Notes to Consolidated Condensed Financial Statements  
(Unaudited)

1. ACCOUNTING POLICIES

In the opinion of Titan International, Inc. ("Titan" or the "Company"), the accompanying unaudited consolidated condensed financial statements contain all adjustments, which are normal and recurring in nature and necessary for a fair statement of the Company's financial position as of March 31, 2012, and the results of operations and cash flows for the three months ended March 31, 2012 and 2011.

Accounting policies have continued without significant change and are described in the Description of Business and Significant Accounting Policies contained in the Company's 2011 Annual Report on Form 10-K. These interim financial statements have been prepared pursuant to the Securities and Exchange Commission's rules for Form 10-Q's and, therefore, certain information and footnote disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's 2011 Annual Report on Form 10-K.

Sales

Sales and revenues are presented net of sales taxes and other related taxes.

Fair value of financial instruments

The Company records all financial instruments, including cash and cash equivalents, accounts receivable, notes receivable, accounts payable, other accruals and notes payable at cost, which approximates fair value. Investments in marketable equity securities are recorded at fair value. The 7.875% senior secured notes due 2017 ("senior secured notes") and 5.625% convertible senior subordinated notes due 2017 ("convertible notes") are carried at cost of \$200.0 million and \$112.9 million at March 31, 2012, respectively. The fair value of these notes at March 31, 2012, as obtained through independent pricing sources, was approximately \$213.0 million for the senior secured notes and approximately \$277.6 million for the convertible notes. The increase in the fair value of the convertible notes is due primarily to the increased value of the underlying common stock.

Cash dividends

The Company declared cash dividends of \$.005 per share of common stock for each of the three months ended March 31, 2012, and 2011.

Interest paid

Titan paid \$11.5 million and \$13.0 million for interest for the three months ended March 31, 2012 and 2011, respectively.

Income taxes paid

Titan paid \$10.7 million and \$0.1 million for income taxes for the three months ended March 31, 2012 and 2011, respectively.

Use of estimates

The policies utilized by the Company in the preparation of the financial statements conform to accounting principles generally accepted in the United States of America and require management to make estimates, assumptions and judgments that affect the reported amount of assets and liabilities, and disclosure of contingent assets and liabilities, at

the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from these estimates and assumptions.

**Reclassification**

Certain amounts from prior years have been reclassified to conform to the current year's presentation.

**Subsequent Events**

The Company has evaluated subsequent events and transactions for potential recognition or disclosure in the financial statements through the date of issuance of the financial statements.

## 2. ACQUISITIONS

## Acquisition of Goodyear's Latin American Farm Tire Business

On April 1, 2011, Titan closed on the acquisition of The Goodyear Tire & Rubber Company's ("Goodyear") Latin American farm tire business for approximately \$98.6 million U.S. dollars. The transaction includes Goodyear's Sao Paulo, Brazil manufacturing plant, property, equipment; inventories; a licensing agreement that allows Titan to sell Goodyear-brand farm tires in Latin America for seven years; and extends the North American licensing agreement for seven years.

The purchase price was allocated to the assets acquired and the liabilities assumed based on their fair values. Inventory was valued using the comparative sales method. Real and personal property was valued at fair value. The excess of the purchase price of the identifiable assets acquired and liabilities assumed was reflected as goodwill. The goodwill was allocated to the agricultural segment.

The purchase price allocation of the Latin American farm tire business consisted of the following (in thousands):

Cash	\$ 1,018	
Inventories	14,562	
Deferred income taxes - current asset	2,948	
Prepaid & other current assets	4,929	
Property, plant & equipment	108,905	
Goodwill	11,536	
Other assets	39,263	
Other current liabilities	(21,127)	)
Deferred income taxes - noncurrent liability	(22,573)	)
Other noncurrent liabilities	(40,823)	)
Net assets acquired	\$ 98,638	

The purchase price allocation has changed from that reported in the Form 10-K for the year ended December 31, 2011. In the first quarter of 2012, after filing of the Form 10-K for the year ended December 31, 2011, Titan became aware of information related to the classification of the Latin American business for US tax purposes. As a result of this information, which was available at the time of acquisition, Titan concluded that there was an error in the original accounting for the acquisition. Titan has concluded that the impact of this error is immaterial to the consolidated financial statements for the year ended December 31, 2011 and for the quarter ended March 31, 2012, and therefore the correction of this error was recorded as of January 1, 2012. The correction of this error impacted the following areas: an increase in current deferred income tax asset of \$2.9 million, a decrease in goodwill of \$11.4 million, and a decrease in noncurrent deferred income tax liability of \$8.4 million. As a result of currency exchange rate differences, the January 1, 2012 recorded decrease in goodwill was \$10.1 million, with a \$1.2 million offset in currency translation adjustment.

