Item 1: Business

General Development of Business

Organizational History

We were originally called “B.G. S. Energy, Inc.” and were incorporated under the laws of the State of Nevada on May 29, 1981. We were organized to engage in, alone or in conjunction with others, the exploration for, and where warranted, the development of oil, gas and mineral properties, the sale of oil, gas and mineral related leases. We became public in 1981 in a best efforts public offering and thereafter operated various oil and gas properties. We owned various oil and gas leases in Utah, Oklahoma, Kentucky, Texas and other states from time to time in 80’s. In 1988 we changed our name to Dini Products Inc. and continued our oil and gas operations. Our revenues decreased and in 1992 we became dormant and did not have any operations for many years until we acquired all of the shares of Canada ANV Systems, Inc., a British Columbia corporation (“CANV”) in June 2009 and changed our name to ANV Security Group, Inc. Our plan is to become a fully integrated developer, designer, manufacturer, marketer, installer and servicer of web based security systems for residential, commercial and government customers operating in Canada, The Peoples Republic of China and the United States of America. We are currently headquartered in Great Vancouver, Canada.

The Video and Alarm Industry in General

According to a Frost & Sullivan report dated December, 2007, which is available from the web site of www.MarketResearch.com on a fee basis, North America is the world's largest security equipment market, the demand from North America accounted for 26% of the total global demand. The report predicts that the North American security equipment market will grow by an annual rate of 20%. According to Frost & Sullivan's report, the global IP (“Internet Protocol”) video surveillance market will grow by an annual rate of 40% over the next few years, The size of the global IP security market is projected to reach \$5.0 billion dollars in 2010. According to an IDC market analysis report dated May, 2009, which is available for a fee from the website www.idc.com, between year 2007 and 2009, global digital network camera sales will exceed these of traditional analog cameras and the report predicted that the sales of IP cameras in US and Canada will be more than 20 million pieces in 2010.

Management believes that in the next few years, the maturity of broadband networks, video compression technology, and updating media processor performance, will provide a good foundation for the realization and application of various low-cost, high-performance IP video surveillance products. IP monitors are continually replacing traditional monitors in new and existing security systems. We believe that our products are well positioned to participate in these trends.

Operations and Development Plan

We design, manufacture, assemble and market advanced and professional security systems that include H.264 IP Camera and DVS series, NVS Center Management System and high-end network DVR. We also offer our patent pending USCI8 Global Network Video Alarm Services Platform, This web based service platform provides ANV users with real time video monitoring, instant remote video storage, and instant

VoIP/SMS/E-mail notification. ANV's products and services are typically used for crime deterrence, real time direct viewing and secure off premises crime evidence preservation on our remote server.

Our primary business focus is to provide a global network video alarm service utilizing the USC18 Platform and H.264 IP Camera, DVS and DVR for our dealers, distributors, system integrators and government entities.

Our products are employed in video alarm system installations in private residences; commercial and industrial properties; and by governments in Canada, the United States , the Peoples Republic of China.

In November 2007 we entered into an agreement with an established electronics manufacturer in Guandong, Peoples Republic of China for the manufacture of H.264 IP Cameras, DVS, NVD and other security system products to our specifications. We sell our products and video alarm services to wholesalers, dealers and installers We have also prepared a franchise offering document that complies with Canadian and Provincial Law and sold franchises for installation of our systems in Canada. We have acquired three Canadian franchisees that are installing our systems and in 2008 we realized revenues from these efforts. In addition we are directly marketing our systems in areas where we have not granted territories to franchisees. Included in these sales has been a shopping mall in Westminster California. As of August 31, 2009 approximately 75 of our cameras were installed in approximately 35 customer locations.

Our Products & Services

Our products are based on H.264 video compression technology. H.264 is a high end standard for video compression that produces video output similar to MPEG4 while requiring lower data throughput rates. H.264 uses the latest innovations in video compression technology to provide clear video quality from the a relatively small amount of video data. H.264 delivers the same quality as MPEG-2 at a third to half the data rate and up to four times the frame size of MPEG-4 Part 2 at the same data rate. We believe that because H.264 achieves the best compression efficiency it will become the preferred standard for a broad range of applications, such as IP Cameras and surveillance, HDTV, broadcast, DVD, video conferencing, remote health care, remote online education worldwide, video-on-demand, streaming and multimedia messaging. H.264 delivers excellent quality across a wide operating range including 3G and HD. Applications of H.264 include high-quality video mobile phones, iChat, Internet, broadcast or satellite delivery, because H.264 provides exceptional performance at impressively low data rates.

We have spent about three years and invested approximately \$ 3 million dollars in developing our H.264 IP Cameras, DVS, NVD hardware and software of NVS ("Network Video System") and integrating the Huawei chipset into our systems. Now we have successfully developed five series, and twenty varieties of H.264 IP products. We believe that every one of our products would require significant lead time for a potential competitor to replicate .

Presently, Texas Instrument and Huawei (a large privately owned China-based telecom equipment manufacture) are the two largest companies in the world capable of providing the H.264 chipset. ANV and its OEM factory are one of six Huawei H.264 licensees, and ANV also is a primary partner of Huawei in North America.

Our product line consists of five series and twenty varieties of H.264 video surveillance equipment including the following:

ANV provides a comprehensive line of products due to the many varied climatic and operational environments in which the products are expected to perform. In addition to selling from a standard catalog line, the Company at times modifies an existing product to meet a customer's requirements. Our products are concentrated principally among its iCam™ H.264 IP camera, DVS and DVR product lines.

Our competitive advantage is to offer our patent pending USCi8™ global network video alarm services to the end user. This web based service platform provides ANV users with great ease of functions, including real time video monitoring, instant remotely video storage, life sharing, and instant e-mail, SMS (text to cell phone) and voice notification to customers. The systems are designed to provide instant-remote video storage in ANV server. We offer residential, small business and large business plans at prices ranging from \$25CDN to \$80CDN per month. Our platform capability can contain at least 40,000 registered end-users, and the bandwidth of our remote storage center is able to accept over 10000 data streams entering storage at same time. The system is expandable to contain over millions end-users and ownership is dividable.

Customers

Our products are sold principally to wholesalers, independent dealers, installers, retail stores, system integrators, distributors and franchisees. Sales are made principally by field sales engineers and inside customer service representatives. Our sales effort is supported by in-house customer service coordinators and technical support groups which provide product information, application engineering, design detail, field project management, and hardware and software technical support.

We presently have three Canadian franchisees and other potential franchisees who may purchase franchises under one of two plans in China. Our franchise agreements require the franchisee to purchase a franchise, to maintain an inventory, to pay a royalty, an advertising cost contribution and a fee related to our broadband (USCi8.com) monitoring service. Our ultimate customer is a property owner who installs the product and pays for both the equipment and a monthly fee. Our Canadian franchisees pay us \$25,000 to \$30,000 for their franchise and are required to maintain certain inventories. Our franchisees receive approximately 30% price differential from our listed prices and 40% of the monthly fee paid by the end user.

Internet Contract

We have entered into a bandwidth service agreement with Peer 1 Network Enterprises, Inc. (“Peer 1” of Vancouver, B.C.) The agreement with Peer 1 commenced January 21, 2008 and was for a one year term with automatic one year renewals absent notice of termination. The agreement is in its first renewal term and required that we make certain up front payments for equipment and pay a monthly fee that is dependent on bandwidth usage. During the year ended March 31, 2009 the total amount we paid to Peer 1 was \$2,683.39. We incurred a due of \$ 1092 to Peer 1 during the quarter ended June 30, 2009. We believe that Peer 1 has sufficient equipment and bandwidth available to meet our needs for the foreseeable future. However, if Peer 1 were no longer available to serve us or if we deemed it advisable not to renew our contract with Peer 1, management believes that many other bandwidth service providers are available in the Vancouver area to meet our requirements at similar prices.

Manufacturing Contract

On November 30, 2007 we entered into a manufacturing agreement (the “OEM Agreement”) with Shenzhen Huanghe Digital Technology Co., Ltd of Guandong, PRC (“SHDT”). The OEM Agreement is for an one year term with automatic one year renewals and requires that SHDT manufacture products for us to our specification and warrant the same to conform to our specifications and be free from defects. The OEM Agreement sets prices and delivery schedules for our orders and requires that SHDT be able to fulfill our requirements. We are obligated to defend SHDT should a claim be made that any of our products infringe on the rights of others. Management believes that SHDT can meet our requirements for the foreseeable future. If SHDT were unable to produce products for us, we would experience delays in receiving product and disruption to our operations, but we believe we would be able to locate an alternative manufacturer in the PRC.

Patent Application

In March 2009 we filed a US patent application, No12/405,147, which followed our provisional patent application “Systems and Methods for Providing Web Based Self Serviced Video Monitoring and Security Features for Systems Comprising IP Video Terminals and Web Servers” in March 2008. This patent relates to our web based system and management believes that it is central to our business. However, we can not give any assurance that a patent will be granted, and that if granted it will give meaningful protection from others or that our patent would not be found by a court to infringe upon patents held by others.

Our patent application includes technology for (i) A video security system having a server and a video terminal device including; (ii) At least one database for storing network and physical configuration information relating to the terminal device operable to remotely communicate with the server through a distributed network; (iii) One or multiple storage servers for storing video data received from the terminal devices; and (iv) A method of managing a video terminal device that includes assigning a unique device ID to the video terminal device then sending an event and an associated video stream from the video terminal device to the Server, and storing the event and the associated video stream in a database and a storage server in association with the unique device ID. Another method of storage set forth in our patent application involves creating a user account on a Server, selecting services for associating with the devices, allocating storage server space for storing video data stream files, and making available to the user stored video files.

Competition

The video and alarm security services business is highly competitive and fragmented with a number of major firms and thousands of smaller regional and local companies. Competition is based primarily on price in relation to quality of service. Rather than compete purely on price, we emphasize the quality and special features of our web-based video alarm security service. Our competitors also include manufacturers and potential manufacturers of surveillance equipment. Several of our competitors, such as ADT Worldwide, a subsidiary of Tyco Industries, Ltd. and Honeywell

International, Inc. are large established multinational corporations with far greater resources than we do. In the PRC we will compete with large dominant firms including China Security Surveillance and Technology, Inc. All of these competitors have greater resources and name recognition than we do. Other competitors include the following companies or their affiliates: Samsung, Sony, Panasonic, Axis, Tyco, D-link, Linksys, Vivotek, Basler, Tiandy, etc. Several electronics manufacturers have the ability to make cameras and other surveillance system components competitive to ours but have elected not to enter this market to date.

Backlog

We do not currently have any material backlog and fill customer requirements on a current basis.

Sales, Marketing and Advertising

We market our products to consumers through our wholesaler, dealer, installer, franchisees as well as direct marketing efforts by our sales staff. We promotes and markets our products and services through industry trade shows worldwide, product brochures and catalogues, direct marketing and electronic mailings to existing and prospective customers, webinars, in-house training seminars for customers and end users, road shows which preview new products and try usci8.com platform, and advertising through trade and end user magazines and newspaper, and our web site (www.anvsecuritygroup.com). ANV's products are sold principally to independent wholesalers, dealers, installers, system integrators, and franchisees. Sales are made principally by field sales engineers and inside customer service representatives. ANV's sales effort is supported by in-house customer service coordinators and technical support groups which provide product information, application engineering, design detail, field project management, and hardware and software technical support.

Environmental Matters

Laws and regulations relating to protection of the environment have not had a material impact on our business.

Proprietary Rights

In addition to our patent application we have entered into employment agreements with our key employees that require them to keep all of our proprietary information confidential and require that any invention of theirs while our employee, except for those not related to our business, becomes our property. Our OEM Agreement provides us with similar protections. We can not assure that such protections will prove adequate should they be challenged in litigation.

Research and Development

We are dependent on continual research and development efforts to maintain our competitive position with our products. As of March 31, 2009 we had accumulated \$142,274 of research and development expense but did not incur any research and development expense in the quarter ended June 30, 2009. However, we will again incur research and development expenses for the balance of our fiscal year. Our research and development effort relates to product design and enhancement as well as computer source code and other programming matters.

Our R & D aspects are based on H.264 video techniques, combined with global advanced internet tech, wired and wireless communication tech, surveillance and alarm tech, and telecom payment. We give our future R & D plan as follows:

Develop peer to peer technologies to enable more convenience in service provision; develop mobile applications to transmit surveillance video through mobile phones and automobiles; develop simultaneous charging surveillance of

IP Camera and retail POS terminals; develop downloading and playing images through Google and YouTube; realize the arbitrary storage of surveillance video; develop intelligent facial recognition and registration plate recognition; develop real time , remote health care, remote online education worldwide, and other remote learning and image-based applications

Employees

As of August 31, 2009, we had 7 employees in our Vancouver headquarters. All of which are full-time, including 2 in administrative and management, 3 in engineering and technical, and 2 in sales and marketing.

Seasonality

We do not anticipate that our business will be seasonal to any material extent although installation of outdoor security and surveillance systems may be more difficult during winter months in area with more severe climates.

Item 1A Risk Factors

Risks Relating To Our Business

You should carefully consider the risks described below before investing in our publicly traded securities. The risks described below are not the only ones facing us. Our business is also subject to the risks that affect many other companies, such as competition, technological obsolescence, labor relations, general economic conditions, geopolitical events, climate change and international operations. Additional risks not currently known to us or that we currently believe are immaterial also may impair our business operations and our liquidity.

We face risks related to general domestic and global economic conditions and to the current credit crisis.

Our current operating cash flows, which combined with access to the credit markets, provides us with significant discretionary funding capacity. However, the current uncertainty arising out of domestic and global economic conditions, including the recent disruption in credit markets, poses a risk to the economies in which we operate that has impacted demand for our products and services, and may impact our ability to manage normal relationships with our customers, suppliers and creditors. If the current situation deteriorates significantly, our business could be materially negatively impacted, including such areas as reduced demand for our products and services from a slow-down in the general economy, or supplier or customer disruptions resulting from tighter credit markets.

In order to grow at the pace expected by management, we will require additional capital to support our long-term business plan. If we are unable to obtain additional capital in future years, we may be unable to proceed with our long-term business plan and we may be forced to curtail or cease our operations.

We will require additional working capital to support our long-term business plan, which includes identifying suitable targets for horizontal or vertical mergers or acquisitions, so as to enhance the overall productivity and benefit from economies of scale. Our working capital requirements and the cash flow provided by future operating activities, if any, will vary greatly from quarter to quarter, depending on the volume of business during the period and payment terms with our customers. We may not be able to obtain adequate levels of additional financing, whether through equity financing, debt financing or other sources. Additional financings could result in significant dilution to our earnings per share or the issuance of securities with rights superior to our current outstanding securities. In addition, we may grant registration rights to investors purchasing our equity or debt securities in the future. If we are unable to raise additional financing, we may be unable to implement our long-term business plan, develop or enhance our products and services, take advantage of future opportunities or respond to competitive pressures on a timely basis, if at all. In addition, a lack of additional financing could force us to substantially curtail or cease operations.

We sometimes extend credit to our customers. Failure to collect the trade receivables or untimely collection could affect our liquidity.

We extend credit to some of our customers while generally requiring no collateral. Generally, our customers pay in installments, with a portion of the payment upfront, a portion of the payment upon receipt

of our products by our customers and before the installation, and a portion of the payment after the installation of our products and upon satisfaction of our customer. Sometimes, a small portion of the payment will not be paid until after a certain period following the installation. We perform ongoing credit evaluations of our customers' financial condition and generally have no difficulties in collecting our payments. However, if we encounter future problems collecting amounts due from our clients or if we experience delays in the collection of amounts due from our clients, our liquidity could be negatively affected.

If we are unable to attract and retain senior management and qualified technical and sales personnel, our operations, financial condition and prospects will be materially adversely affected.

Our future success depends in part on the contributions of our management team and key technical and sales personnel and our ability to attract and retain qualified new personnel. In particular, our success depends on the continuing employment of our CEO, Dr. Weixing Wang, our CFO, Ms. Yan Wang; our VP of Sales and Marketing, Mr. Xiaolin Yang; and our technical Officer, Mr. Tac Jiang. There is significant competition in our industry for qualified managerial, technical and sales personnel and we cannot assure you that we will be able to retain our key senior managerial, technical and sales personnel or that we will be able to attract, integrate and retain other such personnel that we may require in the future. Many engineers and technicians obtain post-graduate or professional degrees, and the increased educational time required at the post-graduate level further restricts the pool of engineers and technicians available for employment. We compete for all such personnel with other high tech companies in various fields. There can be no assurance that we will be successful in hiring or retaining such qualified personnel. If we are not able to hire and retain qualified people to fill these positions, our competitive position would be adversely affected, which would have a material adverse effect on our business, financial condition and results of operations.

