The Board of Directors of the Fund believes that each merger, while separate and distinct from each other, is very important to your interests as a stockholder. Please note that because each merger is separate and distinct, it is possible that one, both or none of the mergers may occur.

Stockholders who are unable to attend this meeting are strongly encouraged to vote by proxy, which is customary in corporate meetings of this kind. THE BOARD OF DIRECTORS OF THE FUND BELIEVES THAT: (I) THE PROPOSED PGF MERGER; (II) THE PROPOSED MGC MERGER; (III) THE AMENDMENT TO THE ARTICLES OF INCORPORATION; AND (IV) THE RE-ELECTION OF THE BOARD OF DIRECTORS ARE EACH IN THE BEST INTERESTS OF THE FUND AND ITS STOCKHOLDERS AND RECOMMENDS THAT YOU READ THE ENCLOSED MATERIALS CAREFULLY AND THEN VOTE "FOR" PROPOSALS 1, 2, 3 AND 4.

CLM has engaged InvestorCONNECT, a professional proxy solicitor, to assist shareholders throughout the voting process. SPECIFICS OF EACH PLAN OF REORGANIZATION.

PGF MERGER: As a result of the approval of the PGF Merger:

- (i) PGF will no longer exist,
- (ii) CLM will be the surviving corporation,
- (iii) each share of common stock of PGF will convert into an equivalent dollar amount of full and fractional shares of common stock of CLM based on the relative net asset value per share of each Fund on the business day preceding the day on which the PGF Merger is consummated,
- (iv) each PGF stockholder participating in the PGF dividend reinvestment plan shall receive fractional shares of CLM based on the relative net asset value per share of each Fund on the business day preceding the day on which the PGF Merger is consummated, and
- (v) PGF stockholders that do not participate in the PGF dividend reinvestment plan will not receive fractional shares, rather CLM's transfer agent will aggregate all fractional shares, sell the resulting full shares on the American Stock Exchange, LLC (the "AMEX") at the then current price and remit the proceeds to PGF's stockholders in proportion to their fractional shares.

In connection with the merger, CLM will issue that number of shares that have an aggregate net asset value equal to the aggregate net asset value of the outstanding shares of PGF. Each PGF stockholder, in connection with the merger, will receive shares of CLM having an aggregate net asset value equal to the aggregate net asset value of the stockholder's PGF shares at the close of business on the day before the Effective Date of the PGF Merger. While the total net asset value of shares received by each PGF stockholder in the merger may be the same as before the merger, the market value of CLM shares that a PGF stockholder receives in the merger may be more or less than the market value of PGF shares that such stockholder owned immediately before the merger, depending on the current market discount or premium levels of CLM and PGF. Shares of closed-end investment companies frequently trade at a market price that is less than or greater than the value of the fund's assets.

MGC MERGER: As a result of the approval of the MGC Merger:

- (i) MGC will no longer exist,
- (ii) CLM will be the surviving corporation,
- (iii) each share of common stock of MGC will convert into an equivalent dollar amount of full and fractional shares of common stock of CLM based on the relative net asset value per

- share of each Fund on the business day preceding the day on which the MGC Merger is consummated,
- (iv) each MGC stockholder that participates in the MGC dividend reinvestment plan shall receive fractional shares of CLM based on the relative net asset value per share of each Fund on the business day preceding the day on which the MGC Merger is consummated, and
 - (v) MGC stockholders that do not participate in the MGC dividend reinvestment plan will not receive fractional shares, rather CLM's transfer agent will aggregate all fractional shares, sell the resulting full shares on the AMEX at the then current price and remit the proceeds to MGC's stockholders in proportion to their fractional shares.

In connection with the MGC Merger, CLM will issue that number of shares that have an aggregate net asset value equal to the aggregate net asset value of the outstanding shares of MGC. Each MGC stockholder, in connection with the merger, will receive shares of CLM having an aggregate net asset value equal to the aggregate net asset value of the stockholder's MGC shares at the close of

ii

business on the day before the Effective Date of the MGC Merger. While the total net asset value of shares received by each MGC stockholder in the merger may be the same as before the merger, the market value of CLM shares that a MGC stockholder receives in the merger may be more or less than the market value of MGC shares that such stockholder owned immediately before the merger, depending on the current market discount or premium levels of CLM and MGC. Shares of closed-end investment companies frequently trade at a market price that is less than or greater than the value of the fund's assets.

The proposed mergers are separate and distinct from each other, and no assurances can be given that either of the proposed mergers will be approved by stockholders of the respective Funds.

MGC, as soon as practicable after the MGC Effective Date, will terminate its registration under the Investment Company Act.

Under Section 3-202 of the Maryland General Corporation Law (the "MGCL"), stockholders of PGF, CLM and MGC are not entitled to any appraisal or similar rights in connection with each respective merger contemplated by the respective Plans.

The Board of Directors of each Fund is soliciting proxies for use at each Fund's respective Annual Meeting. The mailing address for each Fund is c/o Bear Stearns Funds Management Inc., 383 Madison Avenue, New York, New York 10179.

This Proxy Statement/Prospectus, the Notices of Meeting to Stockholders and the proxy card(s) (attached hereto as Exhibits C) are first being mailed to stockholders on or about April 26, 2004 or as soon as practicable thereafter. Any stockholder who gives a proxy has the power to revoke the proxy either: (i) by mail, addressed to the Secretary of the respective Fund, at the Fund's mailing address, or (ii) in person at the Meeting by executing a superseding proxy or by submitting a notice of revocation to the respective Fund. All properly executed proxies received in time for the meetings will be voted as specified in the proxy or, if no specification is made, "FOR" each proposal for that Fund.

Stockholders of both PGF and CLM will be asked to vote on Item I - Proposal 1 -- the approval of the PGF Merger. Stockholders of MGC and CLM will be asked to vote on Item II - Proposal 2 - the approval of the MGC Merger. CLM stockholders will be asked to vote on Item III - Proposals 3 and 4 - the approval of the Articles of Amendment to the Articles of Incorporation and the re-election of Messrs. Strauss and Wilcox, Sr. as Class III members of the Board of Directors and Mr. Clark as a Class II member of the Board of Directors.

In the event that the PGF Merger is not consummated, PGF stockholders will be asked to contingently vote on Item IV - Proposal 2 -- the re-election of Messrs. Lenagh and Strauss as Class I members of the Board of Directors and Mr. Clark as a Class III member of the Board of Directors.

Finally, in the event that that MGC Merger is not consummated, MGC stockholders will be asked to contingently vote on Item V - Proposal 2 -- the re-election of Messrs. Bradshaw and Clark, as Directors of the Fund.

QUORUM

The presence, either in person or by proxy, of the holders of one-third of the outstanding shares of common stock entitled to vote at a meeting of PGF and CLM, will constitute a quorum for the transaction of business. The presence, either in person or by proxy, of the holders of a majority of the outstanding shares of common stock entitled to vote at a meeting of MGC, will constitute a quorum for the transaction of business. For purposes of determining the presence of a quorum for transacting business at a meeting, abstentions and broker

"non-votes" will be treated as shares that are present. Broker non-votes are proxies received by a Fund from brokers or nominees, indicating that the broker or nominee has neither received instructions from the beneficial owner or other persons entitled to vote nor has the discretionary power to vote on a particular matter. Stockholders are urged to forward their voting instructions promptly.

REQUIRED VOTE

Item I - Proposal 1 (the PGF Merger), to be submitted at the PGF and CLM Annual Meetings, requires the affirmative vote of a majority of the outstanding shares of common stock of each Fund.

Item II - Proposal 2 (the MGC Merger), to be submitted at the MGC and CLM Annual Meetings, requires the affirmative vote of a majority of the outstanding shares of common stock of each Fund.

Item III - CLM Proposal 3 (the Amendment to the Articles of Incorporation), to be submitted at the CLM Annual Meeting, requires the affirmative vote of a majority of the outstanding shares of common stock of CLM.

Item III - CLM Proposal 4 (the re-election of the Directors), to be submitted at the CLM Annual Meeting, requires a plurality of the votes cast at the Meeting.

-1-

Item IV -- PGF Proposal 2 (the re-election of the Directors), to be submitted at the PGF Annual Meeting, requires a plurality of the votes cast at the Meeting.

Item V -- MGC Proposal 2 (the re-election of the Directors), to be submitted at the MGC Annual Meeting, requires a plurality of the votes cast at the Meeting.

Abstentions and broker non-votes will have the effect of a "no" vote for Items I, II, and III - Proposal 3, and will have no effect on Items III - CLM's Proposal 4, IV or V.

Proxy solicitations will be made primarily by mail, but solicitations may also be made by telephone, telegraph or personal interviews conducted by officers or employees of each Fund, Cornerstone Advisors, Inc., the investment adviser of CLM and PGF ("Cornerstone Advisors" or the "Advisor"), Bear Stearns Funds Management Inc., the administrator to each Fund ("BSFM" or the "Administrator"), and InvestorCONNECT, a professional proxy solicitor ("InvestorCONNECT"). Each Fund will bear its respective costs of solicitation.

An agreement between each Fund and InvestorCONNECT provides for InvestorCONNECT to provide general solicitation services to each Fund at an estimated cost, including expenses, of \$10,100, \$9,200 and \$13,900 for CLM, PGF and MGC, respectively. Each Fund will, upon request, bear the reasonable expenses of brokers, bank and their nominees who are holders of record of the Fund's voting securities on the record date, incurred in mailing copies of this Proxy Statement/Prospectus to the beneficial owners of the Funds' voting securities.

Only stockholders of record of each Fund at the close of business on March 24, 2004 (the "Record Date"), are entitled to vote. Each outstanding share of each Fund is entitled to one vote on all matters voted upon at a meeting of

Edgar Filing: CORNERSTONE STRATEGIC VALUE FUND INC/ NEW - Form N-14 8C

the stockholders of that Fund. As of March 24, 2004, there were approximately 3,857,629 shares of CLM outstanding, approximately 1,170,103 shares of PGF outstanding, and approximately 9,875,409 shares of MGC outstanding.

Each of CLM, PGF and MGC provide periodic reports to all of its stockholders. These reports highlight relevant information including investment results and a review of portfolio changes for each Fund. You may receive a copy of the most recent annual and semi-annual reports for CLM, PGF or MGC, without charge, by calling 1-800-837-2755 or writing to the Secretary of the Fund c/o Bear Stearns Funds Management Inc. located at 383 Madison Avenue, 23rd Floor, New York, New York 10179.

The Board of Directors of each Fund knows of no business other than the proposals described above which will be presented for consideration at each Fund's respective Annual Meeting. If any other matter is properly presented, it is the intention of the persons named in the enclosed proxy to vote on that matter in their discretion.

ITEM I. MERGER PROPOSAL TO BE VOTED ON BY STOCKHOLDERS OF PGF AND CLM.

PROPOSAL 1:

APPROVAL OF THE PGF MERGER AGREEMENT AND PLAN OF REORGANIZATION (THE "PGF PLAN")

On January 30, 2004 and February 20, 2004, the Boards of Directors of both Funds, including a majority of the Directors who are not "interested persons," as such term is defined in Section 2(a)(19) of the Investment Company Act (the "Non-interested Directors"), unanimously:

- (1) declared that the merger of PGF with and into CLM is in the best interest of each Fund and its stockholders;
- (2) declared that in their respective opinions neither Fund's existing stockholders will be diluted as a result of the Merger;
- (3) approved the PGF Plan; and
- (4) recommended that the stockholders of each Fund approve the PGF Plan.

Stockholders should note that the composition of the Board of Directors of each Fund is identical, therefore, the Non-interested Directors are "non-interested" with respect to each Fund but might not be considered to be at arms-length with respect to the proposed PGF Merger. The Board of Directors of each Fund suggests that stockholders carefully review the information contained in the Proxy Statement/Prospectus before casting a vote.

For more information about the merger, see "Information about the PGF Merger."

The PGF Plan is subject to the approval of the stockholders of each Fund and certain other conditions that are explained below. It provides for the merger (the "PGF Merger") of PGF with and into CLM in accordance with the MGCL.

As a result of the PGF Merger:

- (1) PGF will no longer exist;
- (2) CLM will be the surviving corporation, and then
 - (a) each share of common stock of PGF will convert into an equivalent dollar amount of full and fractional shares of common stock of CLM based on the relative net asset value per share of each Fund calculated at the close of business on the Business Day (as such term is defined in the PGF Plan) preceding the Effective Date,
 - (b) PGF stockholders participating in PGF's dividend reinvestment plan will receive fractional shares, and
 - (c) PGF stockholders that do not participate in PGF's dividend reinvestment plan will not receive fractional shares, rather CLM's transfer agent will aggregate all fractional shares, sell the resulting full shares on the AMEX at the then current market price and remit the proceeds to PGF's stockholders in proportion to their fractional shares.

A copy of the PGF Plan is attached to this Proxy Statement/Prospectus as Exhibit A, and the description of the PGF Plan included in this Prospectus/Proxy Statement is qualified in its entirety by reference to Exhibit A.

The following provides a more detailed discussion about the PGF Merger, each Fund and additional information that you may find helpful when considering your vote on the PGF Merger.

SYNOPSIS

This summary highlights important information included in this Proxy Statement/Prospectus. This summary is qualified by reference to the more complete information included elsewhere in this Proxy Statement/Prospectus and the PGF Plan. Stockholders of each Fund should read this entire Proxy Statement/Prospectus carefully.

THE PROPOSED PGF MERGER.

The Boards of Directors of CLM and PGF, including the Non-interested Directors of each Fund, have unanimously approved the PGF Plan. The PGF Plan provides for the merger of PGF with and into CLM. As a result of the PGF Merger:

- (1) each share of common stock of PGF will convert into an equivalent dollar amount of full and fractional shares of CLM common stock based on the relative net asset value per share of each Fund calculated at the close of business on the Business Day (as such term is defined in the PGF Plan) preceding the Effective Date;
- (2) stockholders participating in PGF's dividend reinvestment plan will, on the Effective Date, receive fractional shares;
- (3) stockholders that do not participate in PGF's dividend reinvestment plan will not receive fractional shares, rather CLM's transfer agent will aggregate all fractional shares,

Edgar Filing: CORNERSTONE STRATEGIC VALUE FUND INC/ NEW - Form N-14 8C

sell the resulting full shares on the AMEX at the then current market price and remit the proceeds to PGF's stockholders in proportion to their fractional shares.

If the PGF Merger is not consummated, each Fund will continue as a separately managed investment company.

FORM OF ORGANIZATION.

CLM is a closed-end, diversified management investment company and PGF is a closed-end, non-diversified management investment company, both of which are registered under the Investment Company Act. CLM and PGF were both organized as Maryland corporations in 1987 and 1989, respectively. Each Fund's Board of Directors is responsible for the management of the business and affairs of the respective Fund.

INVESTMENT OBJECTIVES.

CLM's investment objective is to seek long-term capital appreciation through investment in equity securities, including common and preferred shares, of U.S. and non-U.S. companies. PGF seeks total return consisting of capital appreciation and current income by investing primarily in U.S. and non-U.S. securities, including common and preferred shares, and debt securities.

Each Fund's investment objective is fundamental, and can only be changed with the approval of the holders of a majority of the outstanding voting securities of the Fund, as set forth in Section 2(a)(42) of the Investment Company Act.

The preceding summary of each Fund's investment objective and certain policies should be considered in conjunction with the discussion below under "Risk Factors and Special Considerations" and "Comparison of Investment Objectives and Policies."

NET ASSETS OF THE FUNDS

At December 31, 2003, CLM had net assets of \$26,565,307 and PGF had net assets of \$26,055,912.

FEES AND EXPENSES--PGF AND CLM

Cornerstone Advisors serves as the investment adviser for both CLM and PGF. The investment advisory agreements between the Advisor and each Fund are substantially identical. As compensation for its advisory services, Cornerstone Advisors is contractually entitled to receive from each Fund an annual fee of one percent (1.00%) of that Fund's average weekly net assets payable on a monthly basis. Cornerstone Advisors has implemented a voluntarily fee waiver with regard to each Fund. Prior to December 31, 2003, the Advisor voluntarily waived its management fees as to each Fund to the extent that each Fund's monthly operating expenses exceeded 0.10% of net assets calculated on a monthly basis (1.20% on an annualized basis). As of January 1, 2004, the Advisor has agreed to voluntarily waive its management fee to each Fund to the extent that each Fund's monthly operating expenses exceed 0.125% of net assets calculated on a monthly basis (1.5% on an annualized basis) (the "Current Fee Waiver"). The Advisor has informed each Fund's Board of Directors that in the event that the PGF Merger is approved by each Fund's stockholders, the Advisor will

contractually waive its fees to the extent that the surviving Fund's monthly operating expenses exceed 0.10% of net assets calculated on a monthly basis ("Post Merger Fee Waiver"). The contractual fee waiver is subject to the Board's approval at the next regularly scheduled meeting and will be in effect until December 31, 2004, but may be renewed thereafter upon the consent of Cornerstone Advisors and the Board of Directors. While the expenses of the proposed PGF Merger are generally not regarded as "operating expenses," Cornerstone Advisors has stated that it will include the expenses of the PGF Merger as part of the "operating expenses," and thus they will be included in the fee waiver calculation to the benefit of shareholders.

For the year ended December 31, 2003, Cornerstone Advisors earned \$246,113 and \$240,927 for performing its advisory services to CLM and PGF, respectively. The Advisor voluntarily waived \$82,098 and \$96,295 of its fees for CLM and PGF, respectively, under the Advisor's annualized fee waiver of 1.20%.

BSFM serves as PGF's and CLM's administrator. PGF and CLM each pay BSFM a monthly fee that is computed weekly at an annual rate of 0.10% of the respective Fund's average weekly net assets, subject to a minimum annual fee of \$50,000. In addition to the fee, the Fund is required to reimburse BSFM all out-of-pocket expenses incurred by it for attendance at any meetings (outside the New York metropolitan area) of the Board of Directors, or any committees of such Board, or any other meetings or presentations for which it is required to attend. For the year ended December 31, 2003, BSFM earned \$50,000 from each Fund for services performed.

Based on net assets at December 31, 2003, and projected expenses for the year 2004, in the absence of a fee waiver, each of CLM's and PGF's annualized expense ratio would be expected to be approximately 1.48% and 1.51%, respectively. Based on similar assumptions, CLM's annualized expense ratio after the PGF Merger, not including the expenses of the PGF Merger, is projected to be approximately 1.41%. Assuming the Post Merger Fee Waiver is in effect, CLM's annualized expense ratio is expected to be 1.20%. Based on similar assumptions, CLM's annualized expense ratio after the PGF and MGC Mergers, not including the expenses of either merger, are projected to be approximately 1.25%, assuming the Post Merger Fee Waiver described above remains in effect, CLM's annualized expense ratio is expected to be 1.20%. The actual expense ratios for the calendar year, whether or not the PGF Merger or the MGC Merger occur, may be higher or lower than these projections and depend upon performance, general stock market and economic conditions, net asset levels, stock prices and other factors, as well as whether the voluntary fee waiver is continued.

See "Expense Table" below for the current expenses of each Fund and pro forma expenses following the proposed mergers.