## Pro forma financial information

The following unaudited pro forma financial information gives effect to the acquisition of Goodyear's Latin American farm tire business as if the acquisition had taken place on January 1, 2011. The pro forma financial information for the Sao Paulo, Brazil manufacturing facility was derived from The Goodyear Tire & Rubber Company's historical accounting records. These amounts have been calculated by adjusting the historical results of the Sao Paulo, Brazil

facility to reflect the additional depreciation and the amortization of the prepaid royalty discount and supply agreement liability assuming the fair value adjustments had taken place.

TITAN INTERNATIONAL, INC.

Notes to Consolidated Condensed Financial Statements  
(Unaudited)

Pro forma financial information is as follows (in thousands, except per share data):

	Three months ended March 31,

Net income attributable to Titan	35,419	1,094
Basic earnings per share	\$.84	\$.03
Diluted earnings per share	.68	.04

The pro forma information is presented for illustrative purposes only and may not be indicative of the results that would have been obtained had the acquisition actually occurred on January 1, 2011, nor is it necessarily indicative of Titan's future consolidated results of operations or financial position. The net sales for the three months ended March 31, 2012 include \$57.5 million of supply agreement sales, which are not included in the 2011 pro forma financial information.

Finished goods	89,169	75,137
	222,232	203,535
Adjustment to LIFO basis	(8,078)	(12,663)
	\$214,154	\$190,872

At March 31, 2012, approximately 31% of the Company's inventories were valued under the last-in, first-out (LIFO) method. At December 31, 2011, approximately 30% of the Company's inventories were valued under the LIFO method. The remaining inventories were valued under the first-in, first-out (FIFO) method or average cost method. All inventories are valued at lower of cost or market. The LIFO reserve decreased primarily as a result of the composition

of inventory. An overall increase in raw material relative to total inventory resulted in a greater decrease in the FIFO cost versus the LIFO cost.

The Company has considered the applicable guidance in Accounting Standards Codification (ASC) 323 Investments – Equity Method and Joint Ventures and has concluded that the Company's investment in Titan Europe Plc should be accounted for as an available-for-sale security and recorded at fair value in accordance with ASC 320 Investments – Debt and Equity Securities as the Company does not have significant influence over Titan Europe Plc. Brazil Term Loan

In May 2011, the Company entered into a two-year, unsecured \$10.0 million Term Loan with Bank of America, N.A. (BoA Term Loan) to provide working capital for the Sao Paulo, Brazil manufacturing facility. Borrowings under the BoA Term Loan bear interest at a rate equal to LIBOR plus 200 basis points. The BoA Term Loan shall be a minimum of \$5.0 million with the option for an additional \$5.0 million loan for a maximum of \$10.0 million. The BoA Term Loan is due May 2013. The Company entered into an interest rate swap agreement and cross currency swap transaction with Bank of America Merrill Lynch Banco Multiplo S.A. that is designed to convert the outstanding \$5.0 million US Dollar based LIBOR loan to a Brazilian Real based CDI loan. See Note 10 for additional information. As of March 31, 2012, the Company had \$5.0 million outstanding on this loan and the interest rate including the effect of the swap agreement was approximately 12%.

The Company's wholly-owned Brazilian subsidiary, Titan Pneus Do Brasil Ltda ("Titan Brazil"), has a revolving line of credit (Brazil line of credit) established with Bank of America Merrill Lynch Banco Multiplo S.A. in May 2011 that is secured by a \$12.0 million line of credit between the Company and Bank of America N.A. under the Company's \$100.0 million credit facility. Titan Brazil could borrow up to 16.0 million Brazilian Reais, which equates to approximately \$8.8 million dollars as of March 31, 2012, for working capital purposes. Under the terms of the Brazil line of credit, borrowings, if any, bear interest at a rate of LIBOR plus 247 basis points. At March 31, 2012 there were no borrowings outstanding on this line of credit.

