three Months Ended March			
	2019	2018	2019	2018
	Pension Plans		Postretirement Plans	
Service cost - benefits earned during the period	\$—	\$—	\$—	\$—
Interest cost	5.3	4.9	0.1	0.1
Expected return on plan assets	(5.8)	(5.2)	—	—
Recognized net actuarial loss	2.8	2.5	—	0.1
Amortization of prior service cost	—	—	—	(0.1 )
Net periodic pension cost	\$2.3	\$2.2	\$0.1	\$0.1

			Net other-than-temporary impairment losses on
			investments recognized in earnings
	—	(0.6 )	
	(0.3 )	(0.6 )	Total before tax
	3.9	2.7	Tax benefit
	3.6	2.1	Continued operations; net of tax
			Discontinued operations - Chaucer business
	—	(0.2 )	
	3.6	1.9	Net of tax
Amortization of defined benefit			Loss adjustment expenses and other
pension and postretirement plans	(2.9 )	(2.5 )	operating expenses <sup>(1)</sup>
	0.6	0.5	Tax benefit
	(2.3 )	(2.0 )	Continued operations; net of tax
Total reclassifications for the period	\$ 1.3	\$ (0.1 )	Benefit (expense) reflected in income, net of tax

(1) The amount reclassified from accumulated other comprehensive income for the pension and postretirement benefits was allocated approximately 40% to loss adjustment expenses and 60% to other operating expenses for the three months ended March 31, 2019 and 2018.

Table of Contents

9. Segment Information

The Company's primary business operations include insurance products and services provided through three operating segments: Commercial Lines, Personal Lines and Other. Commercial Lines includes commercial multiple peril, commercial automobile, workers' compensation, and other commercial coverages, such as inland marine, specialty program business, management and professional liability, surety and specialty property. Personal Lines includes personal automobile, homeowners and other personal coverages. Included in the Other segment are Opus Investment Management, Inc., which markets investment management services to institutions, pension funds and other organizations; earnings on holding company assets; holding company and other expenses, including certain costs associated with retirement benefits due to the Company's former life insurance employees and agents; and, a run-off voluntary pools business. On December 28, 2018, the Company completed the sale of Chaucer, the major portion of its Lloyd's international specialty business, to China Re. The sales of the Chaucer-related Irish and Australian entities were subsequently completed on February 14, 2019 and April 10, 2019, respectively. Accordingly, as of December 31, 2018, and for all prior periods, Chaucer's results of operations have been classified as Discontinued Operations in the Consolidated Statements of Income and assets and liabilities related to the Chaucer business have been classified as held-for-sale in the Consolidated Balance Sheets (see Note 3 – "Discontinued Operations - Chaucer Business"). Certain ongoing expenses were also reclassified from Chaucer to the other three operating segments. The separate financial information is presented consistent with the way results are regularly evaluated by the chief operating decision maker in deciding how to allocate resources and in assessing performance.

The Company reports interest expense related to debt separately from the earnings of its operating segments. This consists of interest on the Company's senior and subordinated debentures.

Management evaluates the results of the aforementioned segments based on operating income before taxes, excluding interest expense on debt. Operating income before taxes excludes certain items which are included in net income, such as net realized and unrealized investment gains and losses. Such gains and losses are excluded since they are determined by interest rates, financial markets and the timing of sales. Also, operating income before taxes excludes net gains and losses on disposals of businesses, gains and losses related to the repayment of debt, discontinued operations, costs to acquire businesses, restructuring costs, the cumulative effect of accounting changes and certain other items. Although the items excluded from operating income before taxes may be important components in understanding and assessing the Company's overall financial performance, management believes that the presentation of operating income before taxes enhances an investor's understanding of the Company's results of operations by highlighting net income attributable to the core operations of the business. However, operating income before taxes should not be construed as a substitute for income before income taxes and operating income should not be construed as a substitute for net income.

Table of Contents

Summarized below is financial information with respect to the Company's business segments.

(in millions)	Three Months Ended March 31,	
	2019	2018
Operating revenues:		
Commercial Lines	\$698.7	\$676.6
Personal Lines	465.2	434.9
Other	7.4	2.9
Total	1,171.3	1,114.4
Net realized and unrealized investment gains (losses)	48.2	(22.9 )
Total revenues	\$1,219.5	\$1,091.5
Operating income (loss) before interest expense and income taxes:		
Commercial Lines:		
Underwriting income	\$36.7	\$16.3
Net investment income	44.3	45.3
Other expense	(0.8 )	(0.2 )
Commercial Lines operating income	80.2	61.4
Personal Lines:		
Underwriting income	5.7	14.6
Net investment income	19.7	18.4
Other income	1.4	1.3
Personal Lines operating income	26.8	34.3
Other:		
Underwriting loss	(0.3 )	(1.0 )
Net investment income	6.2	2.3
Other expense	(3.1 )	(3.7 )
Other operating income (loss)	2.8	(2.4 )
Operating income before interest expense and income taxes	109.8	93.3
Interest on debt	(9.4 )	(11.3 )
Operating income before income taxes	100.4	82.0
Non-operating income items:		
Net realized and unrealized investment gains (losses)	48.2	(22.9 )
Income from continuing operations before income taxes	\$148.6	\$59.1

The following table provides identifiable assets for the Company's business segments and discontinued operations:

(in millions)	March 31,	December
	2019	31, 2018
U.S. Companies	\$11,856.2	\$12,238.4

Edgar Filing: HANOVER INSURANCE GROUP, INC. - Form 10-Q

Assets held-for-sale <sup>(1)</sup>	23.6	57.4
Assets of discontinued operations	103.6	103.9
Total	\$11,983.4	\$12,399.7

(1) See also Note 3 – “Discontinued Operations – Chaucer Business”.

The Company reviews the assets of its U.S. Companies collectively and does not allocate them between the Commercial Lines, Personal Lines and Other segments.

Table of Contents

## 10. Stock-based Compensation

As of March 31, 2019, there were 3,506,780 shares and 2,369,081 shares available for grant under The Hanover Insurance Group 2014 Long-Term Incentive Plan and The Hanover Insurance Group 2014 Employee Stock Purchase Plan, respectively.

Compensation cost for the Company's stock-based awards and the related tax benefits were as follows:

(in millions)	Three Months Ended March 31,	
	2019	2018
Stock-based compensation expense	\$4.2	\$2.5
Tax benefit	(0.9)	(0.5)
Stock-based compensation expense, net of taxes	\$3.3	\$2.0

Stock-based compensation expense for Chaucer, net of taxes, of \$0.4 million for the three months ended March 31, 2018 is reported in discontinued operations and is excluded from the amounts disclosed above.

## Stock Options

Information on the Company's stock option activity for the three months ended March 31, 2019 and 2018 is summarized below.

	Three Months Ended March 31,		2018	
	2019	Weighted Average	Shares	Weighted Average
(in whole shares and dollars)	Shares	Exercise Price	Shares	Exercise Price
Outstanding, beginning of period	1,099,076	\$ 85.75	1,062,177	\$ 75.53
Granted	232,568	95.05	291,390	110.58
Exercised	(64,017 )	75.98	(84,353 )	70.31
Forfeited or cancelled	(3,141 )	95.39	(50,491 )	88.48
Outstanding, end of period	1,264,486	87.93	1,218,723	83.73

## Restricted Stock Units

The following tables summarize activity information about employee restricted stock units:

Edgar Filing: HANOVER INSURANCE GROUP, INC. - Form 10-Q

	Three Months Ended March 31, 2019		2018	
	Shares	Weighted Average Fair Value	Shares	Weighted Average Fair Value
(in whole shares and dollars)				
<b>Time-based restricted stock units:</b>				
Outstanding, beginning of period	332,481	\$ 97.28	298,528	\$ 83.45
Granted	144,072	117.51	131,290	110.60
Vested	(99,855 )	83.25	(50,810 )	70.24
Forfeited	(8,687 )	97.14	(10,585 )	87.47
Outstanding, end of period	368,011	109.01	368,423	94.83
<b>Performance-based and market-based restricted stock units:</b>				
Outstanding, beginning of period	69,838	\$ 95.58	102,586	\$ 81.21
Granted	42,119	117.68	29,715	116.82
Vested	(10,089 )	82.74	(14,032 )	70.24
Forfeited	—	—	(7,625 )	81.91
Outstanding, end of period	101,868	105.99	110,644	92.12

In the first three months of 2019 and 2018, the Company granted market-based awards totaling 23,924 and 29,715, respectively, to certain members of senior management, which are included in the table above as performance and market-based restricted stock activity. The vesting of these stock units is based on the relative total shareholder return (“TSR”) of the Company. This metric is generally based on relative TSR for a three-year period as compared to a pre-selected group of property and casualty companies. The fair value of market-based awards was estimated at the date of grant using a valuation model. These units have the potential to range from 0% to 150% of the shares disclosed. Included in the amount granted above in 2019 and 2018 are 5,820 shares and 3,115 shares, respectively, related to market-based awards that achieved a payout in excess of 100%. These awards vested in the first quarters of 2019 and 2018, respectively.

Table of Contents

The Company also granted performance-based restricted stock units in 2019 which are based upon the achievement of the performance metric at 100%. These units have the potential to range from 0% to 150% of the shares disclosed, which varies based on grant year and individual participation level. Increases above the 100% target level are reflected as granted in the period in which performance-based stock unit goals are achieved. Decreases below the 100% target level are reflected as forfeited. There were no performance-based awards that vested in 2019 or 2018.