-5-

DISTRIBUTION POLICIES

On June 25, 2002, each Fund's Board of Directors adopted a fixed, monthly distribution policy, pursuant to which CLM and PGF made fixed, monthly distributions to their respective stockholders equal to \$0.0825 and \$0.2675 per share, respectively. At separate Board Meetings held on September 24, 2003, each respective Board met and approved an increase in the amount of the fixed, monthly distribution. Currently, CLM pays out \$0.087 per share and PGF pays out \$0.282 per share on a monthly basis. To the extent that these distributions exceed the current earnings of a Fund, the balance is generated from sales of portfolio securities held by the Fund and may be considered returns of capital.

The Board of Directors of each Fund has reserved the right to change the dollar amount of the monthly distribution, but has indicated the intention to maintain the total amount of distributions at or above this level. The Board continues to believe that the distribution policy is in the best interests of each Fund and its stockholders, and it is the intention of the Board to continue such distribution policy so long as the Board continues to believe that it is in the best interest of the respective Fund and its stockholders.

FEDERAL INCOME TAX CONSEQUENCES OF THE PGF MERGER.

As a condition to the closing of the PGF Merger, each Fund will receive an opinion of Blank Rome LLP, counsel to each Fund, stating that the PGF Merger will constitute a tax-free reorganization within the meaning of Section 368(a) of the Internal Revenue Code of 1986, as amended (the "Code").

Accordingly, CLM, PGF, CLM stockholders, and PGF stockholders that participate in the PGF dividend reinvestment plan will not recognize any substantial gain or loss as a result of the PGF Merger. However, PGF stockholders that do not participate in the PGF dividend reinvestment plan and receive cash in lieu of the fractional shares may recognize some gain. The holding period and the aggregate tax basis of CLM shares (including fractional shares) received by a PGF stockholder will be the same as the holding period and aggregate tax basis of the shares of PGF previously held by the stockholder. The holding period and the aggregate tax basis of the assets received by CLM in the PGF Merger will be the same as the holding period and the tax basis of such assets in the hands of PGF immediately before the PGF Merger. For more information about the tax consequences of the PGF Merger, see "Information about the PGF Merger - Tax Considerations and Consequences of the Merger."

UNREALIZED CAPITAL GAINS/LOSSES

As of December 31, 2003, CLM had \$2,114,454 in net unrealized capital gains representing 7.95% of net assets, and PGF had \$(3,208,171) in net unrealized capital losses representing 12.31% of net assets.

EXPENSES OF THE PGF MERGER.

In evaluating the proposed PGF Merger, the Board of Directors of each Fund have estimated the amount of expenses CLM and PGF would incur to be approximately \$86,000 and \$70,000, respectively, which includes, but is not limited to, AMEX fees, SEC registration fees, legal and accounting fees, proxy and distribution costs, and expenses incurred in connection with the PGF Merger. Some of these expenses represent expenses that would have been incurred by each Fund in holding their respective annual meetings. Each Fund will bear its respective costs of the PGF Merger, however, to the extent that any of the expenses incurred relate specifically to actions taken as a result of the PGF Merger, such as SEC registration fees and AMEX listing fees, such expenses will be allocated on the basis of relative net assets of all of the Funds. As discussed above under "Fees and Expenses - PGF and CLM," Cornerstone Advisors has stated that merger expenses will be included in the calculation of their contractual fee waiver, to the benefit of shareholders.

PRINCIPAL RISK FACTORS

Both CLM and PGF are closed-end management investment companies and are designed primarily for long-term investors and not as trading vehicles.

STOCK MARKET VOLATILITY. Stock markets can be volatile. In other words, the prices of stocks can rise or fall rapidly in response to developments affecting a specific company or industry, or to changing economic, political or market conditions. Each Fund is subject to the general risk that the value of

its investments may decline if the stock markets perform poorly. There is also a risk that each Fund's investments will underperform either the securities markets generally or particular segments of the securities markets.

-6-

ISSUER SPECIFIC CHANGES. Changes in the financial condition of an issuer, changes in the specific economic or political conditions that affect a particular type of security or issuer, and changes in general economic or political conditions can affect the credit quality or value of an issuer's securities. Lower-quality debt securities tend to be more sensitive to these changes than higher-quality debt securities.

INTEREST RATE RISK. Debt securities have varying levels of sensitivity to changes in interest rates. In general, the price of a debt security can fall when interest rates rise and can rise when interest rates fall. Securities with longer maturities and mortgage securities can be more sensitive to interest rate changes although they usually offer higher yields to compensate investors for the greater risks. The longer the maturity of the security, the greater the impact a change in interest rates could have on the security's price. In addition, short-term and long-term interest rates do not necessarily move in the same amount or the same direction. Short-term securities tend to react to changes in short-term interest rates and long-term securities tend to react to changes in long-term interest rates.

CREDIT RISKS. Fixed income securities rated B or below by S&Ps or Moody's may be purchased by either Fund. These securities have speculative characteristics and changes in economic conditions or other circumstances are more likely to lead to a weakened capacity of those issuers to make principal or interest payments, as compared to issuers of more highly rated securities.

EXTENSION RISK. Each Fund is subject to the risk that an issuer will exercise its right to pay principal on an obligation held by that Fund (such as mortgage-backed securities) later than expected. This may happen when there is a rise in interest rates. These events may lengthen the duration (i.e. interest rate sensitivity) and potentially reduce the value of these securities.

ILLIQUID SECURITIES. Each Fund may invest up to 15% of its respective net assets in illiquid securities. Illiquid securities may offer a higher yield than securities which are more readily marketable, but they may not always be marketable on advantageous terms. The sale of illiquid securities often requires more time and results in higher brokerage charges or dealer discounts than does the sale of securities eligible for trading on national securities exchanges or in the over-the-counter markets. A security traded in the U.S. that is not registered under the Securities Act will not be considered illiquid if Fund management determines that an adequate investment trading market exists for that security. However, there can be no assurance that a liquid market will exist for any security at a particular time.

INVESTMENT IN SMALL AND MID-CAPITALIZATION COMPANIES. Each Fund may invest in companies with mid or small sized capital structures (generally a market capitalization of \$5 billion or less). Accordingly, each Fund may be subject to the additional risks associated with investment in these companies. The market prices of the securities of such companies tend to be more volatile than those of larger companies. Further, these securities tend to trade at a lower volume than those of larger more established companies. If a Fund is heavily invested in these securities and the value of these securities suddenly declines, that Fund will be susceptible to significant losses.

OVER-THE-COUNTER BULLETIN BOARD MARKETS. Each Fund may invest in companies whose stock is trading on the over-the-counter Bulletin Board which have only a limited trading market. A more active trading market may never develop. Each Fund may be unable to sell its investments in these companies on any particular day due to the limited trading market.

ANTI-TAKEOVER PROVISIONS. Each Fund's Charter and Bylaws include provisions that could limit the ability of other persons or entities to acquire control of the Fund or to cause it to engage in certain transactions or to modify its structure.

-7-

LEVERAGE RISK. Utilization of leverage is a speculative investment technique and involves certain risks to the holders of common stock. These include the possibility of higher volatility of the net asset value of the common stock and potentially more volatility in the market value of the common stock. So long as each Fund is able to realize a higher net return on its investment portfolio than the then current cost of any leverage together with other related expenses, the effect of the leverage will be to cause holders of common stock to realize higher current net investment income than if the Fund were not so leveraged. On the other hand, to the extent that the then current cost of any leverage, together with other related expenses, approaches the net return on the Fund's investment portfolio, the benefit of leverage to holders of common stock will be reduced, and if the then current cost of any leverage were to exceed the net return on the Fund's portfolio, the Fund's leveraged capital structure would result in a lower rate of return to Common Shareholders than if the Fund were not so leveraged. There can be no assurance that each Fund's leverage strategy will be successful.

FOREIGN SECURITIES RISK. Investments in securities of non-U.S. issuers involve special risks not presented by investments in securities of U.S. issuers, including the following: less publicly available information about companies due to less rigorous disclosure or accounting standards or regulatory practices; the impact of political, social or diplomatic events; possible seizure, expropriation or nationalization of the company or its assets; and possible imposition of currency exchange controls. These risks are more pronounced to the extent that each Fund invests a significant amount of its investments in companies located in one region.

DEBT SECURITY RISK. In addition to interest rate risk, call risk and extension risk, debt securities are also subject to the risk that they may also lose value if the issuer fails to make principal or interest payments when due, or the credit quality of the issuer falls.

COMMON STOCK RISK. While common stock has historically generated higher average returns than fixed income securities, common stock has also experienced significantly more volatility in those returns. An adverse event, such as an unfavorable earnings report or acts of terrorism, may depress the value of common stock held by the Fund. Also, the price of common stock is sensitive to general movements in the stock market. A drop in the stock market may depress the price of common stock held by the Fund.

MARKET DISCOUNT FROM NET ASSET VALUE. Shares of closed end investment companies frequently trade at a discount from their net asset value. This characteristic is a risk separate and distinct from the risk that a Fund's net asset value could decrease as a result of its investment activities and may be

greater for investors expecting to sell their shares in a relatively short period following completion of this offering. The net asset value of the common stock will be reduced immediately following the offering as a result of the payment of certain offering costs. Whether investors will realize gains or losses upon the sale of the common stock will depend not upon the Fund's net asset value but entirely upon whether the market price of the common stock at the time of sale is above or below the investor's purchase price for the common stock. Because the market price of the common stock will be determined by factors such as relative supply of and demand for the common stock in the market, general market and economic conditions, and other factors beyond the control of the Fund, the Fund cannot predict whether the common stocks will trade at, below or above net asset value. As of December 31, 2003, each of CLM and PGF were trading at substantial premiums to their net asset value, 32.35% and 32.91%, respectively.

As a stockholder, you may pay certain fees and expenses if you hold shares of CLM, PGF or MGC, or in CLM-Post PGF Merger, in CLM-Post MGC Merger, or in CLM-Post the combined PGF and MGC Mergers. These fees and expenses, including fees and expenses based on a pro forma basis, post the mergers are set forth in the table below and the example that follows.

This example is based on the level of total annual operating expenses for each Fund listed in the table above, the total expenses relating to a \$10,000 investment, assuming a 5% annual return and reinvestment of all dividends and distributions. Stockholders do not pay these expenses directly, they are paid by the Funds before they distribute net investment income to stockholders. This example should not be considered a representation of future expenses, and actual expenses may be greater or less than those shown. Federal regulations require the example to assume a 5% annual return, but actual annual returns will vary.

COMPARISON OF INVESTMENT OBJECTIVES AND POLICIES

ORGANIZATION.

CLM is a closed-end, diversified management investment company registered under the Investment Company Act. CLM was incorporated in Maryland on May 1, 1987 and commenced operations on June 30, 1987. PGF is a closed-end, non-diversified management investment company registered under the Investment Company Act. PGF was incorporated on August 11, 1989 and commenced operations on November 9, 1989. Each Fund is managed and advised by Cornerstone Advisors. The shares of common stock of each Fund are listed and trade on the AMEX under the symbols "CLM" and "PGF", respectively. After the PGF Merger, CLM's shares will continue to trade on the AMEX under the symbol "CLM", while PGF's shares will be delisted and PGF will cease to exist.

The shares of common stock of each Fund have equal non-cumulative voting rights and equal rights with respect to dividends, assets and dissolution. Each Fund's shares of common stock are fully paid and non-assessable and have no preemptive, conversion or other subscription rights. Fluctuations in the market price of each Fund's shares is the principal

Edgar Filing: CORNERSTONE STRATEGIC VALUE FUND INC/ NEW - Form N-14 8C

investment risk of an investment in either Fund. Portfolio management, market conditions, investment policies and other factors affect such fluctuations. Although the investment objectives, policies and restrictions of each Fund are similar, there are differences between them, as discussed below. There can be no assurance that either Fund will achieve its stated investment objective.

INVESTMENT OBJECTIVES.

CLM

CLM's investment objective is to seek long-term capital appreciation through investment primarily in equity securities of U.S. and non-U.S. companies which Fund management believes have demonstrated fundamental investment value and favorable growth prospects, as determined by the Advisor. In general, CLM invests primarily in common stocks, preferred stocks, rights, warrants and securities convertible into common stocks that are listed on stock exchanges or traded over the counter.

PGF

PGF's investment objective is to seek total return consisting of capital appreciation and current income by investing primarily all of its assets in equity securities of U.S. and non-U.S. companies and U.S. dollar denominated debt securities which Fund management believes demonstrated fundamental investment value and favorable growth prospects. In general, PGF invests in such equity securities that are traded in the United States on a securities exchange, over the counter, or as sponsored American Depository Receipts ("ADRs"), or other forms of depository receipt, such as International Depository Receipts ("IDR"). Depository receipts are issued with the cooperation of the company whose stock underlies the ADR. They are traded over an exchange like common stocks in the United States, and are typically issued in connection with a U.S. or foreign banks or trust companies and evidence ownership of the underlying securities issued by a foreign corporation, including voting rights.

Each Fund's foregoing investment objective cannot be changed without the vote of a majority of the Fund's outstanding voting securities as set forth in Section 2(a)(42) of the Investment Company Act. No assurance can be given that either Fund's investment objective will be achieved.

COMPARISON OF INVESTMENT POLICIES.

CLM

CLM's portfolio, under normal market conditions, will consist principally of the equity securities of U.S. and non-U.S. companies. In general, CLM invests primarily in common stocks, preferred stocks, rights, warrants and securities convertible into common stocks that are listed on stock exchanges or traded over the counter. The Fund may, without limitation, hold cash or invest in assets in money market instruments, including U.S. and non-U.S. government securities, high grade commercial paper and certificates of deposit and bankers' acceptances issued by U.S. and non-U.S. banks having deposits of at least \$500 million. In addition, CLM may engage in hedging transactions to reduce its company market and currency exchange exposure.

Although CLM has the ability to invest a significant portion of its assets in non-U.S. companies, the Fund has consistently maintained the

Edgar Filing: CORNERSTONE STRATEGIC VALUE FUND INC/ NEW - Form N-14 8C

investment of at least 95% of its assets in U.S. companies since June 30, 2001.

CLM may also invest up to 10% of its assets in the aggregate in the securities of other investment companies and up to 5% of its assets in any one such investment company, provided that such investment does not represent more than 3% of the voting stock of the acquired investment company of which such shares are purchased. As a shareholder in a investment company, the Fund will bear its ratable share of the investment company's expenses and would remain subject to payment of the Fund's advisory and administrative fees with respect to the assets so invested.

CLM may invest up to 15% of its assets in illiquid U.S. and non-U.S. securities, provided that the Fund may not invest more than 3% of the Fund's assets in the securities of companies that, at the time of investment, had less than a year of operations, including operations of predecessor companies. The Fund will invest only in such illiquid securities that, in the opinion of Fund management, present opportunities for substantial growth over a period of two to five years.

CLM does not expect to trade in securities for short-term gains. Higher portfolio turnover rates resulting from more actively traded portfolio securities generally result in higher transaction costs, including brokerage commissions and related capital gains or losses. The Fund's investment policies emphasize long-term investment in the securities of companies, therefore, the Fund's annual portfolio turnover rate is expected to be relatively low, ranging between 25% and 75%.

CLM's foregoing investment policies may be changed by the Fund's Board of Directors without shareholder vote.

PGF

PGF's portfolio, under normal market conditions, consists principally of the equity securities of large, mid and small capitalization companies. Equity securities in which the Fund may invest include common and preferred stocks, convertible securities, warrants and other securities having the characteristics of common stocks, such as ADRs and IDRs. The Fund may, however, invest a portion of its assets in U.S. dollar denominated debt securities when Fund management believes that it is appropriate to do so in order to achieve the Fund's investment objective - for example when interest rates are high in comparison to anticipated returns on equity investments. Debt securities in which the Fund may invest include U.S. dollar denominated bank, corporate or government bonds, notes, and debentures of any maturity determined by Fund management to be suitable for investment by the Fund. The Fund may invest in the securities of issuers that it determines to be suitable for investment by the Fund regardless of their rating. The Fund may not, however, invest more than 5% of its assets in debt securities that are determined by Fund management to be rated or comparable to securities rated B or below by S&P or Moody's.

PGF's management utilizes a balanced approach, including value and growth investing by seeking out companies at reasonable prices, without regard to sector or industry, that demonstrate favorable long-term growth characteristics. Valuation and growth characteristics may be considered for purposes of selecting potential investment securities. In general in the securities industry, valuation analysis is used to determine the inherent value of the company by analyzing financial information such as a company's price to book, price to sales, return on equity, and return on assets ratios and growth analysis is used to determine a company's potential for long-term dividends and earnings growth due to market-oriented factors such as growing market share, the launch of new products or services, the strength of its management and market demand.

-11-

PGF may also invest up to 10% of its assets in the aggregate in the securities of other investment companies and up to 5% of its assets in any one such investment company, provided that such investment does not represent more than 3% of the voting stock of the acquired investment company of which such shares are purchased. As a shareholder in any investment company, the Fund will bear its ratable share of the investment company's expenses and would remain subject to payment of the Fund's advisory and administrative fees with respect to the assets so invested.

PGF may invest up to 15% of its assets in illiquid U.S. and non-U.S. securities, provided that the Fund may not invest more than 3% of the Fund's assets in the securities of companies that, at the time of investment, had less than a year of operations, including operations of predecessor companies. The Fund will invest only in such illiquid securities that, in the opinion of Fund management, present opportunities for substantial growth over a period of two to five years.

PGF does not expect to trade in securities for short-term gains. Higher portfolio turnover rates resulting from more actively traded portfolio securities generally result in higher transaction costs, including brokerage commissions and related capital gains or losses. The Fund's investment policies emphasize long-term investment in the securities of companies, therefore, the Fund's annual portfolio turnover rate generally ranges between 25% and 75%.

PGF's foregoing investment policies may be changed by the Fund's Board of Directors without shareholder vote.

EACH FUND'S NON-PRINCIPAL INVESTMENT POLICIES

Temporary Defensive Positions. Each Fund may, in attempting to respond to adverse market, economic, political or other conditions, take temporary defensive positions that are inconsistent with its principal investment strategies. Such investments include various short-term instruments. If a Fund takes a temporary defensive position at the wrong time, the position would have an adverse impact on the Fund's performance and it may not achieve its stated investment objective.

Securities Lending. Each Fund may lend its portfolio securities to broker-dealers in amounts equal to no more than 33 1/3% of the Fund's net assets. These transactions will be fully collateralized at all times with cash and/or high quality, short-term debt obligations. These transactions involve risk to a Fund if the other party should default on its obligation and the Fund is delayed or prevented from recovering the securities lent. In the event the original borrower defaults on its obligation to return lent securities, the Fund will seek to sell the collateral, which could involve costs or delays. To the extent proceeds from the sale of collateral are less than the repurchase price, the Fund would suffer a loss and you could lose money on your investment.

Borrowing. Each Fund may borrow money from banks for temporary or emergency purposes or for the clearance of transactions in amounts not exceeding 10% (taken at the lower of cost or current value) of its total assets (not including the amount borrowed) and may also pledge its assets to secure such borrowings. To reduce its indebtedness, a Fund may have to sell a portion of its investments at a time when it may be disadvantageous to do so. In addition, interest paid by the Fund on borrowed funds would decrease the net earnings of the Fund

Repurchase Agreements. Each Fund may enter into repurchase agreements collateralized by the securities in which it may invest. A repurchase agreement involves the purchase by the Fund of securities with the condition that the original seller (a bank or broker-dealer) will buy back the same securities (collateral) at a predetermined price or yield. Repurchase agreements involve certain risks not associated with direct investments in securities. In the event the original seller defaults on its obligation to repurchase, the Fund will seek to sell the collateral, which could involve costs or delays. To the extent proceeds from the sale of collateral are less than the repurchase price, the Fund would suffer a loss.