## 10. DERIVATIVE FINANCIAL INSTRUMENTS

The Company uses a financial derivative to mitigate its exposure to volatility in the interest rate and foreign currency exchange rate in Brazil. The Company uses this derivative instrument to hedge exposure in the ordinary course of business and does not invest in derivative instruments for speculative purposes. In order to reduce interest rate and foreign currency risk on the BoA Term Loan, the Company entered into an interest rate swap agreement and cross currency swap transaction with Bank of America Merrill Lynch Banco Multiplo S.A. that is designed to convert the outstanding \$5.0 million US Dollar based LIBOR loan to a Brazilian Real based CDI loan. The Company has not designated this agreement as a hedging instrument. Changes in the fair value of the cross currency swap are recorded in other income (expense) and changes in the fair value of the interest rate swap agreement are recorded as interest expense (or gain as an offset to interest expense). For the three months ended March 31, 2012, the Company recorded \$0.1 million of other income related to this derivative.

Level 1 – Quoted prices in active markets for identical instruments.

Level 2 – Inputs other than quoted prices in active markets that are either directly or indirectly observable.

Level 3 – Unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities measured at fair value on a recurring basis consisted of the following (amounts in thousands):

## 19. LITIGATION

The Company is a party to routine legal proceedings arising out of the normal course of business. Although it is not possible to predict with certainty the outcome of these unresolved legal actions or the range of possible loss, the Company believes at this time that none of these actions, individually or in the aggregate, will have a material adverse effect on the consolidated financial condition, results of operations or cash flows of the Company. However, due to the difficult nature of predicting unresolved and future legal claims, the Company cannot anticipate or predict the material adverse effect on its consolidated financial condition, results of operations or cash flows as a result of efforts to comply with or its liabilities pertaining to legal judgments.

## 20. RECENTLY ISSUED ACCOUNTING STANDARDS

## Comprehensive Income

In June 2011, the FASB issued ASU No. 2011-05, "Comprehensive Income (Topic 220) - Presentation of Comprehensive Income." This update requires that all nonowner changes in stockholders' equity be presented in either a single continuous statement of comprehensive income or in two separate but consecutive statements. The amendments in this update are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. In December of 2011, the FASB issued ASU No. 2011-12, "Comprehensive Income (Topic 220) - Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05." Titan adopted the required comprehensive income presentation updates in the first quarter of 2012. The Company has elected to present items of income and other comprehensive income in two separate, but consecutive, statements of net income and other comprehensive income. This change in presentation did not have a material effect on the Company's financial position, results of operations or cash flows.

## Management's Discussion and Analysis of Financial Condition and Results of Operations

### OVERVIEW

Titan International, Inc. and its subsidiaries are leading manufacturers of wheels, tires and assemblies for off-highway vehicles used in the agricultural, earthmoving/construction and consumer markets. Titan manufactures both wheels and tires for the majority of these market applications, allowing the Company to provide the value-added service of delivering complete wheel and tire assemblies. The Company offers a broad range of products that are manufactured in relatively short production runs to meet the specifications of original equipment manufacturers (OEMs) and/or the requirements of aftermarket customers.

**Agricultural Market:** Titan's agricultural rims, wheels and tires are manufactured for use on various agricultural and forestry equipment, including tractors, combines, skidders, plows, planters and irrigation equipment, and are sold directly to OEMs and to the aftermarket through independent distributors, equipment dealers and Titan's own distribution centers.

**Earthmoving/Construction Market:** The Company manufactures rims, wheels and tires for various types of off-the-road (OTR) earthmoving, mining, military and construction equipment, including skid steers, aerial lifts, cranes, graders and levelers, scrapers, self-propelled shovel loaders, articulated dump trucks, load transporters, haul trucks and backhoe loaders.

**Consumer Market:** Titan manufactures bias truck tires in Latin America, provides wheels and tires and assembles brakes, actuators and components for the domestic boat, recreational and utility trailer markets. Titan also offers select products for ATVs, turf, and golf cart applications. Likewise, Titan produces a variety of tires for the consumer market.