## 11. Earnings Per Share and Shareholders' Equity Transactions

The following table provides weighted average share information used in the calculation of the Company's basic and diluted earnings per share:

(in millions, except per share data)	Three Months Ended March 31,	
	2019	2018
Basic shares used in the calculation of earnings per share	40.6	42.5
Dilutive effect of securities:		
Employee stock options	0.3	0.3
Non-vested stock grants	0.3	0.3
Diluted shares used in the calculation of earnings per share	41.2	43.1
Per share effect of dilutive securities on income from		
continuing operations and net income	\$(0.04)	\$(0.02)

Diluted earnings per share for the three months ended March 31, 2019 and 2018 excludes 0.2 million and 0.3 million, respectively, of common shares issuable under the Company's stock compensation plans because their effect would be antidilutive.

On December 30, 2018, the Board of Directors authorized a new stock repurchase program which provides for aggregate repurchases of up to \$600 million. Under the repurchase authorization, the Company may repurchase, from time to time, common shares in amounts, at prices and at such times as the Company deems appropriate, subject to market conditions and other considerations. Repurchases may be executed using open market purchases, privately negotiated transactions, accelerated repurchase programs or other transactions. The Company is not required to purchase any specific number of shares or to make purchases by any certain date under this program. On January 2, 2019, pursuant to the terms of an accelerated share repurchase ("ASR") agreement executed on December 30, 2018, the Company paid \$250.0 million and received an initial delivery of approximately 1.8 million shares of common stock, which is approximately 80% of the total number of shares expected to be repurchased under this agreement. The final 20% of the total number of shares are expected to be delivered to the Company in the second quarter of 2019.

## 12. Liabilities for Outstanding Claims, Losses and Loss Adjustment Expenses

## Reserve Rollforward and Prior Year Development

The Company regularly updates its reserve estimates as new information becomes available and further events occur which may impact the resolution of unsettled claims. Reserve adjustments are reflected in results of operations as adjustments to losses and loss adjustment expenses (“LAE”). Often these adjustments are recognized in periods subsequent to the period in which the underlying policy was written and loss event occurred. These types of subsequent adjustments are described as “prior years’ loss reserves”. Such development can be either favorable or unfavorable to the Company’s financial results and may vary by line of business. In this section, all amounts presented include catastrophe losses and LAE, unless otherwise indicated.

Table of Contents

The table below provides a reconciliation of the gross beginning and ending reserve for unpaid losses and loss adjustment expenses.

(in millions)	Three Months Ended March 31,	
	2019	2018
Gross loss and LAE reserves, beginning of period	\$5,304.1	\$5,058.5
Reinsurance recoverable on unpaid losses	1,472.6	1,455.0
Net loss and LAE reserves, beginning of period	3,831.5	3,603.5
Net incurred losses and LAE in respect of losses occurring in:		
Current year	712.8	677.4
Prior years	(13.2 )	(6.5 )
Total incurred losses and LAE	699.6	670.9
Net payments of losses and LAE in respect of losses		
occurring in:		
Current year	175.3	181.0
Prior years	459.1	425.5
Total payments	634.4	606.5
Net reserve for losses and LAE, end of period	3,896.7	3,667.9
Reinsurance recoverable on unpaid losses	1,484.9	1,420.0
Gross reserve for losses and LAE, end of period	\$5,381.6	\$5,087.9

As a result of continuing trends in the Company's business, reserves including catastrophes have been re-estimated for all prior accident years and were decreased by \$13.2 million in 2019 in comparison to a decrease of \$6.5 million in 2018.

## 2019

For the three months ended March 31, 2019, net favorable loss and LAE development was \$13.2 million, primarily as a result of favorable catastrophe development due to anticipated subrogation recoveries on the 2017 and 2018 California wildfires. Our current estimate of these subrogation recoveries was informed by the recent sale of our subrogation rights for certain of these events to a large financial institution. In addition, higher than expected losses in our personal and commercial automobile lines were substantially offset by lower than expected losses in our workers' compensation and commercial multiple peril lines.

## 2018

For the three months ended March 31, 2018, net favorable loss and LAE development was \$6.5 million, primarily as a result of favorable catastrophe development related to the 2017 hurricanes and California wildfires.

### 13. Commitments and Contingencies

#### Legal Proceedings

##### Durand Litigation

On March 12, 2007, a putative class action suit captioned Jennifer A. Durand v. The Hanover Insurance Group, Inc., and The Allmerica Financial Cash Balance Pension Plan, was filed in the United States District Court for the Western District of Kentucky. The named plaintiff, a former employee of the Company's former life insurance and annuity business who received a lump sum distribution from the Company's Cash Balance Plan (the "Plan") at or about the time of her separation from the Company, claims that she and others similarly situated did not receive the appropriate lump sum distribution because in computing the lump sum, the Company and the Plan understated the accrued benefit in the calculation. The plaintiff claims that the Plan underpaid her distributions and those of similarly situated participants by failing to pay an additional so-called "whipsaw" amount reflecting the present value of an estimate of future interest credits from the date of the lump sum distribution to each participant's retirement age of 65 ("whipsaw claim").

## Table of Contents

The plaintiff filed an Amended Complaint adding two new named plaintiffs and additional claims on December 11, 2009. Two of the three new claims set forth in the Amended Complaint were dismissed by the District Court, which action was upheld in November 2015 by the U.S. Court of Appeals, Sixth Circuit. The District Court, however, did allow to stand the new claim in the Amended Complaint for breach of fiduciary duty and failure to meet notice requirements arising under the Employee Retirement Income Security Act of 1974 (“ERISA”) from the various interest crediting and lump sum distribution matters of which plaintiffs complain, but only as to plaintiffs’ “whipsaw” claim that remained in the case. On December 17, 2013, the Court entered an order certifying a class to bring “whipsaw” and related breach of fiduciary duty claims consisting of all persons who received a lump sum distribution between March 1, 1997 and December 31, 2003.

On February 16, 2018, the Court entered an order limiting the claims of those participants who received lump sum distributions prior to March 13, 2002 to alleged violations of ERISA’s disclosure requirements and breaches of fiduciary duty. Subsequently, the parties entered into settlement discussions and reached a settlement. The Court approved the settlement and dismissed the case with prejudice on March 22, 2019. Effective April 24, 2019, such dismissal is no longer subject to appeal. The resulting settlement amount to be paid by the Company is not material to the Company’s financial position and will not have a material effect on its results of operations.

### Other Matters

The Company has been named a defendant in various other legal proceedings arising in the normal course of business. In addition, the Company is involved, from time to time, in examinations, investigations and proceedings by governmental and self-regulatory agencies. The potential outcome of any such action or regulatory proceedings in which the Company has been named a defendant or the subject of an inquiry or investigation, and its ultimate liability, if any, from such action or regulatory proceedings, is difficult to predict at this time. The ultimate resolutions of such proceedings are not expected to have a material effect on its financial position, although they could have a material effect on the results of operations for a particular quarter or annual period.

### Residual Markets

The Company is required to participate in residual markets in various states, which generally pertain to high risk insureds, disrupted markets or lines of business or geographic areas where rates are regarded as excessive. The results of the residual markets are not subject to the predictability associated with the Company’s own managed business, and are significant to both the personal and commercial automobile lines of business.

### 14. Other Items

On January 2, 2019, the Company repaid \$125 million of its FHLB advances that were due 2029 and had an interest rate of 5.5%, along with related prepayment fees of \$26 million; such fees were recognized in 2018.

### 15. Subsequent Events

On April 10, 2019, the Company completed the sale of its Chaucer-related Australian entities for proceeds of \$13 million.

Table of Contents

Introduction

The following Management's Discussion and Analysis of Financial Condition and Results of Operations is intended to assist readers in understanding the interim consolidated results of operations and financial condition of The Hanover Insurance Group, Inc. and its subsidiaries ("THG"). Consolidated results of operations and financial condition are prepared in accordance with generally accepted accounting principles in the United States of America ("U.S. GAAP"). This discussion should be read in conjunction with the interim consolidated financial statements and related footnotes included elsewhere in this Quarterly Report on Form 10-Q and Management's Discussion and Analysis of Financial Condition and Results of Operations contained in our Annual Report on Form 10-K filed with the Securities and Exchange Commission on February 22, 2019.

Results of operations include the accounts of The Hanover Insurance Company ("Hanover Insurance") and Citizens Insurance Company of America ("Citizens"), our principal property and casualty companies; and certain other insurance and non-insurance subsidiaries. Our results of operations also include the results of our discontinued operations, consisting primarily of our former Chaucer international business, Chaucer Holdings Limited ("Chaucer"), a United Kingdom ("U.K.") domiciled specialist insurance underwriting group which operates through the Society and Corporation of Lloyd's ("Lloyd's"), and the international insurance and non-insurance subsidiaries, which collectively constituted our former Chaucer segment. On December 28, 2018, we completed the sale of Chaucer Holdings Limited, the major portion of our Lloyd's international specialty business, to China Reinsurance (Group) Corporation ("China Re"). We subsequently completed the sales of the Chaucer-related Irish and Australian entities on February 14, 2019 and April 10, 2019, respectively. As of December 31, 2018 and for all prior periods presented, operations from Chaucer are presented as discontinued operations. Results of operations also include the discontinued operations of our accident and health and former life insurance businesses.

Executive Overview

Business operations consist of three operating segments: Commercial Lines, Personal Lines and Other.

Net income was \$122.4 million during the three months ended March 31, 2019, compared to \$67.7 million for the three months ended March 31, 2018, an increase of \$54.7 million, primarily due to an increase in the net change in fair value of equity securities and from an increase in operating income, partially offset by a decrease in income from the former Chaucer segment due to its sale in 2018.