If we are unable to attract and retain key personnel in the future, our business, operations, financial condition, results of operations and prospects could be materially adversely affected.

Our growth strategy has required us to make acquisitions and to make additional acquisitions in the future, which could subject us to significant risks, any of which could harm our business.

Our growth strategy includes identifying and acquiring or investing in suitable candidates on acceptable terms. We have also entered into letters of intent to acquire several other companies. Over time, we may acquire or make investments in other providers of products that complement our business and other companies in the security industry. The successful integration of these companies and any other acquired businesses require us to:

.

integrate and retain key management, sales, research and development, production and other personnel;

.

incorporate the acquired products or capabilities into our offerings from an engineering, sales and marketing perspective;

.

coordinate research and development efforts;

.

integrate and support pre-existing supplier, distribution and customer relationships; and

.

consolidate duplicate facilities and functions and combine back office accounting, order processing and support functions.

Acquisitions involve a number of risks and present financial, managerial and operational challenges, including:

.

diversion of management's attention from running our existing business;

.

increased expenses, including travel, legal, administrative and compensation expenses resulting from newly hired employees;

.

increased costs to integrate personnel, customer base and business practices of the acquired company with our own;

.

adverse effects on our reported operating results due to possible write-down of goodwill associated with acquisitions;

.

potential disputes with sellers of acquired businesses, technologies, services, products and potential liabilities; and

.

dilution to our earnings per share if we issue common stock in any acquisition.

Moreover, performance problems with an acquired business, technology, product or service could also have a material adverse impact on our reputation as a whole. Any acquired business, technology, product or service could significantly under-perform relative to our expectations, and we may not achieve the benefits we expect from our acquisitions. Geographic distance between business operations, the compatibility of the technologies and operations being integrated and the disparate corporate cultures being combined also presents significant challenges. Acquired businesses are likely to have different standards, controls, contracts, procedures and policies, making it more difficult to implement and harmonize company-wide financial, accounting, billing, information and other systems. If we cannot overcome these challenges, we may not realize actual benefits from past and future acquisitions, which will impair our overall business results.

Our facilities, or facilities of our customers or suppliers, could be susceptible to natural disasters.

All of our facilities, and many of the facilities of our customers and suppliers, are located in China. Natural disasters, such as floods and earthquakes, occur frequently in China, and they pose substantial threats to businesses with operations there. As a developing country, China's emergency-response ability is limited, and its ability to provide emergency reconstruction and other aid to businesses affected by natural disasters is limited. Should a natural disaster severely damage one of our facilities, or damage a major facility of one or more of our significant customers or suppliers, our business could be materially disrupted.

In the event that adequate insurance is not available or our insurance is not deemed to cover a claim, we could face liability.

We carry insurances that our management consider customary and adequate. The laws of the jurisdictions in which we operate, may limit or prohibit insurance coverage for punitive or certain other types of damages or liability arising from gross negligence. If we incur increased losses related to employee acts or omissions, or system failure, or if we are unable to obtain adequate insurance coverage at reasonable rates, or if we are unable to receive reimbursements from insurance carriers, our financial condition and results of operations could be materially and adversely affected.

Our quarterly operating results are likely to fluctuate, which may affect our stock price.

Our quarterly revenues, expenses, operating results and gross profit margins vary from quarter to quarter. As a result, our operating results may fall below the expectations of securities analysts and investors in some quarters, which

could result in a decrease in the market price of our common stock. The reasons our quarterly results may fluctuate include:

.

seasonality inherent in the surveillance and safety industry;

.

variations in profit margins attributable to product mix;

.

changes in the general competitive and economic conditions;

.

delays in, or uneven timing in the delivery of, customer orders;

.

the introduction of new products by us or our competitors; and

Period to period comparisons of our results should not be relied on as indications of future performance.

We could face liability for our failure to respond adequately to alarm activations.

The nature of the services we provide potentially exposes us to greater risks of liability for employee acts or omissions or system failures that may be inherent in other businesses. In the event of litigation with respect to such matters, our financial condition and results of operations could be materially and adversely affected. In addition, the costs of such litigation could have an adverse effect on us.

Future government regulations or other standards could have an adverse effect on our operations.

Our operations are subject to a variety of laws, regulations and licensing requirements of national and local authorities in North American and China. In certain jurisdictions, we are required to obtain licenses or permits and to meet certain standards in the conduct of our business. The loss of such licenses, or the imposition of conditions to the granting or retention of such licenses, could have an adverse effect on us. In the event that these laws, regulations and/or licensing requirements change, we may be required to modify our operations or to utilize resources to maintain compliance with such rules and regulations. In addition, new regulations may be enacted that could have an adverse effect on us.

Our limited ability to protect our intellectual property, and the possibility that our technology could inadvertently infringe technology owned by others, may adversely affect our ability to compete.

We rely on a combination of trademarks, patent, copyrights, trade secret laws, confidentiality procedures and licensing arrangements to protect our intellectual property rights. A successful challenge to the ownership of our technology could materially damage our business prospects. Our competitors may assert that our technologies or products infringe on their patents or proprietary rights. We may be required to obtain from others licenses that may not be available on commercially reasonable terms, if at all. Problems with intellectual property rights could increase the cost of our products or delay or preclude our new product development and commercialization. If infringement claims against us are deemed valid, we may not be able to obtain appropriate licenses on acceptable terms or at all. Litigation could be costly and time-consuming but may be necessary to protect our technology license positions or to defend against infringement claims. We have applied for a United States patent for our web based security systems. No assurance can be given that we will be granted a patent, that, if granted, any patent will provide us with meaningful protection from infringement by others or that any patent that we may be granted will not be held by a court to infringe on the rights of others. The loss of patent protection could materially adversely affect our business.

We Need Substantial Additional Capital

We have experienced recurring net losses, including net losses of \$ 82,652 for the quarter ended June 30, 2009 and \$340,555 for the year ended March 31, 2009, and we had current assets of \$365,512 at June 30, 2009 (unaudited).

Our plan is to increase production of our products as well as the geographical scope of our operations. Our present resources and operating revenue is insufficient to fund these plans. Therefore, we require substantial additional funds to finance our business activities on an ongoing basis and to implement our expansion strategy portraying our company as one with sufficient financial strength and stability to attract government and larger business customers. Accordingly, we intend to seek additional financing following the filing of this registration statement. We do not have any commitments or arrangements to obtain any additional equity capital, and there can be no assurance that the additional

financing we require would be available on reasonable terms, if at all. The unavailability of additional financing could require us to delay, scale back or terminate our plans to expand our business.

Product Failure, Marketplace Reputation and Liability

Through our wholesalers, dealers, installers, franchisees and direct operations we intend to install hundreds and eventually thousands of security systems. Should any of our systems fail to perform as promised due to a product defect or a faulty installation, our reputation could be marred by adverse publicity. We could be liable for damages suffered by our customer. Consequently our operating results and stock price could suffer.

We intend to become subject to the periodic reporting requirements of the Securities Exchange Act of 1934 that will require us to incur audit fees and legal fees in connection with the preparation of such reports. These additional costs could reduce or eliminate our ability to earn a profit.

Commencing sixty days after the filing of this registration statement on Form 10, we will be required to file periodic reports with the Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934 and the rules and regulations promulgated thereunder. In order to comply with these requirements, our independent registered public accounting firm will have to review our financial statements on a quarterly basis and audit our financial statements on an annual basis. Moreover, our legal counsel will have to review and assist in the preparation of such reports. The costs charged by these professionals for such services cannot be accurately predicted at this time because factors such as the number and type of transactions that we engage in and the complexity of our reports cannot be determined at this time and will have a major affect on the amount of time to be spent by our auditors and attorneys. However, our incurring these costs will obviously be an expense to our operations and thus have a negative effect on our ability to meet our overhead requirements and earn a profit. We may be exposed to potential risks resulting from new requirements under Section 404 of the Sarbanes-Oxley Act of 2002. If we cannot provide reliable financial reports or prevent fraud, our business and operating results could be harmed, investors could lose confidence in our reported financial information, and the trading price of our common stock, if a market ever develops, could drop significantly.

Pursuant to Section 404 of the Sarbanes-Oxley Act of 2002, as amended by SEC Release 33-8934 on June 26, 2008 we will be required, beginning with our fiscal year ending June 30, 2010, to include in our annual report our assessment of the effectiveness of our internal control over financial reporting as of the end of the fiscal year ending June 30, 2010. Furthermore, in the following year, our independent registered public accounting firm will be required to report separately on whether it believes that we have maintained, in all material respects, effective internal control over financial reporting. We have not yet completed any assessment of the effectiveness of our internal control over financial reporting. We expect to incur additional expenses and diversion of management's time as a result of performing the system and process evaluation, testing and remediation required in order to comply with the management certification and auditor attestation requirements.

Our officers have no experience in managing a public company.

Our present officers have no previous experience in managing a public company and we do not have a sufficient number of employees to segregate responsibilities and may be unable to afford increasing our staff or engaging outside consultants or professionals to overcome our lack of employees. During the course of our testing, we may identify other deficiencies that we may not be able to remediate in time to meet the deadline imposed by the Sarbanes-Oxley Act for compliance with the requirements of Section 404. In addition, if we fail to achieve and maintain the adequacy of our internal controls, as such standards are modified, supplemented or amended from time to time, we may not be able to ensure that we can conclude on an ongoing basis that we have effective internal controls over financial reporting in accordance with Section 404 of the Sarbanes-Oxley Act. Moreover, effective internal controls, particularly those related to revenue recognition, are necessary for us to produce reliable financial reports and are important to help prevent financial fraud. If we cannot provide reliable financial reports or prevent fraud, our business and

operating results could be harmed, investors could lose confidence in our reported financial information, and the trading price of our common stock, if a market ever develops, could drop significantly.

Competition

We face a variety of competitive challenges from other security and surveillance companies in every market where we operate or plan to operate. Many of our competitors will be large multinational or market dominant companies whom have greater financial and marketing resources than we do and may be able to adapt to changes in consumer preferences or requirements more quickly, devote greater resources to the marketing and sale of their products or adopt more aggressive pricing policies than we can.

Control by Management

Our company is effectively controlled by management, specifically Weixing Wang, Yan Wang and Ming Li who beneficially own 18,640,000 shares or 56.1% of our 33,180,000 issued and outstanding shares of common stock as of August 31, 2009. Accordingly, they will be able to elect our board of directors and control our corporate affairs for the foreseeable future.

Dependence of Third Party Supplier

We have entered into an OEM Agreement with SHDT and an internet services agreement with Peer 1. A failure of either of these parties to perform in accordance with the terms of their agreement with us could have a material adverse effect on our results of operations and negatively impact our stock price.

RISKS RELATED TO OUR INDUSTRY

Our success relies on our management's ability to understand the highly evolving network surveillance and safety industry.

The network surveillance and safety industry is nascent and rapidly evolving. Therefore, it is critical that our management is able to understand industry trends and make good strategic business decisions. If our management is unable to identify industry trends and act in response to such trends in a way that is beneficial to us, our business will suffer.

If we are unable to respond to the rapid changes in our industry and changes in our customer's requirements and preferences, our business, financial condition and results of operations could be adversely affected.

If we are unable, for technological, legal, financial or other reasons, to adapt in a timely manner to changing market conditions or customer requirements, we could lose customers and market share. The network surveillance and safety industry is characterized by rapid technological change. Sudden changes in customer requirements and preferences, the frequent introduction of new products and services embodying new technologies and the emergence of new industry standards and practices could render our existing products, services and systems obsolete. The emerging nature of products and services in the network surveillance and safety industry and their rapid evolution will require that we continually improve the performance, features and reliability of our products and services. Our success will depend, in part, on our ability to:

.

enhance our existing products and services;

.

anticipate changing customer requirements by designing, developing, and launching new products and services that address the increasingly sophisticated and varied needs of our current and prospective customers; and

.

respond to technological advances and emerging industry standards and practices on a cost-effective and timely basis.

The development of additional products and services involves significant technological and business risks and requires substantial expenditures and lead time. If we fail to introduce products with new technologies in a timely manner, or adapt our products to these new technologies, our business, financial condition and results of operations could be adversely affected. We cannot assure you that even if we are able to introduce new products or adapt our products to new technologies that our products will gain acceptance among our customers. In addition, from time to time, we or our competitors may announce new products, product enhancements or technological innovations that have the potential to replace or shorten the life cycles of our existing products and that may cause customers to refrain from purchasing our existing products, resulting in inventory obsolescence.

We may not be able to maintain or improve our competitive position of strong competition in the network surveillance and safety industry, and we expect this competition to continue to intensify.

The North American and Chinese network surveillance and safety industry is highly competitive, we also face competition from international competitors. Some of our international competitors are larger than us and possess greater name recognition, assets, personnel, sales and financial resources. These entities may be able to respond more quickly to changing market conditions by developing new products and services that meet customer requirements or are otherwise superior to our products and services and may be able to more effectively market their products than we can because they have significantly greater financial, technical and marketing resources than we do. They may also be able to devote greater resources than we can to the development, promotion and sale of their products. Increased competition could require us to reduce our prices, result in our receiving fewer customer orders, and result in our loss of market share. We cannot assure you that we will be able to distinguish ourselves in a competitive market. To the extent that we are unable to successfully compete against existing and future competitors, our business, operating results and financial condition could be materially adversely affected.

Our business and reputation as a OEM manufacturer of high quality H.264 IP products may be adversely affected by product defects or performance.

We believe that we offer high quality products that are reliable and competitively priced. If our products do not perform to specifications, we might be required to redesign or recall those products or pay substantial damages. Such an event could result in significant expenses, disrupt sales and affect our reputation and that of our products. In addition, product defects could result in substantial product liability. We do not have product liability insurance. If we face significant liability claims, our business, financial condition, and results of operations would be adversely affected.

Our product offerings involve a lengthy sales cycle and we may not anticipate sales levels appropriately, which could impair our profitability.

Some of our products and services are designed for medium to large commercial, industrial and government facilities desiring to protect valuable assets and/or prevent intrusion into high security facilities. Given the nature of our products and the customers that purchase them, sales cycles can be lengthy as customers conduct intensive investigations and deliberate between competing technologies and providers. For these and other reasons, the sales cycle associated with some of our products and services is typically lengthy and subject to a number of significant risks over which we have little or no control. If sales in any period fall significantly below anticipated levels, our financial condition and results of operations could suffer.

RISKS RELATED TO DOING BUSINESS IN CHINA

Adverse changes in political and economic policies of the PRC government could impede the overall economic growth of China, which could reduce the demand for our products and damage our business.

Our growth strategy includes acquiring or investing in suitable candidates on acceptable terms in China. We have also entered into letters of intent to acquire several other companies. We also produce our products through OEM in China. Accordingly, our business, financial condition, results of operations and prospects are affected significantly by economic, political and legal developments in China. The PRC economy differs from the economies of most developed countries in many respects, including:

.
the higher level of government involvement;

.
the early stage of development of the market-oriented sector of the economy;

.
the rapid growth rate;

.
the higher level of control over foreign exchange; and

.
the allocation of resources.

As the China economy has been transitioning from a planned economy to a more market-oriented economy, the China government has implemented various measures to encourage economic growth and guide the allocation of resources. While these measures may benefit the overall China economy, they may also have a negative effect on us.

Although the China government has in recent years implemented measures emphasizing the utilization of market forces for economic reform, the China government continues to exercise significant control over economic growth in China through the allocation of resources, controlling payment of foreign currency-denominated obligations, setting monetary policy and imposing policies that impact particular industries or companies in different ways.

Any adverse change in the economic conditions or government policies in China could have a material adverse effect on the overall economic growth and the level of surveillance and safety investments and expenditures in China, which in turn could lead to a reduction in demand for our products and consequently have a material adverse effect on our business and prospects.

Uncertainties with respect to the China legal system could limit the legal protections available to you and us.