-12-

Under the Investment Company Act, neither Fund may:

- (1) invest more than 5% of its total assets in the securities of any one investment company, nor
- (2) acquire more than 3% of the outstanding voting securities of any such company.

UNITED STATES FEDERAL INCOME TAXES

The following is a brief summary of certain United States federal income tax issues that apply to each Fund. Stockholders should consult their own tax advisers with regard to the federal tax consequences of the purchase, ownership and disposition of each Fund's shares, as well as tax consequences arising under the laws of any state, foreign country, or other taxing jurisdiction.

Each Fund has qualified, and intends to continue to qualify and elect to be treated, as a regulated investment company ("RIC"), for each taxable year under Subchapter M of the Code. A RIC generally is not subject to federal income tax on income and gains distributed in a timely manner to its stockholders.

Each Fund intends to distribute annually to its stockholders substantially all of its investment company taxable income. The Board of Directors of each Fund will determine annually whether to distribute any net realized long-term capital gains in excess of net realized short-term capital losses, including any capital loss carryovers. Each Fund currently expects to distribute any excess annually to their stockholders. However, if either Fund retains for investment an amount equal to its net long-term capital gains in excess of its net short-term capital losses and capital loss carryovers, it will be subject to a corporate tax, currently at a rate of 35%, on the amount retained. In that event, that Fund expects to designate such retained amounts as undistributed capital gains in a notice to its stockholders who:

- (1) will be required to include in income for United States federal income tax purposes, as long-term capital gains, their proportionate shares of the undistributed amount;
- (2) will be entitled to credit their proportionate shares of the 35% tax paid by that Fund on the undistributed amount against their United States federal income tax liabilities, if any, and to claim refunds to the extent their credits exceed their liabilities, if any; and
- (3) will be entitled to increase their tax basis, for United States federal income tax purposes, in their shares by an amount equal to 65% of the amount of undistributed capital

gains included in the stockholder's income.

Income received by a Fund from sources within countries other than the United States may be subject to withholding and other taxes imposed by such countries, which will reduce the amount available for distribution to stockholders. If more than 50% of the value of either Fund's total assets at the close of its taxable year consists of securities of foreign corporations, that Fund will be eligible and intends to elect to "pass-through" to stockholders the amount of foreign income and similar taxes it has paid. Pursuant to this election, stockholders of the electing Fund will be required to include in gross income (in addition to the full amount of the taxable dividends actually received) their pro rata share of the foreign taxes paid by that Fund. Each such stockholder will also be entitled either to deduct (as an itemized deduction) its pro rata share of foreign taxes in computing its taxable income or to claim a foreign tax credit against its U.S. federal income tax liability, subject to limitations. No deduction for foreign taxes may be claimed by a stockholder who does not itemize deductions, but such a stockholder may be eligible to claim the foreign tax credit. The deduction for foreign taxes is not allowable in computing alternative minimum taxable income. Each stockholder will be notified within 60 days after the close of that Fund's taxable year whether the foreign taxes paid by the Fund will "pass through" for that year.

Generally, a credit for foreign taxes is subject to the limitation that it may not exceed the stockholder's U.S. tax attributable to his or her foreign source taxable income. For this purpose, if the pass-through election is made, the source of each Fund's income flows through to its stockholders. Any gains from the sale of securities by either Fund will be treated as derived from U.S. sources and certain currency fluctuation gains, including fluctuation gains from foreign currency-denominated debt securities, receivables and payables, will be treated as ordinary income derived from U.S. sources. The limitation on the

-13-

foreign tax credit is applied separately to foreign source passive income (as defined for purposes of the foreign tax credit), including the foreign source passive income passed through by each Fund. Because of the limitation, stockholders taxable in the United States may be unable to claim a credit for the full amount of their proportionate share of the foreign taxes paid by each Fund. The foreign tax credit also cannot be used to offset more than 90% of the alternative minimum tax (as computed under the Code for purposes of this limitation) imposed on corporations and individuals.

Stockholders will be notified annually by each Fund as to the United States federal income tax status of the dividends, distributions and deemed distributions made by the Fund to its stockholders. Furthermore, stockholders will also receive, if appropriate, various written notices after the close of each Fund's taxable year regarding the United States federal income tax status of certain dividends, distributions and deemed distributions that were paid, or that are treated as having been paid, by that Fund to its stockholders during the preceding taxable year. For a more detailed discussion of tax matters affecting each Fund and its stockholders, see "Taxation" in the SAI.

INFORMATION ABOUT THE MERGER

GENERAL.

Under the PGF Plan, PGF will merge with and into CLM on the Effective Date. As a result of the PGF Merger and on the Effective Date:

- (1) PGF will no longer exist; and
- (2) CLM will be the surviving corporation and PGF will then:
 - (a) deregister as an investment company under the Investment Company Act,
 - (b) withdraw from registration under the Securities Exchange Act of 1934 (the "Exchange Act"),
 - (c) remove its shares of common stock from listing on the AMEX, and
 - (d) cease its separate existence under Maryland law.

Each share of common stock of PGF will convert into an equivalent dollar amount of full and fractional shares of CLM common stock, based on the relative net asset value per share of each Fund calculated at the close of business on the Business Day preceding the Effective Date. CLM full and fractional shares will be issued to all of the PGF stockholders. PGF stockholders that participate in PGF's dividend reinvestment plan will receive fractional shares. Any PGF stockholder that does not participate in PGF's dividend reinvestment plan will not receive fractional shares, rather CLM's transfer agent will aggregate all fractional shares, sell the resulting full shares on the AMEX at the then current market price and remit the proceeds to PGF's stockholders in proportion to their fractional shares.

Under Section 3-202 of the MGCL, stockholders of a corporation whose shares are traded publicly on a national securities exchange, such as the Funds' shares, are not entitled to demand the fair value of their shares upon a merger; therefore, the stockholders of the Funds will be bound by the terms of the PGF Merger. However, any stockholder of either Fund may sell his or her shares of common stock at any time prior to the PGF Merger on the AMEX.

The PGF Plan may be terminated and the PGF Merger abandoned, whether before or after approval by the Funds' stockholders, at any time prior to the Effective Date (i) by the mutual written consent of the Board of Directors of each Fund, or (ii) by either Fund's Board of Directors if the conditions to that Fund's obligations under the PGF Plan have not been satisfied or waived.

If the PGF Merger has not been consummated by July 30, 2004, the PGF Plan automatically terminates on that date, unless a later date is mutually agreed upon by the Board of Directors of each Fund.

-14-

REASONS FOR THE PGF MERGER.

The Board of Directors of each Fund including, all of the Non-Interested Directors, considered the proposed PGF Merger at separate meetings of each Board held on January 30, 2004 and February 20, 2004 and unanimously approved the proposed PGF Merger at separate meetings of each Board held on February 20, 2004. For the reasons discussed below, the Board of Directors of each Fund, including the Non-interested Directors of the Funds, after consideration of the potential benefits of the PGF Merger to the stockholders of each Fund and the expenses expected to be incurred by each Fund in connection therewith, unanimously determined that:

- (1) the interests of the existing stockholders of each Fund will not be diluted as a result of the proposed PGF Merger; and

Edgar Filing: CORNERSTONE STRATEGIC VALUE FUND INC/ NEW - Form N-14 8C

- (2) the proposed PGF Merger is in the best interests of each Fund and its stockholders.

The reasons stated above were fully recorded in each Fund's minute books.

Two principal factors led the Boards to reach these conclusions: (i) the PGF Merger will create a larger Fund and, consequently, all other factors being equal, should result in an expense ratio that is lower than the current expense ratio of either Fund absent the voluntary fee waiver; and (ii) the larger Fund should provide better market liquidity for stockholders who want to sell their shares or add to their holdings. The Boards believe that, all other things being equal, a lower expense ratio and better market liquidity for the shares would be a beneficial result to the surviving Fund.

IN THE JUDGMENT OF THE BOARD OF DIRECTORS OF EACH FUND, THE PGF MERGER SERVES THE BEST INTERESTS OF EACH FUND AND ITS STOCKHOLDERS.

Stockholders should note that the Boards of Directors of the two Funds are identical, therefore, although the Non-interested Directors are "non-interested" with respect to each of the Funds under the Investment Company Act, they are not at arm's-length with respect to the proposed PGF Merger.

The Board of Directors of each Fund, in declaring advisable and recommending the proposed PGF Merger, also considered the following:

- (1) the capabilities and resources of Cornerstone Advisors in the area of investment management;
- (2) the experience of Cornerstone Advisors in managing an investment company that has implemented a fixed monthly distribution policy;
- (3) expense ratios and information regarding fees and expenses of the Funds, both currently and on a pro forma basis after the PGF Merger;
- (4) the terms and conditions of the PGF Merger and whether it would result in dilution of the interests of each Fund and its existing stockholders;
- (5) the compatibility of each Fund's portfolio securities, investment objective, policies and restrictions; (6) the tax consequences to each Fund and its stockholders in connection with the PGF Merger; and (7) the anticipated expenses of the PGF Merger.

In reviewing issues relating to the structure of the PGF Merger and the selection of the surviving corporation in the PGF Merger, each Board also considered information provided to them by Cornerstone Advisors concerning:

- (1) the comparative performance records of the two Funds;
- (2) public and market perception of the two Funds;
- (3) the relative size of the two Funds;
- (4) the investment policies, strategies and personnel Cornerstone Advisors intends to utilize in managing the surviving Fund;
- (5) Cornerstone Advisors' recommendation that CLM be the surviving corporation; and
- (6) the relative tax positions of the Funds.

TERMS OF THE PGF MERGER AGREEMENT.

The following is a summary of the significant terms of the PGF Plan. This summary is qualified in its entirety by reference to the PGF Plan, attached hereto as Exhibit A.

Each share of common stock of PGF will convert into an equivalent dollar amount of full and fractional shares of CLM common stock based on the relative net asset value per share of each Fund calculated at the close of business on the Business Day (as defined in the PGF Plan) preceding the Effective Date. CLM full and fractional shares will be issued to all of the PGF stockholders. PGF stockholders that participate in PGF's dividend reinvestment plan will receive fractional shares. Any PGF stockholder that does not participate in PGF's dividend reinvestment plan will not receive fractional shares, rather CLM's transfer agent will aggregate all fractional shares, sell the resulting full shares on the AMEX at the then current market price and remit the proceeds to PGF's stockholders in proportion to their fractional shares.

For purposes of valuing assets in connection with the PGF Merger, the assets of PGF will be valued pursuant to the principles and procedures consistently utilized by CLM, which principles and procedures are also utilized by PGF in valuing its own assets and determining its own liabilities. As a result, it is not expected that CLM's valuation procedures as applied to PGF's portfolio securities will result in any difference from the valuation that would have resulted from the application of PGF's valuation procedures to such securities. The net asset value per share of CLM common stock will be determined in accordance with these principles and procedures, and CLM will certify the computations involved. The net asset value per share of each Fund will not be adjusted to take into account differences in unrealized gains and losses, nor will it be adjusted to take into account the potential value of tax loss carryforwards.

CLM will issue separate certificates or share deposit receipts for CLM common stock to stockholders of PGF. CLM will deliver these certificates or share deposit receipts representing shares of CLM common stock to American Stock Transfer & Trust Co., as the transfer agent and registrar for CLM common stock. CLM will not permit any PGF stockholder to receive new certificates representing shares of CLM common stock until the stockholder has surrendered his or her outstanding certificates representing shares of the common stock of PGF or, in the event of lost certificates, posted adequate bond. PGF will request its stockholders to surrender their outstanding certificates representing shares of the common stock of PGF or post adequate bond therefor. Distributions payable to holders of record of shares of CLM as of any date after the Effective Date and prior to the exchange of certificates by any stockholder of PGF will be paid to such stockholder, without interest; however, such distributions will not be paid unless and until such stockholder surrenders his or her stock certificates of PGF for exchange.

PLEASE DO NOT SEND IN ANY STOCK CERTIFICATES AT THIS TIME. UPON CONSUMMATION OF THE PGF MERGER, STOCKHOLDERS OF PGF WILL BE FURNISHED WITH INSTRUCTIONS FOR EXCHANGING THEIR STOCK CERTIFICATES FOR CLM STOCK CERTIFICATES.

The net asset value of the CLM shares received by PGF stockholders will be equal to the aggregate net asset value of the PGF shares exchanged.

The PGF Plan provides, among other things, that the PGF Merger will not take place without (i) the requisite approval of the stockholders of CLM and PGF, and (ii) the effectiveness of a Registration Statement on Form N-14.

The PGF Plan may be terminated at any time prior to the Effective Date by mutual agreement of each Fund's Board of Directors or by either Fund if the other has violated a condition of the PGF Plan. The PGF Plan will automatically

Edgar Filing: CORNERSTONE STRATEGIC VALUE FUND INC/ NEW - Form N-14 8C

terminate after July 30, 2004 if the PGF Merger has not been consummated, unless such time is extended by mutual agreement of the Board of Directors of each Fund.

-16-

The PGF Plan may be amended, modified or supplemented by mutual agreement of the Boards of Directors of CLM and PGF. However, no amendments which would have the effect of changing the provisions for determining the number of shares issued to PGF stockholders will be permitted following the meeting unless PGF stockholders consent to the amendment.

EXPENSES OF THE PGF MERGER.

In evaluating the proposed PGF Merger, the Board of Directors of each Fund has estimated the amount of expenses each Fund will incur, including, but not limited to, AMEX listing fees, SEC registration fees, legal and accounting fees, proxy and distribution costs, and expenses incurred in connection with the PGF Merger. The estimated total expenses pertaining to the PGF Merger is approximately \$70,000 for PGF and \$86,000 for CLM, such number is inclusive of the expenses that CLM will incur in connection with the PGF Merger and MGC Merger. Some of these expenses would have been incurred by each Fund in connection with their annual meeting of stockholders. Each Fund will bear its respective costs of the PGF Merger, however, to the extent that any of the expenses incurred relate specifically to actions taken as a result of the PGF Merger, such as SEC registration fees and AMEX listing fees, such expenses will be allocated on the basis of relative net assets of all of the Funds.

The expenses of the PGF Merger, without giving effect to the Current Fee Waiver, are expected to result in a reduction in net asset value per CLM share of approximately \$0.02, and a reduction in net asset value per PGF share of approximately \$0.06. However, as discussed above, Cornerstone Advisors has stated that merger expenses will be included in the calculation of their contractual fee waiver, to the benefit of shareholders.

In addition, this discussion does not address any state, local or foreign tax consequences of the merger.

-17-

PGF STOCKHOLDERS ARE URGED TO CONSULT THEIR TAX ADVISORS AS TO THE SPECIFIC TAX CONSEQUENCES TO THEM OF THE MERGER IN LIGHT OF THEIR PARTICULAR CIRCUMSTANCES INCLUDING THE APPLICABILITY AND EFFECT OF U.S. FEDERAL, STATE, LOCAL, FOREIGN AND OTHER TAX LAWS.

"U.S. Holder" refers to a beneficial holder of stock that is (i) an individual citizen or resident of the United States, (ii) a corporation, or other entity taxable as a corporation for U.S. federal income tax purposes, created or organized in or under the laws of the United States, any state thereof or the District of Columbia, (iii) an estate the income of which is subject to U.S. federal income taxation regardless of its source or (iv) a trust (x) that is subject to the supervision of a court within the United States and the control of one or more U.S. persons as described in section 7701(a)(30) of the Code or (y) that has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

If a partnership holds PGF stock, the tax treatment of a partner will generally depend upon the status of the partner and the activities of that partnership. If a U.S. Holder is a partner of a partnership holding that PGF stock, the holder is urged to consult its tax advisor regarding the tax consequences of the merger.

It is a condition to the completion of the merger that PGF and CLM receive a written opinion from Blank Rome LLP dated as of the effective date of the merger, to the effect that the merger will qualify as a reorganization within the meaning of Section 368(a) of the Code. The opinion will rely on certain assumptions as well as representations and covenants made by each of PGF and CLM. If any of those assumptions, representations or covenants are inaccurate, Blank Rome may not be able to render the required opinion and the tax consequences of the merger could differ from those discussed here. An opinion of counsel is not binding on the IRS or any court, nor does it preclude the IRS from adopting a contrary position. No ruling has been or will be sought from the IRS on the U.S. federal income tax consequences of the merger.

Assuming that the merger qualifies as a reorganization within the meaning of Section 368(a) of the Code, for U.S. federal income tax purposes:

- o A PGF stockholder whose shares of PGF stock are exchanged in the merger for shares of CLM common stock will not recognize gain or loss, except to the extent of cash, if any, received in lieu of a fractional share of CLM common stock;
- o A PGF stockholder's aggregate tax basis in shares of CLM common stock received in the merger (including any fractional share interests deemed to be received and converted to cash) will equal the aggregate tax basis of the PGF stock surrendered in the merger; and

- o A PGF stockholder's holding period for shares of CLM common stock received in the merger will include the holding period for the shares of PGF stock surrendered in the merger.

CASH IN LIEU OF FRACTIONAL SHARES

To the extent that a PGF stockholder receives cash in lieu of a fractional share of CLM common stock, the stockholder will be deemed to have received that fractional share in the merger and then to have received the cash in exchanged for that fractional share. The stockholder will generally recognize capital gain or loss equal to the difference between the cash received and the portion of the stockholder's tax basis in the shares of PGF stock surrendered allocable to that fractional share. This capital gain or loss will generally be long-term capital gain or loss if the PGF stockholder's holding period for its shares of PGF stock exceeded one year at the effective time of the merger.

While CLM is not aware of any adverse state or local tax consequences of the proposed PGF Merger, it has not requested any ruling or opinion with respect to such consequences and stockholders may wish to consult their own tax advisers with respect to such matters.

The Board of Directors of each Fund considered the tax loss carryforward and current capital loss positions of each Fund as part of their overall process of considering the proposed PGF Merger. They also considered professional advice that they received regarding the future use of these various capital loss categories to offset future capital gains. This professional advice included the possibility that in some circumstances utilization of the capital loss carryforwards might be restricted, in part because of the PGF Merger. The

-18-

Boards also considered whether the ability to continue to utilize the capital loss carryforwards should be made a condition to the effectiveness of the PGF Merger and concluded that it should not. It is believed that the effective utilization of the large capital loss carryforward of PGF, without triggering adverse income tax consequences, is more likely if the PGF Merger is approved. The Boards concluded that in their respective judgments, under all of the facts and circumstances known to them after considering the advice of their professional advisers, the PGF Merger is in the best interests of each Fund and its stockholders, even if as a consequence there may be "truncation" (restriction on the utilization) of the capital loss carryforwards under the Code.

PREMIUM/DISCOUNT TO NET ASSET VALUE.