The Company's major OEM customers include large manufacturers of off-highway equipment such as AGCO Corporation, Caterpillar, Inc., CNH Global N.V., Deere & Company and Kubota Corporation, in addition to many other off-highway equipment manufacturers. The Company distributes products to OEMs, independent and OEM-affiliated dealers, and through a network of distribution facilities.

The following table provides highlights for the quarter ended March 31, 2012, compared to 2011 (amounts in thousands):

	2012	2011	% Increase	
Net sales	\$463,088	\$280,829	65	%
Gross profit	93,363	56,272	66	%
Income from operations	58,671	26,879	118	%
Net income (loss)	35,394	(3,036)	) n/a	

The Company recorded sales of \$463.1 million for the first quarter of 2012, which were approximately 65% higher than the first quarter 2011 sales of \$280.8 million. The Company's gross profit was \$93.4 million, or 20.2% of net sales, for the first quarter of 2012, compared to \$56.3 million, or 20.0%, of net sales, in 2011. Income from operations was \$58.7 million for the first quarter of 2012, compared to \$26.9 million in 2011. Net income was \$35.4 million for the quarter, compared to net loss of \$(3.0) million in 2011. Basic income per share was \$.84 in the first quarter of 2012, compared to loss per share of \$(.07) in 2011. The higher sales levels were the result of the April 2011 acquisition of the Goodyear Latin American farm tire business which recorded sales of \$90.3 million for the three months ended March 31, 2012, and increased demand in the Company's agricultural and earthmoving/construction segments combined with price/mix improvements.

Management's Discussion and Analysis of  
Financial Condition and Results of Operations

CRITICAL ACCOUNTING ESTIMATES

Preparation of the financial statements and related disclosures in compliance with accounting principles generally accepted in the United States of America requires the application of appropriate technical accounting rules and guidance, as well as the use of estimates. The Company's application of these policies involves assumptions that require difficult subjective judgments regarding many factors, which, in and of themselves, could materially impact the financial statements and disclosures. A future change in the estimates, assumptions or judgments applied in determining the following matters, among others, could have a material impact on future financial statements and disclosures.

Asset and Business Acquisitions

The allocation of purchase price for asset and business acquisitions requires management estimates and judgment as to expectations for future cash flows of the acquired assets and business and the allocation of those cash flows to identifiable intangible assets in determining the estimated fair value for purchase price allocations. If the actual results differ from the estimates and judgments used in determining the purchase price allocations, impairment losses could occur. To aid in establishing the value of any intangible assets at the time of acquisition, the Company typically engages a professional appraisal firm.

Inventories

Inventories are valued at lower of cost or market. At March 31, 2012, approximately 31% of the Company's inventories were valued under the last-in, first-out (LIFO) method. The major steel material inventory and related work-in-process and their finished goods are accounted for under the LIFO method. The remaining inventories were valued under the first-in, first-out (FIFO) method or average cost method. Market value is estimated based on current selling prices. Estimated provisions are established for slow-moving and obsolete inventory.

Income Taxes

Deferred income tax provisions are determined using the liability method whereby deferred tax assets and liabilities are recognized based upon temporary differences between the financial statement and income tax basis of assets and liabilities. The Company assesses the realizability of its deferred tax asset positions and recognizes and measures uncertain tax positions in accordance with ASC 740 Income Taxes.

Retirement Benefit Obligations

Pension benefit obligations are based on various assumptions used by third-party actuaries in calculating these amounts. These assumptions include discount rates, expected return on plan assets, mortality rates and other factors. Revisions in assumptions and actual results that differ from the assumptions affect future expenses, cash funding requirements and obligations. The Company has three frozen defined benefit pension plans and one defined benefit plan that previously purchased a final annuity settlement. During the first three months of 2012, the Company contributed cash funds of \$0.6 million to its frozen defined benefit pension plans. Titan expects to contribute approximately \$6.0 million to these frozen defined benefit pension plans during the remainder of 2012. For more information concerning these costs and obligations, see the discussion of the "Pensions" and Note 23 to the Company's financial statements on Form 10-K for the fiscal year ended December 31, 2011.