Our operating subsidiaries are generally subject to laws and regulations applicable to foreign investments in China and, in particular, laws applicable to foreign-invested enterprises. The China legal system is based on written statutes, and prior court decisions may be cited for reference, but have limited precedential value. Since 1979, a series of new China laws and regulations have significantly enhanced the protections afforded to various forms of foreign investments in China. However, since the China legal system continues to rapidly evolve, the interpretations of many laws, regulations and rules are not always uniform and enforcement of these laws, regulations and rules involve

uncertainties, which may limit legal protections available to you and us. In addition, any litigation in China may be protracted and result in substantial costs and diversion of resources and management attention.

The China government exerts substantial influence over the manner in which we conduct our business activities.

The China government has exercised and continues to exercise substantial control over virtually every sector of the Chinese economy through regulation and state ownership. Our ability to operate in China may

be harmed by changes in its laws and regulations, including those relating to taxation, import and export tariffs, environmental regulations, land use rights, property and other matters. We believe that our operations in China are in material compliance with all applicable legal and regulatory requirements. However, the central or local governments of the jurisdictions in which we operate may impose new, stricter regulations or interpretations of existing regulations that would require additional expenditures and efforts on our part to ensure our compliance with such regulations or interpretations.

Accordingly, government actions in the future, including any decision not to continue to support recent economic reforms and to return to a more centrally planned economy or regional or local variations in the implementation of economic policies, could have a significant effect on economic conditions in China or particular regions thereof and could require us to divest ourselves of any interest we then hold in Chinese properties or joint ventures.

Restrictions on currency exchange may limit our ability to receive and use our sales revenue effectively.

Some of our sales revenue and/or expenses are or will occur in China and be denominated in Renminbi. Under PRC law, the Renminbi is currently convertible under the “current account,” which includes dividends and trade and service-related foreign exchange transactions, but not under the “capital account,” which includes foreign direct investment and loans. In the future, our China operating subsidiaries may purchase foreign currencies for settlement of current account transactions, including payments of dividends to us, without the approval of the State Administration of Foreign Exchange (the “SAFE”), by complying with certain procedural requirements. However, the relevant China government authorities may limit or eliminate our ability to purchase foreign currencies in the future. Since a significant amount of our future revenue will be denominated in Renminbi, any existing and future restrictions on currency exchange may limit our ability to utilize revenue generated in Renminbi to fund our business activities outside China that are denominated in foreign currencies.

Foreign exchange transactions by China operating subsidiaries under the capital account continue to be subject to significant foreign exchange controls and require the approval of or need to register with PRC government authorities, including SAFE. In particular, if our China operating subsidiaries borrow foreign currency through loans from us or other foreign lenders, these loans must be registered with SAFE, and if we finance the subsidiaries by means of additional capital contributions, these capital contributions must be approved by certain government authorities, including the Ministry of Commerce, or their respective local counterparts. These limitations could affect our China operating subsidiaries’ ability to obtain foreign exchange through debt or equity financing.

We may be unable to complete a business combination transaction efficiently or on favorable terms due to complicated merger and acquisition regulations which became effective on September 8, 2006.

On August 8, 2006, six PRC regulatory agencies, including the CSRC, promulgated the Regulation on Mergers and Acquisitions of Domestic Companies by Foreign Investors, which became effective on September 8, 2006. This new regulation, among other things, governs the approval process by which a China company may participate in an acquisition of assets or equity interests. Depending on the structure of the transaction, the new regulation will require the China parties to make a series of applications and supplemental applications to the government agencies. In some instances, the application process may require the presentation of economic data concerning a transaction, including appraisals of the target business and evaluations of the acquirer, which are designed to allow the government to assess the transaction. Government approvals will have expiration dates by which a transaction must be completed and reported to the government agencies. Compliance with the new regulations is likely to be more time consuming and expensive than in the past and the government can now exert more control over the combination of two businesses. Accordingly, due to the new regulation, our ability to engage in business combination transactions has become significantly more complicated, time consuming and expensive, and we may not be able to negotiate a transaction that is acceptable to our stockholders or sufficiently protect their interests in a transaction.

The new regulation allows China government agencies to assess the economic terms of a business combination transaction. Parties to a business combination transaction may have to submit to the Ministry of Commerce and other relevant government agencies an appraisal report, an evaluation report and the acquisition agreement, all of which form part of the application for approval, depending on the structure of the transaction. The regulations also prohibit a transaction at an acquisition price obviously lower than the appraised value of the China business or assets and in certain transaction structures, require that consideration must be paid within defined periods, generally not in excess of a year. The regulation also limits our ability to negotiate various terms of the acquisition, including aspects of the initial consideration, contingent consideration, holdback provisions, indemnification provisions and provisions relating to the assumption and allocation of assets and liabilities. Transaction structures involving trusts, nominees and similar entities are prohibited. Therefore, such regulation may impede our ability to negotiate and complete a business combination transaction on financial terms that satisfy our investors and protect our stockholders' economic interests.

In addition to the above risks, in many instances, we will seek to structure transactions in a manner that avoids the need to make applications or a series of applications with Chinese regulatory authorities under these new M&A regulations. If we fail to effectively structure an acquisition in a manner that avoids the need for such applications or if the Chinese government interprets the requirements of the new M&A regulations in a manner different from our understanding of such regulations, then acquisitions that we have effected may be unwound or subject to rescission. Also, if the Chinese government determines that our structure of any of our acquisitions does not comply with these new regulations, then we may also be subject to fines and penalties.

Fluctuations in exchange rates could adversely affect our business and the value of our securities.

The value of our common stock will be indirectly affected by the foreign exchange rate between U.S. dollars and the Renminbi and between those currencies and other currencies in which our sales may be denominated. Because we OEM and import products from China and some of our earnings are denominated in Renminbi and our financial results are reported in U.S. dollars, fluctuations in the exchange rate between the U.S. dollar and the Renminbi will affect our balance sheet and our earnings per share in U.S. dollars. In addition, appreciation or depreciation in the value of the Renminbi relative to the U.S. dollar would affect our financial results reported in U.S. dollar terms without giving effect to any underlying change in our business or results of operations. Fluctuations in the exchange rate will also affect the relative value of any dividend we issue that will be exchanged into U.S. dollars and earnings from, and the value of, any U.S. dollar-denominated investments we make in the future.

Since July 2005, the Renminbi has no longer been pegged to the U.S. dollar. Although the People's Bank of China regularly intervenes in the foreign exchange market to prevent significant short-term fluctuations in the exchange rate, the Renminbi may appreciate or depreciate significantly in value against the U.S. dollar in the medium to long term. Moreover, it is possible that in the future the China authorities may lift restrictions on fluctuations in the Renminbi exchange rate and lessen intervention in the foreign exchange market.

Very limited hedging transactions are available in China to reduce our exposure to exchange rate fluctuations. To date, we have not entered into any hedging transactions in an effort to reduce our exposure to foreign currency exchange risk. While we may enter into hedging transactions in the future, the availability and effectiveness of these transactions may be limited, and we may not be able to successfully hedge our exposure at all. In addition, our foreign currency exchange losses may be magnified by China exchange control regulations that restrict our ability to convert Renminbi into foreign currencies.

Currently, some of our raw materials, components and major equipment are imported. In the event that the U.S. dollars appreciate against Renminbi, our costs will increase. If we cannot pass the resulting cost increases on to our customers, our profitability and operating results will suffer.

Risks Relating to Our Common Stock

Limitations upon Broker-Dealers Effecting Transactions in "Penny Stocks"

Trading in our common stock is subject to material limitations as a consequence of regulations which limits the activities of broker-dealers effecting transactions in "penny stocks." Pursuant to Rule 3a51-1 under the Exchange Act, our common stock is a "penny stock" because it (i) is not listed on any national securities exchange or The NASDAQ Stock Market™, (ii) has a market price of less than \$5.00 per share, and (iii) its issuer (the Company) has net tangible assets less than \$2,000,000 (if the issuer has been in business for at least three (3) years) or \$5,000,000 (if the issuer has been in business for less than three (3) years).

Rule 15g-9 promulgated under the Exchange Act imposes limitations upon trading activities on "penny stocks", which makes selling our common stock more difficult compared to selling securities which are not "penny stocks." Rule 15a-9 restricts the solicitation of sales of "penny stocks" by broker-dealers unless the broker first (i) obtains from the purchaser information concerning his financial situation, investment experience and investment objectives, (ii) reasonably determines that the purchaser has sufficient knowledge and experience in financial matters that the person is capable of evaluating the risks of investing in "penny stocks", and (iii) delivers and receives back from the purchaser a manually signed written statement acknowledging the purchaser's investment experience and financial sophistication.

Rules 15g-2 through 15g-6 promulgated under the Exchange Act require broker-dealers who engage in transactions in "penny stocks" first to provide their customers with a series of disclosures and documents, including (i) a standardized risk disclosure document identifying the risks inherent in investing in "penny stocks", (ii) all compensation received by the broker-dealer in connection with the transaction, (iii) current quotation prices and other relevant market data, and (iv) monthly account statements reflecting the fair market value of the securities.

There can be no assurance that any broker-dealer which initiates quotations for the Common Stock will continue to do so, and the loss of any such broker-dealer likely would have a material adverse effect on the market price of our common stock.

No Active or Regular Market

Although our common stock has been quoted on the Pink Sheets since October 31, 1985 there have been no trades recorded in our common stock for several years. We are taking steps, including the filing of this registration statement, to encourage the development of an orderly and active trading market. After the completion of this registration statement we intend to seek to have our stock included on the Over – The – Counter – Bulletin Board maintained by FINRA (“OTCBB”) or a higher exchange. However, even if our stock is included on the OTCBB it is possible that no market-maker will want to provide such quotations. Even if our common stock is quoted on the OTCBB, the OTCBB also provides a limited trading market similar to the Pink Sheets. The OTCBB and the Pink Sheets are not stock exchanges, and trading of securities on the OTCBB or the Pink Sheets is often more sporadic than the trading of securities listed on a quotation system such as the NASDAQ Stock Market or a stock exchange such as the American Stock Exchange.

Companies quoted for trading on the OTCBB must be reporting issuers under Section 12 of the Exchange Act and must be current in their reports under Section 13 of the Exchange Act, in order to maintain price quotation privileges on the OTCBB. If our common stock is quoted on the OTCBB, and we fail to remain current on our reporting requirements, we could be removed from the OTBB. As a result, the market liquidity for our securities could be severely adversely affected by limiting the ability of broker-dealers to sell our securities and the ability of stockholders to sell their securities in the secondary market. In addition, we may be unable to regain our quotation privileges on the OTCBB, which may have an adverse material effect on our business.

Accordingly, there can be no assurance as to the liquidity of any present or future markets that may develop for our common stock, the ability of holders of our common stock to sell our common stock, or the prices at which holders may be able to sell our common stock.

Shares Eligible for Future Sale

The sale of a substantial number of shares of our common stock, or the perception that such sales could occur, could adversely affect prevailing market prices for our common stock. In addition, any such sale or perception could make it more difficult for us to sell equity, or equity related, securities in the future at a time and price that we deem appropriate. If and when this registration statement becomes effective and we become subject to the reporting requirements of the Exchange Act, we might elect to adopt a stock option plan and file a registration statement under the Securities Act registering the shares of common stock reserved for issuance thereunder. Following the effectiveness of any such registration statement, the shares of common stock issued under such plan, other than shares held by affiliates, if any, would be immediately eligible for resale in the public market without restriction.

The sale of shares of our common stock which are not registered under the Securities Act, known as “restricted” shares, typically are effected under Rule 144. At August 31, 2009 we had outstanding an aggregate of 32,938,000 shares of restricted common stock. In accordance with the recent amendments to Rule 144, since we formerly were a “shell” company no shares of our restricted common stock are eligible for sale under Rule 144 until we become subject to the reporting requirements of the Exchange Act, i.e., until this registration statement becomes effective, and then only if

we thereafter have complied with our reporting requirements under the Exchange Act for the next 12 months. No prediction can be made as to the effect, if any, that future sales of “restricted” shares of our common stock, or the availability of such shares for future sale, will have on the market price of our common stock or our ability to raise capital through an offering of our equity securities.

The sale of a substantial number of shares of our common stock, or the perception that such sales could occur, could adversely affect prevailing market prices for our common stock. In addition, any such sale or perception could make it more difficult for us to sell equity, or equity related, securities in the future at a time and price that we deem appropriate. If and when this registration statement becomes effective and we become subject to the reporting requirements of the Exchange Act, we might elect to adopt a stock option plan and file a registration statement under the Securities Act registering the shares of common stock reserved for issuance thereunder. Following the effectiveness of any such registration statement, the shares of common stock issued under such plan, other than shares held by affiliates, if any, would be immediately eligible for resale in the public market without restriction.

No Dividends

We never have paid any dividends on our common stock and we do not intend to pay any dividends in the foreseeable future.

Fiscal Year ended March 31, 2009 compared to Fiscal Year ended March 31, 2008

Revenues. We had revenues of \$20,820 in FY 2009 and no revenues in 2008 as FY 2008 was devoted to product design and establishing a business model. FY 2009 reflects an initial roll out of our business model in Canada for a portion of the year, Canada being our first and the smallest of our three initial planned markets.

Cost of Revenue; Gross Profit. Our cost of revenue in FY 2009 was \$14,790, yielding a gross profit of \$6,030 or 29% of revenues. We had no revenues, cost of revenues or gross profit in FY 2008. We anticipate that as revenues increase we will increase our gross profit margins.

Operating Expenses

Operating expenses increased to \$361,229 in FY 2009 compared to \$19,217 in FY 2008 as we began manufacturing and marketing efforts in FY 2009.

Net Loss; Comprehensive Loss

Because FY 2009 was a year where we engaged in activities such as attempting to market franchises and initiated manufacturing, we incurred expenses which positioned us to potentially realize income in future years, but did not result in income during the 2009 FY. Accordingly our net loss increased to \$(350,455) in 2009 FY from \$(19,415) in 2008 FY. The comprehensive loss for 2009 FY was further adversely affected by a loss in currency translation of \$(270,752) compared to a gain of \$143,909 in 2008 FY largely as a

result of the Canadian Dollar faring poorly against the Chinese RMB. As a result comprehensive loss was \$(621,207) in FY 2009 compared to income of \$124,494 in 2008 FY.

First Quarter FY 2010 v First Quarter FY 2009

Revenues. We had revenues of \$5,670 in Q1 of FY 2010 and revenues of \$522 Q1 of FY 2009 as FY 2009 was devoted to product design and establishing a business model. Q1 of FY 2010 reflects an initial roll out of our business model in Canada, Canada being our first and the smallest out three initial planned markets.

Cost of Revenue; Gross Profit. Our cost of revenue in Q1 of FY 2010 was \$2,122, yielding a gross profit of \$3,548 or 62% of revenues. We had minimal revenues, cost of revenues or gross profit in Q1 of FY 2009. We anticipate that as revenues increase we will increase our gross profit margins.

Operating Expenses

Operating expenses decreased to \$84,362 in Q1 of FY 2010 compared to \$134,326 in Q1 of FY 2009 as decreases in general and administrative expense, research and development and advertising were partially offset by increased commissions, payroll and professional fees.

Net Loss; Comprehensive Loss

It consists of two parts: net operating gain (loss) and foreign currency translation adjustments. Because all our transactions are recorded in Canadian dollars, we need to exchange them into US dollar using the exchange rate for different period when we release the financial statements to the public. If exchange rate fluctuates and if we have the balance of asset, liability or equity, the foreign currency translation adjustments will be large.

For the three months ended Jun 30, 2008, the net loss is -\$134,334, but foreign currency translation adjustment gain is 299,170, so the comprehensive gain is \$164,836. (For we have large intangible assets so the foreign transaction adjustments large).

For the three months ended Jun 30, 2009, the net loss is -\$82,652 but foreign currency translation adjustment gain is 110,087 so the comprehensive gain is 27,435. (For we have both large intangible assets and accounts receivable so the foreign transaction adjustments large)

Liquidity and Capital Resources

As of June 30, 2009, we had \$298,339 of cash on hand and current assets totaling \$ 363,512. We are in need of working capital if we are to pursue our business plan. Management believes that once we obtain an OTCBB listing, which we will seek upon completion of this registration statement, we will be able to seek additional funding through a private placement. We intend to raise a minimum of \$500,000 and a maximum of \$3,500,000 although no assurance can be given that we will be successful in these efforts or that such funds can be raised on terms that will not substantially dilute the interests of our present stockholders or that if such funds are raised we will prove successful in our business.