Shares of closed-end investment companies frequently trade at a discount from net asset value. This characteristic is a risk separate and distinct from the risk that the Funds' net asset values may decrease, and this risk may be greater for stockholders expecting to sell their shares in a relatively short period. THE SHARES OF COMMON STOCK OF THE FUNDS SHOULD THUS BE VIEWED AS BEING DESIGNED PRIMARILY FOR LONG-TERM INVESTORS AND SHOULD NOT BE CONSIDERED A VEHICLE FOR TRADING PURPOSES.

During the period since the inception of each Fund, the common stock of both Funds have generally traded at a discount to net asset value, however, as of June 30, 2003, both CLM and PGF have consistently traded at substantial premiums. As of the last business day prior to the announcement of the proposed PGF Merger, each Fund's shares were trading at a premium. It is not possible to state whether shares of CLM will trade at a premium or discount to net asset value following the PGF Merger, or the extent of any such premium or discount.

DIVIDENDS AND OTHER DISTRIBUTIONS.

Each Fund intends to distribute dividends from its net investment income and any net realized capital gains after utilization of capital loss carryforwards annually to prevent application of a federal excise tax. An

additional distribution may be made if necessary. Any dividends or capital gains distributions declared in October, November or December with a record date in such a month and paid during the following January will be treated by stockholders for federal income tax purposes as if received on December 31 of the calendar year in which it is declared. Dividends and distributions of each Fund are invested in shares of the Fund at market value and credited to the stockholder's account on the settlement date which is usually three business days from the purchase date or, at the stockholder's election, paid in cash.

On June 25, 2002, each Fund's Board of Directors adopted a fixed, monthly distribution policy, pursuant to which CLM and PGF made regular monthly distributions equal to \$0.0825 and \$0.2675 per share, respectively. In determining to adopt the distribution policies, each Board sought to make regular monthly distributions at an annualized rate equal to approximately fifteen percent (15%) of the respective Fund's net asset value. At separate Board Meetings held on September 24, 2003, each respective Board met and approved an increase in the amount of the fixed, monthly distribution. Currently, CLM pays out \$0.087 per share and PGF pays out \$0.282 per share. The Board of Directors of each Fund has reserved the right to change the dollar amount of the monthly distribution, but has indicated the intention to maintain the total annual amount of the distributions at or above the current level. Such distributions may be treated as returns of capital, capital gain or ordinary income depending on each Fund's tax position for the year as a whole. Stockholders will be advised of the relevant treatment when the tax positions are known.

It is the intention of the current Board of Directors to continue its current monthly distribution policy after the PGF Merger at or above current levels, but there can be no guarantee that the policy will be continued for any specific time period. In addition, each Fund filed with the SEC a joint application for exemptive relief seeking relief from the restrictions of Rule 19b-1 promulgated under the Investment Company Act which limits the amount of capital gains distributions that a RIC may make during a calendar year. There can be no assurances that such application will be granted by the SEC.

PORTFOLIO VALUATION.

Investments of each Fund are stated at value in each Fund's financial statements. All securities for which market quotations are readily available are valued at the last sales price or lacking any sales, at the closing price last quoted for the securities (but if bid and asked quotations are available, at the mean between the current bid and asked prices). Securities that are traded over-the-counter are valued at the mean between the current bid and the asked prices, if available. All other securities and assets are valued at fair value as determined in good faith by each Fund's Board of Directors. Short-term investments having a maturity of 60 days or less are valued on the basis of amortized cost. The Board of Directors of each Fund has established general guidelines for calculating fair value of securities that are not readily marketable. At December 31, 2003, both PGF and CLM held no securities valued in good faith by the Board of Directors. The net asset value per share of each Fund is made available to the public on a weekly basis.

For purposes of valuing assets in connection with the PGF Merger, the assets of PGF will be valued pursuant to the principles and procedures consistently utilized by CLM, which principles and procedures are also utilized by PGF in valuing its own assets and determining its own liabilities. It is not expected that CLM's valuation procedures as applied to PGF's portfolio securities will result in any difference from the valuation that would have resulted from the application of PGF's valuation procedures to such securities.

-21-

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN.

Each Fund operates a Dividend Reinvestment and Cash Purchase Plan (the "Program"), sponsored and administered by American Stock Transfer & Trust Co. (the "Agent"), pursuant to which Fund dividends and distributions, net of any applicable U.S. withholding tax, are reinvested in shares of the Fund. American Stock Transfer & Trust Co., serves as the Agent that administers the Program for the stockholders in the Program.

Stockholders who have shares registered directly in their own names automatically participate in the respective Fund's Program, unless and until an election is made to withdraw from the Program on behalf of such participating stockholder. Stockholders who do not wish to have distributions automatically reinvested should so notify the Agent at 59 Maiden Lane, New York, New York 10038. Under the Program, each of the Fund's respective dividends and other distributions to stockholders are reinvested in full and fractional shares as described below.

When the respective Fund declares an income dividend or a capital gain or other distribution (each, a "Distribution" and collectively, "Distributions"), the Agent, on the stockholders behalf, will (i) receive additional authorized shares from the respective Fund either newly issued or repurchased from stockholders by the Fund and held as treasury stock ("Newly Issued Shares") or, (ii) at the sole discretion of the Board of Directors, be authorized to purchase outstanding shares on the open market, on the AMEX or elsewhere, with cash allocated to it by the respective Fund ("Open Market Purchases").

Shares acquired by the Agent in Open Market Purchases will be allocated to the reinvesting stockholders based on the average cost of such Open Market Purchases. Alternatively, the Agent will allocate Newly Issued Shares to the reinvesting stockholders at a price equal to the average closing price of the respective Fund over the five trading days preceding the payment date of such Distribution.

Registered stockholders who acquire their shares through Open Market Purchases and who do not wish to have their Distributions automatically reinvested should so notify the Fund in writing. If a stockholder has not elected to receive cash Distributions and the Agent does not receive notice of an election to receive cash Distributions prior to the record date of any Distribution, the stockholder will automatically receive such Distributions in additional shares.

Participants in the Program may withdraw from the Program by providing written notice to the Agent at least 30 days prior to the applicable Distribution payment date. When a Participant withdraws from the Program, or upon termination of the Program as provided below, certificates for whole shares credited to his/her account under the Program will, upon request, be issued. Whether or not a participant requests that certificates for whole shares be issued, a cash payment will be made for any fraction of a share credited to such account.

The Agent will maintain all stockholder accounts in the Program and furnish written confirmations of all transactions in the accounts, including

information needed by stockholders for personal and tax records. The Agent will hold shares in the account of each Program participant in non-certified form in the name of the participant, and each stockholder's proxy will include those shares purchased pursuant to the Program. Each participant, nevertheless, has the right to receive certificates for whole shares owned. The Agent will distribute all proxy solicitation materials to participating stockholders.

In the case of stockholders, such as banks, brokers or nominees, that hold shares for others who are beneficial owners participating in the Program, the Agent will administer the Program on the basis of the number of shares certified from time to time by the record stockholder as representing the total amount of shares registered in the stockholder's name and held for the account of beneficial owners participating in the Program.

All correspondence concerning the Program should be directed to the Agent at 59 Maiden Lane, New York, New York 10038.

CORPORATE GOVERNANCE PROVISIONS.

Each Fund is a Maryland corporation and in many respects have similar charter and by-law provisions.

SPECIAL VOTING PROVISIONS AND REQUIREMENTS.

The Articles of Incorporation and By-laws of each Fund contain provisions that could have the effect of limiting the ability of other entities or persons to acquire control of the Fund, to cause it to engage in certain transactions or to modify its structure.

The affirmative vote of at least sixty-six and two-thirds (66 2/3%) of the holders of the shares of either of the Funds is required to authorize any of the following transactions:

- (1) merger, consolidation or share exchange of either Fund with or into any Principal Shareholder (as defined below);
- (2) issuance by either Fund of any securities of either Fund to any Principal Shareholder for cash;
- (3) sale, lease, or exchange by either of all or any substantial part of the assets a Fund to any Principal Shareholder (except assets having an aggregate fair market value of less than \$1,000,000 aggregating for the purpose of such computation all assets sold, leased or exchanged in any series of similar transactions within a twelve-month period); and
- (4) the sale, lease or exchange to a Fund, in exchange for securities of the Fund, of any assets of any Principal Shareholder (except assets having an aggregate fair market value of less than \$1,000,000 aggregating for the purpose of such computation all assets sold, leased or exchanged in any series of similar transactions within a twelve-month period).

Each Fund's By-laws contain provisions the effect of which is to prevent matters, including nominations of directors, from being considered at stockholders' meetings where the Fund has not received sufficient prior notice of the matters.

The Board of Directors of each Fund has determined that the foregoing

voting requirements are in the best interests of Stockholders generally. A "Principal Shareholder" is defined in each Fund's respective Articles of Incorporation as any corporation, person or other entity which is the beneficial owner, directly or indirectly, of more than five percent (5%) of the outstanding shares of any class of stock of the respective Fund and shall include any affiliate or associate, as such terms are defined in clause (ii) below, of a Principal Shareholder. In addition to the shares of stock which a corporation, person or other entity beneficially owns directly, (a) any corporation, person or other entity shall be deemed to be the beneficial owner of any shares of stock of either of the Funds (i) which it has the right to acquire pursuant to any agreement or upon exercise of conversion rights or warrants, or otherwise (but excluding stock option granted by the respective Fund), or (ii) which are beneficially owned, directly or indirectly (including shares deemed owned through application of clause (i) above), by any other corporation, person or entity with which it or its "affiliate" or "associate" (as defined below) has any agreement, arrangement or understanding for the purpose of acquiring, holding, voting or disposing of stock of either Fund, or which is its "affiliate" or "associate," as those terms are defined in Rule 12b-2 of the Exchange Act, and (b) the outstanding shares of any class of stock of either Fund shall include shares deemed owned through application of clauses (i) and (ii) above but shall not include any other shares which may be issuable pursuant to any agreement, or upon exercise of conversions rights or warrants, or otherwise.

ITEM II. MERGER PROPOSAL TO BE VOTED ON BY STOCKHOLDERS OF MGC AND CLM.

PROPOSAL 2:

APPROVAL OF THE MGC MERGER AGREEMENT AND PLAN
OF REORGANIZATION (THE "MGC PLAN")

On January 30, 2004 and February 19, 2004, the MGC Board of Directors, including a majority of the Non-interested Directors, met and discussed the proposal to merge MGC with and into CLM (the "MGC Merger"). On January 30, 2004 and February 20, 2004, CLM's Board of Directors, including a majority of the Non-interested Directors, met and discussed the MGC Merger proposal.

At each of the MGC and CLM Board Meetings held on February 19th and 20th, respectively, each Fund's Board:

- (1) declared that the merger of MGC with and into CLM is in the best interest of each Fund and its

- stockholders;
- (2) declared that in their respective opinions neither Fund's existing stockholders will be diluted as a result of the MGC Merger;
- (3) approved the MGC Plan; and
- (4) recommended that the stockholders of each Fund approve the MGC Plan.

Stockholders should note that the composition of the Board of Directors of each Fund is very similar, but not identical, therefore, although all of the Non-interested Directors are "non-interested" with respect to each Fund a majority of such Non-interested Directors might not be considered to be at arms-length with respect to the proposed MGC Merger. The Board of Directors of each Fund suggests that stockholders carefully review the information contained in the Proxy Statement/Prospectus before casting a vote.

For more information about the merger, see "Information about the MGC Merger."

The MGC Plan is subject to the approval of the stockholders of each Fund and certain other conditions that are explained below. The MGC Plan provides for the merger of MGC with and into CLM in accordance with the MGCL.

As a result of the MGC Merger:

- (1) MGC will no longer exist;
- (2) CLM will be the surviving corporation and Cornerstone Advisors will continue to be the investment adviser of CLM and:
 - (a) each share of common stock of MGC will convert into an equivalent dollar amount of full and fractional shares of common stock of CLM based on the relative net asset value per share of each Fund calculated at the close of business on the Business Day (as defined in the MGC Plan) preceding the Effective Date,
 - (b) MGC stockholders participating in MGC's dividend reinvestment plan will receive fractional shares of CLM common stock based on the relative net asset value per share of each Fund calculated at the close of business on the Business Day preceding the Effective Date,
 - (c) MGC stockholders that do not participate in MGC's dividend reinvestment plan will not receive fractional shares, rather CLM's transfer agent will aggregate all fractional shares, sell the resulting shares on the AMEX at the then current market price and remit the proceeds to MGC's stockholders in proportion to their fractional shares.

Stockholders of CLM and MGC should carefully read the entire Proxy Statement/Prospectus.

THE PROPOSED MGC MERGER.

The Boards of Directors of each Fund, including the Non-interested Directors, have approved the MGC Plan. The MGC Plan provides for the merger of MGC with and into CLM. As a result of the MGC Merger:

- (1) each share of common stock of MGC will convert into an equivalent dollar amount of full and fractional shares of CLM common stock based on the relative net asset value per share of each Fund calculated at the close of business on the Business Day (as defined in the MGC Plan) preceding the Effective Date;
- (2) stockholders of MGC participating in MGC's dividend reinvestment plan will receive fractional shares of CLM common stock; and
- (3) stockholders that do not participate in MGC's dividend reinvestment plan will not receive fractional shares, rather CLM's transfer agent will aggregate all fractional shares, sell the resulting full shares on the AMEX at the then current market price and remit the proceeds to MGC's stockholders in proportion to their fractional shares.

If the MGC Merger is not consummated, each Fund will continue as a separately managed investment company. As previously announced, Deutsche Asset Management, Inc. ("DeAM"), MGC's current investment adviser has indicated to the Board of Directors that it will not seek to renew its investment advisory agreement with MGC beyond its current term. As a result, in the event that the MGC Merger is not approved by stockholders, the Board of Directors of MGC will commence a search for a replacement of DeAM.

FORM OF ORGANIZATION.

CLM and MGC are closed-end, diversified management investment companies that are registered under the Investment Company Act. Each Fund was organized as a Maryland corporation in 1987, and each Fund's Board of Directors is responsible for the management of the business and affairs of the respective Fund.

INVESTMENT OBJECTIVES.

CLM's investment objective is to seek long-term capital appreciation through investment in equity securities, including common and preferred shares, of U.S. and non-U.S. companies. MGC seeks capital appreciation and current income by investing primarily in common stocks and securities convertible into common stock, substantially all of which will be U.S. securities.

Each Fund's investment objective is fundamental, and can only be changed with the approval of the holders of a majority of the outstanding voting securities of the Fund, as set forth in Section 2(a)(42) of the Investment Company Act.

-28-

The preceding summary of each Fund's investment objective and certain policies should be considered in conjunction with the discussion below under "Risk Factors and Special Considerations" and "Comparison of Investment Objectives and Policies."

NET ASSETS OF THE FUNDS

The net assets at December 31, 2003, of CLM and MGC were \$26,565,307 and \$108,276,731, respectively.

FEES AND EXPENSES--MGC AND CLM

CLM

For a discussion of the fees and expenses that CLM is subject to, please see page 5 above.

MGC

DeAM, currently serves as MGC's investment adviser. As compensation for its advisory services, DeAM is contractually entitled to receive from the Fund an annual fee of one percent (1.00%) of the Fund's average weekly net assets payable on a monthly basis. MGC does not currently have an expense reimbursement limitation nor has DeAM voluntarily implemented a fee waiver.

For the year ended December 31, 2003, DeAM earned \$966,400 for performing its advisory services to MGC.

Prior to September 30, 2003, DeAM also served as MGC's administrator. For the period beginning on January 1, 2003 and ending on September 30, 2003, DeAM earned \$42,022 for services performed on behalf of MGC.

BSFM currently serves as the administrator to CLM and MGC. Currently, each Fund pays BSFM a monthly fee that is computed weekly at an annual rate of 0.10% of the respective Fund's average weekly net assets, subject to a minimum annual fee of \$50,000. In addition to the fee, each Fund is required to reimburse BSFM all out-of-pocket expenses incurred by it for attendance at any meetings (outside the New York metropolitan area) of the Board of Directors, or any committees of such Board, or any other meetings or presentations for which it is required to attend. For the period beginning October 1, 2003 and ending on December 31, 2003, BSFM earned \$26,601 for services performed on behalf of MGC.

If the MGC Merger is approved by each Fund's stockholders, then Cornerstone Advisors will continue to serve as the investment adviser of CLM. Cornerstone Advisors informed each Fund's Board of Directors that in the event that the stockholders of each Fund approve the MGC Merger, the Advisor will waive its fees to the extent that the surviving Fund's monthly operating expenses exceed 0.10% of net assets calculated on a monthly basis (1.20% on an annualized basis) (the "Post Merger Fee Waiver").

Based on net assets at December 31, 2003, and projected expenses for the year 2004, in the absence of CLM's Current Fee Waiver, as discussed on pages 6-7, above, each of CLM's and MGC's annualized expense ratios are expected to be approximately 1.48% and 2.13%, respectively. Based on similar assumptions, CLM's annualized expense ratio after the MGC Merger, not including the expenses of the MGC Merger, is projected to be approximately 1.27%, assuming that Cornerstone Advisor's Post Merger Fee Waiver is in effect, CLM's annualized expense ratio is

expected to be 1.20%. Based on similar assumptions, CLM's annualized expense ratio after the approval of the PGF and MGC Mergers, not including the expenses of the combined mergers, are projected to be approximately 1.25%, assuming the Post Merger Fee Waiver described above remains in effect, CLM's annualized expense ratio is expected to be 1.20%. The actual expense ratios for the calendar year, whether or not the PGF Merger or the MGC Merger occur, may be higher or lower than these projections and depend upon performance, general stock market and economic conditions, net asset levels, stock prices and other factors, as well as whether the voluntary fee waiver currently in place for CLM is continued.

-29-

See "Expense Table" below for the current expenses of each Fund and pro forma expenses following the approvals of the proposed MGC Merger.

DISTRIBUTION POLICIES

CLM

For a discussion regarding CLM's Distribution Policy, please see pages 5-6, above.

MGC

On July 26, 2003, MGC's Board of Directors adopted a distribution policy whereby the Fund makes fixed, monthly distributions. The amount of the distributions was set at \$0.125 per share for the remaining months of 2003, subject to the Board's ability to increase the amount of the distribution. On September 24, 2003, the Board determined to increase the amount of the monthly distribution to an amount equal to \$0.14 per share for remaining calendar months of 2003 and for the calendar year of 2004. The distributions made pursuant to the distribution policy may be treated as returns of capital, capital gain or ordinary income depending on each Fund's tax position for the year as a whole. Stockholders will be advised of the relevant treatment when the tax positions are known. To the extent that these distributions exceed the current earnings of the Fund, the balance is generated from sales of portfolio securities held by the Fund or returns of capital.

The Board has reserved the right to change the dollar amount of the monthly distribution, but has indicated the intention to maintain the total annual amount of distributions at or above this level. The Board continues to believe that the distribution policy is in the best interests of the Fund and its stockholders, and it is the intention of the Board to continue such distribution policy so long as the Board continues to believe that it is in the best interest of the Fund and its stockholders.

FEDERAL INCOME TAX CONSEQUENCES OF THE MGC MERGER.

As a condition to the closing of the MGC Merger, each Fund will receive an opinion of Blank Rome LLP, counsel to each Fund, stating that the MGC Merger will constitute a tax-free reorganization within the meaning of Section 368(a) of the Code.

