#### IMPORTANT MESSAGE TO i2 SHAREHOLDERS

Dear Fellow i2 Shareholders:

We have been significant shareholders of i2 Technologies, Inc. ("i2" or the "company") for over six years and currently hold, through our ownership of i2's Series B preferred stock, the equivalent of approximately 17.7% of the company's outstanding shares. As most of you know all too well, our company's stock has not performed well lately. In fact, i2's share price has fallen 25% over the last two years and 48% in the last year - **significantly underperforming its peers.**

First and foremost, we believe that now is the time to sell the company. At our encouragement, the company agreed last November to evaluate its strategic alternatives and it is still actively doing so. We continue to support the company's Strategic Review Committee in its efforts to achieve this goal.

CAUTION

But a sale is not certain and it is prudent to plan for an unsatisfactory outcome. If the company is not sold, i2 will need to undertake serious rebuilding efforts. To that end, we have nominated two independent directors to fill the seats being vacated due to retirements.

As you can see from the attached biographical summaries, we have identified two excellent independent nominees for the board. These highly qualified nominees will bring the insight and experience that will be desperately needed should a sale not occur.

We will accordingly be filing proxy materials with the Securities and Exchange Commission in support of our two board nominees. We are not seeking your proxy now, but after we file our definitive proxy material, we will be sending you our proxy statement and GREEN proxy card which will fully explain our position and what it will mean to you as a shareholder of i2. Until then, there is no need for you to take any action or sign any proxy cards, including any proxy card sent to you by i2.

In the meantime, we look forward to hearing your views about the company. If you have any questions, please feel free to call us or D.F. King & Co., Inc., which is assisting us, toll-free at 800-347-4750.

Sincerely,

Geoffrey P. Raynor