Management's Discussion and Analysis of  
Financial Condition and Results of Operations

RESULTS OF OPERATIONS

Highlights for the three months ended March 31, 2012, compared to 2011 (amounts in thousands):

	Three months ended March 31,			
	2012	2011		
Net sales	\$463,088	\$280,829		
Cost of sales	369,725	224,557		
Gross profit	93,363	56,272		
Gross profit percentage	20.2	%	20.0	%

Net Sales

Net sales for the quarter ended March 31, 2012, were \$463.1 million compared to \$280.8 million in 2011. The higher sales levels were the result of the April 2011 acquisition of the Goodyear Latin American farm tire business which recorded sales of \$90.3 million for the three months ended March 31, 2012, and increased demand in the Company's agricultural and earthmoving/construction segments combined with price/mix improvements.

Cost of Sales and Gross Profit

Cost of sales was \$369.7 million for the quarter ended March 31, 2012, compared to \$224.6 million in 2011. The higher cost of sales resulted primarily from the increase in quarterly sales levels. The cost of sales increased by approximately 65%, which is comparable to an approximate 65% increase in net sales.

Gross profit for the first quarter of 2012 was \$93.4 million, or 20.2% of net sales, compared to \$56.3 million, or 20.0% of net sales for the first quarter of 2011. The Sao Paulo, Brazil manufacturing facility provided gross profit of \$8.5 million for the first quarter of 2012. The remaining increase in the Company's gross profit was primarily related to increased sales levels as well as gains from improved plant utilization resulting from the higher sales levels.

Selling, General and Administrative Expenses

Selling, general and administrative expenses were as follows (amounts in thousands):

	Three months ended March 31,			
	2012	2011		
Selling, general and administrative	\$30,835	\$25,293		
Percentage of net sales	6.7	%	9.0	%

Selling, general and administrative (SG&A) expenses for the first quarter of 2012 were \$30.8 million, or 6.7% of net sales, compared to \$25.3 million, or 9.0% of net sales, for 2011. The higher SG&A expenses were primarily the result of an increase of selling and marketing expenses of approximately \$3 million, due to increased sales levels and increased information technology expenses, and approximately \$2 million of expenses at the Company's Latin American facilities.

Research and Development Expenses

Research and development expenses were as follows (amounts in thousands):

	Three months ended March 31,	
	2012	2011
Research and development	\$1,508	\$1,183

Percentage of net sales	0.3	%	0.4	%
-------------------------	-----	---	-----	---

Research and development (R&D) expenses were \$1.5 million, or 0.3% of net sales, for the first quarter of 2012, as compared to \$1.2 million, or 0.4% of net sales, for 2011.

## MARKET RISK SENSITIVE INSTRUMENTS

The Company's risks related to foreign currencies, commodity prices and interest rates are consistent with those for 2011. For more information, see the "Market Risk Sensitive Instruments" discussion in the Company's Form 10-K for the fiscal year ended December 31, 2011.

## PENSIONS

The Company has three frozen defined benefit pension plans and one defined benefit plan that previously purchased a final annuity settlement. These plans are described in Note 23 of the Company's Notes to Consolidated Financial Statements in the 2011 Annual Report on Form 10-K.

The Company's recorded liability for pensions is based on a number of assumptions, including discount rates, rates of return on investments, mortality rates and other factors. Certain of these assumptions are determined by the Company with the assistance of outside actuaries. Assumptions are based on past experience and anticipated future trends. These assumptions are reviewed on a regular basis and revised when appropriate. Revisions in assumptions and actual results that differ from the assumptions affect future expenses, cash funding requirements and the carrying value of the related obligations. Titan expects to contribute approximately \$6.0 million to these frozen defined pension plans during the remainder of 2012.

TITAN INTERNATIONAL, INC.

Management's Discussion and Analysis of  
Financial Condition and Results of Operations

For the first quarter of 2012, operating activities provided cash of \$20.6 million. This cash was primarily used by increases in accounts receivable and inventory of \$55.0 million and \$22.4 million, respectively, offset by higher accounts payable of \$35.3 million. Net income of \$35.4 million included \$11.8 million of noncash charges for depreciation and amortization.

In the first quarter of 2011, operating activities used cash of \$5.6 million. This cash was primarily used by increases in accounts receivable and inventory of \$50.0 million and \$5.7 million, respectively, offset by higher accounts payable of \$9.9 million. Included in net loss of \$(3.0) million was a noncash convertible debt conversion charge of \$16.1 million, as well as noncash charges of \$9.3 million for depreciation and amortization and a \$7.4 million deferred tax provision.