If we are able to raise funds we anticipate applying them as follows:

If \$500, 000 is raised

If \$ 3,500,000 is raised

Marketing	\$ 100,000	\$ 250,000
R & D	\$ 130,000	\$ 250,000
Production	\$ 150,000	\$ 250,000
Salaries		
	\$ 120,000	\$ 250,000
Equipment	\$ 0	\$2,000,000

Off-Balance Sheet Arrangements

We do not have any off balance sheet arrangements that are reasonably likely to have a current or future effect on our financial condition, revenues, and results of operations, liquidity or capital expenditures.

CRITICAL ACCOUNTING POLICIES AND USE OF ESTIMATES

The methods, estimates and judgments we use in applying our accounting policies have a significant impact on the results we report in our financial statements and which we discussed above in this Item 2. Some of our accounting policies require us to make difficult and subjective judgments, often as a result of the need to make estimates of matters that are inherently uncertain. We believe our critical accounting policies are those described below.

Summary of Significant Accounting Policies

a)

Basis of Presentation

These financial statements and related notes are presented in accordance with accounting principles generally accepted in the United States, and are expressed in US dollars. The Company's fiscal year-end is March 31.

b)

Principles of Consolidation

These consolidated financial statements include the accounts of Canada ANV Systems Inc. and its wholly-owned subsidiary, ANV Video Alarm Service Inc which was incorporated in British Columbia, Canada on May 30, 2008. All intercompany accounts and transactions have been eliminated in consolidation.

c)

Use of Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company regularly evaluates estimates and assumptions related to useful life and recoverability of long-lived assets, donated expenses, and deferred income tax valuation allowances. The Company bases its estimates and assumptions on current facts, historical experience and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by the Company may differ materially and adversely from the Company's estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected.

d) Reclassification

Certain account reclassifications have been made to the financial statements of the prior year in

order to conform to classifications used in the current year. These changes had no impact on previously stated financial statements of the Company.

e)

Comprehensive Income (Loss)

SFAS No. 130, "*Reporting Comprehensive Income*," establishes standards for the reporting and display of comprehensive loss and its components in the financial statements. As at March 31, 2009, the Company's only component of comprehensive income consisted of foreign currency translation adjustments.

f)

Cash and Cash Equivalents

The Company considers all highly liquid instruments with maturity of three months or less at the time of issuance to be cash equivalents.

g) Concentration of Credit Risks

Financial instruments which potentially subject the Company to concentrations of credit risk consist principally of cash and trade accounts receivable. The Company places its cash with high credit quality financial institutions in Canada. The Company has not experienced any losses in such bank accounts through March 31, 2009. At March 31, our bank deposits were as follows:

COUNTRY	2009	2008
-----	-----	-----
Canada	\$ 28,470	\$ 186,631
	-----	-----
Total cash and cash equivalents ..	\$ 28,470	\$ 186,631
	=====	=====

In an effort to mitigate any potential risk, the Company periodically evaluates the credit quality of the financial institutions at which it holds deposits.

h) Accounts Receivable

Accounts receivable are presented net of an allowance for doubtful accounts. The Company maintains allowances for doubtful accounts for estimated losses. The Company reviews the accounts receivable on a periodic basis and makes general and specific allowances when there is doubt as to the collectability of individual balances. In evaluating the collectability of individual receivable balances, the Company considers many factors, including the age of the balance, customer's historical payment history, its current credit-worthiness and current economic trends. Accounts are written off after exhaustive efforts at collection.

i) Inventories

Inventories are stated at the lower of average cost or market and consist of raw materials and finished goods. The Company writes down inventory for estimated obsolescence or unmarketable inventory based upon assumptions and estimates about future demand and market conditions. If actual market conditions are less favorable than those projected by the Company, additional inventory write-downs may be required.

j) GST Receivable

GST receivable represent tax credit that the Canadian Company receives when the Company pays GST tax during normal operations. As of March 31, 2009 and 2008, the Company had a GST tax receivable of \$ 1,408 and \$ 758, respectively.

k) Advances to Suppliers

Advances to suppliers included in Other assets represent the cash paid in advance for purchasing of inventory items from Suppliers and the amount as of March 31, 2009 was none and \$ 53,993 for 2008.

l) Property and Equipment

Property and equipment consists of furniture, office equipment, computer equipment/software and leasehold improvement, is recorded at cost. The property and equipment other than leasehold improvement is depreciated on a straight line basis over an estimated useful life of three years. Leasehold improvement is depreciated on a straight line basis over the lease period of ten years

m) Intangible Assets

Intangible assets represent a surveillance recording system, surveillance software, technical know-how and non-compete agreements, developed by Jiwei Zhang, Xianbo Fu, Kewei Feng, Mingyue Fan(all individuals), acquired originally by Landmark Enterprise Group Inc.(“Landmark”) , a related party, and subsequently sold to the Company in exchange for common shares. The value of intangible assets acquired from Landmark was established by an independent valuation report.

n)

Long-Lived Assets

In accordance with SFAS No. 144, “*Accounting for the Impairment or Disposal of Long-Lived Assets*”, the Company tests long-lived assets or asset groups for recoverability when events or changes in circumstances indicate that their carrying amount may not be recoverable. An impairment loss is recognized when the carrying amount is not recoverable and exceeds fair value.

o)

Financial Instruments and Fair Value Measures

SFAS No. 157 “*Fair Value Measurements*” requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. SFAS No. 157 establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument’s categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. SFAS No. 157 prioritizes the inputs into three levels that may be used to measure fair value:

p) Revenue Recognition

The Company follows the guidance of the Securities and Exchange Commission's Staff Accounting Bulletin No. 104, "Revenue Recognition in Financial Statements". In general, the Company records revenue when persuasive evidence of an arrangement exists, services have been rendered or product delivery has occurred, the sales price to the customer is fixed or determinable, and collectability is reasonably assured. The following policies reflect specific criteria for the various revenues streams of the Company:

The Company generates revenue from the sale of its products and records revenues from the sale of products when the goods are shipped, title passes, and collectability is reasonably assured.

Revenue from periodic maintenance monitoring agreements is generally recognized on a monthly basis provided no significant obligations remain and collectability of the related receivable is probable.

Revenue from the performance of installation services is recognized upon completion of the service.

The Company derives the bulk of its revenue from the supply and installation of surveillance and safety equipment and the two deliverables do not meet the separation criteria under EITF issue 00-

21. The installation is not considered to be essential to the functionality of the equipment having regard to the following criteria as set out in SAB 104:

i)

The surveillance and safety equipment is a standard product with minor modifications

according to customers' specifications;

ii) Installation does not significantly alter the surveillance and safety equipment's capabilities; and

iii) Other companies which possess the relevant licenses are available to perform the installation services.

The Company reduced its estimate of future warranty requirements to approximately 1 % of contract installation revenue. In the year ended 2009 and 2008, estimated warranty expenses were \$ -0- and \$ -0- , respectively.

Revenue from the outright sale of surveillance and safety equipment is recognized when delivery occurs and risk of ownership passes to the customers.

q)

Research & Development Costs

Research and development costs are expensed as incurred. Research and development costs included in general and administrative expenses for the years ended March 31, 2009 and 2008, amounted to \$142,274 and \$ -0-, respectively. The Research and Development expenses consist of engineers' salaries, research expenses paid to the 3rd party subcontractors, monthly rent fee for research and development centers and related utility outlay. Up to March 31, 2009, the company has developed the following products and solutions: (1) USC18™ Video Alarm Platform, which offers an all-in-one security system for both commercial and residential customers, and allows customers to take control of their own security requirements; (2) iCam H.264 IP Camera, which currently has three series covering market demand from home and small businesses, large businesses and government and high-end surveillance users; (3) ANV Digital Video Server, or H.264 DVS300, which is an embedded surveillance device specially designed for network application; and (4) NVS Center 500 Management Software, which can manage 1728 IP cameras simultaneously and set and control every IP camera separately, supporting 32 channels output of TV walls, centralized storage, data transmission and electric map.

r)

Income Taxes

Potential benefits of income tax losses are not recognized in the accounts until realization is more likely than not. The Company has adopted SFAS No. 109 "*Accounting for Income Taxes*" as of its inception. Pursuant to SFAS No. 109 the Company is required to compute tax asset benefits for net operating losses carried forward. Potential benefit of net operating losses have not been recognized in these financial statements because the Company cannot be assured it is more likely than not it will utilize the net operating losses carried forward in future years.

s)

Foreign Currency Translation

The Company's functional currency is the Canadian dollar. The financial statements are translated to United States dollars in accordance with SFAS No. 52 "*Foreign Currency Translation*" using period-end rates of exchange for assets and liabilities, and average rates of exchange for the year for revenues and expenses. Translation gains (losses) are recorded in accumulated other comprehensive income (loss) as a component of stockholders' equity (deficit). Gains and losses arising on translation or settlement of foreign currency denominated transactions or balances are included in the determination of income. Foreign currency transactions are primarily undertaken in United States dollars. The Company has not, to the date of these financial statements, entered into derivative instruments to offset the impact of foreign currency fluctuations.

t)

Basic and Diluted Net Income (Loss) Per Share

The Company computes net income (loss) per share in accordance with SFAS No. 128, "*Earnings per Share*". SFAS No. 128 requires presentation of both basic and diluted earnings per share (EPS) on the face of the income statement. Basic EPS is computed by dividing net income (loss) available to common shareholders (numerator) by the weighted average number of shares outstanding (denominator) during the period. Diluted EPS gives effect to all dilutive potential common shares outstanding during the period using the treasury stock method and convertible preferred stock using the if-converted method. In computing diluted EPS, the average stock price for the period is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. Diluted EPS excludes all dilutive potential shares if their effect is anti dilutive. As at March 31, 2009, there are no dilutive potential common shares.

Basic net earnings (loss) per share equals net earnings (loss) divided by the weighted average shares outstanding during the year. The computation of diluted net earnings per share does not include dilutive common stock equivalents in the weighted average shares outstanding as they would be anti-dilutive. The Company's common stock equivalents at March 31, 2009 and 2008 include the following:

	2009	2008
	-----	-----
Options	140,000	-0-
Warrants	-0-	-0-
	-----	-----
	140,000	-0-
	=====	=====

u)

Stock-based Compensation

The Company records stock-based compensation in accordance with SFAS No. 123R "Share Based Payments", using the fair value method. The Company provides its officers, consultants, and directors stock options to purchase common stock of the Company on a discretionary basis. Generally, options are granted at exercise prices not less than the fair market value at the date of grant. As of March 31, 2009, the Company has granted 140,000 shares stock options to its director, consultant and top manager and the fair market value is \$24,836.

v) Advertising

Advertising is expensed as incurred and was were \$ 58,650 and \$ 1,469 for the years ended March 31, 2009 an 2008, respectively.

w) Recent Accounting Pronouncements

In December 2007, the FASB issued SFAS 141 (revised 2007), "Business Combinations". SFAS 141R is a revision to SFAS 141 and includes substantial changes to the acquisition method used to account for business combinations (formerly the "purchase accounting" method), including broadening the definition of a business, as well as revisions to accounting methods for contingent consideration and other contingencies related to the acquired business, accounting for transaction costs, and accounting for adjustments to provisional amounts recorded in connection with acquisitions.

In December 2007, the FASB issued SFAS 160, "Non-controlling Interests in Consolidated Financial Statements - an amendment of Accounting Research Bulletin No. 51, Consolidated Financial Statements" ("ARB 51"). This Statement amends ARB 51 to establish new standards that

will govern the (1) accounting for and reporting of non-controlling interests in partially owned consolidated subsidiaries and (2) the loss of control of subsidiaries. SFAS 160 is effective for periods beginning after December 15, 2008. The Company is currently evaluating the requirements of SFAS 160.

In March 2008, the FASB issued SFAS 161, "Disclosures about Derivative Instruments and Hedging Activities". The new standard is intended to improve financial reporting about derivative instruments and hedging activities by requiring enhanced disclosures to enable investors to better understand their

effects on an entity's financial position, financial performance, and cash flows. It is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged.

In April 2008, the FASB issued FASB Staff Position ("FSP") No. FAS 142-3, "*Determination of Useful Life of Intangible Assets*" ("FSP 142-3"). FSP 142-3 amends the factors that should be considered in developing the renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS 142, "*Goodwill and Other Intangible Assets*" ("SFAS 142"). The intent of this FSP is to improve the consistency between the useful life of an intangible asset determined under SFAS 142 and the period of expected cash flows used to measure the fair value of the asset under SFAS 141R. FSP 142-3 is effective for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years.

In May 2008, the FASB issued Statement of Financial Accounting Standards ("SFAS") No. 162, "*The Hierarchy of Generally Accepted Accounting Principles*" (SFAS No. 162). SFAS No. 162 identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements.

In May 2008, the Financial Accounting Standards Board ("FASB") issued SFAS No. 163, "Accounting for Financial Guarantee Insurance Contracts-and interpretation of FASB Statement No. 60". SFAS No. 163 clarifies how Statement 60 applies to financial guarantee insurance contracts, including the recognition and measurement of premium revenue and claims liabilities. This statement also requires expanded disclosures about financial guarantee insurance contracts. SFAS No. 163 is effective for fiscal years beginning on or after December 15, 2008, and interim periods within those years. SFAS No. 163 has no effect on the Company's consolidated financial position, or their consolidated statements of operations, or consolidated cash flows at this time.

In June 2008, the FASB issued EITF No. 07-5, "*Determining Whether an Instrument (or Embedded Feature) Is Indexed to an Entity's Own Stock*" effective for financial statements issued for fiscal years and interim periods beginning after December 15, 2008. EITF No.07-5 provides guidance for determining whether an equity-linked financial instrument (or embedded feature) is indexed to an entity's own stock.

Impact of New Accounting Standards

The Company does not expect the adoption of recently issued accounting pronouncements to have a significant impact on the Company's results of operations, financial position, or cash flow.

Item 3. Properties.

Our principal executive offices consist of 1500 square feet and are leased for a term commencing January 15, 2009 and ending January 15, 2010 for \$CAN 1,050 per month, we may request a renewal of our lease prior to expiration, but the terms will be renegotiated. We believe that if we are unable to enter into a lease renewal with our current landlord, we will be able to locate other similar space in the area of our present lease.

Our laboratory and research facility is also located in Vancouver, B.C. Canada consists of 1150 square feet and is leased by ANV Video Alarm Service Inc., pursuant to a lease that expires on June 30, 2010. The rent is for varying amounts during the term of the lease and will be \$CAN 1,100 through the end of the lease. We believe that if we are not able to extend the lease we will find other suitable premises in the area of the present premises at similar costs.

Our leased premises are presently adequate for our needs. However, if our business expands we may be required to seek larger premises. Management believes that other suitable premises are available at reasonable cost in proximity to our present offices.

The payment by us of dividends, if any, in the future rests within the discretion of our board of directors and will depend, among other things, upon our earnings, capital requirements, debt covenants and financial condition, as well as other relevant factors. We do not intend to pay any cash dividends in the foreseeable future, but intend to retain all earnings, if any, for use in our business. There are no restrictions in our articles of incorporation or bylaws that prevent us from declaring dividends. The Nevada Revised Statutes, however, do prohibit us from declaring dividends where, after giving effect to the distribution of the dividend, we would not be able to pay our debts as they become due in the usual course of business, or our total assets would be less than the sum of our total liabilities plus the amount that would be needed to satisfy the rights of shareholders who have preferential rights superior to those receiving the distribution. Management is not aware of any such rights.

During the current fiscal year, the Company

Indemnification under Nevada Law

Nevada law generally permits us to indemnify our directors, officers, employees and agents. Pursuant to the provisions of Nevada Revised Statutes 78.7502, we, as a corporation organized in Nevada, may indemnify our directors, officers, employees and agents in accordance with the following:

(a) A corporation may indemnify any person who was or is a party or is threatened to be made a party to any action, except an action by or in the right of the corporation, by reason of the fact that he is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation, against expenses, actually and reasonably incurred by him in connection with the action, suit or proceeding if he: (a) is not liable for breach of his fiduciary duties as a director or officer pursuant to Nevada Revised Statutes 78.138; or (b) acted in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful.

(b) A corporation may indemnify any person who was or is a party or is threatened to be made a party to any action by or in the right of the corporation to procure a judgment in its favor, by reason of the fact that he is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation against expenses actually and reasonably incurred by him in connection with the defense or settlement of the action or suit if he: (a) is not liable for breach of his fiduciary duties pursuant to Nevada Revised Statutes 78.138; or (b) acted in good faith and

in a manner which he reasonably believed to be in or not opposed to the best interests of the corporation.

