-----	-----

Our total active membership fees in force increased approximately 11.9% during the last year and continues our trend of increasing our membership base and membership fees. Additionally, the membership persistency rate (defined as the number of memberships in force at the end of a 12 month period as a percentage of the total of memberships in force at the beginning of such period, plus new memberships sold during such period) has increased for eight consecutive quarters from 67.6% as of June 30, 2003 to 72.3% for the latest 12 month period ended June 30, 2005.

Our second quarter 2005 focus has been on both share repurchases and dividends. During the 2nd quarter, we returned \$1.7 million to shareholders through the repurchase of 46,100 shares of common stock and \$4.6 million in the form of a cash dividend.

We anticipate announcing our 2005 second quarter financial results on July 25, 2005 after the market closes and hosting a conference call to discuss such results on July 27, 2005. Due to the 31% increase in new membership fees written during the second quarter of 2005 vs. the comparable 2004 quarter, we expect an increase in commission expense for the 2005 second quarter and a corresponding decline in earnings. Commission expense is recognized over the first month of a membership. There is no further commission expense recognized during the

remainder of the advance period. Commissions paid to our sales force during the 2005 second quarter are the highest in our 33 year history.

Forward-Looking Statements

Statements in this press release, other than purely historical information, regarding our future plans and objectives and expected operating results, dividends and share repurchases and statements of the assumptions underlying such statements, constitute forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934. The forward-looking statements contained herein are based on certain assumptions that may not be correct. They are subject to risks and uncertainties incident to our business that could cause actual results to differ materially from those described in the forward-looking statements. These risks and uncertainties are described in the reports and statements filed by us with the Securities and Exchange Commission, including (among others) those listed in our Form 10-K, Form 10-Q and Form 8-K, and include the risks that our membership persistency or renewal rates may decline, that we may not be able to continue to grow our memberships and earnings, that we are dependent on the continued active participation of our principal executive officer, that pending or future litigation may have a material adverse effect on us if resolved unfavorably to us, that we could be adversely affected by regulatory developments, that competition could adversely affect us, that we are substantially dependent on our marketing force, that our stock price may be affected by short sellers, that we have been unable to increase significantly our employee group membership sales, that our active premium in force is not indicative of future revenue as a result of changes in active memberships from cancellations and additional membership sales and that we may have material weaknesses in our internal control environment. Please refer to pages 38 and 39 of our 2004 Form 10-K and pages 8 and 9 of the Company's March 31, 2005 Form 10-Q for a more complete description of these risks.