Operating income before interest expense and income taxes (a non-GAAP financial measure; see also "Results of Operations – Consolidated – Non-GAAP Financial Measures") was \$109.8 million for the three months ended March 31, 2019, compared to \$93.3 million for the three months ended March 31, 2018, an increase of \$16.5 million. This increase is primarily due to lower catastrophe losses, higher net investment income and earned premium growth, partially offset by higher non-catastrophe current accident year losses. Pre-tax catastrophe losses were \$39.4 million for the three months ended March 31, 2019, compared to \$65.5 million during the same period of 2018. Net development on prior years' loss and loss adjustment expense ("LAE") reserves ("prior years' loss reserves") was insignificant overall for both the three months ended March 31, 2019 and 2018.

As discussed further in "Discontinued Operations" below, on December 28, 2018, we completed the sale of Chaucer's U.K. entities to China Re. We subsequently completed the sales of our Chaucer-related Irish entity on February 14, 2019 and our Australian entities on April 10, 2019, for which we received additional consideration of \$28 million and \$13 million, respectively.

Our strategy reinforces our commitment to our agency partners and is designed to generate profitable growth by leveraging the strengths of our distribution strategy, including expansion of our agency footprint in underpenetrated geographies as warranted. We also have increased our capabilities in specialty markets and investments designed to develop growth solutions for our agency distribution channel. Our goal is to grow responsibly in all of our businesses, while managing volatility.

#### Commercial Lines

Our account-focused approach to the small commercial market, distinctiveness in the middle market, and continued development of specialty lines provides us with a diversified portfolio of products and delivers significant value to agents and policyholders. Each of these businesses is expected to contribute to premium growth in Commercial Lines over the next several years as we continue to pursue our core strategy of developing strong partnerships with agents, enhanced franchise value through limited distribution, distinctive products and coverages, and continued investment in industry segmentation.

These efforts have driven improvement in our overall mix of business and our underwriting profitability. Commercial Lines net premiums written grew by 0.8% in the first three months of 2019, compared to the same period in 2018, due to growth in small commercial, professional and marine lines.

Underwriting results improved in the first three months of 2019, primarily due to lower catastrophe losses and higher favorable development on prior years' loss reserves, partially offset by unusually high current accident year large loss activity in our specialty industrial property line. The competitive nature of the Commercial Lines market requires us to be highly disciplined in our underwriting process to ensure that we write business at acceptable margins, and we continue to seek rate increases across our lines of business.

## Table of Contents

### Personal Lines

Personal Lines focuses on partnering with high quality, value-oriented agencies that deliver consultative selling and stress the importance of account rounding (the conversion of single policy customers to accounts with multiple policies and additional coverages, to address customers' broader objectives). Approximately 84% of our policies in force are account business. We are focused on seeking profitable growth opportunities, building a distinctive position in the market, and diversifying geographically.

Net premiums written grew by 6.0% in the first three months of 2019, compared to the same period in 2018, primarily due to higher renewal premium driven by rate increases. Underwriting results declined in the first three months of 2019, primarily due to higher non-catastrophe current accident year losses and higher unfavorable development on prior years' loss reserves, partially offset by earned premium growth. We continue to seek rate increases that meet or exceed underlying loss cost trends, subject to regulatory and competitive considerations.

### Description of Operating Segments

Primary business operations include insurance products and services currently provided through three operating segments: Commercial Lines, Personal Lines, and Other. Commercial Lines includes commercial multiple peril, commercial automobile, workers' compensation, and other commercial coverages, such as inland marine, specialty program business, management and professional liability, surety, and specialty property. Personal Lines includes personal automobile, homeowners, and other personal coverages, such as umbrella. Included in the "Other" segment are Opus Investment Management, Inc., which markets investment management services to institutions, pension funds, and other organizations; earnings on holding company assets; holding company and other expenses, including certain costs associated with retirement benefits due to our former life insurance employees and agents; and a run-off voluntary pools business. We present the separate financial information of each segment consistent with the manner in which our chief operating decision maker evaluates results in deciding how to allocate resources and in assessing performance.

We report interest expense on debt separately from the earnings of our operating segments. This consists of interest on our senior and subordinated debentures.

### Results of Operations – Consolidated

Consolidated net income for the three months ended March 31, 2019 was \$122.4 million, compared to \$67.7 million for the three months ended March 31, 2018, an increase of \$54.7 million. The year over year comparison of consolidated net income was primarily affected by an increase in net realized and unrealized investment gains of \$71.1 million, principally related to the changes in fair value of equity securities. Additionally, operating income before interest expense and income taxes for the three months ended March 31, 2019 increased \$16.5 million, primarily due to lower catastrophe losses, higher net investment income and earned premium growth, partially offset by higher non-catastrophe current accident year losses. These increases were partially offset by a \$17.6 million decrease in income from our former Chaucer business. (See also the "Discontinued Operations" section below).

Table of Contents

The following table reflects operating income before interest expense and income taxes for each operating segment and a reconciliation to consolidated net income from operating income before interest expense and income taxes (a non-GAAP measure).

(in millions)	Three Months Ended	
	March 31,	
	2019	2018
Operating income (loss) before interest expense and income taxes:		
Commercial Lines	\$80.2	\$61.4
Personal Lines	26.8	34.3
Other	2.8	(2.4 )
Operating income before interest expense and income taxes	109.8	93.3
Interest expense on debt	(9.4 )	(11.3)
Operating income before income taxes	100.4	82.0
Income tax expense on operating income	(19.7 )	(15.9)
Operating income	80.7	66.1
Non-operating items:		
Net realized and unrealized investment gains (losses)	48.2	(22.9)
Income tax benefit (expense) on non-operating items	(6.3 )	7.3
Income from continuing operations, net of taxes	122.6	50.5
Discontinued operations:		
Gain from sale of Chaucer business, net of taxes	0.9	—
Income (loss) from Chaucer business, net of taxes	(0.3 )	17.3
Loss from discontinued life businesses, net of taxes	(0.8 )	(0.1 )
Net income	\$122.4	\$67.7

## Non-GAAP Financial Measures

In addition to consolidated net income, discussed above, we assess our financial performance based upon pre-tax “operating income,” and we assess the operating performance of each of our three operating segments based upon the pre-tax operating income (loss) generated by each segment. As reflected in the table above, operating income before taxes excludes interest expense on debt and certain other items which we believe are not indicative of our core operations, such as net realized and unrealized investment gains and losses. Such gains and losses are excluded since they are determined by interest rates, financial markets and the timing of sales. Also, operating income before taxes excludes net gains and losses on disposals of businesses, gains and losses related to the repayment of debt, discontinued operations, costs to acquire businesses, restructuring costs, the cumulative effect of accounting changes and certain other items. Although the items excluded from operating income before taxes are important components in understanding and assessing our overall financial performance, we believe a discussion of operating income before taxes enhances an investor’s understanding of our results of operations by highlighting net income attributable to the core operations of the business. However, operating income before taxes, which is a non-GAAP measure, should not be construed as a substitute for income before income taxes, and operating income should not be construed as a substitute for net income.

Catastrophe losses and prior years' reserve development are significant components in understanding and assessing the financial performance of our business. Management reviews and evaluates catastrophes and prior years' reserve development separately from the other components of earnings. References to "current accident year underwriting results" exclude prior accident year reserve development, and may also be presented "excluding catastrophes". Prior years' reserve development and catastrophes are not predictable as to timing or the amount that will affect the results of our operations and have an effect on each year's operating and net income. Management believes that providing certain financial metrics and trends excluding the effects of catastrophes and prior years' reserve development helps investors to understand the variability in periodic earnings and to evaluate the underlying performance of our operations. Discussion of catastrophe losses in this Management's Discussion and Analysis includes development on prior years' catastrophe reserves and, unless otherwise indicated, such development is excluded from discussions of prior year loss and LAE reserve development.

Table of Contents

## Results of Operations – Segments

The following is our discussion and analysis of the results of operations by business segment. The operating results are presented before interest expense, taxes and other items which management believes are not indicative of our core operations, including realized gains and losses and the results of discontinued operations.

The following table summarizes the results of operations for the periods indicated:

(in millions)	Three Months Ended March 31,	
	2019	2018
Operating revenues		
Net premiums written	\$1,098.0	\$1,068.7
Net premiums earned	1,095.1	1,042.5
Net investment income	70.2	66.0
Other income	6.0	5.9
Total operating revenues	1,171.3	1,114.4
Losses and operating expenses		
Losses and LAE	699.6	670.9
Amortization of deferred acquisition costs	229.5	218.7
Other operating expenses	132.4	131.5
Total losses and operating expenses	1,061.5	1,021.1
Operating income before interest expense and income taxes	\$109.8	\$93.3

## Three Months Ended March 31, 2019 Compared to Three Months Ended March 31, 2018

Operating income before interest expense and income taxes was \$109.8 million in the three months ended March 31, 2019, compared to \$93.3 million for the three months ended March 31, 2018, an increase of \$16.5 million. This increase was primarily due to lower catastrophe losses, higher net investment income, earned premium growth and lower expenses, partially offset by unusually high current accident year large loss activity in our specialty industrial property line. Our specialty industrial property line provides insurance to small and medium-sized chemical, paint, solvent and other industrial manufacturing and distribution companies.

Net premiums written increased by \$29.3 million in the three months ended March 31, 2019, compared to the three months ended March 31, 2018, due to growth in both our Personal and Commercial Lines segments.

## Production and Underwriting Results

The following tables summarize premiums written on a gross and net basis, net premiums earned and loss (including catastrophe losses), LAE, expense and combined ratios for the Commercial Lines and Personal Lines segments. Loss, LAE, catastrophe loss and combined ratios shown below include prior year reserve development. These items are not meaningful for our Other segment.

Three Months Ended March 31, 2019

Gross Net Net

	Premiums	Premiums	Premiums	Catastrophe	Loss & LAE	Expense	Combined

## Commercial Lines

Commercial Lines net premiums written were \$677.4 million in the three months ended March 31, 2019, compared to \$671.9 million in the three months ended March 31, 2018. This \$5.5 million increase was primarily driven by pricing increases and strong retention, partially offset by specific underwriting actions in our commercial automobile and other commercial lines.