Accordingly, CLM, MGC, CLM's stockholders, and MGC stockholders that participate in the MGC dividend reinvestment plan shall not recognize any gain or loss as a result of the MGC Merger. However, each MGC stockholder that does not participate in the MGC dividend reinvestment plan and receives cash in lieu

of fractional shares, may recognize gain. The holding period and the aggregate tax basis of CLM shares (including fractional shares) received by a MGC stockholder will be the same as the holding period and aggregate tax basis of the shares of MGC previously held by the stockholder. The holding period and the aggregate tax basis of the assets received by CLM in the MGC Merger will be the same as the holding period and the tax basis of such assets in the hands of MGC immediately before the MGC Merger. For more information about the tax consequences of the MGC Merger, see "Information about the MGC Merger - Tax Considerations and Consequences of the Merger."

UNREALIZED CAPITAL GAINS

As of December 31, 2003, CLM and MGC had \$2,114,454 and \$25,200,303, respectively, of net unrealized capital gains, representing 7.95% and 23.27% of net assets, respectively.

EXPENSES OF THE MGC MERGER.

In evaluating the proposed MGC Merger, the Board of Directors of CLM and MGC, have estimated the amount of expenses CLM and MGC would incur to be approximately \$86,000 and \$180,000, respectively, which includes, but is not limited to, AMEX fees, SEC registration fees, legal and accounting fees, proxy

-30-

and distribution costs, and expenses incurred in connection with the MGC Merger. Some of these expenses would have been incurred by each Fund in connection with the holding of their annual meeting of stockholders. Each Fund will bear its respective costs of the MGC Merger, however, to the extent that any of the expenses incurred relate specifically to actions taken as a result of the MGC Merger, such as SEC registration fees and AMEX listing fees, such expenses will be allocated on the basis of relative net assets of all of the Funds.

PRINCIPAL RISK FACTORS

Both CLM and MGC are closed-end management investment companies and are designed primarily for long-term investors and not as trading vehicles.

STOCK MARKET VOLATILITY. Stock markets can be volatile. In other words, the prices of stocks can rise or fall rapidly in response to developments affecting a specific company or industry, or to changing economic, political or market conditions. Each Fund is subject to the general risk that the value of its investments may decline if the stock markets perform poorly. There is also a risk that each Fund's investments will underperform either the securities markets generally or particular segments of the securities markets.

INVESTMENT IN SMALL AND MID-CAPITALIZATION COMPANIES. Each Fund may invest in companies with mid or small sized capital structures (for CLM, generally a market capitalization of \$5 billion or less, and for MGC, generally a market capitalization between \$100 million and \$2.2 billion), however, MGC generally invests a much greater percentage of its assets in small-capitalization companies, and as such, is subject to a greater risk than CLM. Accordingly, each Fund may be subject to the additional risks associated with investment in these companies. The market prices of the securities of such companies tend to be more volatile than those of larger companies. Further, these securities tend to trade at a lower volume than those of larger more established companies. If a Fund is heavily invested in these securities and the value of these securities suddenly declines, that Fund will be susceptible to

significant losses.

ISSUER SPECIFIC CHANGES. Changes in the financial condition of an issuer, changes in the specific economic or political conditions that affect a particular type of security or issuer, and changes in general economic or political conditions can affect the credit quality or value of an issuer's securities. Lower-quality debt securities tend to be more sensitive to these changes than higher-quality debt securities.

INTEREST RATE RISK. Debt securities have varying levels of sensitivity to changes in interest rates. In general, the price of a debt security can fall when interest rates rise and can rise when interest rates fall. Securities with longer maturities and mortgage securities can be more sensitive to interest rate changes although they usually offer higher yields to compensate investors for the greater risks. The longer the maturity of the security, the greater the impact a change in interest rates could have on the security's price. In addition, short-term and long-term interest rates do not necessarily move in the same amount or the same direction. Short-term securities tend to react to changes in short-term interest rates and long-term securities tend to react to changes in long-term interest rates.

CREDIT RISKS. Fixed income securities rated B or below by S&Ps or Moody's may be purchased by either Fund. These securities have speculative characteristics and changes in economic conditions or other circumstances are more likely to lead to a weakened capacity of those issuers to make principal or interest payments, as compared to issuers of more highly rated securities.

EXTENSION RISK. Each Fund is subject to the risk that an issuer will exercise its right to pay principal on an obligation held by the Fund (such as mortgage-backed securities) later than expected. This may happen when there is a rise in interest rates. These events may lengthen the duration (i.e. interest rate sensitivity) and potentially reduce the value of these securities.

ILLIQUID SECURITIES. Each Fund may invest up to 15% of its respective net assets in illiquid securities. Illiquid securities may offer a higher yield than securities which are more readily marketable, but they may not always be marketable on advantageous terms. The sale of illiquid securities often requires

-31-

more time and results in higher brokerage charges or dealer discounts than does the sale of securities eligible for trading on national securities exchanges or in the over-the-counter markets. A security traded in the U.S. that is not registered under the Securities Act of 1933 will not be considered illiquid if Fund management determines that an adequate investment trading market exists for that security. However, there can be no assurance that a liquid market will exist for any security at a particular time.

OVER-THE-COUNTER BULLETIN BOARD MARKETS. Each Fund may invest in companies whose stock is trading on the over-the-counter Bulletin Board which have only a limited trading market. A more active trading market may never develop. Each Fund may be unable to sell its investments in these companies on any particular day due to the limited trading market.

ANTI-TAKEOVER PROVISIONS. Each Fund's Charter and Bylaws include provisions that could limit the ability of other persons or entities to acquire control of the Fund or to cause it to engage in certain transactions or to modify its structure.

LEVERAGE RISK. Utilization of leverage is a speculative investment technique and involves certain risks to the holders of common stock. These include the possibility of higher volatility of the net asset value of the common stock and potentially more volatility in the market value of the common stock. So long as each Fund is able to realize a higher net return on its investment portfolio than the then current cost of any leverage together with other related expenses, the effect of the leverage will be to cause holders of common stock to realize higher current net investment income than if the Fund were not so leveraged. On the other hand, to the extent that the then current cost of any leverage, together with other related expenses, approaches the net return on the Fund's investment portfolio, the benefit of leverage to holders of common stock will be reduced, and if the then current cost of any leverage were to exceed the net return on the Fund's portfolio, the Fund's leveraged capital structure would result in a lower rate of return to Common Shareholders than if the Fund were not so leveraged. There can be no assurance that each Fund's leverage strategy will be successful.

FOREIGN SECURITIES RISK. Investments in securities of non-U.S. issuers involve special risks not presented by investments in securities of U.S. issuers, including the following: less publicly available information about companies due to less rigorous disclosure or accounting standards or regulatory practices; the impact of political, social or diplomatic events; possible seizure, expropriation or nationalization of the company or its assets; and possible imposition of currency exchange controls. These risks are more pronounced to the extent that each Fund invests a significant amount of its investments in companies located in one region.

DEBT SECURITY RISK. In addition to interest rate risk, call risk and extension risk, debt securities are also subject to the risk that they may also lose value if the issuer fails to make principal or interest payments when due, or the credit quality of the issuer falls.

COMMON STOCK RISK. While common stock has historically generated higher average returns than fixed income securities, common stock has also experienced significantly more volatility in those returns. An adverse event, such as an unfavorable earnings report or acts of terrorism, may depress the value of common stock held by the Fund. Also, the price of common stock is sensitive to general movements in the stock market. A drop in the stock market may depress the price of common stock held by the Fund.

MARKET DISCOUNT FROM NET ASSET VALUE. Shares of closed end investment companies frequently trade at a discount from their net asset value. This characteristic is a risk separate and distinct from the risk that a Fund's net asset value could decrease as a result of its investment activities and may be greater for investors expecting to sell their shares in a relatively short period following completion of this offering. The net asset value of the common stock will be reduced immediately following the offering as a result of the payment of certain offering costs. Whether investors will realize gains or losses upon the sale of the common stock will depend not upon the Fund's net asset value but entirely upon whether the market price of the common stock at the time of sale is above or below the investor's purchase price for the common stock. Because the market price of the common stock will be determined by

factors such as relative supply of and demand for the common stock in the market, general market and economic conditions, and other factors beyond the control of the Fund, the Fund cannot predict whether the common stocks will trade at, below or above net asset value. As of December 31, 2003, each of CLM

Edgar Filing: CORNERSTONE STRATEGIC VALUE FUND INC/ NEW - Form N-14 8C

and MGC were trading at substantial premiums to their net asset value, 32.35% and 13.38%, respectively.

As a stockholder, you may pay certain fees and expense if you hold shares of CLM, PGF or MGC, or in CLM-Post PGF Merger, in CLM-Post MGC Merger, or in CLM-Post combined PGF and MGC Mergers. These fees and expenses, including the fees and expenses based on a pro forma basis, post the mergers are set forth in the table below and the example that follows.

 - (4) Total Annual Expenses does not reflect the effect of any fee waiver. Assuming that the contractual Post Merger Fee Waiver is in effect, the Total Annual Expenses are expected to be 1.20%.

Example. The purpose of the following example is to help you understand the costs and expenses you may bear, directly or indirectly, as an investor. This example is based on the level of total annual operating expenses for each Fund listed in the table above, the total expenses relating to a \$10,000 investment, assuming a 5% annual return and reinvestment of all dividends and distributions. Stockholders do not pay these expenses directly, they are paid by the Funds before they

distribute net investment income to stockholders. This example should not be considered a representation of future expenses, and actual expenses may be greater or less than those shown. Federal regulations require the example to assume a 5% annual return, but actual annual returns will vary.

COMPARISON OF INVESTMENT OBJECTIVES AND POLICIES

ORGANIZATION.

CLM and MGC are both closed-end, diversified management investment companies registered under the Investment Company Act. Both Funds are organized as corporations under the laws of the State of Maryland. CLM is managed and advised by Cornerstone Advisors, and MGC is advised by DeAM. CLM's shares of common stock are listed and trade on the AMEX under the symbol "CLM" and MGC's shares of common stock are listed and trade on the NYSE under the symbol "MGC." After the MGC Merger, CLM's shares will continue to trade on the AMEX under the symbol "CLM", while MGC's shares will be delisted and MGC will cease to exist.

The shares of common stock of each Fund have equal non-cumulative voting rights and equal rights with respect to dividends, assets and dissolution. Each Fund's shares of common stock are fully paid and non-assessable and have no preemptive, conversion or other subscription rights. Fluctuations in the market price of each Fund's shares is the principal investment risk of an investment in either Fund. Portfolio management, market conditions, investment policies and other factors affect such fluctuations. Although the investment objectives, policies and restrictions of each Funds are similar, there are differences between them, as discussed below. There can be no assurance that either Fund will achieve its stated investment objective.

INVESTMENT OBJECTIVES.

Edgar Filing: CORNERSTONE STRATEGIC VALUE FUND INC/ NEW - Form N-14 8C

CLM

CLM's investment objective is to seek long-term capital appreciation through investment primarily in equity securities of U.S. and non-U.S. companies which Fund management believes have demonstrated fundamental investment value and favorable growth prospects, as determined by the Advisor. In general, CLM invests primarily in common stocks, preferred stocks, rights, warrants and securities convertible into common stocks that are listed on stock exchanges or traded over the counter.

MGC

MGC's primary investment objective is to seek long-term capital appreciation principally by investing in common stocks and securities convertible into common, stock, substantially all of which will be U.S. securities. The Fund will seek current income as a secondary objective. There is no assurance that the primary or secondary objectives of the Fund can be achieved.

-34-

Each Fund's foregoing investment objective cannot be changed without the vote of a majority of the Fund's outstanding voting securities of the Fund as set forth in Section 2(a)(42) the Investment Company Act. No assurance can be given that either Fund's investment objective will be achieved.

COMPARISON OF INVESTMENT POLICIES.

CLM

CLM's portfolio, under normal market conditions, will consist principally of the equity securities of U.S. and non-U.S. companies. In general, CLM invests primarily in common stocks, preferred stocks, rights, warrants and securities convertible into common stocks that are listed on stock exchanges or traded over the counter. The Fund may, without limitation, hold cash or invest in assets in money market instruments, including U.S. and non-U.S. government securities, high grade commercial paper and certificates of deposit and bankers' acceptances issued by U.S. and non-U.S. banks having deposits of at least \$500 million. In addition, CLM may engage in hedging transactions to reduce its company market and currency exchange exposure.

Although CLM has the ability to invest a significant portion of its assets in non-U.S. companies, the Fund has consistently maintained the investment of at least 90% of its assets in U.S. companies since June 30, 2001.

CLM may also invest up to 10% of its assets in the aggregate in the securities of other investment companies and up to 5% of its assets in any one such investment company, provided that such investment does not represent more than 3% of the voting stock of the acquired investment company of which such shares are purchased. As a shareholder in any investment company, the Fund will bear its ratable share of the investment company's expenses and would remain subject to payment of the Fund's advisory and administrative fees with respect to the assets so invested.

CLM may invest up to 15% of its assets in illiquid U.S. and non-U.S. securities, provided that the Fund may not invest more than 3% of the Fund's assets in the securities of companies that, at the time of investment, had less than a year of operations, including operations of predecessor companies. The

Edgar Filing: CORNERSTONE STRATEGIC VALUE FUND INC/ NEW - Form N-14 8C

Fund will invest only in such illiquid securities that, in the opinion of Fund management, present opportunities for substantial growth over a period of two to five years.

CLM does not expect to trade in securities for short-term gains. Higher portfolio turnover rates resulting from more actively traded portfolio securities generally result in higher transaction costs, including brokerage commissions and related capital gains or losses. The Fund's investment policies emphasize long-term investment in the securities of companies, therefore, the Fund's annual portfolio turnover rate is expected to be relatively low, ranging between 25% and 75%.

CLM's foregoing investment policies may be changed by the Fund's Board of Directors without shareholder vote.

MGC

MGC seeks to achieve its primary objective by investing principally in common stocks of companies with stock market capitalization primarily in the range of \$100 million to \$2.2 billion at the time of investment (small cap stocks). Stock market capitalizations are calculated by multiplying the total number of common shares outstanding by the market price per share of the stock. MGC may also invest in companies which offer the possibility of accelerating earnings growth because of management changes, new products or structural changes in the economy. MGC may also invest in companies with mid or large capitalizations.

-35-

MGC seeks higher returns through investing in common stocks of companies with small market capitalizations, which are not as well-known to the general public, may have less investor following, and may provide opportunities for investment gains due to the relative inefficiencies in this sector of the marketplace. Further, the price earnings ratios of small capitalization companies are at the lower end of historical levels when compared to the price earnings ratios of companies with larger market capitalizations.

The Fund seeks to invest in those companies where DeAM believes earnings will grow both faster than inflation and faster than the economy in general and where it believes such growth has not yet been fully reflected in the market price of these stocks. In seeking such investments DeAM gives weight to companies possessing a variety of characteristics including quality of management, a leading or dominant position in a major product line, a sound financial position, and a relatively high rate of return on invested capital so that future growth can be financed from internal sources.

MGC has the ability to hedge against a decline in value of securities owned by it or an increase in the price of securities which it plans to purchase through the writing and purchase of exchange traded options, and the purchase and sale of futures contracts and related options.

MGC's foregoing investment policies may be changed by the Fund's Board of Directors without shareholder vote.

POST MERGER INVESTMENT POLICY

It is important to note that if the MGC Merger is approved, MGC stockholders will become stockholders in CLM and will be subject to CLM's

investment objective, investment policies and restrictions. Historically, MGC has invested substantially all of its assets in small capitalization companies and CLM has invested in large and mid capitalization companies. It is the intention of CLM's management to, over time, continue to invest primarily in large and mid capitalization companies. However, in the event that the MGC Merger is approved, Cornerstone Advisors' current intention is to maintain at least 40% of MGC's portfolio holdings until June 18, 2005.

EACH FUND'S NON-PRINCIPAL INVESTMENT POLICIES

Temporary Defensive Positions. Each Fund may, in attempting to respond to adverse market, economic, political or other conditions, take temporary defensive positions that are inconsistent with its principal investment strategies. Such investments include various short-term instruments. If a Fund takes a temporary defensive position at the wrong time, the position would have an adverse impact on the Fund's performance and it may not achieve its stated investment objective.

Securities Lending. CLM may lend its portfolio securities to broker-dealers in amounts equal to no more than 33 1/3% of the Fund's net assets. MGC may lend its portfolio securities to broker-dealers or institutional investors in amounts equal to no more than 30% of the Fund's net assets. These transactions will be callable at any time and are fully collateralized at all times with cash and/or high quality, short-term debt obligations. These transactions involve risk to a Fund if the other party should default on its obligation and the Fund is delayed or prevented from recovering the securities lent. In the event the original borrower defaults on its obligation to return lent securities, the Fund will seek to sell the collateral, which could involve costs or delays. To the extent proceeds from the sale of collateral are less than the repurchase price, the Fund would suffer a loss and you could lose money on your investment.

Borrowing. Each Fund may borrow money, up to 15% of the value of the respective Fund's total assets at the time of such borrowings, from banks for temporary or emergency purposes or for the clearance of transactions in amounts not exceeding 10% (taken at the lower of cost or current value) of its total assets (not including the amount borrowed) and may also pledge its assets to secure such borrowings. To reduce its indebtedness, a Fund may have to sell a portion of its investments at a time when it may be disadvantageous to do so. In addition, interest paid by the Fund on borrowed funds would decrease the net earnings of the Fund

-36-

Repurchase Agreements. Each Fund may enter into repurchase agreements collateralized by the securities in which it may invest. A repurchase agreement involves the purchase by the Fund of securities with the condition that the original seller (a bank or broker-dealer) will buy back the same securities (collateral) at a predetermined price or yield. Repurchase agreements involve certain risks not associated with direct investments in securities. In the event the original seller defaults on its obligation to repurchase, the Fund will seek to sell the collateral, which could involve costs or delays. To the extent proceeds from the sale of collateral are less than the repurchase price, the Fund would suffer a loss. Not more than 10% of MGC's net assets will be invested in repurchase agreements maturing in more than seven days.

Under the Investment Company Act, neither Fund may:

- (1) invest more than 5% of its total assets in the securities of any one investment company; nor
- (2) acquire more than 3% of the outstanding voting securities of any such company.

UNITED STATES FEDERAL INCOME TAXES

The following is a brief summary of certain United States federal income tax issues that apply to each Fund. Stockholders should consult their own tax advisers with regard to the federal tax consequences of the purchase, ownership and disposition of each Fund's shares, as well as tax consequences arising under the laws of any state, foreign country, or other taxing jurisdiction.

Each Fund has qualified, and intends to continue to qualify and elect to be treated, as a regulated investment company ("RIC"), for each taxable year under Subchapter M of the Code. A RIC generally is not subject to federal income tax on income and gains distributed in a timely manner to its stockholders.

Each Fund intends to distribute annually to its stockholders substantially all of its investment company taxable income. The Board of Directors of each Fund will determine annually whether to distribute any net realized long-term capital gains in excess of net realized short-term capital losses, including any capital loss carryovers. Each Fund currently expects to distribute any excess annually to their stockholders. However, if either Fund retains for investment an amount equal to its net long-term capital gains in excess of its net short-term capital losses and capital loss carryovers, it will be subject to a corporate tax, currently at a rate of 35%, on the amount retained. In that event, that Fund expects to designate such retained amounts as undistributed capital gains in a notice to its stockholders who:

- (1) will be required to include in income for United States federal income tax purposes, as long-term capital gains, their proportionate shares of the undistributed amount;
- (2) will be entitled to credit their proportionate shares of the 35% tax paid by that Fund on the undistributed amount against their United States federal income tax liabilities, if any, and to claim refunds to the extent their credits exceed their liabilities, if any; and
- (3) will be entitled to increase their tax basis, for United States federal income tax purposes, in their shares by an amount equal to 65% of the amount of undistributed capital gains included in the stockholder's income.

