Item 2.01. Completion of Acquisition or Disposition of Assets.

On February 15, 2013, Forest Oil Corporation (“Forest”) together with two of its wholly-owned subsidiaries, Forest Oil Permian Corporation and Forcenergy Onshore Inc., completed the previously announced sale of oil and gas properties located in the State of Texas (the “Texas Oil and Gas Assets”) and various other related assets (together with the Texas Oil and Gas Assets, the “Texas Assets”) to Hilcorp Energy I, L.P.. The sales price of the Texas Assets was \$325 million, which was subject to customary adjustments to, among other things, reflect an economic effective date of January 1, 2013. Forest received \$16 million of the sales price as a deposit upon execution of the purchase and sale agreement, and received an additional \$291 million at closing of the transaction, for total net proceeds of \$307 million. Forest intends to use the proceeds to redeem the remaining \$300 million principal amount outstanding of its 8½% Senior Notes due 2014. The net proceeds do not include approximately \$14 million that may be received in the future related to Texas Assets for which third-party consents have not yet been received.

See Item 9.01(b) below for pro forma information related to the sale of the Texas Assets, as well as the sale of assets located in the State of Louisiana (the “Louisiana Assets”) which was completed on November 16, 2012 and reported on a Form 8-K on that date.

Item 9.01. Financial Statements and Exhibits.

(b) Pro Forma Financial Information.

The pro forma financial statements of Forest Oil Corporation and its subsidiaries reflecting the closing of the sales of the Texas Assets and Louisiana Assets are filed as Exhibit 99.1 to this Current Report on Form 8-K and incorporated herein by reference.