Commercial Lines underwriting profit for the three months ended March 31, 2019 was \$36.7 million, compared to \$16.3 million for the three months ended March 31, 2018, an increase of \$20.4 million. Catastrophe-related losses for the three months ended March 31, 2019 were \$10.4 million, compared to \$38.0 million for the three months ended March 31, 2018, a decrease of \$27.6 million. Favorable development on prior years' loss reserves for the three months ended March 31, 2019 was \$7.5 million, compared to \$1.6 million for the three months ended March 31, 2018, an increase of \$5.9 million.

Commercial Lines current accident year underwriting profit, excluding catastrophes, was \$39.6 million for the three months ended March 31, 2019, compared to \$52.7 million for the three months ended March 31, 2018. This \$13.1 million decrease was primarily due to unusually high current accident year large loss activity in our specialty industrial property line, within our other commercial lines.

## Table of Contents

We are continuing to manage underwriting performance through increased rates, pricing segmentation, specific underwriting actions and targeted new business growth. Our ability to achieve overall rate increases is affected by the current competitive pricing environment, particularly within our workers' compensation line, as well as for larger middle market accounts, which may hamper our ability to grow in this portion of our business.

### Personal Lines

Personal Lines net premiums written were \$420.6 million in the three months ended March 31, 2019, compared to \$396.8 million in the three months ended March 31, 2018, an increase of \$23.8 million. This was primarily due to higher renewal premium driven by rate increases.

Net premiums written in the personal automobile line of business for the three months ended March 31, 2019 were \$276.7 million, compared to \$262.5 million for the three months ended March 31, 2018, an increase of \$14.2 million. This was primarily due to rate increases and an increase in policies in force of 1.9%. Net premiums written in the homeowners line of business for the three months ended March 31, 2019 were \$133.6 million, compared to \$125.6 million for the three months ended March 31, 2018, an increase of \$8.0 million. This is attributable to rate increases and an increase in policies in force of 2.6%.

Personal Lines underwriting profit for the three months ended March 31, 2019 was \$5.7 million, compared to \$14.6 million for the three months ended March 31, 2018, a decline of \$8.9 million. Catastrophe losses for the three months ended March 31, 2019 were \$29.0 million, compared to \$27.5 million for the three months ended March 31, 2018, an increase of \$1.5 million. Unfavorable development on prior years' loss reserves for the three months ended March 31, 2019 was \$7.5 million, compared to \$1.6 for the three months ended March 31, 2018, an increase of \$5.9 million.

Personal Lines current accident year underwriting profit, excluding catastrophes, was \$42.2 million in the three months ended March 31, 2019, compared to \$43.7 million for the three months ended March 31, 2018. This \$1.5 million decline was primarily due to higher current accident year losses in our homeowners and automobile liability lines, partially offset by earned premium growth.

We have been able to obtain rate increases in our Personal Lines markets and believe that our ability to obtain these increases will continue. However, our ability to maintain Personal Lines net premiums written may be affected by price competition, and regulatory and legal developments. Additionally, these factors along with weather-related loss volatility may also affect our ability to maintain and improve underwriting results. We monitor these trends and consider them in our rate actions.

### Other

Other operating income was \$2.8 million for the three months ended March 31, 2019, compared to an operating loss of \$2.4 million for the three months ended March 31, 2018, an improvement of \$5.2 million, primarily due to higher net investment income which includes the investment of proceeds from our Chaucer sale transaction.

### Reserve for Losses and Loss Adjustment Expenses

The table below provides a reconciliation of the gross beginning and ending reserve for unpaid losses and loss adjustment expenses.

(in millions)	Three Months Ended March 31,	
	2019	2018
Gross loss and LAE reserves, beginning of period	\$5,304.1	\$5,058.5
Reinsurance recoverable on unpaid losses	1,472.6	1,455.0
Net loss and LAE reserves, beginning of period	3,831.5	3,603.5
Net incurred losses and LAE in respect of losses occurring in:		
Current year	712.8	677.4
Prior year non-catastrophe loss development	0.3	0.3
Prior year catastrophe development	(13.5 )	(6.8 )
Total incurred losses and LAE	699.6	670.9
Net payments of losses and LAE in respect of losses occurring in:		
Current year	175.3	181.0
Prior years	459.1	425.5
Total payments	634.4	606.5
Net reserve for losses and LAE, end of period	3,896.7	3,667.9
Reinsurance recoverable on unpaid losses	1,484.9	1,420.0
Gross reserve for losses and LAE, end of period	\$5,381.6	\$5,087.9

Table of Contents

The table below summarizes the gross reserve for losses and LAE by line of business.

(in millions)	March 31, 2019	December 31, 2018
Commercial multiple peril	\$ 1,108.3	\$ 1,098.7
Workers' compensation	658.7	649.3
Commercial automobile	400.6	399.6
Other commercial lines:		
Hanover programs	485.5	492.0
Other	949.0	919.0
Total other commercial lines	1,434.5	1,411.0
Total Commercial Lines	3,602.1	3,558.6
Personal automobile	1,540.9	1,532.8
Homeowners and other personal	200.9	174.8
Total Personal	1,741.8	1,707.6
Total Other Segment	37.7	37.9
Total loss and LAE reserves	\$ 5,381.6	\$ 5,304.1

“Other commercial lines – Other” in the table above is primarily comprised of management and professional liability, marine, miscellaneous commercial property, healthcare, and fidelity lines. Loss and LAE reserves in our “Total Other Segment” relate to our run-off voluntary assumed reinsurance pools business. Also included in the above table are \$56.6 million and \$57.6 million of asbestos and environmental reserves as of March 31, 2019 and December 31, 2018, respectively.

The following table summarizes prior year unfavorable (favorable) development for the periods indicated:

(in millions)	Three Months Ended March 31,					
	2019			2018		
	Loss			Loss		
	&			&		
	LAE	Catastrophe	Total	LAE	Catastrophe	Total
Commercial Lines	\$(7.5)	\$ (13.5 )	\$(21.0)	\$(1.6)	\$ (6.6 )	\$ (8.2)
Personal Lines	7.5	—	7.5	1.6	(0.2 )	1.4
Other Segment	0.3	—	0.3	0.3	—	0.3
Total prior year unfavorable (favorable) development	\$0.3	\$ (13.5 )	\$(13.2)	\$0.3	\$ (6.8 )	\$ (6.5)

It is not possible to know whether the factors that affected loss reserves in the first three months of 2019 will also occur in future periods. We encourage you to read our 2018 Annual Report on Form 10-K for more information about

our reserving process and the judgments, uncertainties and risks associated therewith.

#### Catastrophe Loss Development

In the three months ended March 31, 2019 and 2018, favorable catastrophe development was \$13.5 million and \$6.8 million, respectively. The favorable catastrophe development during the three months ended March 31, 2019 is primarily due to anticipated subrogation recoveries on the 2017 and 2018 California wildfires. Our current estimate of these subrogation recoveries was informed by the recent sale of our subrogation rights for certain of these events to a large financial institution. The favorable catastrophe development during the three months ended March 31, 2018 was driven by lower than expected losses related to the 2017 hurricanes and California wildfires.

#### 2019 Loss and LAE Development, excluding catastrophes

For the three months ended March 31, 2019, net unfavorable loss and LAE development, excluding catastrophes, was \$0.3 million. Higher than expected losses in the personal and commercial automobile lines were substantially offset by lower than expected losses in the workers' compensation and commercial multiple peril lines. In addition, Other Segment unfavorable development of \$0.3 million was due to adverse loss trends in our run-off voluntary pools business which includes asbestos and environmental reserves.

#### 2018 Loss and LAE Development, excluding catastrophes

For the three months ended March 31, 2018, net unfavorable loss and LAE development, excluding catastrophes, was \$0.3 million. Higher than expected losses in the commercial automobile line, Hanover programs, and the personal automobile line were substantially offset by lower than expected losses in other commercial lines and the workers' compensation line. In addition, Other Segment unfavorable development of \$0.3 million was due to adverse loss trends in our run-off voluntary pools business.

Table of Contents

## Investments

The investments discussion below excludes amounts relating to the operations of Chaucer.

## Investment Results

Net investment income before income taxes was as follows:

(dollars in millions)	Three Months Ended March 31,	
	2019	2018
Fixed maturities	\$58.0	\$52.7
Limited partnerships	4.5	7.3
Mortgage loans	3.9	3.3
Equity securities	3.6	3.9
Other investments	2.1	1.2
Investment expenses	(1.9)	(2.4)
Net investment income	\$70.2	\$66.0
Earned yield, fixed maturities	3.61%	3.64%
Earned yield, total portfolio	3.65%	3.84%

The increase in net investment income for the three months ended March 31, 2019 was primarily due to the continued investment of operational cash flows, the investment of proceeds from the sale of Chaucer, as well as higher commercial mortgage loan income. These increases were partially offset by lower limited partnership income.

## Investment Portfolio

We held cash and investment assets diversified across several asset classes, as follows:

(dollars in millions)	March 31, 2019		December 31, 2018	
	Carrying Value	% of Total	Carrying Value	% of Total
Fixed maturities, at fair value	\$6,559.4	82.9%	\$6,161.5	74.1%
Equity securities, at fair value	504.7	6.4	464.4	5.6
Mortgage and other loans	419.7	5.3	405.7	4.9
Other investments	260.7	3.3	255.8	3.1
Cash and cash equivalents	168.5	2.1	1,020.7	12.3
Total cash and investments	\$7,913.0	100.0	\$8,308.1	100.0

## Cash and Investments

Total cash and investments decreased \$395.1 million, or 4.8%, for the three months ended March 31, 2019, primarily due to our accelerated share repurchase program, special dividend paid on January 25, 2019, and repayment of the Federal Home Loan Bank (“FHLB”) debt, partially offset by market value appreciation.