Income received by a Fund from sources within countries other than the United States may be subject to withholding and other taxes imposed by such countries, which will reduce the amount available for distribution to stockholders. If more than 50% of the value of either Fund's total assets at the close of its taxable year consists of securities of foreign corporations, that Fund will be eligible and intends to elect to "pass-through" to stockholders the amount of foreign income and similar taxes it has paid. Pursuant to this election, stockholders of the electing Fund will be required to include in gross income (in addition to the full amount of the taxable dividends actually received) their pro rata share of the foreign taxes paid by that Fund. Each such stockholder will also be entitled either to deduct (as an itemized deduction) its pro rata share of foreign taxes in computing its taxable income or to claim a foreign tax credit against its U.S. federal income tax liability, subject to limitations. No deduction for foreign taxes may be claimed by a stockholder who does not itemize deductions, but such a stockholder may be eligible to claim the foreign tax credit. The deduction for foreign taxes is not allowable in computing alternative minimum taxable income. Each stockholder will be notified within 60 days after the close of that Fund's taxable year whether the foreign

taxes paid by the Fund will "pass through" for that year.

-37-

Generally, a credit for foreign taxes is subject to the limitation that it may not exceed the stockholder's U.S. tax attributable to his or her foreign source taxable income. For this purpose, if the pass-through election is made, the source of each Fund's income flows through to its stockholders. Any gains from the sale of securities by either Fund will be treated as derived from U.S. sources and certain currency fluctuation gains, including fluctuation gains from foreign currency-denominated debt securities, receivables and payables, will be treated as ordinary income derived from U.S. sources. The limitation on the foreign tax credit is applied separately to foreign source passive income (as defined for purposes of the foreign tax credit), including the foreign source passive income passed through by each Fund. Because of the limitation, stockholders taxable in the United States may be unable to claim a credit for the full amount of their proportionate share of the foreign taxes paid by each Fund. The foreign tax credit also cannot be used to offset more than 90% of the alternative minimum tax (as computed under the Code for purposes of this limitation) imposed on corporations and individuals.

Stockholders will be notified annually by each Fund as to the United States federal income tax status of the dividends, distributions and deemed distributions made by the Fund to its stockholders. Furthermore, stockholders will also receive, if appropriate, various written notices after the close of each Fund's taxable year regarding the United States federal income tax status of certain dividends, distributions and deemed distributions that were paid, or that are treated as having been paid, by that Fund to its stockholders during the preceding taxable year. For a more detailed discussion of tax matters affecting each Fund and its stockholders, see "Taxation" in the SAI.

INFORMATION ABOUT THE MERGER

GENERAL.

Under the MGC Plan, MGC will merge with and into CLM on the Effective Date. As a result of the MGC Merger and on the Effective Date:

- (1) MGC will no longer exist; and
- (2) CLM will be the surviving corporation and MGC will then:
 - (a) deregister as an investment company under the Investment Company Act,
 - (b) withdraw from registration under the Exchange Act,
 - (c) remove its shares of common stock from listing on the NYSE, and (d) cease its separate existence under Maryland law.

Each share of common stock of MGC will convert into an equivalent dollar amount of full and fractional shares of CLM common stock, based on the relative net asset value per share of each Fund calculated at the close of business on the Business Day preceding the Effective Date. CLM full and fractional shares will be issued to all of the MGC stockholders. MGC stockholders that participate in the MGC dividend reinvestment plan shall receive fractional shares. Any MGC stockholder that does not participate in MGC's dividend reinvestment plan will not receive fractional shares, rather CLM's transfer agent will aggregate all fractional shares, sell the resulting full shares on the AMEX at the then current market price and remit the proceeds to MGC's stockholders in proportion to their fractional shares.

Under Section 3-202 of the MGCL, stockholders of a corporation whose shares are traded publicly on a national securities exchange, such as each Fund's shares, are not entitled to demand the fair value of their shares upon a merger; therefore, the stockholders of either Fund will be bound by the terms of the MGC Merger. However, any stockholder of either Fund may sell his or her shares of common stock at any time prior to the MGC Merger on the national securities exchange on which such Fund is listed and trades.

The MGC Plan may be terminated and the MGC Merger abandoned, whether before or after approval by the Funds' stockholders, at any time prior to the Effective Date either (i) by the mutual written consent of the Board of Directors of each Fund, or (ii) by either Fund's Board of Directors if the conditions to that Fund's obligations under the MGC Plan have not been satisfied or waived.

-38-

If the MGC Merger has not been consummated by July 30, 2004, the MGC Plan automatically terminates on that date, unless a later date is mutually agreed upon by the Board of Directors of each Fund.

REASONS FOR THE MGC MERGER.

The Board of Directors of each Fund, including the Non-Interested Directors, considered the proposed MGC Merger at separate meetings of each Board held on January 30, 2004, February 19 and February 20, 2004, and unanimously approved the proposed MGC Merger at separate meetings of each Board held on February 19 and February 20, 2004. For the reasons discussed below, the Board of Directors of each Fund, including the Non-interested Directors of each Fund, after consideration of the potential benefits of the MGC Merger to the stockholders of each Fund and the expenses expected to be incurred by each Fund in connection therewith, unanimously determined that:

- (1) the interests of the existing stockholders of each Fund will not be diluted as a result of the proposed MGC Merger; and
- (2) the proposed MGC Merger is in the best interests of each Fund and its stockholders.

The reasons stated above were fully recorded in each Fund's minute books.

Three principal factors led the Boards to reach these conclusions: (i) the MGC Merger will create a larger Fund and, consequently, all other factors being equal, should result in an expense ratio that is lower than the current expense ratio of either Fund absent any voluntary fee waiver; (ii) the larger Fund should provide better market liquidity for stockholders who want to sell their shares or add to their holdings; and (iii) Cornerstone Advisor's experience managing a fixed, monthly distribution policy. The Boards believe that, all other things being equal, a lower expense ratio and better market liquidity for the shares would be a beneficial result to the surviving Fund.

IN THE JUDGMENT OF THE BOARD OF DIRECTORS OF EACH FUND, THE MGC MERGER SERVES THE BEST INTERESTS OF EACH FUND AND ITS STOCKHOLDERS.

Stockholders should note that the Boards of Directors of the two Funds are very similar. Mr. Clark, an affiliate of Cornerstone Advisors, is currently the Chairman of the Board and the President of MGC, and is an officer and

Edgar Filing: CORNERSTONE STRATEGIC VALUE FUND INC/ NEW - Form N-14 8C

director of CLM and PGF. Scott Rogers is a Non-interested Director of CLM, but does not serve on the Board of MGC. Therefore, although all of the Non-interested Directors are "non-interested" with respect to each of the Funds under the Investment Company Act, a majority of the Non-interested Directors are not at arms-length with respect to the proposed MGC Merger.

During each of the MGC and CLM Board Meetings, Messrs. Bradshaw and Clark participated in the discussions concerning the MGC Merger and informed the members of the Board of their personal interest in Cornerstone Advisor, which currently is the investment adviser of CLM and would continue to serve as the investment adviser to CLM as the surviving fund in the event that the MGC Merger is approved by the stockholders. Following the discussions, the MGC and CLM Boards asked that Messrs. Bradshaw and Clark leave the room to allow the remaining Non-interested Directors the opportunity to meet in executive session to discuss the MGC Merger proposal. Following the executive session, a vote was taken at which all of the Directors of the Fund, including Messrs. Bradshaw and Clark, voted in favor of the MGC Merger proposal.

The Board of Directors of each Fund, in declaring advisable and recommending the proposed MGC Merger, also considered the following:

- (1) the capabilities and resources of Cornerstone Advisors in the area of investment management;

-39-

- (2) the experience of Cornerstone Advisors in managing an investment company that has implemented a fixed, monthly distribution policy;
- (3) the requirement to replace DeAM at the end of its current term as MGC's investment adviser;
- (4) expense ratios and information regarding fees and expenses of the Funds, both currently and on a pro forma basis after the MGC Merger;
- (5) the terms and conditions of the MGC Merger and whether it would result in dilution of the interests of each Fund and its existing stockholders;
- (6) the compatibility of each Fund's portfolio securities, investment objective, policies and restrictions;
- (7) the tax consequences to each Fund and its stockholders in connection with the MGC Merger; and
- 8) the anticipated expenses of the MGC Merger.

In reviewing issues relating to the structure of the MGC Merger and the selection of the surviving corporation in the MGC Merger, each Board also considered information provided to them by Cornerstone Advisors concerning:

- (1) the performance records of each Fund;
- (2) public and market perception of each Fund;
- (3) the relative size of each Fund;
- (4) the investment policies, strategies and personnel Cornerstone Advisors intends to utilize in managing the surviving Fund;
- (5) Cornerstone Advisors' recommendation that CLM be the surviving corporation; and
- (6) the relative tax positions of each Fund.

TERMS OF THE MGC MERGER AGREEMENT.

Edgar Filing: CORNERSTONE STRATEGIC VALUE FUND INC/ NEW - Form N-14 8C

The following is a summary of the significant terms of the MGC Plan. This summary is qualified in its entirety by reference to the MGC Plan, attached hereto as Exhibit B.

Each share of common stock of MGC will convert into an equivalent dollar amount of full and fractional shares of CLM, based on the relative net asset value per share of each Fund calculated at the close of business on the Business Day (as defined in the MGC Plan) preceding the Effective Date. CLM full and fractional shares will be issued to all of the MGC stockholders. MGC stockholders that participate in the MGC dividend reinvestment plan will receive fractional shares. Any MGC stockholder that does not participate in MGC's dividend reinvestment plan will not receive fractional shares, rather CLM's transfer agent will aggregate all fractional shares, sell the resulting full shares on the AMEX at the then current market price and remit the proceeds to MGC's stockholders in proportion to their fractional shares.

For purposes of valuing assets in connection with the MGC Merger, the assets of MGC will be valued pursuant to the principles and procedures consistently utilized by CLM, which principles and procedures are also utilized by MGC in valuing its own assets and determining its own liabilities. As a result, it is not expected that CLM's valuation procedures as applied to MGC's portfolio securities will result in any difference from the valuation that would have resulted from the application of MGC's valuation procedures to such securities. The net asset value per share of CLM common stock will be determined in accordance with these principles and procedures, and CLM will certify the computations involved. The net asset value per share of each Fund will not be adjusted to take into account differences in unrealized gains and losses, nor will it be adjusted to take into account the potential value of tax loss carryforwards.

CLM will issue separate certificates or share deposit receipts for CLM common stock to stockholders of MGC. CLM will deliver these certificates or share deposit receipts representing shares of CLM common stock to American Stock Transfer & Trust Co., as the transfer agent and registrar for CLM common stock. CLM will not permit any MGC stockholder to receive new certificates representing

-40-

shares of CLM common stock until the stockholder has surrendered his or her outstanding certificates representing shares of the common stock of MGC or, in the event of lost certificates, posted adequate bond. MGC will request its stockholders to surrender their outstanding certificates representing shares of the common stock of MGC or post adequate bond therefor. Distributions payable to holders of record of shares of CLM as of any date after the Effective Date and prior to the exchange of certificates by any stockholder of MGC will be paid to such stockholder, without interest; however, such distributions will not be paid unless and until such stockholder surrenders his or her stock certificates of MGC for exchange.

PLEASE DO NOT SEND IN ANY STOCK CERTIFICATES AT THIS TIME. UPON CONSUMMATION OF THE MGC MERGER, STOCKHOLDERS OF MGC WILL BE FURNISHED WITH INSTRUCTIONS FOR EXCHANGING THEIR STOCK CERTIFICATES FOR CLM STOCK CERTIFICATES.

The net asset value of the CLM shares received by MGC stockholders will be equal to the aggregate net asset value of the MGC shares exchanged.

The MGC Plan provides, among other things, that the MGC Merger will not take place without (i) the requisite approval of the stockholders of CLM and

Edgar Filing: CORNERSTONE STRATEGIC VALUE FUND INC/ NEW - Form N-14 8C

MGC, and (ii) the effectiveness of a Registration Statement on Form N-14.

The MGC Plan may be terminated at any time prior to the Effective Date by mutual agreement of each Fund's Board of Directors or by either Fund if the other has violated a condition of the MGC Plan. The MGC Plan will automatically terminate after July 30, 2004 if the MGC Merger has not been consummated, unless such time is extended by mutual agreement of the Board of Directors of each Fund.

The MGC Plan may be amended, modified or supplemented by mutual agreement of the Boards of Directors of CLM and MGC. However, no amendments which would have the effect of changing the provisions for determining the number of shares issued to MGC stockholders will be permitted following the meeting unless MGC stockholders consent to the amendment.

EXPENSES OF THE MGC MERGER.

In evaluating the proposed MGC Merger, the Board of Directors of each Fund has estimated the amount of expenses each Fund will incur, including, but not limited to, AMEX listing fees, SEC registration fees, legal and accounting fees, proxy and distribution costs, and expenses incurred in connection with the MGC Merger. The estimated total expenses pertaining to the MGC Merger that CLM will bear is approximately \$86,000 (which includes the expenses for the MGC Merger and PGF Merger) and the amount that MGC will bear is approximately \$180,000. Some of these expenses would have been incurred by each Fund in connection with their annual meeting of stockholders. Each Fund will bear its respective costs of the MGC Merger, however, to the extent that any of the expenses incurred relate specifically to actions taken as a result of the MGC Merger, such as SEC registration fees and AMEX listing fees, such expenses will be allocated on the basis of relative net assets of all of the Funds.

The expenses of the MGC Merger, without giving effect to the Current Fee Waiver with respect to CLM only, are expected to result in a reduction in net asset value per CLM share and MGC shares of approximately \$0.02, and \$0.02, respectively.

TAX CONSIDERATIONS AND CONSEQUENCES OF THE MGC MERGER.

THE FOLLOWING IS A DISCUSSION OF CERTAIN U.S. FEDERAL INCOME TAX CONSEQUENCES OF THE MERGER TO MGC STOCKHOLDERS WHO EXCHANGE THEIR SHARES OF MGC STOCK FOR SHARES OF CLM COMMON STOCK IN THE MERGER. THIS DISCUSSION ADDRESSES ONLY MGC STOCKHOLDERS WHO ARE U.S. HOLDERS (AS DEFINED BELOW) AND HOLD MGC STOCK AS A CAPITAL ASSET. IT DOES NOT ADDRESS ALL OF THE U.S. FEDERAL INCOME TAX CONSEQUENCES THAT MAY BE RELEVANT TO A PARTICULAR MGC STOCKHOLDER IN LIGHT OF THAT STOCKHOLDER'S INDIVIDUAL CIRCUMSTANCES OR TO A MGC STOCKHOLDER WHO IS SUBJECT TO SPECIAL RULES, INCLUDING, WITHOUT LIMITATION:

-41-

- o a financial institution or insurance company;
- o a stockholder who is not a U.S. Holder;
- o a pass-through entity or an investor in such an entity;
- o a dealer or broker in securities or foreign currencies; and
- o a stockholder who holds MGC stock as part of a hedge, appreciated financial position, straddle, constructive sale or conversion transaction.

Edgar Filing: CORNERSTONE STRATEGIC VALUE FUND INC/ NEW - Form N-14 8C

The following discussion is based on the Code, applicable Treasury Regulations, administrative interpretations and court decisions, each as in effect as of the date of this Proxy Statement/Prospectus and all of which are subject to change, possibly with retroactive effect. This discussion is not binding on the Internal Revenue Service, which is referred to as the IRS, and there can be no assurance that the IRS (or a court, if challenged by the IRS) will agree with the conclusions stated herein. In addition, this discussion does not address any state, local or foreign tax consequences of the merger.

MGC STOCKHOLDERS ARE URGED TO CONSULT THEIR TAX ADVISORS AS TO THE SPECIFIC TAX CONSEQUENCES TO THEM OF THE MERGER IN LIGHT OF THEIR PARTICULAR CIRCUMSTANCES INCLUDING THE APPLICABILITY AND EFFECT OF U.S. FEDERAL, STATE, LOCAL, FOREIGN AND OTHER TAX LAWS.

"U.S. Holder" refers to a beneficial holder of stock that is (i) an individual citizen or resident of the United States, (ii) a corporation, or other entity taxable as a corporation for U.S. federal income tax purposes, created or organized in or under the laws of the United States, any state thereof or the District of Columbia, (iii) an estate the income of which is subject to U.S. federal income taxation regardless of its source or (iv) a trust (x) that is subject to the supervision of a court within the United States and the control of one or more U.S. persons as described in section 7701(a)(30) of the Code or (y) that has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

If a partnership holds MGC stock, the tax treatment of a partner will generally depend upon the status of the partner and the activities of that partnership. If a U.S. Holder is a partner of a partnership holding that MGC stock, the holder is urged to consult its tax advisor regarding the tax consequences of the merger.

It is a condition to the completion of the merger that MGC and CLM receive a written opinion from Blank Rome LLP dated as of the effective date of the merger, to the effect that the merger will qualify as a reorganization within the meaning of Section 368(a) of the Code. The opinion will rely on certain assumptions as well as representations and covenants made by each of MGC and CLM. If any of those assumptions, representations or covenants are inaccurate, Blank Rome may not be able to render the required opinion and the tax consequences of the merger could differ from those discussed here. An opinion of counsel is not binding on the IRS or any court, nor does it preclude the IRS from adopting a contrary position. No ruling has been or will be sought from the IRS on the U.S. federal income tax consequences of the merger.

Assuming that the merger qualifies as a reorganization within the meaning of Section 368(a) of the Code, for U.S. federal income tax purposes:

- o A MGC stockholder whose shares of MGC stock are exchanged in the merger for shares of CLM common stock will not recognize gain or loss, except to the extent of cash, if any, received in lieu of a fractional share of CLM common stock;
- o A MGC stockholder's aggregate tax basis in shares of CLM common stock received in the merger (including any fractional share interests deemed to be received and converted to cash) will equal the aggregate tax basis of the MGC stock surrendered in the merger; and
- o A MGC stockholder's holding period for shares of CLM common stock received in the merger will include the holding period for the shares of MGC stock surrendered in the merger.

-42-

CASH IN LIEU OF FRACTIONAL SHARES

To the extent that a MGC stockholder receives cash in lieu of a fractional share of CLM common stock, the stockholder will be deemed to have received that fractional share in the merger and then to have received the cash in exchanged for that fractional share. The stockholder will generally recognize capital gain or loss equal to the difference between the cash received and the portion of the stockholder's tax basis in the shares of MGC stock surrendered allocable to that fractional share. This capital gain or loss will generally be long-term capital gain or loss if the MGC stockholder's holding period for its shares of MGC stock exceeded one year at the effective time of the merger.

While MGC is not aware of any adverse state or local tax consequences of the proposed MGC Merger, it has not requested any ruling or opinion with respect to such consequences and stockholders may wish to consult their own tax advisers with respect to such matters.

