**Item 2.05. Costs Associated With Exit or Disposal Activities**

On December 15, 2005, BellSouth announced that it would reduce its management workforce by approximately 1,500 employees. The plan included a voluntary program offering a special termination benefit followed by an involuntary program to the extent necessary to achieve the targeted reductions. In accordance with accounting rules, the Company recorded an after-tax charge for employee termination benefits of \$52 million in the fourth quarter 2005 representing the minimum estimated liability of the involuntary termination benefit.

As a result of the Agreement and Plan of Merger among BellSouth Corporation, AT&T Inc. and ABC Consolidation Corp. dated as of March 4, 2006, the Company has modified the terms of the workforce reduction by eliminating the involuntary component that was scheduled to follow the voluntary offer. Accordingly, the Company will reverse the minimum liability accrued in the fourth quarter of 2005 (except to the extent that employees have already accepted the voluntary offer). The Company estimates that this will result in a \$45 million after-tax credit to income in the first quarter of 2006. The charge for the early termination benefit will be recorded in the second quarter of 2006 upon acceptance of the offer by the affected employees.

Under the modified plan, BellSouth currently expects to reduce its management workforce by approximately 1,300 employees, and expects substantially all of the reductions to be completed by the end of May 2006. We estimate that an after-tax charge of approximately \$100 million will be recorded in 2006 related to this workforce reduction initiative, with approximately \$85 million recorded in the second quarter. The total after-tax charge taken in 2005 and 2006 related to the workforce reduction initiative is expected to be \$107 million.