The following table provides information about the investment types of our fixed maturities portfolio:

(in millions)	March 31, 2019			Change in Net
	Amortized Cost	Carrying Value	Net Unrealized Gains	Unrealized For the Year
Investment Type				
U.S. Treasury and government agencies	\$404.5	\$406.7	\$ 2.2	\$ 7.0
Foreign government	7.3	7.4	0.1	—
Municipals:				
Taxable	791.5	808.4	16.9	9.5
Tax-exempt	56.6	57.1	0.5	1.1
Corporate	3,635.7	3,674.6	38.9	104.8
Asset-backed:				
Residential mortgage-backed	819.2	819.9	0.7	12.7
Commercial mortgage-backed	684.9	691.9	7.0	15.1
Asset-backed	93.0	93.4	0.4	0.9
Total fixed maturities	\$6,492.7	\$6,559.4	\$ 66.7	\$ 151.1

Table of Contents

The increase in net unrealized gains on fixed maturities was primarily due to lower prevailing interest rates and tighter credit spreads.

Amortized cost and fair value by rating category were as follows:

(dollars in millions) Rating Agency		March 31, 2019			December 31, 2018		
		Amortized	Fair	% of Total	Amortized	Fair	% of Total
NAIC Designation	Equivalent Designation	Cost	Value	Fair Value	Cost	Value	Fair Value
1	Aaa/Aa/A	\$4,476.8	\$4,526.3	69.0 %	\$4,297.7	\$4,258.8	69.1 %
2	Baa	1,722.8	1,734.5	26.4	1,636.7	1,601.0	26.0
3	Ba	170.3	175.4	2.7	176.4	173.2	2.8
4	B	115.5	115.7	1.8	120.0	113.8	1.9
5	Caa and lower	5.7	5.7	0.1	14.8	14.3	0.2
6	In or near default	1.6	1.8	—	0.3	0.4	—
Total fixed maturities		\$6,492.7	\$6,559.4	100.0 %	\$6,245.9	\$6,161.5	100.0 %

Based on ratings by the National Association of Insurance Commissioners (“NAIC”), approximately 95% of the fixed maturity portfolio consisted of investment grade securities at March 31, 2019 and December 31, 2018. The quality of our fixed maturity portfolio remains strong based on ratings, capital structure position, support through guarantees, underlying security, issuer diversification and yield curve position.

Our investment portfolio primarily consists of fixed maturity securities whose fair value is susceptible to market risk, including interest rate changes. See also “Quantitative and Qualitative Disclosures about Market Risk” included in Management’s Discussion and Analysis contained in our 2018 Annual Report on Form 10-K. Duration is a measurement used to quantify our inherent interest rate risk and analyze invested assets relative to our reserve liabilities.

The duration of our fixed maturity portfolio was as follows:

(dollars in millions) Duration	March 31, 2019			December 31, 2018		
	Amortized	Fair	% of Total	Amortized	Fair	% of Total
	Cost	Value	Fair Value	Cost	Value	Fair Value
0-2 years	\$1,313.5	\$1,330.2	20.3 %	\$1,092.3	\$1,101.5	17.9 %
2-4 years	1,554.9	1,575.5	24.0	1,427.3	1,420.4	23.0

Edgar Filing: HANOVER INSURANCE GROUP, INC. - Form 10-Q

4-6 years	1,851.4	1,872.8	28.5	1,831.2	1,801.4	29.2
6-8 years	1,613.4	1,615.5	24.6	1,768.6	1,710.3	27.8
8-10 years	98.4	102.3	1.6	57.5	59.7	1.0
10+ years	61.1	63.1	1.0	69.0	68.2	1.1
Total fixed maturities	\$6,492.7	\$6,559.4	100.0 %	\$6,245.9	\$6,161.5	100.0 %
Weighted average duration		4.3			4.5	

Our fixed maturity and equity securities are carried at fair value. Financial instruments whose value was determined using significant management judgment or estimation constituted less than 1% of the total assets we measured at fair value. See also Note 6 – “Fair Value” in the Notes to Interim Consolidated Financial Statements.

Equity securities primarily consist of U.S. income-oriented large capitalization common stocks and developed market equity index exchange-traded funds.

Mortgage and other loans consist primarily of commercial mortgage loan participations which represent our interest in commercial mortgage loans originated by a third party. We share, on a pro-rata basis, in all related cash flows of the underlying mortgage loans, which are investment-grade quality and diversified by geographic area and property type.

Other investments consist primarily of our interest in corporate middle market and real estate limited partnerships. Corporate middle market limited partnerships may invest in senior or subordinated debt, preferred or common equity or a combination thereof, of middle market businesses. Real estate limited partnerships invest in debt and/or equity of real properties.

Although we expect to invest new funds primarily in investment grade fixed maturities, we have invested, and expect to continue to invest, a portion of funds in limited partnerships, common equity securities, below investment grade fixed maturities and other investment assets.

Table of Contents

## Other-than-Temporary Impairments

For the three months ended March 31, 2019, we did not recognize any other-than-temporary impairments (“OTTI”) on our investment portfolio. For the three months ended March 31, 2018, we recognized in earnings from continuing operations \$0.6 million of OTTI on corporate fixed maturities.

The carrying values of fixed maturity securities on non-accrual status at March 31, 2019 and December 31, 2018 were not material. The effects of non-accruals for the three months ended March 31, 2019 and 2018, compared with amounts that would have been recognized in accordance with the original terms of the fixed maturities, were also not material. Any defaults in the fixed maturities portfolio in future periods may negatively affect investment income.

## Unrealized Losses

Gross unrealized losses on fixed maturities at March 31, 2019 were \$42.0 million, a decrease of \$92.2 million compared to December 31, 2018, primarily attributable to lower prevailing interest rates and tighter credit spreads. At March 31, 2019, gross unrealized losses consisted primarily of \$27.4 million on corporate fixed maturities, \$8.5 million on residential and commercial mortgage-backed securities, \$3.4 million on municipal securities and \$2.5 million on U.S. government securities. See Note 5 – “Investments” in the Notes to Interim Consolidated Financial Statements.

We view gross unrealized losses on fixed maturities as temporary since it is our assessment that these securities will recover in the near term, allowing us to realize their anticipated long-term economic value. Further, we do not intend to sell, nor is it more likely than not we will be required to sell, such debt securities before this expected recovery of amortized cost (See also “Liquidity and Capital Resources”). Inherent in our assessment are the risks that market factors may differ from our expectations; the global economy reverts to recessionary trends; we may decide to subsequently sell a security for unforeseen business needs; or changes in the credit assessment from our original assessment may lead us to determine that a sale at the current value would maximize recovery on such investments. To the extent that there are such adverse changes, an OTTI would be recognized as a realized loss. Although unrealized losses on fixed maturities are not reflected in the results of financial operations until they are realized or deemed “other-than-temporary,” the fair value of the underlying investment, which does reflect the unrealized loss, is reflected in our Consolidated Balance Sheets.

The following table sets forth gross unrealized losses for fixed maturities by maturity period at March 31, 2019 and December 31, 2018. Actual maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations, with or without call or prepayment penalties, or we may have the right to put or sell the obligations back to the issuers.

	March 31, 2019	December 31, 2018
(in millions)		
Due in one year or less	\$0.3	\$ 0.3
Due after one year through five years	7.2	20.2
Due after five years through ten years	23.6	80.2
Due after ten years	2.2	8.3
	33.3	109.0

Mortgage-backed and asset-backed securities	8.7	25.2
Total fixed maturities	\$42.0	\$ 134.2

Our investment portfolio and shareholders' equity can be significantly impacted by changes in market values of our securities. Market volatility could increase and defaults on fixed income securities could occur. As a result, we could incur additional realized and unrealized losses in future periods, which could have a material adverse impact on our results of operations and/or financial position.

Table of Contents

Monetary policies in developed economies have become more accommodative recently amid signs of limited inflationary pressures and slowing economic activity, reflecting a number of factors affecting major economies. Major central banks continue to closely monitor geo-political developments, conditions in global financial markets and the outlook for growth, and continue to demonstrate an ability and willingness to adjust monetary policy as required to provide liquidity, support growth and achieve inflation targets. In the United States, the Federal Reserve (the “Fed”) maintained its federal funds target range at 2.25% to 2.50% during the first quarter of 2019. Even though economic activity has slowed recently, the Fed continues to view sustained expansion of economic activity, strong labor market conditions, and inflation near its 2% objective as the most likely outcomes. The Fed has communicated that it will be patient as it determines the timing and size of future adjustments to the federal funds rate, which will depend on realized and expected economic conditions relative to its objectives of maximum employment and 2% inflation. While the Fed believes near-term risks to the economic outlook appear roughly balanced, it continues to closely monitor inflation indicators and global economic and financial developments. Two potentially significant developments being watched carefully are the trade/tariff negotiations between the United States and its various trade partners and the negotiations within the United Kingdom (“U.K.”) and between the U.K. and the European Union regarding Brexit. Should these negotiations lead to a shift or break-down in global trade patterns, there could be negative implications for certain issuers, sectors, or the economy at large.

Fundamental conditions in the corporate sector generally remain sound. While we may experience defaults on fixed income securities, particularly with respect to non-investment grade debt securities, it is difficult to foresee which issuers, industries or markets will be affected. As a result, the value of our fixed maturity portfolio could change rapidly in ways we cannot currently anticipate, and we could incur additional realized and unrealized losses in future periods.