ADDITIONAL INFORMATION ABOUT THE FUNDS

DESCRIPTION OF SECURITIES TO BE ISSUED.

The authorized stock of CLM currently consists of twenty-five million (25,000,000) shares of common stock, U.S. \$0.01 par value per share. Shares of CLM entitle its holders to one vote per share. Holders of CLM's common stock are entitled to share equally in distributions authorized by the Fund's Board of Directors payable to the holders of such common stock and in the net assets of CLM available for distribution to holders of such common stock. Shares have noncumulative voting rights and no conversion, preemptive or other subscription rights, and are not redeemable. The outstanding shares of common stock of CLM are fully paid and non-assessable. In the event of liquidation, each share of common stock is entitled to its proportion of the Fund's assets after payment of debts and expenses. CLM holds stockholder meetings annually.

The following table shows information about the common stock of each Fund as of December 31, 2003.

CLM	AMOUNT AUTHORIZED	AMOUNT HELD BY FUND	AMOUNT OUTSTANDING

Common Stock	25,000,000	0	3,849,524
MGC			

Common Stock	150,000,000	0	9,860,115

As of December 31, 2003, the net asset value of CLM common stock was \$6.90, and the market price per share was \$9.00. As of that same date, the net asset value of MGC common stock was \$10.98, and the market price per share was \$12.37.

PREMIUM/DISCOUNT TO NET ASSET VALUE.

Shares of closed-end investment companies frequently trade at a discount from net asset value. This characteristic is a risk separate and distinct from the risk that the fund's net asset values may decrease, and this risk may be greater for stockholders expecting to sell their shares in a relatively short period. THE SHARES OF COMMON STOCK OF THE FUNDS SHOULD BE VIEWED AS BEING DESIGNED PRIMARILY FOR LONG-TERM INVESTORS AND SHOULD NOT BE

Edgar Filing: CORNERSTONE STRATEGIC VALUE FUND INC/ NEW - Form N-14 8C

CONSIDERED A VEHICLE FOR TRADING PURPOSES.

During the period since the inception of each Fund, the common stock of both Funds have generally traded at a discount to net asset value, however, as of June 30, 2003, CLM has consistently traded at a premium and as of September 30, 2003, MGC has consistently traded at a premium. As of the last business day prior to the announcement of the proposed MGC Merger, each Fund's shares were trading at a premium. It is not possible to state whether shares of CLM will trade at a premium or discount to net asset value following the MGC Merger, or the extent of any such premium or discount.

* The Pro Forma Net Assets of CLM post merger account for the aggregate cost of the mergers to participating Funds.

Dividends and Other Distributions.

Each Fund intends to distribute dividends from its net investment income and any net realized capital gains after utilization of capital loss carryforwards annually to prevent application of a federal excise tax. An additional distribution may be made if necessary. Any dividends or capital gains distributions declared in October, November or December with a record date in such a month and paid during the following January will be treated by stockholders for federal income tax purposes as if received on December 31 of the calendar year in which it is declared. Dividends and distributions of each Fund are invested in shares of the Fund in accordance with each Fund's dividend reinvestment plan and credited to the stockholder's account on the settlement date which is usually three business days from the purchase date or, at the stockholder's election, paid in cash.

For a complete discussion of CLM's distribution policy, please see page 21, above.

On July 26, 2003, MGC's Board of Directors adopted a fixed, monthly distribution policy, pursuant to which the Fund makes fixed, monthly distributions. In determining to adopt the distribution policy, the Board sought to make regular monthly distributions at an annualized rate equal to approximately fifteen percent (15%) of the Fund's net asset value. The amount of the distributions was set at \$0.125 per share for the remaining months of 2003, subject to the Board's ability to increase the amount of the distribution. On September 24, 2003, the Board determined to increase the amount of the monthly distribution to an amount equal to \$0.14 per share for the remaining calendar months of 2003 and for the calendar year of 2004. The Board of Directors of each Fund has reserved the right to change the dollar amount of the monthly distribution, but has indicated the intention to maintain the total annual

amount of distributions at or above the current level. Such distributions may be treated as returns of capital, capital gain or ordinary income depending on each Fund's tax position for the year as a whole. Stockholders will be advised of the relevant treatment when the tax positions are known.

It is the intention of the current Board of Directors to continue its current monthly distribution policy after the MGC Merger but there can be no guarantee that the policy will be continued for any specific time period. In addition, the Fund filed with the SEC an application for exemptive relief seeking relief from the restrictions of Rule 19b-1 promulgated under the Investment Company Act which limits the amount of capital gains distributions that a RIC may make during a calendar year. There can be no assurances that such application will be granted by the SEC.

Portfolio Valuation.

Investments of each Fund are stated at value in each Fund's financial statements. All securities for which market quotations are readily available are valued at the last sales price or lacking any sales, at the closing price last quoted for the securities (but if bid and asked quotations are available, at the mean between the current bid and asked prices). Securities that are traded over-the-counter are valued at the mean between the current bid and the asked prices, if available. All other securities and assets are valued at fair value as determined in good faith by each Fund's Board of Directors. Short-term investments having a maturity of 60 days or less are valued on the basis of amortized cost. The Board of Directors of each Fund has established general guidelines for calculating fair value of securities that are not readily marketable. At December 31, 2003, both MGC and CLM held no securities valued in good faith by the Board of Directors. The net asset value per share of each Fund is made available to the public on a weekly basis.

For purposes of valuing assets in connection with the MGC Merger, the assets of MGC will be valued pursuant to the principles and procedures consistently utilized by CLM, which principles and procedures are also utilized by MGC in valuing its own assets and determining its own liabilities. It is not expected that CLM's valuation procedures as applied to MGC's portfolio securities will result in any difference from the valuation that would have resulted from the application of MGC's valuation procedures to such securities.

Dividend Reinvestment and Cash Purchase Plan.

CLM

For a full description of CLM's Dividend Reinvestment and Cash Purchase Plan, please see page 22, above.

MGC

Under the Fund's Dividend Reinvestment Plan (the "Plan"), all distributions from net investment income and/or capital gains will be reinvested in additional shares of the Fund. PFPC, Inc. ("PFPC") administers the Plan. You are deemed to participate in the Plan unless you elect to be paid in cash. If you want to be paid in cash, you should notify PFPC. If your shares are held in the name of a broker or nominee or you are transferring your account to a new broker, you should tell your broker or nominee whether you wish to participate in the Plan or to receive their distributions in cash.

You may withdraw from the Plan at any time by notifying PFPC in writing. If PFPC receives your notice within seven days of the record date of a distribution, your withdrawal from the Plan will be effective after that distribution is paid. When you withdraw from the Plan, you will receive a stock certificate for your full shares and a check for any fractional shares. The value of the fractional shares will be determined by using the Fund's current market value (net of any expenses incurred in converting the fractional shares to cash).

The method for determining the number of shares you receive when your distributions are reinvested will vary depending upon whether the net asset value of the Fund's shares is higher or lower than its market price, the number of shares you receive will be determined by dividing the amount of your distribution either by the Fund's net asset value per share or by 95% of its market price, whichever is higher. If the net asset value of the Fund's shares is higher than its market price, the number of shares you receive will be determined by dividing the amount of your distribution by the Fund's average closing price over the five trading days preceding the payment date.

Whenever the Fund declares a dividend or capital gains distribution payable only in cash and the net asset value per share of the Fund's common stock exceeds the market value per share on the payable date, PFPC will apply the amount of such dividend or distribution payable to Plan participants of the Fund in Fund shares (less such Plan participant's pro rata share of brokerage commissions incurred with respect to open-market purchase in connection with the

46

reinvestment of such dividend or distribution) to the purchase on the open market of Fund shares for such Plan participant's account. Such purchases will be made on or after the payable date for such dividend or distribution, an in no event more than 30 days after such date except where temporary curtailment or suspension of purchase is necessary to comply with applicable provisions of federal securities laws. PFPC may aggregate a Plan participant's purchases with the purchases of other Plan participants, and the average price (including brokerage commissions) of all shares purchased by PFPC shall be the price per share allocable to each Plan participant.

There will be no brokerage charges for shares directly issued by the Fund. There is no direct service charge to participants in the Plan. PFPC's fee will be borne by the Fund. The Board reserves the right to amend the Plan either to provide for a charge to participants or for any other reasons.

Corporate Governance Provisions.

Each Fund is a Maryland corporation and in many respects have similar charter and by-law provisions.

The Articles of Incorporation and By-laws of each Fund contain provisions that could have the effect of limiting the ability of other entities or persons to acquire control of the Fund, to cause it to engage in certain transactions or to modify its structure.

Each Fund's By-laws provide, among other things, that:

- (1) certain advance notice requirements must be met in order for Stockholders to submit proposals at annual meetings and for nominations by stockholders

for election to the Board of Directors; and

- (2) the power to amend the By-laws is reserved to the Board of Directors, except as otherwise required by the Investment Company Act.

MGC's By-laws require the approval of 75% of the Directors to approve any "Contract" (as defined in the By-laws), which would include an investment advisory agreement, between the Fund and anyone affiliated with the Fund, including an officer or a director of the Fund. In the event the Board approves a Contract, then another section of the By-laws makes it mandatory for the Fund to conduct a tender offer for at least 50% of the Fund's outstanding securities. These provisions can only be amended or repealed by 60% of the total outstanding shares of common stock. The Board of Directors of MGC, based on the advice of Fund Counsel, has determined that the MGC Merger proposal, if approved, will not be in contravention of these By-law provisions. Moreover, the MGC Board of Directors unanimously approved the MGC Merger and determined that conducting a tender offer during a time when the Fund is now consistently selling at a premium would not be in the best interests of the Fund or its stockholders.

In addition, MGC's By-laws have divided the members of the Board of Directors into classes in which each class expires three years from the date of the director's last election.

ITEM III. ADDITIONAL PROPOSALS TO BE VOTED ON BY CLM STOCKHOLDERS.

CLM PROPOSAL 3

AMENDMENT TO THE ARTICLES OF INCORPORATION

In connection with the proposed PGF and MGC Mergers, the Board of Directors of CLM authorized an amendment to CLM's Articles of Incorporation increasing the amount of authorized shares of common stock from twenty-five million (25,000,000) to one hundred million (100,000,000) and changing the par value per share from \$0.01 per share to \$0.001 per share. Such amendment will only take effect in the event that both the PGF Merger and the MGC Merger are approved by stockholders. Under the MGCL, an amendment to the Fund's Articles of Incorporation must be approved by the Board of Directors and ratified by a majority of the outstanding shares entitled to vote.

At the Board of Directors Meeting held on February 20, 2004, the Board of Directors unanimously authorized the amendment to the Articles of Incorporation to increase the authorized shares of common stock. Please see Exhibit D for a copy of the Amendment to the Articles of Incorporation.

Required Vote

CLM PROPOSAL 4

ELECTION OF DIRECTORS

In accordance with the Fund's By-laws, the Fund's Board of Directors is divided into three classes: Class I, Class II and Class III. Each class has a term of three years and each year the term of office of one class expires. The effect of these staggered terms is to limit the ability of other entities or persons to acquire control of the Fund by delaying the replacement of a majority of the Board of Directors. At a meeting held on February 20, 2004, Mr. Bentz, a Class II Director, tendered his resignation and the Board elected Mr. William A. Clark, based on the recommendation of the Nominating Committee, to fill the vacancy created by Mr. Bentz's resignation.

At the Meeting, stockholders will be asked to elect two Class III Directors to hold office until the year 2007 Annual Meeting of Stockholders or thereafter until each of their respective successors is duly elected and qualified. The term of office of the Class III Directors, currently consisting of Messrs. Glenn W. Wilcox, Sr. and Andrew Strauss, expires at the year 2007 Annual Meeting of Stockholders. In addition, stockholders are being asked to elect one Class II Director, Mr. William A. Clark, to hold office until the year 2006 Annual Meeting or thereafter until his respective successor is duly elected and qualified. If elected, each nominee has consented to serve as a director of the Fund until his successor is duly elected and qualified.

Each Nominee was considered and recommended by CLM's Nominating Committee at a meeting held on February 20, 2004.

The persons named in the accompanying form of proxy intend to vote at the Meeting (unless directed not to vote) FOR the election of all of the nominees. Each nominee has indicated that he will serve if elected, and the Board of Directors has no reason to believe that any of the nominees named above will become unavailable for election as a director, but if any nominee should be unable to serve, the proxy will be voted for any other person determined by the persons named in the proxy in accordance with their judgment.

The members of the Audit Committee during this period were Messrs. Wilcox, Lenagh, Strauss, Meese and Rogers. The principal functions of the Audit Committee include, but are not limited to, (i) the oversight of the accounting and financial reporting processes of the Fund and its internal control over financial reporting; (ii) the oversight of the quality and integrity of the Fund's financial statements and the independent audit thereof; and (iii) the approval, prior to the engagement of, the Fund's independent auditors and, in connection therewith, to review and evaluate the qualifications, independence and performance of the Fund's independent auditors. The Audit Committee convened two (2) times during the 2003 fiscal year. The Audit Committee Charter is attached hereto as Exhibit E.

The Audit Committee currently does not have an Audit Committee Financial Expert, as such term is defined in Section 407 of the Sarbanes-Oxley Act of 2002. Rather, the Audit Committee members believe that each of their individual experiences provide the Audit Committee with sufficient experience and expertise to allow them to perform their duties as members of the Audit Committee.

The Nominating Committee

The Fund has a standing Nominating Committee which is comprised of Messrs. Wilcox, Lenagh, Strauss, Meese and Rogers, all of whom are independent directors of the Fund, as such term is defined in Section 2(a)(19) of the Investment Company Act and in Section 121A of the AMEX Rules. The Nominating Committee seeks candidates that have exhibited strong decision-making ability, substantial business experience, relevant knowledge of the mutual fund industry (including closed-end funds), skills or technological expertise and exemplary personal integrity and reputation. In addition, the Nominating Committee seeks candidates that have experience and knowledge involving all of the service providers of a registered investment company.

The Nominating Committee will consider all nominees recommended by stockholders of the Fund, so long as stockholders send their recommendations in writing to the Secretary of the Fund in a manner consistent with the Fund's By-laws. Currently, the By-laws provide that the deadline for submitting a stockholder proposal for inclusion in the Fund's proxy statement and proxy for the Fund's 2005 annual meeting of stockholders pursuant to Rule 14a-8 of the SEC is December 27, 2004. Stockholders wishing to submit proposals or director nominations that are not to be included in such proxy statement and proxy must deliver notice to the Secretary at the principal executive offices of the Fund not later than the close of business on January 26, 2005 nor earlier than the close of business on December 27, 2004. Stockholders are also advised to review the Fund's Bylaws, which contain additional requirements with respect to advance notice of stockholder proposals and director nominations.

During the calendar year ended December 31, 2003, the Nominating Committee met one time. At the February 20, 2004 Nominating Committee Meeting, the Nominating Committee met and discussed the nomination of all of the Directors of the Fund for the 2004 Annual Meeting of Stockholders. Each of the nominees were recommended by Non-interested directors.

Required Vote

Directors are elected by a plurality of the votes cast by the holders of shares of common stock of the Fund present in person or represented by proxy at a meeting with a quorum present. For purposes of the election of Directors, abstentions and broker non-votes will be counted as shares present for quorum purposes and will be considered votes cast.

THE BOARD OF DIRECTORS RECOMMENDS THAT THE STOCKHOLDERS VOTE "FOR" THE ELECTION OF MESSRS. CLARK, STRAUSS AND WILCOX, SR. AS DIRECTORS OF THE FUND.

On February 20, 2004, the Audit Committee met with management to review and discuss the audited financial statements for the fiscal year ended December 31, 2003. The Audit Committee also conducted discussions with the Fund's independent auditors, Tait, Weller & Baker, regarding the matters required by the Statement on Auditing Standards No. 61. As required by Independence Standards Board Standard No. 1, "Independence discussion with Audit Committees",

This Audit Committee Report shall not be deemed incorporated by reference in any document previously or subsequently filed with the Securities and Exchange Commission that incorporates by reference all or any portion of this proxy statement except to the extent that the Fund specifically requests that the report be specifically incorporated by reference.

The Audit Committee of the Board of Directors has selected Tait, Weller & Baker to be employed as the Fund's independent certified public accountants to make the annual audit and to report on, as may be required, the financial statements which may be filed by the Fund with the Securities and Exchange Commission during the ensuing year.

In addition, stockholders are being asked to elect one Class III Director, Mr. William A. The Nominating Committee

The Fund has a standing Nominating Committee which is comprised of Messrs. Wilcox, Lenagh, Strauss, Meese and Rogers, all of whom are independent directors of the Fund, as such term is defined in Section 2(a)(19) of the Investment Company Act and in Section 121A of the AMEX Rules. Stockholders are also advised to review the Fund's Bylaws, which contain additional requirements with respect to advance notice of stockholder proposals and director nominations.

During the calendar year ended December 31, 2003, the Nominating Committee met one time. At the February 20, 2004 Nominating Committee Meeting, the Nominating Committee met and discussed the nomination of all of the Directors of the Fund for the 2004 Annual Meeting of Stockholders. Each of the nominees were recommended by Non-interested directors.

A representative of Tait, Weller & Baker is not expected to be present at the Annual Meeting but may be available by telephone to respond to appropriate questions from Stockholders.

PRINCIPAL ACCOUNTANT FEES AND SERVICES

Aggregate fees for professional services rendered for PGF by Tait, Weller & Baker as of or for the years ended December 31, 2003 and 2002 were:

	-----	-----

	=====	=====

All of the services performed by the Fund's independent auditors, including audit related and non-audit related services, were pre-approved by the Audit Committee. THIS MERGER AGREEMENT AND PLAN OF REORGANIZATION (the "Agreement") is made as of this ___th day of June, 2004, between Progressive Return Fund, Inc. (the "Target Fund" or "PGF"), a Maryland corporation and a registered investment company under the Investment Company Act of 1940, as amended (the "1940 Act"), and Cornerstone Strategic Value Fund, Inc. (the "Acquiring Fund" or "CLM"), a Maryland corporation and a registered investment company under the 1940 Act. CLM and PGF shall hereinafter be referred to as "Fund" or the "Funds."

This agreement contemplates a tax-free merger transaction which qualifies for federal income tax purposes as a reorganization within the meaning of Section 368(a)(1) of the Internal Revenue Code of 1986, as amended (the "Code").

NOW, THEREFORE, in consideration of the covenants and agreements hereinafter set forth, the Funds agree as follows:

1. DEFINITIONS

Certain capitalized terms used in this Agreement are specifically

On and subject to the terms and conditions of this Agreement, the Target Fund will merge with and into the Acquiring Fund (the "Merger") at the Effective Date (as defined in Section 2.3 below) in accordance with the Maryland General Corporation Law ("MGCL"). CLM shall be the surviving investment company and PGF shall cease to exist as a separate entity.

Each share of PGF will be converted into shares of Common Stock of CLM in accordance with Section 5.01 below.