Operating cash flows increased \$26.2 million when comparing the first quarter of 2012 to the first quarter of 2011. The net income in the first quarter of 2012 was a \$38.4 million increase from the loss in first quarter 2011. However, the first quarter 2011 loss included a \$16.1 million noncash charge, which partially offset the increase in income. When comparing the first three months of 2012 to the first three months of 2011, the increases in accounts payable and inventories of \$25.4 million and \$16.8 million, respectively, are primarily due to increased sales levels.

Investing Cash Flows

Summary of cash flows from investing activities:

(Amounts in thousands)

	2012	2011	Change
Capital expenditures	\$ (8,155	) \$ (3,469	) \$ (4,686 )

The Company invested a total of \$8.2 million in the first quarter of 2012, compared to \$3.5 million in 2011. The 2012 and 2011 expenditures represent various equipment purchases and improvements to enhance production capabilities of Titan's existing business and maintaining existing equipment. The other investing activities are primarily the result of asset disposals.

Financing Cash Flows

Summary of cash flows from financing activities:

(Amounts in thousands)

	Three months ended March 31,		
	2012	2011	Change
Repurchase of senior notes	\$—	\$ (1,064	) \$ 1,064

Dividends paid	(211	) (177	) (34 )
Cash used for financing activities	\$ (12,279	) \$ (1,011	) \$ (11,268 )

For the first quarter of 2012, \$12.3 million of cash was used for financing activities. This cash was primarily used for the payment on term loan borrowings of \$12.4 million that was originally borrowed to provide working capital for

Titan's Latin American operations.

In the first quarter of 2011, \$1.0 million of cash was used for financing activities. This cash was primarily used to repurchase \$1.1 million of senior notes.

Financing cash flows decreased by \$11.3 million when comparing first quarter of 2012 to 2011. This change was primarily the result of the repayment of term loan borrowings in the first quarter of 2012.

TITAN INTERNATIONAL, INC.

Management's Discussion and Analysis of  
Financial Condition and Results of Operations

Debt Covenants

The Company's revolving credit facility ("credit facility") contains various covenants and restrictions. The financial covenants in this agreement require that:

• Collateral coverage be equal to or greater than 1.2 times the outstanding revolver balance.

• If the 30-day average of the outstanding revolver balance exceeds \$70 million, the fixed charge coverage ratio be equal to or greater than a 1.1 to 1.0 ratio.

Restrictions include:

• Limits on payments of dividends and repurchases of the Company's stock.

• Restrictions on the ability of the Company to make additional borrowings, or to consolidate, merge or otherwise fundamentally change the ownership of the Company.

• Limitations on investments, dispositions of assets and guarantees of indebtedness.

• Other customary affirmative and negative covenants.

These covenants and restrictions could limit the Company's ability to respond to market conditions, to provide for unanticipated capital investments, to raise additional debt or equity capital, to pay dividends or to take advantage of business opportunities, including future acquisitions. The failure by Titan to meet these covenants could result in the Company ultimately being in default on these loan agreements.

The Company was in compliance with these covenants and restrictions as of March 31, 2012. The collateral coverage ratio was not applicable as there were no outstanding borrowings under the revolving credit facility at March 31, 2012. The fixed charge coverage ratio did not apply for the quarter ended March 31, 2012.

Other Issues

The Company's business is subject to seasonal variations in sales that affect inventory levels and accounts receivable balances. Historically, Titan tends to have higher production levels in the first and second quarters.

Liquidity Outlook

At March 31, 2012, the Company had \$129.3 million of cash and cash equivalents and \$88.0 million of unused availability under the terms of its credit facility. The cash and cash equivalents balance of \$129.3 million includes \$12.1 million held in foreign countries. The availability under the Company's \$100 million credit facility was reduced by \$12.0 million for letters of credit used to provide working capital for the Sao Paulo, Brazil manufacturing facility.

Capital expenditures for the remainder of 2012 are forecasted to be approximately \$40 million. Cash payments for interest are currently forecasted to be approximately \$12 million for the remainder of 2012 based on March 31, 2012 debt balances. The forecasted interest payments are comprised primarily of a semi-annual payment of \$3.2 million for the 5.625% convertible senior subordinated notes due on July 15 and a semi-annual payment of \$7.9 million for the 7.875% senior secured notes due on October 1.