## Other Items

Net income also included the following items:

(in millions)	Three Months Ended March 31,				
	Commercial Lines	Personal Lines	Other	Discontinued Operations	Total
2019					
Net realized and unrealized investment gains (losses)	\$34.0	\$ 15.1	\$(0.9)	\$ —	\$48.2
Discontinued operations - Chaucer business, including gain on sale, net of taxes	—	—	—	0.6	0.6
Discontinued life businesses	—	—	—	(0.8)	(0.8)
2018					
Net realized and unrealized investment gains (losses)	\$(16.1)	\$(6.4)	\$(0.4)	\$ —	\$(22.9)
Discontinued operations	—	—	—	17.3	17.3
Discontinued life businesses	—	—	—	(0.1)	(0.1)

We manage investment assets for our Commercial Lines, Personal Lines, and Other segments based on the requirements of our U.S. combined property and casualty companies. We allocate the investment income, expenses

and realized gains and losses to our Commercial Lines, Personal Lines and Other segments based on actuarial information related to the underlying businesses. We managed investment assets separately for our former Chaucer business.

Net realized and unrealized investment gains (losses) on investments were \$48.2 million for the three months ended March 31, 2019 compared to net realized and unrealized investment gains (losses) of \$22.9 million for the three months ended March 31, 2018. Net realized and unrealized gains in 2019 and net realized and unrealized losses in 2018 were both primarily due to changes in the fair value of equity securities.

Discontinued operations primarily include our former Chaucer business and, to a lesser extent, our discontinued life businesses. In the first quarter of 2019, we recognized \$0.9 million of gains in discontinued operations related to the sale of the Chaucer-related Irish entity. Losses of \$0.8 million in the first quarter of 2019 in our discontinued life businesses reflect adverse loss trends related to the long-term care pool. In the first quarter of 2018, discontinued operations generated income of \$17.3 million related to our former Chaucer segment. See also “Discontinued Chaucer Business” below and Note 3 – “Discontinued Operations - Chaucer Business” in the Notes to Interim Consolidated Financial Statements.

#### Discontinued Chaucer Business

On December 28, 2018, we completed the sale of our former subsidiary, Chaucer, to China Re. On February 14, 2019, we completed the sale of our Chaucer-related Irish entity for total proceeds of \$28 million and on April 10, 2019, we finalized the sale of the Australian entities for total proceeds of \$13 million, completing the transfer of all Chaucer-related companies. Collectively, these entities constituted the Chaucer business in 2018 and prior, whereas just the Irish and Australian Chaucer-related entities comprised the Chaucer business reported in our results in 2019, until their respective sales to China Re.

Table of Contents

Three months ended March 31, 2019

Revenues from the Chaucer business were \$2.9 million during the first quarter of 2019 and operating losses in this business totaled \$0.3 million during that period.

Three months ended March 31, 2018

The following table summarizes the results of operations for the former Chaucer business for the three months ended March 31, 2018:

(in millions)	Three Months Ended March 31, 2018 <sup>(1)</sup>
<b>Revenues</b>	
Net premiums earned	\$221.1
Net investment income	16.4
Other income	1.9
	239.4
<b>Losses and operating expenses</b>	
Losses and LAE	115.0
Amortization of deferred acquisition costs	69.3
Other expenses	32.2
	216.5
<b>Income from Chaucer business before income taxes and other items</b>	
(previously presented as Chaucer's operating income)	22.9
<b>Other items:</b>	
Interest expense	(1.1 )
Net realized and unrealized investment losses	(0.5 )
Other income	0.2
<b>Income from Chaucer business before income taxes</b>	<b>\$21.5</b>
<b>Loss and LAE ratio:</b>	
Current accident year, excluding catastrophe losses	53.3 %
Prior accident year favorable reserve development, excluding catastrophe losses	(3.9 )%
Current accident year catastrophe losses	3.8 %
Prior accident year favorable catastrophe loss development	(1.2 )%
<b>Total loss and LAE ratio</b>	<b>52.0 %</b>
<b>Expense ratio</b>	<b>45.2 %</b>
<b>Combined ratio</b>	<b>97.2 %</b>

(1)2019 information is omitted as it is not material.

Chaucer's income before income taxes for the three months ended March 31, 2018 was \$22.9 million. This included favorable development on prior years' loss reserves of \$8.7 million and catastrophe losses of \$5.7 million. Net favorable loss and LAE development was primarily due to lower than expected losses in Chaucer's specialty treaty, political, and energy lines, partially offset by higher than expected losses in the U.S. casualty business within the treaty line. Also contributing to Chaucer's favorable development was the favorable impact of foreign exchange rate movements on prior years' loss reserves.

#### Income Taxes

We are subject to the tax laws and regulations of the U.S. and foreign countries in which we operate. We file a consolidated U.S. federal income tax return that includes our holding company and its U.S. subsidiaries. Generally, taxes are accrued at the U.S. statutory tax rate of 21% for income from the U.S. operations. Our primary non-U.S. jurisdiction was the U.K. until the sale of our U.K. subsidiaries, completed December 28, 2018. The U.K. statutory tax rate ranged between 20% and 19% during the period 2017 through 2018. We accrue taxes on certain non-U.S. income that is subject to U.S. tax at the enacted U.S. tax rate. Foreign tax credits, where available, are utilized to offset U.S. tax as permitted.

## Table of Contents

The provision for income taxes from continuing operations was an expense of \$26.0 million and \$8.6 million for the three months ended March 31, 2019 and 2018, respectively. These provisions resulted in consolidated effective federal tax rates of 17.5% and 14.6% for the three months ended March 31, 2019 and 2018, respectively. These provisions reflect benefits related to tax planning strategies implemented in prior years of \$3.8 million and \$2.5 million for the three months ended March 31, 2019 and 2018, respectively. In addition, these provisions also included excess tax benefits related to stock-based compensation of \$1.5 million and \$1.3 million for the three months ended March 31, 2019 and 2018, respectively. Absent these items, the provision for income taxes would have been an expense of \$31.3 million, or 21.1%, and \$12.4 million, or 21.0%, for the three months ended March 31, 2019 and 2018, respectively.

The income tax provision on operating income was an expense of \$19.7 million and \$15.9 million for the three months ended March 31, 2019 and 2018, respectively. These provisions resulted in effective tax rates for operating income of 19.6% and 19.4% for the three months ended March 31, 2019 and 2018, respectively. These provisions included excess tax benefits related to stock-based compensation of \$1.5 million and \$1.3 million for the three months ended March 31, 2019 and 2018, respectively. Absent this item, the provision for income taxes would have been an expense of \$21.2 million, or 21.1%, and \$17.2 million, or 21.0%, for the three months ended March 31, 2019 and 2018, respectively.

The income tax provision on our former Chaucer business was an expense of \$4.2 million for the three months ended March 31, 2018. This provision resulted in an effective tax rate of 19.5% for the three months ended March 31, 2018.

## Critical Accounting Estimates

Interim consolidated financial statements have been prepared in conformity with U.S. GAAP and include certain accounting policies that we consider to be critical due to the amount of judgment and uncertainty inherent in the application of those policies. While we believe that the amounts included in our consolidated financial statements reflect our best judgment, the use of different assumptions could produce materially different accounting estimates. As disclosed in our 2018 Annual Report on Form 10-K, we believe the following accounting estimates are critical to our operations and require the most subjective and complex judgment:

- Reserve for losses and loss expenses
- Reinsurance recoverable balances
- Pension benefit obligations
- Other-than-temporary impairments on fixed maturity securities
- Deferred tax assets

For a more detailed discussion of these critical accounting estimates, see our 2018 Annual Report on Form 10-K.

## Statutory Surplus of U.S. Insurance Subsidiaries

The following table reflects statutory surplus for our insurance subsidiaries:

	March	December
(in millions)	31,	31,
	2019	2018
Total Statutory Capital and Surplus	\$2,301.1	\$2,172.5

The statutory capital and surplus for our insurance subsidiaries increased \$128.6 million during the first three months of 2019. This increase was primarily due to underwriting profits, and to a lesser extent, unrealized gains in 2019, primarily due to changes in the fair value of equity securities. These increases were partially offset by changes in deferred taxes.

The NAIC prescribes an annual calculation regarding risk based capital (“RBC”). RBC ratios for regulatory purposes are expressed as a percentage of the capital required to be above the Authorized Control Level (the “Regulatory Scale”); however, in the insurance industry, RBC ratios are widely expressed as a percentage of the Company Action Level. The following table reflects the Company Action Level, the Authorized Control Level and RBC ratios for Hanover Insurance (which includes Citizens and other insurance subsidiaries), as of March 31, 2019, expressed both on the Industry Scale (Total Adjusted Capital divided by the Company Action Level) and Regulatory Scale (Total Adjusted Capital divided by Authorized Control Level):

	Company	Authorized	RBC Ratio	RBC Ratio
(dollars in millions)	Action Level	Control Level	Industry Scale	Regulatory Scale
The Hanover Insurance Company	\$ 1,036.1	\$ 515.8	222 %	444 %

Table of Contents

Liquidity and Capital Resources

Liquidity is a measure of our ability to generate sufficient cash flows to meet the cash requirements of business operations. As a holding company, our primary ongoing source of cash is dividends from our insurance subsidiaries. However, dividend payments to us by our insurance subsidiaries are subject to limitations imposed by regulators, such as prior notice periods and the requirement that dividends in excess of a specified percentage of statutory surplus or prior year's statutory earnings receive prior approval (so called "extraordinary dividends"). During the first quarter of 2019, Hanover Insurance did not pay any dividends to the holding company.