Indemnification may not be made for any claim, issue or matter as to which such a person has been adjudged by a court of competent jurisdiction, after exhaustion of all appeals there from, to be liable to the corporation or for amounts paid in settlement to the corporation, unless and only to the extent that the court in which the action or suit was brought or other court of competent jurisdiction determines upon application that in view of all the circumstances of the case, the person is fairly and reasonably entitled to indemnity for such expenses as the court deems proper.

(c) To the extent that a director, officer, employee or agent of a corporation has been successful on the merits or otherwise in defense of any action, suit or proceeding, or in defense of any claim, issue or matter therein, the corporation shall indemnify him against expenses, including attorneys' fees, actually and reasonably incurred by him in connection with the defense.

Charter Provisions, Bylaws and Other Arrangements of the Registrant

Our Certificate of Incorporation, as amended, does not contain any specific language enhancing or limiting the Nevada statutory provisions referred to above.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers and controlling persons pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy and is, therefore, unenforceable.

To be timely, a stockholder's notice must be delivered to or mailed and received at the principal executive offices of the corporation not later than the close of

business on the sixtieth (60th) day nor earlier than the close of business on the ninetieth (90th) day prior to the first anniversary of the preceding year's annual meeting; provided, however, that in the event that no annual meeting was held in the previous year or the date of the annual meeting has been changed by more than thirty (30) days from the date contemplated at the time of the previous year's proxy statement, notice by the stockholder to be timely must be so received not earlier than the close of business on the ninetieth (90th) day prior to such annual meeting and not later than the close of business on the later of the sixtieth (60th) day prior to such annual meeting or, in the event public announcement of the date of such annual meeting is first made by the corporation fewer than seventy (70) days prior to the date of such annual meeting, the close of business on the tenth (10th) day following the day on which public announcement of the date of such meeting is first made by the corporation. A stockholder's notice to the Secretary shall set forth as to each matter the stockholder proposes to bring before the annual meeting: (i) a brief description of the business desired to be brought before the annual meeting and the reasons for conducting such business at the annual meeting, (ii) the name and address, as they appear on the corporation's books, of the stockholder proposing such business, (iii) the class and number of shares of the corporation which are beneficially owned by the stockholder, (iv) any material interest of the stockholder in such business and (v) any other information that is required to be provided by the stockholder pursuant to Regulation 14A under the Securities Exchange Act of 1934, as amended (the "1934 Act"), in his capacity as a proponent to a stockholder proposal. Notwithstanding the foregoing, in order to include information with respect to a stockholder proposal in the proxy statement and form of proxy for a stockholder's meeting, stockholders must provide notice as required by the regulations promulgated under the 1934 Act. Notwithstanding anything in these Bylaws to the contrary, no business shall be conducted at any annual meeting except in accordance with the procedures set forth in this paragraph (b). The chairman of the annual meeting shall, if the facts warrant, determine and declare at the meeting that business was not properly brought before the meeting and in accordance with the provisions of this paragraph (b), and, if he should so determine, he shall so declare at the meeting that any such business not properly brought before the meeting shall not be transacted.

(c) Only persons who are confirmed in accordance with the procedures set forth in this paragraph (c) shall be eligible for election as directors. Nominations of persons for election to the Board of Directors of the corporation may be made at a meeting of stockholders by or at the direction of the Board of Directors or by any stockholder of the corporation entitled to vote in the election of directors at the meeting who complies with the notice procedures set forth in this paragraph (c). Such nominations, other than those made by or at the direction of the Board of Directors, shall be made pursuant to timely notice in writing to the Secretary of the corporation in accordance with the provisions of paragraph (b) of this Section 5. Such stockholder's notice shall set forth (i) as to each person, if any, whom the stockholder proposes to nominate for election or re-election as a director: (A) the name, age, business address and residence address of such person, (B) the principal occupation or employment of such person, (C) the class and number of shares of the corporation which are beneficially owned by such person, (D) a description of all arrangements or understandings between the stockholder and each nominee and any other person or persons (naming such person or persons) pursuant to which the nominations are to be made by the stockholder, and (E) any other information relating to such person that is required to be disclosed in solicitations of proxies for election of directors, or is otherwise required, in each case pursuant to Regulation 14A under the 1934 Act (including without limitation such person's written consent to being named in the proxy statement, if any, as a nominee and to serving as a director if elected); and (ii) as to such stockholder giving notice, the information required to be provided pursuant to paragraph (b) of this Section 5. At the request of the Board of Directors, any person nominated by a stockholder for election as a director shall furnish to the Secretary of the corporation that information required to be set forth in the stockholder's notice of nomination which pertains to the nominee. No person shall be eligible for election as a director of the corporation unless nominated in accordance with the procedures set forth in this paragraph (c). The chairman of the meeting shall, if the facts warrant, determine and declare at the meeting that a nomination was not made in accordance with the procedures prescribed by these Bylaws, and if he should so determine, he shall so declare at the meeting, and the defective nomination shall be disregarded.

(d) For purposes of this Section 5, "public announcement" shall mean disclosure in a press release reported by the Dow Jones News Service, Associated Press or comparable national news service or in a document publicly filed by the corporation with the Securities and Exchange Commission pursuant to Section 13, 14

or 15(d) of the Exchange Act.

Section 3. Special Meetings. (a) Special meetings of the stockholders of the corporation may be called, for any purpose or purposes, by (i) the Chairman of the Board of Directors, (ii) the Chief Executive Officer, or (iii) the Board of Directors pursuant to a resolution adopted by a majority of the total number of authorized directors (whether or not there exist any vacancies in previously authorized directorships at the time any such resolution is presented to the Board of Directors for adoption), and shall be held at such place, on such date, and at such time as the Board of Directors, shall determine.

(b) If a special meeting is called by any person or persons other than the Board of Directors, the request shall be in writing, specifying the general nature of the business proposed to be transacted, and shall be delivered personally or sent by registered mail or by telegraphic or other facsimile transmission to the Chairman of the Board of Directors, the Chief Executive Officer, or the Secretary of the corporation. No business may be transacted at such special meeting otherwise than specified in such notice. The Board of Directors shall determine the time and place of such special meeting, which shall be held not less than thirty-five (35) nor more than one hundred twenty (120) days after the date of the receipt of the request. Upon determination of the time and place of the meeting, the officer receiving the request shall cause notice to be given to the stockholders entitled to vote, in accordance with the provisions of Section 7 of these Bylaws. If the notice is not given within sixty (60) days after the receipt of the request, the person or persons requesting the meeting may set the time and place of the meeting and give the notice. Nothing contained in this paragraph (b) shall be construed as limiting, fixing, or affecting the time when a meeting of stockholders called by action of the Board of Directors may be held.

Section 4. Notice of Meetings. Except as otherwise provided by law or the Articles of Incorporation, written notice of each meeting of stockholders shall be given not less than ten (10) nor more than sixty (60) days before the date of the meeting to each stockholder entitled to vote at such meeting, such notice to specify the place, date and hour and purpose or purposes of the meeting. Notice of the time, place and purpose of any meeting of stockholders may be waived in writing, signed by the person entitled to notice thereof, either before or after such meeting, and will be waived by any stockholder by his attendance thereat in person or by proxy, except when the stockholder attends a meeting for the express purpose of objecting, at the beginning of the meeting, to the transaction of any business because the meeting is not lawfully called or convened. Any stockholder so waiving notice of such meeting shall be bound by the proceedings of any such meeting in all respects as if due notice thereof had been given.

Section 5. Quorum. At all meetings of stockholders, except where a greater requirement is provided by statute or by the Articles of Incorporation, or by these Bylaws, the presence, in person or by proxy duly authorized, of the holder or holders of a majority of the outstanding shares of the corporation's common voting stock shall constitute a quorum for the transaction of business. In the absence of a quorum, any meeting of stockholders may be adjourned, from time to time, either by the chairman of the meeting or by vote of the holders of a majority of the shares represented thereat, but no other business shall be transacted at such meeting. The stockholders present at a duly called or convened meeting, at which a quorum is present, may continue to transact business until adjournment, notwithstanding the withdrawal of enough stockholders to leave less than a quorum. Except as otherwise provided by law, the Articles of Incorporation or these Bylaws, all action taken by the holders of a majority of the votes cast, excluding abstentions, at any meeting at which a quorum is present shall be valid and binding upon the corporation; provided, however, that directors shall be elected by a plurality of the votes of the shares present in person or represented by proxy at the

meeting and entitled to vote on the election of directors. Where a separate vote by a class or classes or series is required, except where otherwise provided by the statute or by the Articles of Incorporation or these Bylaws, a majority of the outstanding shares of such class or classes or series, present in person or represented by proxy, shall constitute a quorum entitled to take action with respect to that vote on that matter and, except where otherwise provided by the statute or by the Articles of Incorporation or these Bylaws, the affirmative vote of the majority (plurality, in the case of the election of directors) of the votes cast, including abstentions, by the holders of shares of such class or classes or series shall be the act of such class or classes or series.

Section 6. Adjournment and Notice of Adjourned Meetings. Any meeting of stockholders, whether

annual or special, may be adjourned from time to time either by the chairman of the meeting or by the vote of a majority of the shares casting votes, excluding abstentions. When a meeting is adjourned to another time or place, notice need not be given of the adjourned meeting if the time and place thereof are announced at the meeting at which the adjournment is taken. At the adjourned meeting, the corporation may transact any business which might have been transacted at the original meeting. If the adjournment is for more than thirty (30) days or if after the adjournment a new record date is fixed for the adjourned meeting, a notice of the adjourned meeting shall be given to each stockholder of record entitled to vote at the meeting.

Section 7. Voting Rights. For the purpose of determining those stockholders entitled to vote at any meeting of the stockholders, except as otherwise provided by law, only persons in whose names shares stand on the stock records of the corporation on the record date, as provided in Section 12 of these Bylaws, shall be entitled to vote at any meeting of stockholders. Every person entitled to vote shall have the right to do so either in person or by an agent or agents authorized by a proxy granted in accordance with Nevada law. An agent so appointed need not be a stockholder. No proxy shall be voted after three (3) years from its date of creation unless the proxy provides for a longer period.

Section 8. Joint Owners of Stock. If shares or other securities having voting power stand of record in the names of two (2) or more persons, whether fiduciaries, members of a partnership, joint tenants, tenants in common, tenants by the entirety, or otherwise, or if two (2) or more persons have the same fiduciary relationship respecting the same shares, unless the Secretary is given written notice to the contrary and is furnished with a copy of the instrument or order appointing them or creating the relationship wherein it is so provided, their acts with respect to voting shall have the following effect: (a) if only one (1) votes, his act binds all; (b) if more than one (1) votes, the act of the majority so voting binds all; (c) if more than one (1) votes, but the vote is evenly split on any particular matter, each faction may vote the securities in question proportionally. If the instrument filed with the Secretary shows that any such tenancy is held in unequal interests, a majority or even-split for the purpose of subsection (c) shall be a majority or even-split in interest.

Section 9. List of Stockholders. The Secretary shall prepare and make, at least ten (10) days before every meeting of stockholders, a complete list of the stockholders entitled to vote at said meeting, arranged in alphabetical order, showing the address of each stockholder and the number of shares registered in the name of each stockholder. Such list shall be open to the examination of any stockholder, for any purpose germane to the meeting, during ordinary business hours, for a period of at least ten (10) days prior to the meeting, either at a place within the city where the meeting is to be held, which place shall be specified in the notice of the meeting, or, if not specified, at the place where the meeting is to be held. The list shall be produced and kept at the time and place of meeting during the whole time thereof and may be inspected by any stockholder who is present.

Section 10. Action Without Meeting. Any action required or permitted to be taken at a meeting of the stockholders may be taken without a meeting if a written consent thereto is signed by stockholders holding at least a majority of the voting power, except that if a different proportion of voting power is required for such an action at a meeting, then that proportion of written consents is required.

Section 11. Organization. (a) At every meeting of stockholders, the Chairman of the Board of Directors, or, if a Chairman has not been appointed or is absent, the President, or, if the President is absent, a chairman of the meeting chosen by a majority in interest of the stockholders entitled to vote, present in person or by proxy, shall act as chairman. The Secretary, or, in his absence, an Assistant Secretary directed to do so by the President, shall act as secretary of the meeting.

(b) The Board of Directors of the corporation shall be entitled to make such rules or regulations for the conduct of meetings of stockholders as it shall deem necessary, appropriate or convenient. Subject to such rules and regulations of the Board of Directors, if any, the chairman of the meeting shall have the right and authority to prescribe such rules, regulations and procedures and to do all such acts as, in the judgment of such chairman, are necessary, appropriate or convenient for the proper conduct of the meeting, including, without limitation, establishing an agenda or order of business for the meeting, rules and procedures for

maintaining order at the meeting and the safety of those present, limitations on participation in such meeting to stockholders of record of the corporation and their duly authorized and constituted proxies and such other persons as the chairman shall permit, restrictions on entry to the meeting after the time fixed for the commencement thereof, limitations on the time allotted to questions or comments by participants and regulation of the opening and closing of the polls for balloting on matters which are to be voted on by ballot. Unless and to the extent determined by the Board of Directors or the chairman of the meeting, meetings of stockholders shall not be required to be held in accordance with rules of parliamentary procedure.

ARTICLE IV

DIRECTORS

Section 1. Number and Qualification. The authorized number of directors of the corporation shall be not less than one (1) nor more than ten (10) as fixed from time to time by resolution of the Board of Directors; provided that no decrease in the number of directors shall shorten the term of any incumbent directors. Directors need not be stockholders unless so required by the Articles of Incorporation. If for any cause, the directors shall not have been elected at an annual meeting, they may be elected as soon thereafter as convenient at a special meeting of the stockholders called for that purpose in the manner provided in these Bylaws.

Section 2. Powers. The powers of the corporation shall be exercised, its business conducted and its property controlled by the Board of Directors, except as may be otherwise provided by statute or by the Articles of Incorporation.

Section 3. Election and Term of Office of Directors. Members of the Board of Directors shall hold office for the terms specified in the Articles of Incorporation, as it may be amended from time to time, and until their successors have been elected as provided in the Articles of Incorporation.

Section 4. Vacancies. Unless otherwise provided in the Articles of Incorporation, any vacancies on the Board of Directors resulting from death, resignation, disqualification, removal or other causes and any newly created directorships resulting from any increase in the number of directors, shall unless the Board of Directors determines by resolution that any such vacancies or newly created directorships shall be filled by stockholder vote, be filled only by the affirmative vote of a majority of the directors then in office, even though less than a quorum of the Board of Directors. Any director elected in accordance with the preceding sentence shall hold office for the remainder of the full term of the director for which the vacancy was created or occurred and until such director's successor shall have been elected and qualified. A vacancy in the Board of Directors shall be deemed to exist under this Bylaw in the case of the death, removal or resignation of any director.

Section 5. Resignation. Any director may resign at any time by delivering his written resignation to the Secretary, such resignation to specify whether it will be effective at a particular time, upon receipt by the Secretary or at the pleasure of the Board of Directors. If no such specification is made, it shall be deemed effective at the pleasure of the Board of Directors. When one or more directors shall resign from the Board of Directors, effective at a future date, a majority of the directors then in office, including those who have so resigned, shall have power to fill such vacancy or vacancies, the vote thereon to take effect when such resignation or resignations shall become effective, and each director so chosen shall hold office for the unexpired portion of the term of the director whose place shall be vacated and until his successor shall have been duly elected and qualified.

Section 6. Removal. Subject to the Articles of Incorporation, any director may be removed by:

(a) the affirmative vote of the holders of a majority of the outstanding shares of the Corporation then entitled to vote, with or without cause; or

(b) the affirmative and unanimous vote of a majority of the directors of the Corporation, with the exception

of the vote of the directors to be removed, with or without cause.

Section 7. Meetings. (a) Annual Meetings. The annual meeting of the Board of Directors shall be held immediately after the annual meeting of stockholders and at the place where such meeting is held. No notice of an annual meeting of the Board of Directors shall be necessary and such meeting shall be held for the purpose of electing officers and transacting such other business as may lawfully come before it.