In the future, Titan may seek to grow by making acquisitions which will depend on the ability to identify suitable acquisition candidates, to negotiate acceptable terms for their acquisition and to finance those acquisitions.

Subject to the terms of indebtedness, the Company may finance future acquisitions with cash on hand, cash from operations, additional indebtedness and/or by issuing additional equity securities.

Cash on hand, anticipated internal cash flows from operations and utilization of remaining available borrowings are expected to provide sufficient liquidity for working capital needs, capital expenditures and potential acquisitions. If the Company were to exhaust all currently available working capital sources or not meet the financial covenants and conditions of its loan agreements, the Company's ability to secure additional funding would be negatively impacted.

## NEW ACCOUNTING STANDARDS

### Comprehensive Income

In June 2011, the FASB issued ASU No. 2011-05, "Comprehensive Income (Topic 220) - Presentation of Comprehensive Income." The objective of this update is to improve the comparability, consistency, and transparency of financial reporting to increase the prominence of items reported in other comprehensive income. This update requires that all nonowner changes in stockholders' equity be presented in either a single continuous statement of comprehensive income or in two separate but consecutive statements. The amendments in this update are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. In December of 2011, the FASB issued ASU No. 2011-12, "Comprehensive Income (Topic 220) - Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05." Titan adopted the required comprehensive income presentation updates in the first quarter of 2012. The Company has elected to present items of income and other comprehensive income in two separate, but consecutive, statements of net income and other comprehensive income. This change in presentation did not have a material effect on the Company's financial position, results of operations or cash flows.

## MARKET CONDITIONS AND OUTLOOK

In the first quarter of 2012, Titan experienced significantly higher sales when compared to the sales levels in the first quarter of 2011. The higher sales were primarily the result of increased demand and price increases in all of the Company's segments, as well as additional sales resulting from the acquisition of Goodyear's Latin American farm tire business and accompanying supply agreements. For the remainder of 2012, the Company expects sales to continue at strong levels.

Energy, raw material and petroleum-based product costs have been volatile and may negatively impact the Company's margins. Many of Titan's overhead expenses are fixed; therefore, lower seasonal trends may cause negative fluctuations in quarterly profit margins and affect the financial condition of the Company.

The labor agreements for the Company's Bryan, Ohio and Freeport, Illinois, facilities expired on November 19, 2010, for the employees covered by their respective collective bargaining agreements, which account for approximately 34% of the Company's employees. As of March 31, 2012, the employees of these two facilities were working without a contract. The respective unions have retained the rights to challenge the Company's actions.

## AGRICULTURAL MARKET OUTLOOK

Agricultural market sales were significantly higher in the first quarter of 2012 when compared to the first quarter of 2011. The addition of Goodyear's Latin American farm tire business, price/mix improvements, and continued strong demand contributed to the higher sales levels. The increase in the global population and the rising middle class in emerging countries may help grow future demand. The gradual increase in the use of biofuels may help sustain future production. Many variables, including weather, grain prices, export markets and future government policies and payments can greatly influence the overall health of the agricultural economy.

## EARTHMOVING/CONSTRUCTION MARKET OUTLOOK

Earthmoving and mining sales continue to improve, aided by increases in metals, oil and gas prices. Although they may fluctuate in the short-term, in the long-term, these prices are expected to remain at levels that are attractive for

continued investment, which should help support future earthmoving and mining sales. The contracted United States housing market continues to cause a lower demand for equipment used for construction. The earthmoving/construction segment is affected by many variables, including commodity prices, road construction, infrastructure, government appropriations, housing starts and the on-going banking and credit issues. For the remainder of 2012, the Company expects strong demand to continue.

#### CONSUMER MARKET OUTLOOK

Consumer market sales were significantly higher in the first quarter of 2012 when compared to the first quarter of 2011. The increase in net sales was primarily the result of the Goodyear Latin American farm tire acquisition agreement, which included supply agreements for certain non-agricultural product sales, which are included in the consumer segment. The supply agreement sales, which currently make up a large portion of consumer market sales, may fluctuate from period to period.