Sources of cash for our insurance subsidiaries primarily consist of premiums collected, investment income and maturing investments. Primary cash outflows are paid claims, losses and loss adjustment expenses, policy and contract acquisition expenses, other underwriting expenses, and investment purchases. Cash outflows related to losses and loss adjustment expenses can be variable because of uncertainties surrounding settlement dates for liabilities for unpaid losses and because of the potential for large losses either individually or in the aggregate. We periodically adjust our investment policy to respond to changes in short-term and long-term cash requirements.

Net cash provided by operating activities was \$37.2 million during the first three months of 2019, as compared to \$31.4 million during the first three months of 2018. During 2019, the \$5.8 million increase in cash provided was primarily the result of an increase in premiums collected, partially offset by higher loss payments.

Net cash used in investing activities was \$279.3 million during the first three months of 2019, as compared to \$144.4 million during the first three months of 2018. During 2019, cash used in investing activities primarily related to net purchases of fixed maturities, partially offset by net proceeds received from the sale of the Chaucer-related Irish entity. During 2018, cash used in investing activities primarily related to net purchases of fixed maturities.

Net cash used in financing activities was \$610.6 million during the first three months of 2019, as compared to \$7.6 million during the first three months of 2018. During 2019, cash used in financing activities primarily resulted from repurchases of common stock through an accelerated share repurchase ("ASR") agreement, the payments of a special dividend and quarterly dividends to shareholders and repayment of the FHLB advances. (See further discussion below for additional information regarding the special dividend, the ASR and the repayment of the FHLB advances). During 2018, cash used in financing activities primarily resulted from the payment of dividends to shareholders and repurchases of common stock, partially offset by cash inflows from short-term debt borrowings.

Dividends to common shareholders are subject to quarterly board approval and declaration. During the first three months of 2019, as declared by the Board, we paid a quarterly dividend of \$0.60 per share to our shareholders totaling \$24.4 million. In the first quarter of 2019, we also paid a special dividend of \$4.75 per share associated with the Chaucer sale that was declared on December 30, 2018, totaling \$192.6 million. We believe that our holding company assets are sufficient to provide for future shareholder dividends should the Board of Directors declare them.

At March 31, 2019, THG, as a holding company, held approximately \$668.1 million of fixed maturities and cash. We believe our holding company assets will be sufficient to meet our 2019 obligations, which we expect to consist primarily of quarterly dividends to our shareholders (as and to the extent declared), interest on our senior and subordinated debentures, certain costs associated with benefits due to our former life employees and agents, and, to the extent required, payments related to indemnification of liabilities associated with the sale of various subsidiaries. As discussed below, we have, and opportunistically may continue to, repurchase our common stock and debt. We do not expect that it will be necessary to dividend additional funds from our insurance subsidiaries in order to fund 2019 holding company obligations; however, we may decide to do so.

We expect to continue to generate sufficient positive operating cash to meet all short-term and long-term cash requirements relating to current operations, including the funding of our qualified defined benefit pension plan. The ultimate payment amounts for our benefit plan is based on several assumptions, including but not limited to, the rate of return on plan assets, the discount rate for benefit obligations, mortality experience, interest crediting rates, inflation and the ultimate valuation and determination of benefit obligations. Since differences between actual plan experience and our assumptions are almost certain, changes, both positive and negative, to our current funding status and ultimately our obligations in future periods are likely.

Our insurance subsidiaries maintain a high degree of liquidity within their respective investment portfolios in fixed maturity and short-term investments. We believe that the quality of the assets we hold will allow us to realize the long-term economic value of our portfolio, including securities that are currently in an unrealized loss position. We do not anticipate the need to sell these securities to meet our insurance subsidiaries' cash requirements since we expect our insurance subsidiaries to generate sufficient operating cash to meet all short-term and long-term cash requirements relating to current operations. However, there can be no assurance that unforeseen business needs or other items will not occur causing us to have to sell those securities in a loss position before their values fully recover, thereby causing us to recognize impairment charges in that time period.

## Table of Contents

On December 30, 2018, the Board of Directors authorized a new stock repurchase program which provides for aggregate repurchases of our common stock of up to \$600 million. Under the repurchase authorization, the Company may repurchase, from time to time, common shares in amounts, at prices and at such times as the Company deems appropriate, subject to market conditions and other considerations. Repurchases may be executed using open market purchases, privately negotiated transactions, accelerated repurchase programs or other transactions. We are not required to purchase any specific number of shares or to make purchases by any certain date under this program. On January 2, 2019, pursuant to the terms of an ASR agreement, we paid \$250.0 million and received an initial delivery of approximately 1.8 million shares of our common stock, which is approximately 80% of the total number of shares expected to be repurchased under this agreement. As of March 31, 2019, we have approximately \$350 million available for repurchases under these repurchase authorizations.

From time to time, we may repurchase our debt on an opportunistic basis. On January 2, 2019, we repaid \$125 million of our FHLB advances that were due 2029 and had an interest rate of 5.5%, along with related prepayment fees of \$26 million which were recognized as a non-operating charge in 2018. We maintained our membership in FHLB which provides us with access to additional liquidity based on our stock holdings and pledged collateral. At March 31, 2019 we had borrowing capacity of \$92.4 million. There were no borrowings outstanding under this short-term facility at March 31, 2019; however we have and may continue to borrow, from time to time, through this facility to provide short-term liquidity.

On April 30, 2019, the Company entered into a new credit agreement that provides for a five-year unsecured revolving credit facility not to exceed \$200.0 million at any one time outstanding, with the option to increase the facility up to \$300.0 million, (assuming no default and satisfaction of other specified conditions, including the receipt of additional lender commitments.) The agreement also includes an uncommitted subfacility of \$50.0 million for standby letters of credit. Borrowings, if any, under this new agreement are unsecured and generally incur interest at a rate per annum equal to the greater of, (a) the prime commercial lending rate of the administrative agent, (b) the NYFRB Rate plus half a percent, or (c) the one month Adjusted LIBOR plus one percent and any applicable margin. The agreement also contains certain financial covenants such as maintenance of specified levels of consolidated equity and leverage ratios, and requires that certain of our subsidiaries maintain minimum RBC ratios. Concurrent with the Company's entry into this agreement, the Company voluntarily terminated its existing \$200.0 million credit agreement, dated November 12, 2013. We currently have no borrowings under the new agreement and had no borrowings under the previous agreement during the first three months of 2019. For additional information regarding our new credit agreement, please see Item 5.01 to this Quarterly Report on Form 10-Q.

At March 31, 2019, we were in compliance with the covenants of our debt and credit agreements.

### Off-Balance Sheet Arrangements

We currently do not have any material off-balance sheet arrangements that are reasonably likely to have an effect on our financial position, revenues, expenses, results of operations, liquidity, capital expenditures, or capital resources.

### Contingencies and Regulatory Matters

Information regarding litigation, legal contingencies and regulatory matters appears in Part I – Note 13 “Commitments and Contingencies” in the Notes to Interim Consolidated Financial Statements.

### Risks and Forward-Looking Statements

Information regarding risk factors and forward-looking information appears in Part II – Item 1A of this Quarterly Report on Form 10-Q and in Part I – Item 1A of our 2018 Annual Report on Form 10-K. This Management’s Discussion and Analysis should be read and interpreted in light of such factors.

Table of Contents

ITEM 3

QUANTITATIVE AND QUALITATIVE DISCLOSURES

ABOUT MARKET RISK

Our market risks, the ways we manage them, and sensitivity to changes in interest rates and equity price risk are summarized in Management's Discussion and Analysis of Financial Condition and Results of Operations as of December 31, 2018 included in our 2018 Annual Report on Form 10-K. There have been no material changes in the first three months of 2019 to these risks or our management of them.

ITEM 4

CONTROLS AND PROCEDURES

Disclosure Controls and Procedures Evaluation

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act").

Limitations on the Effectiveness of Controls

Our management, including our Chief Executive Officer and Chief Financial Officer, do not expect that our disclosure controls over financial reporting will prevent all error and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures

Based on our controls evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this quarterly report, our disclosure controls and procedures were effective to provide reasonable assurance that (i) the information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and (ii) material information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f). Under the supervision and with the participation of our management, including our Chief Executive Officer and the Chief Financial Officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting, as required by Rule 13a-15(d) of the Exchange Act, to determine whether any changes occurred during the period covered by this quarterly report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that there were no such changes during the quarter ended March 31, 2019, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1 – LEGAL PROCEEDINGS

The parties to the suit captioned Jennifer A. Durand v. The Hanover Insurance Group, Inc., and The Allmerica Financial Cash Balance Pension Plan (U.S. District Court for the Western District of Kentucky) have entered into a settlement agreement resolving the dispute. The court approved the settlement dismissing the case with prejudice on March 22, 2019 and, effective April 24, 2019, such dismissal is no longer subject to appeal. The resulting settlement amount to be paid by the Company is not material to the Company's financial position and will not have a material effect on its results of operations.

For additional information please refer to the litigation matter captioned "Durand Litigation" under "Commitments and Contingencies – Legal Proceedings" in Note 13 in the Notes to Interim Consolidated Financial Statements.