(b) Regular Meetings. Except as hereinafter otherwise provided, regular meetings of the Board of Directors shall be held in the office of the corporation required to be maintained pursuant to Section 2 hereof. Unless otherwise restricted by the Articles of Incorporation, regular meetings of the Board of Directors may also be held at any place within or without the state of Nevada which has been designated by resolution of the Board of Directors or the written consent of all directors.

(c) Special Meetings. Unless otherwise restricted by the Articles of Incorporation, special meetings of the Board of Directors may be held at any time and place within or without the

State of Nevada whenever called by the Chairman of the Board, the President or any two of the directors.

(d) Telephone Meetings. Any member of the Board of Directors, or of any committee thereof, may participate in a meeting by means of conference telephone or similar communications equipment by means of which all persons participating in the meeting can hear each other, and participation in a meeting by such means shall constitute presence in person at such meeting.

(e) Notice of Meetings. Notice of the time and place of all special meetings of the Board of Directors shall be orally or in writing, by telephone, facsimile, telegraph or telex, during normal business hours, at least twenty-four (24) hours before the date and time of the meeting, or sent in writing to each director by first class mail, charges prepaid, at least three (3) days before the date of the meeting. Notice of any meeting may be waived in writing at any time before or after the meeting and will be waived by any director by attendance thereat, except when the director attends the meeting for the express purpose of objecting, at the beginning of the meeting, to the transaction of any business because the meeting is not lawfully called or convened.

(f) Waiver of Notice. The transaction of all business at any meeting of the Board of Directors, or any committee thereof, however called or noticed, or wherever held, shall be as valid as though had at a meeting duly held after regular call and notice, if a quorum be present and if, either before or after the meeting, each of the directors not present shall sign a written waiver of notice. All such waivers shall be filed with the corporate records or made a part of the minutes of the meeting.

Section 8. Quorum and Voting. (a) Unless the Articles of Incorporation requires a greater number and except with respect to indemnification questions arising the sections and articles hereof relating to indemnification, for which a

quorum shall be one-third of the exact number of directors fixed from time to time in accordance with the Articles of Incorporation, a quorum of the Board of Directors shall consist of a majority of the exact number of directors fixed from time to time by the Board of Directors in accordance with the Articles of Incorporation provided, however, at any meeting whether a quorum be present or otherwise, a majority of the directors present may adjourn from time to time until the time fixed for the next regular meeting of the Board of Directors, without notice other than by announcement at the meeting.

(b) At each meeting of the Board of Directors at which a quorum is present, all questions and business shall be determined by the affirmative vote of a majority of the directors present, unless a different vote be required by law, the Articles of Incorporation or these Bylaws.

Section 9. Action Without Meeting. Unless otherwise restricted by the Articles of Incorporation or these Bylaws, any action required or permitted to be taken at any meeting of the Board of Directors or of any committee thereof may be taken without a meeting, if all members of the Board of Directors or committee, as the case may be, consent thereto in writing, and such writing or writings are filed with the minutes of proceedings of the Board of Directors or committee.

Section 10. Fees and Compensation. Directors shall be entitled to such compensation for their services as

may be approved by the Board of Directors, including, if so approved, by resolution of the Board of Directors, a fixed sum and expenses of attendance, if any, for attendance at each regular or special meeting of the Board of Directors and at any meeting of a committee of the Board of Directors. Nothing herein contained shall be construed to preclude any director from serving the corporation in any other capacity as an officer, agent, employee, or otherwise and receiving compensation therefore.

Section 11. Committees. (a) Executive Committee. The Board of Directors may by resolution passed by a majority of the whole Board of Directors appoint an Executive Committee to consist of one (1) or more members of the Board of Directors. The Executive Committee, to the extent permitted by law and provided in the resolution of the Board of Directors shall have and may exercise all the powers and authority of the Board of Directors in the management of the business and affairs of the corporation, including without limitation the power or authority to declare a dividend, to authorize the issuance of stock and to adopt a certificate of ownership and merger, and may authorize the seal of the corporation to be affixed to all papers which may require it; but no such committee shall have the power or authority in reference to amending the Articles of Incorporation (except that a committee may, to the extent authorized in the resolution or resolutions providing for the issuance of shares of stock adopted by the Board of Directors fix the designations and any of the preferences or rights of such shares relating to dividends, redemption, dissolution, any distribution of assets of the corporation or the conversion into, or the exchange of such shares for, shares of any other class or classes or any other series of the same or any other class or classes of stock of the corporation or fix the number of shares of any series of stock or authorize the increase or decrease of the shares of any series), adopting an agreement of merger or consolidation, recommending to the stockholders the sale, lease or exchange of all or substantially all of the corporation's property and assets, recommending to the stockholders a dissolution of the corporation or a revocation of a dissolution, or amending the bylaws of the corporation.

(b) Other Committees. The Board of Directors may, by resolution passed by a majority of the whole Board of Directors, from time to time appoint such other committees as may be permitted by law. Such other committees appointed by the Board of Directors shall consist of one (1) or more members of the Board of Directors and shall have such powers and perform such duties as may be prescribed by the resolution or resolutions creating such committees, but in no event shall such committee have the powers denied to the Executive Committee in these Bylaws.

(c) Term. Each member of a committee of the Board of Directors shall serve a term on the committee coexistent with such member's term on the Board of Directors. The Board of Directors, subject to the provisions of subsections (a) or (b) of this Bylaw may at any time increase or decrease the number of members of a committee or terminate the existence of a committee. The membership of a committee member shall terminate on the date of his death or voluntary resignation from the committee or from the Board of Directors. The Board of Directors may at any time for any reason remove any individual committee member and the Board of Directors may fill any committee vacancy created by death, resignation, removal or increase in the number of members of the committee. The Board of Directors may designate one or more directors as alternate members of any committee, who may replace any absent or disqualified member at any meeting of the committee, and, in addition, in the absence or disqualification of any member of a committee, the member or members thereof present at any meeting and not disqualified from voting, whether or not he or they constitute a quorum, may unanimously appoint another member of the Board of Directors to act at the meeting in the place of any such absent or disqualified member.

(d) Meetings. Unless the Board of Directors shall otherwise provide, regular meetings of the Executive Committee or any other committee appointed pursuant to this Section 11 shall be held at such times and places as are determined by the Board of Directors, or by any such committee, and when notice thereof has been given to each member of such

committee, no further notice of such regular meetings need be given thereafter. Special meetings of any such committee may be held at any place which has been determined from time to time by such committee, and may be called by any director who is a member of such committee, upon written notice to the members of such committee of the time and place of such special meeting given in the manner provided for the giving of written notice to members of the Board of Directors of the time and place of special meetings of the Board of Directors. Notice of any special meeting of any committee may be waived in writing at any time before or after the meeting and will be waived by any director by attendance thereat, except when the director attends such special meeting for the express

purpose of objecting, at the beginning of the meeting, to the transaction of any business because the meeting is not lawfully called or convened. A majority of the authorized number of members of any such committee shall constitute a quorum for the transaction of business, and the act of a majority of those present at any meeting at which a quorum is present shall be the act of such committee.

Section 12. Organization. At every meeting of the directors, the Chairman of the Board of Directors, or, if a Chairman has not been appointed or is absent, the President, or if the President is absent, the most senior Vice President, or, in the absence of any such officer, a chairman of the meeting chosen by a majority of the directors present, shall preside over the meeting. The Secretary, or in his absence, an Assistant Secretary directed to do so by the President, shall act as secretary of the meeting.

ARTICLE V

The Board of Directors may also appoint one or more Assistant Secretaries, Assistant Treasurers and such other officers and agents with such powers and duties as it shall deem necessary. The Board of Directors may assign such additional titles to one or more of the officers as it shall deem appropriate. Any one person may hold any number of offices of the corporation at any one time unless specifically prohibited therefrom by law. The salaries and other compensation of the officers of the corporation shall be fixed by or in the manner designated by the Board of Directors.

If the office of any officer becomes vacant for any reason, the vacancy may be filled by the Board of Directors.

The Treasurer shall perform other duties commonly incident to his office and shall also perform such other duties and have such other powers as the Board of Directors or the President shall designate from time to time.

Section 3. Delegation of Authority. The Board of Directors may from time to time delegate the powers or duties of any officer to any other officer or agent, notwithstanding any provision hereof.

Section 4. Resignations. Any officer may resign at any time by giving written notice to the Board of Directors or to the President or to the Secretary. Any such resignation shall be effective when received by the person or persons to whom such notice is given, unless a later time is specified therein, in which event the resignation shall become effective at such later time. Unless otherwise specified in such notice, the acceptance of any such resignation shall not be necessary to make it effective. Any resignation shall be without prejudice to the rights, if any, of the corporation under any contract with the resigning officer.

Section 5. Removal. Any officer may be removed from office at any time, either with or without cause, by the affirmative vote of a majority of the directors in office at the time, or by the unanimous written consent of the directors in office at the time, or by any committee or superior officers upon whom such power of removal may have been conferred by the Board of Directors.

ARTICLE VI

Section 2. Voting of Securities Owned by the Corporation. All stock and other securities of other corporations owned or held by the corporation for itself, or for other parties in any capacity, shall be voted, and all proxies with respect thereto shall be executed, by the person authorized so to do by resolution of the Board of Directors, or, in the absence of such authorization, by the Chairman of the Board of Directors, the Chief Executive Officer, the President, or any Vice President.

Any or all of the signatures on the certificate may be facsimiles. In case any officer, transfer agent, or registrar who has signed or whose facsimile signature has been placed upon a certificate shall have ceased to be such officer, transfer agent, or registrar before such certificate is issued, it may be issued with the same effect as if he were such officer, transfer agent, or registrar at the date of issue. Each certificate shall state upon the face or back thereof, in full or in summary, all of the powers, designations, preferences, and rights, and the limitations or restrictions of the shares authorized to be issued or shall, except as otherwise required by law, set forth on the face or back a statement that the corporation will furnish without charge to each stockholder who so requests the powers, designations, preferences and relative, participating, optional, or other special rights of each class of stock or series thereof and the qualifications, limitations or restrictions of such preferences and/or rights. Within a reasonable time after the issuance or transfer of uncertificated stock, the corporation shall send to the registered owner thereof a written notice containing the information required to be set forth or stated on certificates pursuant to this section or otherwise required by law or with respect to this section a statement that the corporation will furnish without charge to each stockholder who so requests the powers, designations, preferences and relative participating, optional or other special rights of each class of stock or series thereof and the qualifications, limitations or restrictions of such preferences and/or rights. Except as otherwise expressly provided by law, the rights and obligations of the holders of certificates representing stock of the same class and series shall be identical.

Section 2. Lost Certificates. (a) In order that the corporation may determine the stockholders entitled to notice of or to vote at any meeting of stockholders or any adjournment thereof, the Board of Directors may fix, in advance, a record date, which record date shall not precede the date upon which the resolution fixing the record date is adopted by the Board of Directors, and which record date shall not be more than sixty (60) nor less than ten (10) days before the date of such meeting. If no record date is fixed by the Board of Directors, the record date for determining stockholders entitled to notice of or to vote at a meeting of stockholders shall be at the close of business on the day next preceding the day on which notice is given, or if notice is waived, at the close of business on the day next preceding the day on which the meeting is held. A determination of stockholders of record entitled to notice of or to

ARTICLE XI

INDEMNIFICATION

(a) Director Immunity. Directors and officers will be immune from monetary liabilities to the fullest extent not prohibited by Nevada law. Excepted from that immunity are:

* a willful failure to deal fairly with the corporation or its shareholders in connection with a matter in which the director has a material conflict of interest;

* a violation of criminal law unless the director had reasonable cause to believe that his or her conduct was lawful or no reasonable cause to believe that his or her conduct was unlawful;

* a transaction from which the director derived an improper personal profit; and

* willful misconduct.

(b) Directors and Officers. The corporation will indemnify its directors, officers and agents to the fullest extent not prohibited by Nevada law; provided, however, that the corporation may modify the extent of such indemnification by individual contracts with its directors, officers and agents; and, provided, further, that the corporation shall not be required to indemnify any director, officer or agent in connection with any proceeding (or part thereof) initiated by such person unless (i) such indemnification is expressly required to be made by law, (ii) the proceeding was authorized by the Board of Directors of the corporation, (iii) such indemnification is provided by the corporation, in its sole discretion, pursuant to the powers vested in the corporation under Nevada law or (iv) such indemnification is required to be made pursuant to these Bylaws.

The corporation will advance to any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, by reason of the fact that he is or was a director or officer, of the corporation, or is or was serving at the request of the corporation as a director or executive officer of another corporation, partnership, joint venture, trust or other enterprise, prior to the final disposition of the proceeding, promptly following request therefor, all expenses incurred by any director or officer in connection with such proceeding upon receipt of an undertaking by or on behalf of such person to repay said amounts if it should be determined ultimately that such person is not entitled to be indemnified under these Bylaws.

No advance shall be made by the corporation to an officer of the corporation (except by reason of the fact that such officer is or was a director of the corporation in which event this paragraph shall not apply) in any action, suit or proceeding, whether civil, criminal, administrative or investigative, if a determination is reasonably and promptly made (i) by the Board of Directors by a majority vote of a quorum consisting of directors who were not parties to the proceeding, or (ii) if such quorum is not obtainable, or, even if obtainable, a quorum of disinterested directors so directs, by independent legal counsel in a written opinion, that the facts known to the decision-making party at the time such determination is made demonstrate clearly and convincingly that such person acted in bad faith or in a manner that such person did not believe to be in or not opposed to the best interests of the corporation.

ARTICLE XII

NOTICES

Section 1. Notice to Stockholders. Whenever, under any provisions of these Bylaws, notice is required to be given to any stockholder, it shall be given in writing, timely and duly deposited in the United States mail, postage prepaid, and

addressed to his last known post office address as shown by the stock record of the corporation or its transfer agent.

Section 2. Notice to directors. Any notice required to be given to any director may be given by the method stated in subsection (a), or by facsimile, telex or telegram, except that such notice other than one which is delivered personally shall be sent to such address as such director shall have filed in writing with the Secretary, or, in the absence of such filing, to the last known post office address of such director.

Section 3. Affidavit of Mailing. An affidavit of mailing, executed by a duly authorized and competent employee of the corporation or its transfer agent appointed with respect to the class of stock affected, specifying the name and address or the names and addresses of the stockholder or stockholders, or director or directors, to whom any such notice or notices was or were given, and the time and method of giving the same, shall in the absence of fraud, be prima facie evidence of the facts therein contained.

Section 4. Time and Methods of Notices. All notices given by mail, as above provided, shall be deemed to have been given as at the time of mailing, and all notices given by facsimile, telex or telegram shall be deemed to have been given as of the sending time recorded at time of transmission. It shall not be necessary that the same method of giving notice be employed in respect of all directors, but one permissible method may be employed in respect of any one or more, and any other permissible method or methods may be employed in respect of any other or others.

Section 5. Failure to Receive Notice. The period or limitation of time within which any stockholder may exercise any option or right, or enjoy any privilege or benefit, or be required to act, or within which any director may exercise any power or right, or enjoy any privilege, pursuant to any notice sent him in the manner above provided, shall not be affected or extended in any manner by the failure of such stockholder or such director to receive such notice.

Section 6. Notice to Person with Undeliverable Address. Whenever notice is required to be given, under any provision of law or the Articles of Incorporation or Bylaws of the corporation, to any stockholder to whom (i) notice of two consecutive annual meetings, and all notices of meetings or of the taking of action by written consent without a meeting to such person during the period between such two consecutive annual meetings, or (ii) all, and at least two, payments (if sent by first class mail) of dividends or interest on securities during a twelve-month period, have been mailed addressed to such person at his address as shown on the records of the corporation and have been returned undeliverable, the giving of such notice to such person shall not be required. Any action or meeting which shall be taken or held without notice to such person shall have the same force and effect as if such notice had been duly given. If any such person shall deliver to the corporation a written notice setting forth his then current address, the requirement that notice be given to such person shall be reinstated. In the event that the action taken by the corporation is such as to require the filing of a certificate under any provision of the Nevada General Corporation Law, the certificate need not state that notice was not given to persons to whom notice was not required to be given pursuant to this paragraph.

ARTICLE XII

AMENDMENTS

The Board of Directors and the shareholders shall have the power to adopt, amend, or repeal these Bylaws, provided however, that no Bylaw adopted by the shareholders shall be repealed or modified by the directors for a period of at least two years.

20.