ITEM 1A – RISK FACTORS

This document contains, and management may make, certain "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical facts, may be forward-looking statements. When used in our Management's Discussion and Analysis, words such as: "believes," "anticipates," "expects," "projections," "outlook," "should," "could," "plan," "guidance," "likely," "on track to," "potential," "targeted," and similar expressions are intended to identify forward-looking statements. Forward-looking statements by their nature address matters that are, to different degrees, uncertain. We caution readers that accuracy with respect to forward-looking projections is difficult and risks and uncertainties, in some cases, have affected, and in the future could affect, our actual results and could cause our actual results for the remainder of 2019 and beyond to differ materially from historical results and from those expressed in any of our forward-looking statements. We operate in a business environment that is continually changing, and as such, new risk factors may emerge over time. Additionally, our business is conducted in competitive markets and, therefore, involves a higher degree of risk. We cannot predict these new risk factors nor can we assess the impact, if any, that they may have on our business in the future. Some of the factors that could cause actual results to differ include, but are not limited to, the following:

- changes in the demand for our products;
- risks and uncertainties with respect to our ability to retain profitable policies in force and attract profitable policies and to increase rates commensurate with, or in excess of, loss trends;
- adverse claims experience or changes in our estimates of loss and loss adjustment expense reserves, including with respect to catastrophes, which may result in lower current year underwriting income or adverse loss development, and could impact our carried reserves;
- uncertainties with respect to the long-term profitability of our products, including with respect to new products such as our Hanover Platinum Personal Lines, excess and surplus lines, or longer-tail products covering casualty losses;
  - the loss or disruption of our independent agency channel, including the impact of competition and consolidation in the industry and among agents and brokers;
- changes in frequency and loss severity trends;
- changes in regulation, economic, market and political conditions, particularly with respect to regions where we have geographical concentrations;

- volatile and unpredictable developments, including severe weather and other natural physical events, catastrophes and terrorist actions, and the uncertainty in estimating the resulting losses;
- changes in weather patterns, whether as a result of global climate change, or otherwise, causing a higher level of losses from weather events to persist;
  - the availability of sufficient information to accurately estimate a loss at a point in time and the limitations and assumptions used to model property and casualty losses in general;
- risks and uncertainties with respect to our ability to collect all amounts due from reinsurers and to maintain current levels of reinsurance in the future at commercially reasonable rates, or at all;

43

---

Table of Contents

heightened volatility, fluctuations in interest rates (which have a significant impact on the market value of our investment portfolio and thus our book value), inflationary pressures, default rates and other factors that affect investment returns from our investment portfolio;

risks and uncertainties associated with our participation in shared market mechanisms, mandatory reinsurance programs and mandatory and voluntary pooling arrangements, including as a result of legislative proposals in Michigan that, if enacted, could alter the current auto insurance no-fault and personal injury protection insurance (PIP) system in that state by changing, among other things, the mandated coverages to be offered by insurers and the mandatory reinsurance mechanism referred to as the Michigan Catastrophic Claims Association, and could also result in new mandatory rate reductions for policyholders;

an increase in mandatory assessments by state guaranty funds;

- actions by our competitors, many of which are larger or have greater financial resources than we do;

loss or retirement of key employees;

operating difficulties and other unintended consequences from acquisitions and integration of acquired businesses, the introduction of new products and related technology changes and new operating models;

changes in our claims-paying and financial strength ratings;

negative changes in our level of statutory surplus;

risks and uncertainties with respect to our growth or operating strategies, or with respect to our expense and strategic initiatives;

our ability to declare and pay dividends;

changes in accounting principles and related financial reporting requirements;

errors or omissions in connection with the administration of any of our products;

risks and uncertainties with technology, including cloud-based data information storage, data security, cyber-security attacks, and/or outsourcing relationships and third-party operations and data security that may negatively impact our ability to conduct business;

risks and uncertainties associated with the realization of the contingent consideration associated with THG's sale of Chaucer to China Re due to higher than expected Chaucer catastrophe losses occurring during 2018, which will require the reduction of the contingent consideration on a dollar-for-dollar basis;

an inability to be compliant with recently implemented regulations or existing regulation such as those relating to Sarbanes-Oxley;

unfavorable legislative developments, such as proposed legislation in Michigan referred to above, or litigation matters and the possibility of adverse judicial decisions, including those which expand policy coverage beyond its intended scope or award "bad faith" or other non-contractual damages; and

other factors described in such forward-looking statements.

In addition, historical and future reported financial results include estimates with respect to premiums written and earned, reinsurance recoverables, current accident year "picks," loss and loss adjustment reserves and development, fair values of certain investments, other assets and liabilities, tax, contingent and other liabilities, and other items. These estimates are subject to change as more information becomes available.

For a more detailed discussion of our risks and uncertainties, see also Item 1A – Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2018.

Readers should not place undue reliance on forward-looking statements, which speak only as of the date they are made. We do not undertake any responsibility to update or revise our forward-looking statements, except as required by law.

Table of Contents

## ITEM 2 – UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

## Issuer Purchases of Equity Securities

Shares purchased in the first quarter of 2019 are as follows:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs <sup>(2)</sup>	Approximate Dollar Value of Shares That May Yet be Purchased Under the Plans or Programs (in millions)
January 1 - 31, 2019 <sup>(1)</sup>	1,790,878	\$ 111.68	1,790,831	\$ 350
February 1 - 28, 2019 <sup>(1)</sup>	35,279	118.02	—	350
March 1 - 31, 2019 <sup>(1)</sup>	261	117.37	—	350
Total	1,826,418	\$ 111.80	1,790,831	\$ 350

(1) Includes 47, 35,279 and 261 shares withheld to satisfy tax withholding amounts due from employees related to the receipt of stock which resulted from the exercise or vesting of equity awards for the months ended January 31, February 28 and March 31, 2019, respectively.

(2) As noted above, on December 30, 2018, the Board of Directors authorized a new stock repurchase program which provides for aggregate repurchases of up to \$600 million. The shares were purchased pursuant to the terms of an accelerated repurchase agreement for \$250.0 million, authorized by the Board of Directors in December 2018, and consisting of approximately 80% of the total number of shares expected to be repurchased under this agreement. The final 20% of the total number of shares are expected to be delivered to the Company in the second quarter of 2019.

## ITEM 5 – OTHER INFORMATION

## Item 5.01 Entry into a Material Definitive Agreement

## The Hanover Insurance Group, Inc. Revolving Credit Facility

On April 30, 2019, The Hanover Insurance Group, Inc. (the “Company”), as Borrower, entered into a Credit Agreement (the “Credit Agreement”) with JPMorgan Chase Bank, N.A., as administrative agent, Wells Fargo Bank, National Association, PNC Bank, National Association and Branch Banking and Trust Company, as co-syndication agents, Goldman Sachs Bank USA and The Bank of Nova Scotia, as co-documentation agents, and various other lender parties. The Credit Agreement provides for a five-year unsecured revolving credit facility for the Company not to exceed \$200,000,000 at any one time outstanding, with the option to increase the facility up to \$300,000,000, in increments of \$10,000,000 (assuming no default and satisfaction of other specified conditions, including the receipt of additional lender commitments). The Credit Agreement also includes an uncommitted subfacility of \$50,000,000 for

standby letters of credit. The Company may use the line of credit for general corporate purposes for itself and its subsidiaries. This Credit Agreement replaces the credit agreement dated November 12, 2013, among the Company, JPMorgan Chase Bank, N.A., as administrative agent, and various other lender parties, which credit agreement the Company voluntarily terminated concurrent with the execution of the Credit Agreement.

When a borrowing under the new credit facility is an ABR Loan, interest on such a loan is payable quarterly, at a rate per annum equal to the Alternative Base Rate (the highest of (a) the prime commercial lending rate of the administrative agent; (b) the NYFRB Rate plus 1/2 of 1%; and (c) the Adjusted LIBO Rate for a one-month interest period plus 1%, in each case, subject to a 1% floor), plus the applicable margin, which ranges from 0.25% to 0.625%, depending on the Company's debt rating. When a borrowing under the facility is a Eurodollar Loan, interest on such loan is payable in one, two or three-month intervals, at a rate per annum equal to the applicable Adjusted LIBO Rate for the applicable interest period plus the applicable margin, which ranges from 1.25% to 1.625%, depending on the Company's debt rating. Fees on outstanding letters of credit are payable quarterly, and range from 1.25% to 1.625%, depending on the Company's debt rating, of the average daily aggregate stated amount of such letters of credit.

The Credit Agreement contains financial covenants substantially similar to those in its prior credit agreement that require the Company and its subsidiaries to maintain a specified minimum net worth, restrict the Company and its subsidiaries from exceeding a specified leverage ratio and require certain of the Company's subsidiaries to maintain a minimum Risk-Based Capital ratio. In addition, the Credit Agreement contains covenants that limit the Company's and its subsidiaries' ability, among other things, to incur or assume certain debt, grant liens on its property, merge or consolidate, dispose of assets, materially change the nature or conduct of its business and make restricted payments (except, in each case, as provided by certain exceptions). The Credit Agreement also

Table of Contents

contains certain customary representations and warranties, affirmative covenants and events of default, including payment defaults, breach of representations and warranties, covenant defaults, cross defaults to certain indebtedness, certain events of bankruptcy, certain events under ERISA, material judgments, and change of control. If such an event of default occurs, the lenders under the Credit Agreement would be entitled to take various actions, including the acceleration of amounts due under the Credit Agreement. The credit facility expires on April 30, 2024, with an option, subject to approval of the lender parties, to extend for an additional year.

The above summary of the Credit Agreement does not purport to be complete and is qualified in its entirety by reference to the full text of the Credit Agreement. A copy of the Credit Agreement is included as Exhibit 10.2 to this Quarterly Report on Form 10-Q. As of May 2, 2019, there were no advances against this line of credit.

Item 5.02 Termination of a Material Definitive Agreement

The information provided in Item 5.01 of this Quarterly Report on Form 10-Q is hereby incorporated by reference into this Item 5.02.

Concurrent with the Company's entry into the Credit Agreement, the Company voluntarily terminated its existing \$200,000,000 credit agreement, previously filed as Exhibit 10.1 to the Company's Current Report on Form 8-K filed with the Securities and Exchange Commission on November 15, 2013, entered into by the Company, JPMorgan Chase Bank, N.A., as administrative agent, and various other lender parties.

Item 5.03 Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant

The information provided in Item 5.01 of this Quarterly Report on Form 10-Q is hereby incorporated by reference into this Item 5.03.