If the Tenant continues to occupy the Premises without the written consent of the Landlord at the expiration or other termination of the term, then the Tenant will be a tenant at will and will pay to the Landlord, as liquidated damages and not as rent, an amount equal to twice the Base Rent plus any Additional Rent during the period of such occupancy, accruing from day to day and adjusted pro rata accordingly, and subject always to all the other provisions of this Lease insofar as they are applicable to a tenancy at will and a tenancy from month to month or from year to year will not be created by implication of law; provided that nothing in this clause contained will preclude the Landlord from taking action for recovery of possession of the Premises. **Additional Rights on Reentry**

The Landlord will not be responsible to the Tenant for the disposal of such property other than to provide any balance of the proceeds to the Tenant after paying any storage costs and any amounts owed by the Tenant to the Landlord;

e.

the Landlord may relet the Premises or any part of the Premises for a term or terms which may be less or greater than the balance of the term of this Lease remaining and may grant reasonable concessions in connection with such reletting including any alterations and improvements to the Premises; and

after reentry, the Landlord may procure the appointment of a receiver to take possession and collect rents and profits of the business of the Tenant, and, if necessary to collect the rents and profits the receiver may carry on the business of the Tenant and take possession of the personal property used in the business of the Tenant, including inventory, trade fixtures, and furnishings, and use them in the business without compensating the Tenant;

g.

after reentry, the Landlord may terminate the Lease on giving 5 days written notice of termination to the Tenant. Without this notice, reentry of the Premises by the Landlord or its agents will not terminate this Lease;

iii.

as liquidated damages for the loss of rent and other income of the Landlord expected to be derived from this Lease during the period which would have constituted the unexpired portion of the term had it not been terminated, at the option of the Landlord, either:

i.

an amount determined by reducing to present worth at an assumed interest rate of twelve percent (12%) per annum all Base Rent and estimated Additional Rent to become payable during the period which would have constituted the unexpired portion of the term, such determination to be made by the Landlord, who may make reasonable estimates of when any such other amounts would have become payable and may make such other assumptions of the facts as may be reasonable in the circumstances; or

ii.

an amount equal to the Base Rent and estimated Additional Rent for a period of six (6) months.

Inspections

22.

Tenant acknowledges that it inspected the Premises, including the grounds and all buildings and improvements, and that they are, at the time of the execution of this Lease, in good order, good repair, safe, clean, and tenantable condition.

The Landlord is responsible for the payment of the following utilities and other charges in relation to the Premises: water and sewer. The Landlord will also pay for the following: STRATA FEE.

27.

The Tenant is responsible for the payment of the following utilities and other charges in relation to the Premises: electricity, telephone, Internet and cable. **Insurance**

34.

It is the intention of the parties to this Lease that the tenancy created by this Lease and the performance under this Lease, and all suits and special proceedings under this Lease, be construed in accordance with and governed, to the exclusion of the law of any other forum, by the laws of the Province of British Columbia, without regard to the jurisdiction in which any action or special proceeding may be instituted. **Severability**

35.

If there is a conflict between any provision of this Lease and the applicable legislation of the Province of British Columbia (the "Act"), the Act will prevail and such provisions of the Lease will be amended or deleted as necessary in order to comply with the Act. 36.

Without the prior, express, and written consent of the Landlord, the Tenant will not assign this Lease, or sublet or grant any concession or license to use the Premises or any part of the Premises. A consent by Landlord to one assignment, subletting, concession, or license will not be deemed to be a consent to any subsequent assignment, subletting, concession, or license. An assignment, subletting, concession, or license without the prior written consent of Landlord, or an assignment or subletting by operation of law, will be void and will, at Landlord's option, terminate this Lease.**Additional Provisions**

37.

TENANT CAN INSTALL COMPANY LOGO AND NAME ON THE GATE AND OUTDOOR WALL WITH THE STRATA COMPANY CONSENT.**Maintenance**

38.

The Tenant will, at its sole expense, keep and maintain the Premises and appurtenances in good and sanitary condition and repair during the term of this Lease and any renewal of this Lease.

The Tenant will promptly notify the Landlord of any damage, or of any situation that may significantly interfere with the normal use of the Premises or to any furnishings supplied by the Landlord.

41.

Vehicles which the Landlord reasonably considers unsightly, noisy, dangerous, improperly insured, inoperable or unlicensed are not permitted in the Tenant's parking stall(s), and such vehicles may be towed away at the Tenant's expense. Parking facilities are provided at the Tenant's own risk. The Tenant is required to park in only the space allotted to them.

42.

The Tenant will not make (or allow to be made) any noise or nuisance which, in the reasonable opinion of the Landlord, disturbs the comfort or convenience of other tenants.

43.

The Tenant will not engage in any illegal trade or activity on or about the Premises.

44.

The Landlord and Tenant will comply with standards of health, sanitation, fire, housing and safety as required by law.

45.

At the expiration of the lease term, the Tenant will quit and surrender the Premises in as good a state and condition as they were at the commencement of this Lease, reasonable use and wear and damages by the elements excepted. **Hazardous Materials**

46.

The Tenant will not keep or have on the Premises any article or thing of a dangerous, flammable, or explosive character that might unreasonably increase the danger of fire on the Premises or that might be considered hazardous by any responsible insurance company. **Rules and Regulations**

47.

The Tenant will obey all rules and regulations posted by the Landlord regarding the use and care of the Building, parking lot, laundry room and other common facilities that are provided for the use of the Tenant in and around the Building on the Premises. **General Provisions**

48.

Any waiver by the Landlord of any failure by the Tenant to perform or observe the provisions of this Lease will not operate as a waiver of the Landlord's rights under this Lease in respect of any subsequent defaults, breaches or nonperformance and will not defeat or affect in any way the Landlord's rights in respect of any subsequent default or

breach.

49.

This Lease will extend to and be binding upon and inure to the benefit of the respective heirs, executors, administrators, successors and assigns, as the case may be, of each party to this Lease. All covenants are to be construed as conditions of this Lease.

This Contract (which includes and incorporates by reference Schedule 1 and Schedule 2 attached and any Service Contract Addendums) sets forth the terms under which the parties agree that PEER 1 will provide certain services to Customer according to the following specifications:

GENERAL TERMS AND CONDITIONS

1.Services.

PEER 1 agrees to supply the services in accordance with the terms of this Contact. Customer agrees to receive the services from PEER 1 in accordance with the terms of this Contract.

2. Other Services.

Upon request by Customer PEER 1 may, at its option, provide Customer with technical and non-technical support, such as equipment reboots, troubleshooting, DNS and other support (“Other Services”), in connection with Customer’s use of the customer space and bandwidth services.

3. Effective Date:

The effective date shall be _____ (the date noted in Schedule 1) or the date the Customer connects to PEER 1, whichever is first (hereafter called the “Effective Date”).

4. Term.

The term of this Contract will commence on the Effective Date and will continue thereafter for the term specified in the service table (attached hereto as Schedule 1), unless terminated by either party as permitted by this Contract. This Contract shall automatically renew for a period of subsequent one (1) year periods unless written notice is provided by either party to the other at least 60 days prior to the expiration date, in which case the Contract will expire on said expiration date.

5. Payment.

5.1 Customer will pay PEER 1 the one-time install fees and recurring monthly fees specified in the service table, as well as any charges for other services and the cost (on an estimated or actual basis) of supplying electrical power to the Customer Space in excess of 3.75 amps for octals, 7.5 amps for quarter cabinets, or 15 amps for half, full or

custom cages (the “Additional Power”). Upon 30 days or greater written notice prior to the end of the term, PEER 1 may change any fees payable under this Contract. Customer will pay all taxes levied against or upon the services stipulated in the service table (as amended by the parties from time to time) or otherwise provided by PEER 1 under this Contract (not including taxes based on PEER 1’s income).

5.2 All one-time install fees will be payable in advance. All recurring monthly fees will be payable monthly in advance. Monthly fees for internet traffic and charges for other services, which are not billed as recurring monthly fees, will be payable monthly in arrears.

5.3 Except for the first payment shown in the service table, which must be paid by Customer to PEER 1 before commencement of the term, all amounts will be payable on the 15th of the month in which an invoice is received. Customer will pay by pre-authorized payment to a Customer credit card, or by cheque of immediately available funds remitted to PEER 1 at the following address:

PEER 1

PO Box 6455 Stn Terminal,

Vancouver, BC, V6B 6R3

5.4 Any payment not made when due will be subject to interest of two percent (2%) per month compounded monthly (equivalent to a yearly interest rate of 26.86%).

5.5 If Customer's traffic usage fails to meet or exceed the amount specified as the minimum commitment in the bandwidth pricing section of the service table of this Contract, Customer will be billed for the amount of the minimum commitment.

5.6 PEER 1 reserves the right to require a refundable security deposit, the amount of which will not exceed the total amount of 3 month's reoccurring charges.

6. Termination.

Either party may terminate this Contract on 30 days written notice if the other party becomes the subject of any voluntary proceedings under any bankruptcy or insolvency laws, or becomes the subject of any involuntary proceedings under any bankruptcy or insolvency laws which are not dismissed or withdrawn within 60 days after filing. PEER 1 may terminate this Contract on 30 days written notice if the Customer commits a material default. In the event of non-payment, PEER 1 in its sole discretion, has the right to immediately terminate the Contract without notice, PROVIDED, however, that the provisions of section 27 survive the Co-location and Bandwidth Contract - Canadian termination of this Contract.

7. If Customer is in Default.

If Customer is in default of any of its obligations under this Contract, then PEER 1 may in its sole discretion do any or all of the following: (i) without notice suspend access to the Customer Space or the Premises, (ii) if Customer's default is nonpayment of any sums due to PEER 1, exercise all the rights and remedies available under applicable law including, in accordance with section 24 herein, and (iii) if PEER 1 terminates this Contract in accordance with section 6, after such termination is effective, remove the equipment from the Customer Space, store the equipment at another location at Customer's expense, and license the Customer Space to a third party.

8. Holding Over.

If Customer continues to occupy the Customer Space following the expiration or termination of this Contract with PEER 1's consent, then such holding over shall constitute a renewal of this Contract on a month-to-month basis, with the license fee during the holdover period to be equal to two hundred percent (200%) of the daily license fee rate in effect immediately before such expiration or termination. In that event, either party shall be entitled to terminate such holdover tenancy upon thirty (30) days' prior written notice to the other party.

9. Credit Authorization.

Customer hereby authorizes PEER 1 and gives consent to PEER 1 under applicable privacy laws for PEER 1 to obtain credit information and bank and other financial references regarding Customer for the purposes of assessing Customer's credit worthiness, and Customer will promptly execute and deliver to PEER 1 such further documents and assurances and take such further actions as PEER 1 may from time to time reasonably request in order to carry out the intent and purpose of this section.

10. Limitation of Liability.

Customer acknowledges that PEER 1 permits other customers to install their equipment in the premises. PEER 1 will have no liability for any damages, costs, or losses incurred by customer (or its clients) caused by such other customers' acts, equipment, or failures to act. The limit of PEER 1's liability in contract, tort (including negligence) or by statute or otherwise to customer (or its clients) concerning performance or non-performance in any manner related to this

Contract, for any and all claims will not, in the aggregate, exceed the total fees paid by customer to PEER 1 under this Contract in the immediately preceding one month from the date the claim arose. In no event will PEER 1 be liable for any lost profits, special, indirect, consequential, incidental or punitive damages. Customer acknowledges that this limitation of liability and waiver of damages is a material term of this Contract and that PEER 1 would not enter into this Contract in the absence of this waiver.

11. Force Majeure.

Neither party will be liable for any delay, interruption or failure in the performance of its obligations if caused by acts of

God, war, declared or undeclared, fire, flood, storm, slide, earthquake, or other similar event beyond the control of the party affected ("Force Majeure"). If any Force Majeure occurs, the party claiming the Force Majeure will promptly notify the other. The party claiming the Force Majeure will use commercially reasonable efforts to eliminate or remedy the Force Majeure. This section will not apply to excuse a failure to make any payment when due.

12. Reselling.

Customer in the normal course of its business may resell to its clients use (subject to all the terms of this Contract) of the

Customer Space and bandwidth services provided by PEER 1 to Customer pursuant to this Contract, except that Customer will not allow such clients to interconnect with other users in the Premises. Such clients will be deemed to be Customer's contractors to the extent they or their representatives are present at the Premises. Customer will act as the single point of contact with PEER 1 with respect to Customer's clients. Customer will remain responsible for all fees or other costs under this Contract incurred by Customer's clients, both with or without the consent of Customer. Customer either will cause such clients to be covered by Customer's insurance coverages as required by this Contract or will cause such clients to obtain such insurance independently. Any act or omission of any such client that would be a breach of this Contract if committed by Customer will be deemed a breach of this Contract by Customer. Customer agrees to defend, indemnify and hold harmless PEER 1, and its officers, directors and employees (collectively, the "Indemnities"), from any and all liabilities, costs and expenses, including reasonable legal fees, related to or arising from (i) any act or omission of any such client that would be a breach of this Contract if committed by Customer, and (ii) any claim by any such client arising from use of the Premises, services provided by PEER 1 under this Contract or otherwise from performance or non-performance by a party in any manner related to this Contract.

13. Indemnity.

Except to the extent of PEER 1's gross negligence or willful misconduct, and to the fullest extent permitted by law, Customer hereby agrees to indemnify hold harmless, protect, and defend PEER 1 and PEER 1's agents, employees, representatives and contractors from and against any and all claims, causes of action, liabilities, losses, costs, damages, whether foreseeable or unforeseeable, arising out of or related to any act, omission or neglect of Customer or Customer's agents, employees, representatives

and contractors, or arising from or related to Customer's use of or activities on or about the Customer Space or Premises. The provisions of this section 13 shall survive the termination, cancellation or expiration of this Contract.

14. Miscellaneous.

14.1. Notices. All approvals, requests, authorizations, directions or other communications under this Contract, with the exception of maintenance notifications, will be given in writing to the party at the address first set forth above for such party and will be deemed to have been delivered and given for all purposes (i) on the delivery date, if delivered personally; (ii) one business day after deposit with a commercial overnight carrier, with written verification of receipt, if sent by courier; (iii) upon completion of transmission, if sent via facsimile with a confirmation of successful transmission; and (iv) upon personal acknowledgement by the recipient, if sent by email.

14.2. Compliance with Laws.

Customer, at Customer's cost, shall fully comply with all applicable laws, regulations, rules and ordinances pertaining to Customer's use and occupancy of the Customer Space and Premises. Customer shall also comply with all reasonable rules and regulations established from time to time by PEER 1 for the operation of the Customer Space and the Premises.

14.3. Assignment. Customer may not assign this Contract or any of its rights or obligations or the license hereunder, without the prior written consent of PEER 1. PEER 1 may assign its rights and obligations under this Contract to a PEER 1 affiliate, without Customer's consent.

14.4. Survival. The provisions set forth in sections 5, 6, 7, 10, 13 (indemnity obligations only), 22, 23, 26, and 27 (indemnity obligations only) of this Contract will survive termination or expiration of this contract.

14.5.Reservation of Rights. PEER 1 reserves all rights not specifically granted herein.

14.6.No Waiver. No failure or delay in enforcing any right or exercising any remedy will be deemed a waiver of any right or remedy.

14.7.Severability and Reformation. If any portion of this Contract is determined to be or becomes unenforceable or illegal, such portion will be reformed to the minimum extent necessary in order for this Contract to remain in effect in accordance with its terms as modified by such reformation.

14.8.Remedies not Exclusive. The remedies available to the parties under this Contract are cumulative and not exclusive to each other, and any such remedy will not be deemed or construed to affect any right which either of the parties is entitled to seek at law, in equity or by statute.

14.9.Relationship. The relationship of PEER 1 to Customer will be that of an independent contractor, and neither PEER 1 nor any employee of PEER 1 will be deemed to be an agent or employee of Customer.

14.10.Choice of Law and Attornment. This Contract will be governed and interpreted by the laws of the jurisdiction where the Premises are located, without regard to its conflicts of law provisions. The parties hereby irrevocably and unconditionally attorn to the non-exclusive jurisdiction of the courts of the jurisdiction where the Premises are located, and all courts competent to hear appeals therefrom.

14.11.Further Assurances. Each of the parties will promptly execute and deliver to the other at each party's own expense such further documents and assurances and take such further actions as the other may from time to time request in order to more effectively carry out the intent and purpose of this Contract and to establish and protect the rights, interests and remedies intended to be created in favour of the other.

14.12.Liens and Encumbrances. Customer and its clients will not have the power, authority or right to create and will not permit any lien or encumbrance, including without limitation, tax liens, mechanics' liens, builders liens or other licenses or encumbrances with respect to work performed, in connection with the Equipment or use of the Customer Space. Customer shall not permit any mechanics', materialmen's, or other liens to be filed against the Premises or and Equipment. Customer further covenants and agrees that any lien filed against the Premises, or any Equipment, for work claimed to have been done for, or materials claimed to have been furnished to Customer, will be discharged by Customer, by bond or otherwise, within fifteen (15) days after the filing thereof, at the sole cost and expense of Customer. PEER 1 shall have the right at all reasonable times to post and keep posted on the Customer Space any notices which it deems necessary for protection from such liens. If any such liens are filed and not released within that fifteen (15) day period, PEER 1 may, without waiving its rights and remedies based on that breach by Customer, and without releasing Customer from any of its obligations, cause such liens to be released by any means it shall deem proper, including payment in satisfaction of the claim giving rise to such liens.

14.13.Language. This Contract and all related documents have been drawn up in English at the mutual request of the parties hereto. La présente convention et tous documents y afférents ont été rédigés en anglais à la demande mutuelle des parties aux présentes.

CO-LOCATION TERMS AND CONDITIONS

15. Grant of License.

Subject to the terms of this Contract, PEER 1 hereby grants to Customer, as of the Effective Date, a nonexclusive license to install, operate, replace, remove and maintain communications equipment, cabling, connections, associated hardware and accessions (the "Equipment") in the co-location space specified in the service table (the "Customer Space"), in the Premises during the Term. The license granted in this Contract is a license of space only, and does not create an ownership interest or property rights of any nature in PEER 1's real or personal property.

16. Installation and Requirements.

Customer will be responsible for the delivery and installation of the equipment and the connection of

the equipment to telecommunications lines and power. Customer is permitted to install or remove equipment during business days between 8:00 a.m. and 8:00 p.m. (OR with prior written approval of PEER 1, not to be unreasonably withheld). Customer will only install or place equipment in the customer space. PEER 1, acting reasonably, reserves the right to approve or deny access to Customer's technicians and other contractors. During the term of this Contract, Customer will immediately notify PEER 1 of any space, power or other requirements associated with the installation or operation of the equipment. PEER 1 will have no duty to monitor, maintain or care for the equipment. Customer must install their equipment according to the hot and cold aisle setup of the PEER 1 facility.

17. Maintenance and Use of Premises.

Customer, at its own cost and expense, will protect, maintain and keep in good order the customer space and any equipment in such space. Customer will ensure that neither Customer nor its employees, agents, contractors or invitees damage any part of the Premises or any property located in or about the Premises, or interfere, or allow the equipment to constitute a hazard to or to interfere with, PEER 1 or any other user of the Premises or any equipment owned or used by PEER 1 or any other user of the Premises. Customer will not make any alterations or installations of any kind to the Premises without the prior written consent of PEER 1.

18. Immediate Threats.

If, in the determination of PEER 1, acting reasonably, the equipment poses an immediate threat to the physical integrity of the Premises or the physical integrity or performance of the equipment of PEER 1 or any other user of the Premises, or poses an immediate threat to the safety of any person, then PEER 1 may perform such work and take such other actions that it may consider necessary without prior notice to Customer and without liability for damage to the equipment or for any interruption of Customer's (or its

clients') businesses. As soon as practicable after performing such work, PEER 1 will advise Customer in writing of the work performed or the action taken.

19. Intervention.

If any part of the equipment is not placed and maintained in accordance with this Contract, and Customer fails to correct the violation within 7 days after receipt of written notice thereof from PEER 1, then PEER 1 may, at its option, without further notice to Customer, correct the deficiency at Customer's expense without liability for damages to the equipment or interruption of Customer's (or its clients') businesses. As soon as practicable thereafter, PEER 1 will advise Customer in writing of the work performed or action taken. Customer will immediately reimburse PEER 1 for all expenses reasonably incurred by PEER 1 associated with any work or action performed by PEER 1 with respect thereto.

20. Relocation.

Customer will, at PEER 1's expense, relocate the equipment to other space within the Premises upon PEER 1's written request and within 30 days of such request.

21. Periodic Inspections.

PEER 1 reserves the right (upon reasonable prior notice to Customer) to make periodic inspections of any part of the customer space or equipment; provided that Customer will have the right to have one or more of its employees or representatives present during any such inspection.

22. Insurance.

Customer will maintain at its expense, throughout the term of this Contract (i) Comprehensive General Liability Insurance protecting PEER 1 as an additional insured in an amount not less than one million dollars (\$1,000,000.00) per occurrence for bodily injury or property damage, and (ii) Worker's Compensation coverage in an amount not less than that prescribed by statutory limits. At PEER 1's request, Customer will provide PEER 1 with certificates of insurance or other satisfactory evidence that the insurance required in this section has been obtained. PEER 1 does not provide insurance coverage for any customer equipment in the Premises.

23. Subrogation. PEER 1 and Customer each hereby waive all rights of recovery against the other, the other's agents, employees, contractors, and representatives on account of loss and damage occasioned to such waiving party to the extent that that loss or damage, is actually covered (and paid) by insurance carried by either party. Each party shall cause each insurance policy carried by it pertaining to the Customer Space, or Premises to provide that the insurance company acknowledges acceptance of the foregoing mutual waiver (i.e., waiver of subrogation) of claims under this section 23. Notwithstanding the foregoing, it is agreed that if any loss is because of the act, omission, negligence, or willful misconduct of Customer or any of Customer's employees, agents, representatives, or contractors, Customer's Commercial General Liability insurance shall be primary and shall cover all losses and damages before any insurance carried by PEER 1.

24. Access and Entry.

Subject to the terms of this Contract and compliance with payment terms under section 5, Customer will have unrestricted access to the Premises during the Term. Customer will cause its employees, agents, contractors or invitees who have access to the Premises to conform to all PEER 1 rules and regulations (as amended by PEER 1 from time to time). Failure to comply with the payment terms may result in denial of access as set forth in section 7. PEER 1 shall not be required to provide Premises access to any person not approved by PEER 1. Notwithstanding the above, PEER 1 shall not be liable for the consequence of admitting or refusing to admit to the Premises or Customer Space,

Customer's agents or employees or other persons claiming the right to admission.

25. Co-location facility Rules and Regulations.

PEER 1 may vary these rules and regulations from time to time in its sole discretion, and Customer will comply with all other reasonable security requirements that PEER 1 may impose from time to time, provided that Customer has been given 30 days notice in writing.

25.1. All Customer employees, agents, contractors or invitees ("Customer Persons") having access to the Premises must be approved by PEER 1. Approval by PEER 1 does not release Customer from its responsibilities pursuant to this Contract, nor by approving such Customer Persons does PEER 1 waive its right to be indemnified by Customer.

25.2. Customer must provide PEER 1 with particulars, including a current photograph of each Customer Person, (where required by landlord regulations) before that Customer Person is given access to the Premises

25.3. No more than three Customer Persons will be authorized to have access to the Premises at any time.

26. Removal of Equipment. Upon termination or expiration of the Term of this Contract, unless prohibited by PEER 1 as permitted by this Contract, Customer will remove the Equipment from the Premises. Unless the parties otherwise agree in writing, in the event the Equipment has not been removed within 5 days following the termination or Expiration Date, PEER 1 will have the right to remove, relocate, or otherwise store the Equipment at Customer's expense without liability to Customer. If after 30 days of such storage by PEER 1 Customer has not retrieved the Equipment and paid any indebtedness owing to PEER 1, then PEER 1 may dispose of the Equipment in the manner permitted by law to a landlord holding property abandoned by tenant (whether or not such law is otherwise applicable to the Parties hereto).

27. Security.

As general and continuing security for payment, performance and satisfaction of each and every obligation, indebtedness and liability of the Customer to PEER 1 (including interest thereon), wheresoever and howsoever incurred, and any ultimate unpaid balance thereof, (all of which obligations, indebtedness and liabilities are herein collectively called the "Obligations") the Customer hereby grants to PEER 1, by way of mortgage, charge, assignment and transfer, a security interest in all of the Equipment and all Proceeds (as defined in the PPSA) thereof and therefrom, renewals thereof, Accessions (as defined in the PPSA) thereto and substitutions therefor, (all of which are herein collectively called the "Collateral"). PEER 1 and the Customer have not agreed to postpone the time for attachment of the security interest granted hereby and the Customer and PEER 1 intend that the security interest granted hereby shall attach to presently owned or held Collateral forthwith upon execution of this Contract and shall attach to hereafter acquired Collateral forthwith upon acquisition of any right, title and interest of the Customer in such Collateral. Upon default under this Contract, the security hereby constituted will immediately become enforceable. To enforce and realize on the security constituted hereunder PEER 1 may take any action permitted by law or in equity, as it may deem expedient, and in particular, without limiting the generality of the foregoing, PEER 1 may sell, lease or otherwise dispose of or concur in selling, leasing or otherwise disposing of all or any part of the Collateral, whether by public or private sale or lease or otherwise, in such manner, at such price as can be reasonably obtained therefor and on such terms as to credit and with such conditions of sale and stipulations as to title or conveyance or evidence of title or otherwise as to PEER 1 may seem reasonable, provided that the Customer will not be entitled to be credited with the proceeds of any such sale, lease or other disposition until the monies therefor are actually received and further, but without limiting the

generality of the foregoing, PEER 1 may exercise all of the rights and remedies of a secured party under the Personal Property Security Act of British Columbia/Crown Proceeding Act (Ontario) as amended from time to time, including any amendments thereto and any Act substituted therefor and amendments thereto (the "PPSA"). Subject to applicable law and the claims, if any, of the creditors of the Customer ranking in priority to the security constituted hereunder, all amounts realized from the disposition of the Collateral pursuant hereto will be applied as PEER 1, in its sole and absolute discretion, may direct, and any surplus will be paid to the Customer. The Customer hereby acknowledges receiving a copy of this Contract and hereby waives all rights to receive from PEER 1 a copy of any financing statement, financing change statement or verification statement filed at any time or from time to time in respect of this Contract. The Customer hereby authorizes PEER 1 to file such financing statements and other documents and do such acts, matters and things as PEER 1 may deem appropriate to perfect and continue the security constituted hereby, to protect and preserve the Collateral and to realize upon the security constituted hereby and the Customer hereby irrevocably constitutes and appoints PEER 1 the true and lawful attorney of the Customer, with full power of substitution, to do any of the foregoing in the name of the Customer whenever and wherever it may be deemed necessary or expedient by PEER 1.

28. Ownership of Equipment.

Customer represents and warrants that it either owns all Equipment or has all necessary rights to use, maintain, and locate the Equipment in the Premises. If the Equipment is leased, then Customer warrants that it has provided to PEER 1 all documentation regarding said lease.

29. Consent to Video Monitoring. Customer acknowledges, agrees and hereby consents under applicable privacy laws that PEER 1 may monitor the Premises by way of closed circuit television or other monitoring device for the purposes of maintaining the safety and security of the Premises, any equipment in the Premises, and any persons using or present in the Premises from time to time.

30. Interference. Customer shall be responsible for resolving any technical interference problems between Customer's equipment and other equipment located at the Premises and, if there are other wireless telecommunications facilities located at the Premises, Customer shall reasonably cooperate with such other

licensees to resolve any issues of interference in an equitable fashion. Customer's equipment shall not disturb the communications configurations, equipment, and frequency that exist at the Premises as of the Commencement Date ("Preexisting Communications"), and Customer's equipment shall comply with all non-interference rules of the Federal Communications Commission ("FCC").

31. Bandwidth Services.

PEER 1 will provide to Customer the internet connectivity, IP addresses and internet traffic services (collectively, the "Bandwidth Services"), as specified in the service table (as amended by the parties from time to time). PEER 1 will provide Bandwidth Services in accordance with this Contract, including the service level contract contained herein. Customer will comply (and will cause its clients to comply as if those clients were the Customer) with the acceptable use policy (as amended by PEER 1 from time

to time) contained herein. PEER 1 will have the right, but not the obligation, without prior notice, to monitor online conduct and communications, in order to verify compliance with this Contract and applicable law. The security for transmissions made using the Bandwidth Services is the responsibility of Customer. Customer's sole remedy for any interruption of Bandwidth Services will be to receive refunds in accordance with the service level contract. Customer agrees to defend, indemnify and hold harmless the Indemnities, from any and all liabilities, costs and expenses, including reasonable legal fees, related to or arising from any action or claim by a third party against the Indemnities asserting an intellectual property right violation or any other third party claims which concern Customer's (or its clients') use of the Bandwidth Services (including without limitation transmission of any message, information, software or other materials, or service interruptions).

32. IP Addresses.

Any IP addresses allocated to Customer by PEER 1 must be maintained by Customer in an efficient manner as deemed by ARIN and utilized at 80% within 30 days of assignment by PEER 1 to Customer. Failure to comply with this section may result in the revocation of IP addresses by PEER 1 after five days notice to Customer.

Work shall mean to procure components, materials, equipment and other supplies, and to manufacture, assemble, test and deliver Products pursuant to detailed written specifications, workmanship standards and quality requirements for each such Product (ref; Addendum B) which are provided by ANV and accepted by HH. For each Product or revision thereof, written specifications shall include, but are not limited to, bills of materials, schematics, assembly drawings, process documentation, test specifications, current revision number, and approved vendor list (hereinafter "Specifications") as attached hereto.

HH is granted by ANV a non-exclusive license during the term of this Agreement to use all of ANV's patents, trade secrets and other intellectual property in the Products, solely in connection with and to the extent required to perform HH' obligations under this Agreement.

2.0 FORECASTS, ORDERS, MATERIAL PROCUREMENT

2.1 FORECAST. ANV shall provide HH, on a monthly basis, a non-binding, rolling twelve (12) month Product order forecast.

2.2 PURCHASE ORDERS. ANV will issue, or have a designated 3rd party distribution partner issue, written purchase orders once a month which specify

all Work to be completed. ANV's designated 3rd party distribution partners must meet HH credit worthiness guidelines, or ANV will guarantee purchase orders according to the terms of this Agreement. ANV will ensure purchase orders cover a minimum four (4) month rolling time period. Each purchase order shall reference this Agreement, and the applicable written Specifications as described in Section 1.0. Purchase orders shall normally be deemed accepted by HH, provided however that HH may reject any order does not conform to the lead-time, flexibility or cancellation terms of this Agreement. HH shall notify ANV of rejection of any purchase order within five (5) working days of receipt of such order.

ANV, or its' designated 3rd party distribution partners, may use its' standard purchase order form to release items, quantities, prices, schedules, change notices, specifications, or other notice provided for hereunder. The parties

agree that the terms and conditions contained in this Agreement shall prevail over any terms and conditions of any purchase order, acknowledgment form or other instrument.

2.3 MATERIAL PROCUREMENT. Purchase orders issued by ANV or its' designated 3rd party distribution partners in conformance to this Agreement will constitute authorization for HH to procure, using standard purchasing practices, the components, subassemblies, materials and supplies necessary for

the manufacture of Products ("Inventory") covered by such purchase orders.

2.4 LONG LEAD TIME COMPONENTS. As ANV 's strategic materials management

partner, HH may be required to purchase Long Lead Time Components in

order to achieve the schedule flexibility requirements identified in Section

3.2. For the purposes of this Agreement, "Long Lead Time Components" shall mean components, subassemblies, materials and supplies with lead times greater than ninety (90) days at the time an order is placed. At the time of this Agreement,

no components, subassemblies, materials or supplies have lead times greater than ninety (90) days. During the term of this Agreement, if any lead times for

components, subassemblies, materials or supplies exceed ninety (90) days due to

changes in market conditions, HH may reasonably purchase minimum lot

sizes from suppliers ("Minimum Order Inventory"), even if greater than the

amount necessary to meet purchase orders, in order to ensure the schedule

flexibility requirements identified in Section 3.2 are achieved. HH will notify ANV in writing if lead times for any components, subassemblies, materials or supplies exceed ninety (90) days and will quantify how much additional cancellation liability Handspring will incur above and beyond the cancellation liability terms defined in Section 3.3. If lead times for components, subassemblies, materials or supplies do not exceed ninety (90) days during term of this Agreement, or any extensions thereof, HH and ANV agree to abide by the reschedule flexibility and cancellation liability terms defined in Sections 3.2 and 3.3.