2.2. Actions at Closing. 2.3. Effect of Merger. Subject to the requisite approvals of the shareholders of the Funds, and to the other terms and conditions described herein, the Merger shall become effective at such time as the Articles of Merger are accepted for record by the Department or at such later time as is specified in the Articles of Merger (the "Effective Date") and the separate corporate existence of PGF shall cease. As promptly as practicable after the Merger, PGF shall delist its shares from the American Stock Exchange, LLC ("AMEX") and its registration under the 1940 Act shall be terminated. Any reporting responsibility of PGF is, and shall remain, the responsibility of PGF up to and including the Effective Date.

3. REPRESENTATIONS AND WARRANTIES OF PGF

PGF represents and warrants to CLM that the statements contained in this Article 3 are correct and complete in all material respects as of the execution of this Agreement on the date hereof. PGF represents and warrants to, and agrees with, CLM that:

A-1

3.1. Organization. PGF is a corporation duly organized, validly existing under the laws of the State of Maryland and is in good standing with the Department, and has the power to own all of its assets and to carry on its business as it is now being conducted and to carry out this Agreement.

3.2. Registrations and Qualifications. PGF is duly registered under the 1940 Act as a closed-end, diversified management investment company (File No. 005-40528), and such registration has not been revoked or rescinded and is in full force and effect. PGF has elected and qualified for the special tax

treatment afforded regulated investment companies ("RIC") under Sections 851-855 of the Code at all times since its inception. PGF is qualified as a foreign corporation in every jurisdiction where required, except to the extent that failure to so qualify would not have a material adverse effect on PGF.

3.3. Regulatory Consents and Approvals. No consent, approval, authorization, or order of any court or governmental authority is required for the consummation by PGF of the transactions contemplated herein, except (i) such as have been obtained or applied for under the Securities Act of 1933, as amended (the "1933 Act"), the Securities Exchange Act of 1934 (the "1934 Act"), and the 1940 Act, (ii) such as may be required by state securities laws and (iii) such as may be required under Maryland law for the acceptance for record of the Articles of Merger by the Department.

3.4. Noncontravention. PGF is not, and the execution, delivery and performance of this Agreement by PGF will not result in, a violation of the laws of the State of Maryland or of the Articles of Incorporation or the By-laws of PGF, or of any material agreement, indenture, instrument, contract, lease or other undertaking to which PGF is a party or by which it is bound, and the execution, delivery and performance of this Agreement by PGF will not result in the acceleration of any obligation, or the imposition of any penalty, under any agreement, indenture, instrument, contract, lease, judgment or decree to which PGF is a party or by which it is bound.

3.5. Financial Statements. CLM has been furnished with PGF's Annual Report of Stockholders, as of December 31, 2003, said financial statements having been examined by Tait, Weller & Baker, independent public auditors. These financial statements are in accordance with generally accepted accounting principles applied on a consistent basis ("GAAP") and present fairly, in all material respects, the financial position of PGF as of such date in accordance with GAAP, and there are no known contingent liabilities of PGF required to be reflected on a balance sheet (including the notes thereto) in accordance with GAAP as of such date not disclosed therein.

3.6. This Section has been left intentionally Blank.

3.7. Qualification, Corporate Power, Authorization of Transaction. PGF has full power and authority to enter into and perform its obligations under this Agreement. The execution, delivery and performance of this Agreement has been duly authorized by all necessary action of its Board of Directors, and, subject to shareholder approval, this Agreement constitutes a valid and binding contract enforceable in accordance with its terms, subject to the effects of bankruptcy, insolvency, moratorium, fraudulent conveyance and similar laws relating to or affecting creditors' rights generally and court decisions with respect thereto.

3.8. Legal Compliance. No material litigation or administrative proceeding or investigation of or before any court or governmental body is presently pending (in which service of process has been received) or to its knowledge threatened against PGF or any properties or assets held by it. PGF knows of no facts which might form the basis for the institution of such proceedings which would materially and adversely affect its business and is not a party to or subject to the provisions of any order, decree or judgment of any court or governmental body which materially and adversely affects its business or its ability to consummate the transactions herein contemplated.

3.9. Material Contracts. There are no material contracts outstanding to which PGF is a party that have not been disclosed in the N-14 Registration Statement (as defined in Section 3.13 below) or will not be otherwise disclosed to CLM prior to the Effective Date.

3.10. Undisclosed Liabilities. There has not been any material adverse change in PGF's financial condition, assets, liabilities or business and PGF has no known liabilities of a material amount, contingent or otherwise, required to be disclosed in a balance sheet in accordance with GAAP other than those shown on PGF's statements of assets, liabilities and capital referred to above, those incurred in the ordinary course of its business as an investment company, and those incurred in connection with the Merger. Prior to the Effective Date, PGF will advise CLM in writing of all known liabilities, contingent or otherwise, whether or not incurred in the ordinary course of business, existing or accrued. For purposes of this Section 3.10, a decline in net asset value per share of PGF due to declines in market values of securities in PGF's portfolio or the discharge of PGF liabilities will not constitute a material adverse change.

3.11. Tax Filings.

(a) PGF has properly and timely filed all Tax Returns required to be filed by it, all of which were accurately prepared and completed in material compliance with all applicable laws. PGF has paid all Taxes required to be paid by it (whether or not shown on a Tax Return) or has properly reserved for any such Taxes which are not yet due and payable. No audit of PGF by any taxing authority has ever been conducted, is currently pending or, to the knowledge of PGF, is threatened. No notice of any proposed Tax audit, or of any Tax deficiency or adjustment, has been received by PGF, and there is no reasonable basis for any Tax deficiency or adjustment to be assessed against PGF. There are no agreements or waivers currently in effect that provide for an extension of time for the assessment of any Tax against PGF. PGF's Annual Report of Stockholders fully accrues all Taxes with respect to all periods through the dates thereof in accordance with GAAP. Since December 31, 2003, PGF has not incurred any liabilities for Taxes except in the ordinary course of business consistent with past practices. No proceeding with respect to Taxes is pending or has been threatened, and no claim has been or is likely to be asserted, against or with respect to PGF in respect of any Tax.

(b) PGF has disclosed to the Internal Revenue Service on the appropriate Tax Returns any Reportable Transaction in which PGF has participated. Reportable Transaction shall mean any transaction listed in Treasury Regulation Section 1.6011-4(b).

(c) For purposes of this Agreement, "Tax or Taxes" shall mean (a) any foreign, federal, state or local income, earnings, profits, gross receipts, franchise, capital stock, net worth, sales, use, value added, occupancy, general property, real property, personal property, intangible property, transfer, excise, payroll, withholding, unemployment compensation, social security, retirement or other tax of any nature; (b) any foreign, federal, state or local organization fee, qualification fee, annual report fee, filing fee, occupation fee, assessment, or other fee or charge of any nature; or (c) any deficiency, interest or penalty imposed with respect to any of the foregoing.

(d) For purposes of this Agreement, "Tax Returns" shall mean all returns and reports, amended returns, information returns, statements, declarations, estimates, schedules, notices, notifications, forms, elections, certificates or other documents required to be filed or submitted to any government body with respect to the determination, assessment, collection or payment of any Tax or in connection with the administration, implementation or enforcement of, or compliance with, any Tax.

3.13. Form N-14. The registration statement to be filed by CLM on Form N-14 relating to CLM common stock to be issued pursuant to this Agreement, and any supplement or amendment thereto or to the documents therein, as amended (the "N-14 Registration Statement"), on the effective date of the N-14 Registration Statement, at the time of the shareholders' meetings referred to in Article 6 of this Agreement and at the Effective Date, insofar as it relates to PGF (i) shall have complied or will comply in all material respects with the provisions of the 1933 Act, the 1934 Act and the 1940 Act and the rules and regulations thereunder and (ii) did not or will not contain any untrue statement of a material fact or omit to state any material fact required to be stated therein or necessary to make the statements therein not misleading; and the prospectus included therein did not or will not contain any untrue statement of a material fact or omit to state any material fact necessary to make the statements therein, in light of the circumstances under which they were made, not misleading; provided, however, that the representations and warranties in this Section 3.13 shall only apply to statements in, or omissions from, the N-14 Registration Statement made in reliance upon and in conformity with information furnished by CLM for use in the N-14 Registration Statement.

3.14. Capitalization.

(a) All issued and outstanding shares of PGF (i) have been offered and sold in compliance in all material respects with applicable registration requirements of the 1933 Act and state securities laws, (ii) are, and on the Effective Date will be, duly and validly issued and outstanding, fully paid and non-assessable, and (iii) will be held at the time of the Closing by the persons and in the amounts set forth in the records of the transfer agent as provided in Section 6.7. PGF does not have outstanding any options, warrants or other rights to subscribe for or purchase any of PGF shares, nor is there outstanding any security convertible into, or exchangeable for, any of PGF shares.

(b) PGF is authorized to issue 100,000,000 shares of stock, par value \$0.001 per share, all of which are classified as common stock and each

outstanding share is fully paid, non-assessable and has full voting rights.

3.15. Books and Records. The books and records of PGF made available to CLM are substantially true and correct and contain no material misstatements or omissions with respect to the operations of PGF.

4. REPRESENTATIONS AND WARRANTIES OF CLM

CLM represents and warrants to PGF that the statements contained in this Article 4 are correct and complete in all material respects as of the execution of this Agreement on the date hereof. CLM represents and warrants to, and agrees with, PGF that:

4.5. Financial Statements. PGF has been furnished with CLM's Annual Report to Stockholders as of December 31, 2003, said financial statements having been examined by Tait, Weller & Baker, independent public auditors. 5. CONVERSION TO CLM COMMON STOCK

5.1. Conversion.

The Valuation Time shall be at the close of business on the Business Day preceding the Effective Date or such other time on that day when net asset value of the respective Fund would be computed in accordance with the usual and customary practices of such Fund. A Business Day is a day on which the AMEX is open for trading. The Effective Date and the day preceding the Effective Date shall both be Business Days.

(b) Fractional shares of CLM will be issued to PGF stockholders that participate in PGF's Dividend Reinvestment Plan.

(c) PGF stockholders that do not participate in the PGF Dividend Reinvestment Plan will not receive fractional shares, rather, CLM's transfer agent will aggregate all fractional shares, sell the resulting full shares on the AMEX at the then current market price and remit the proceeds to PGF's stockholders in proportion to their fractional shares.

5.2. Computation of Net Asset Value. The net asset value per share of each Fund shall be determined as of the Valuation Time, and no formula will be used to adjust the net asset value so determined of either of the Fund's to take into account differences in realized and unrealized gains and losses. The value of the assets of PGF to be transferred to CLM shall be determined by CLM pursuant to the principles and procedures consistently utilized by CLM in valuing its own assets and determining its own liabilities for purposes of the Merger, which principles and procedures are substantially similar to those employed by PGF when valuing its own assets and determining its own liabilities. Such valuation and determination shall be made by CLM in cooperation with PGF

and shall be confirmed in writing by CLM to PGF. The net asset value per share of CLM common stock shall be determined in accordance with such procedures, and CLM shall certify the computations involved.

5.3. Issuance of CLM Common Stock. CLM shall issue to the shareholders of PGF separate certificates or share deposit receipts for CLM common stock by delivering the certificates or share deposit receipts evidencing ownership of CLM common stock to American Stock Transfer & Trust Co., as the transfer agent and registrar for CLM common stock.

A-7

5.4. Surrender of PGF Stock Certificates. With respect to any PGF shareholder holding certificates representing shares of the common stock of PGF as of the Effective Date, and subject to CLM being informed thereof in writing by PGF, CLM will not permit such shareholder to receive new certificates evidencing ownership of CLM common stock until such shareholder has surrendered his or her outstanding certificates evidencing ownership of the common stock of PGF or, in the event of lost certificates, posted adequate bond. PGF will request its shareholders to surrender their outstanding certificates representing certificates of the common stock of PGF or post adequate bond therefor. 12. TERMINATION, POSTPONEMENT AND WAIVERS

12.1. Termination.

(a) Notwithstanding anything to the contrary in this Agreement, this Agreement may be terminated and the Merger abandoned at any time (whether before or after adoption by the shareholders of each Fund) prior to the Effective Date, or the Effective Date may be postponed by: (i) mutual agreement of the Funds' Board of Directors; (ii) the Board of Directors of CLM if any of the obligations of PGF set forth in this Agreement has not been fulfilled or waived by such Board or if PGF has made a material and intentional misrepresentation herein or in connection herewith; or (iii) the Board of Directors of PGF if any of the obligations of CLM set forth in this Agreement has not been fulfilled or waived by such Board or if CLM has made a material and intentional misrepresentation herein or in connection herewith.

CLM shall be the surviving investment company and MGC shall cease to exist as a separate entity.

Each share of MGC will be converted into shares of Common Stock of CLM in accordance with Section 5.01 below.

2.2. Actions at Closing. At the closing of the transactions contemplated by this Agreement on the date thereof (the "Closing Date"), (i) MGC will deliver to CLM the various certificates and documents referred to in Article 7 below, (ii) CLM will deliver to MGC the various certificates and documents referred to in Article 8 below, and (iii) MGC and CLM will jointly file with the State Department of Assessments and Taxation of Maryland (the "Department") articles of merger (the "Articles of Merger") and make all other filings or recordings required by Maryland law in connection with the Merger.

3. REPRESENTATIONS AND WARRANTIES OF MGC

MGC represents and warrants to CLM that the statements contained in this Article 3 are correct and complete in all material respects as of the

Edgar Filing: CORNERSTONE STRATEGIC VALUE FUND INC/ NEW - Form N-14 8C

MGC is duly registered under the 1940 Act as a closed-end, diversified management investment company (File No. 005-39284), and such registration has not been revoked or rescinded and is in full force and effect. MGC has elected and qualified for the special tax treatment afforded regulated investment companies ("RIC") under Sections 851-855 of the Code at all times since its inception. MGC is qualified as a foreign corporation in every jurisdiction where required, except to the extent that failure to so qualify would not have a material adverse effect on MGC.

3.3. Regulatory Consents and Approvals. No consent, approval, authorization, or order of any court or governmental authority is required for the consummation by MGC of the transactions contemplated herein, except (i) such as have been obtained or applied for under the Securities Act of 1933, as amended (the "1933 Act"), the Securities Exchange Act of 1934 (the "1934 Act"), and the 1940 Act, (ii) such as may be required by states securities laws and (iii) such as may be required under Maryland law for the acceptance for record of the Articles of Merger by the Department.

3.4. Noncontravention. MGC is not, and the execution, delivery and performance of this Agreement by MGC will not result in, a violation of the laws of the State of Maryland or of the Articles of Incorporation or the By-laws of MGC, or of any material agreement, indenture, instrument, contract, lease or other undertaking to which MGC is a party or by which it is bound, and the execution, delivery and performance of this Agreement by MGC will not result in the acceleration of any obligation, or the imposition of any penalty, under any agreement, indenture, instrument, contract, lease, judgment or decree to which MGC is a party or by which it is bound.

3.5. Financial Statements. CLM has been furnished with MGC's Annual Report of Stockholders, as of December 31, 2003, said financial statements having been examined by Tait, Weller & Baker, independent public auditors. These financial statements are in accordance with generally accepted accounting principles applied on a consistent basis ("GAAP") and present fairly, in all material respects, the financial position of MGC as of such date in accordance with GAAP, and there are no known contingent liabilities of MGC required to be reflected on a balance sheet (including the notes thereto) in accordance with GAAP as of such date not disclosed therein.

3.6. This Section has been left intentionally Blank.

3.7. Qualification, Corporate Power, Authorization of Transaction. MGC has full power and authority to enter into and perform its obligations under this Agreement. The execution, delivery and performance of this Agreement has been duly authorized by all necessary action of its Board of Directors, and, subject to shareholder approval, this Agreement constitutes a valid and binding contract enforceable in accordance with its terms, subject to the effects of bankruptcy, insolvency, moratorium, fraudulent conveyance and similar laws relating to or affecting creditors' rights generally and court decisions with respect thereto.

3.8. Legal Compliance. No material litigation or administrative proceeding or investigation of or before any court or governmental body is presently pending (in which service of process has been received) or to its knowledge threatened against MGC or any properties or assets held by it. MGC knows of no facts which might form the basis for the institution of such

1. Audit Committee Membership.

Edgar Filing: CORNERSTONE STRATEGIC VALUE FUND INC/ NEW - Form N-14 8C

The Audit Committee ("Audit Committee") of each of the Cornerstone Strategic Value Fund, Inc., Cornerstone Total Return Fund, Inc. and the Progressive Return Fund, Inc. (the "Funds") shall be composed entirely of directors who are not "interested persons" (as such term is defined in the Investment Company Act of 1940, as amended). Each member of an Audit Committee shall have no relationship with the Funds, Cornerstone Advisors, Inc. (the "Adviser"), or Bear Stearns Funds Management Inc. Membership of a Fund's Audit Committee shall be determined by the respective Fund's full Board of Directors from time to time at its sole discretion. If one or more members of the Audit Committees qualify as an Audit Committee Financial expert (the "ACFE"), as defined in Section 407 of the Sarbanes-Oxley Act of 2002, at least one such member shall be designated as a Committees' ACFE. Such designation shall not impose any greater responsibility or liability on that person than the responsibility and liability imposed on such person as a member of the Audit Committee.

2. Meetings.

Each Audit Committee shall meet at least once a year and is empowered to hold special meetings as circumstances require.

3. Purposes.

The purposes of an Audit Committee is to:

1. Assist each Board in its oversight of the Fund's accounting and financial reporting policies and practices, its internal controls over financial reporting and, as appropriate, the internal controls over financial reporting of certain service providers.
2. Assist each Board in its oversight of the quality and objectivity of the Fund's financial statements and the independent audit thereof.
3. Select, oversee and set compensation of each Fund's independent auditors (the "Auditor") and to act as a liaison between the Auditors and the full Board of Directors.

The function of an Audit Committee is oversight; it is each Fund's management's responsibility to maintain appropriate systems for accounting and internal control over financial reporting, and the Auditors responsibility to plan and carry out the audit in accordance with auditing standards generally accepted in the United States. The Auditors are ultimately responsible to the Boards of Directors and the Audit Committees, as representatives of the shareholders.

4. Duties and Powers.

To carry out their purposes, each Audit Committee shall have the following duties and powers and shall apply the following principles:

E-1

(a) Selection of Auditors.

- (i) The Audit Committee shall pre-approve the selection of the Auditors and shall recommend the selection, retention or termination of Auditors to the Boards and, in connection therewith, to evaluate the independence of the Auditors, including whether the Auditors provide

Edgar Filing: CORNERSTONE STRATEGIC VALUE FUND INC/ NEW - Form N-14 8C

any consulting, auditing or non-audit services to the Adviser or its affiliates. The Audit Committee shall review the Auditors' specific representations as to its independence;

- (ii) The Audit Committee shall review and approve the fees charged by the Auditors for audit and non-audit services in accordance with the pre-approval requirements set forth in (d) below. Each Fund shall provide for appropriate funding, as determined by its Audit Committee, to compensate the Auditors for any authorized service provided to the Fund.

(b) Meetings with the Auditors.

The Audit Committee shall meet with the Auditors, including private meetings, as necessary to:

- (i) review the arrangements for and scope of the annual audit and any special audits;
- (ii) provide the Auditors the opportunity to report to the Audit Committee, on a timely basis all critical accounting policies and practices to be used;
- (iii) discuss any matters of concern relating to a Fund's financial statements, including: (A) any adjustments to such statements recommended by the Auditors, or other results of said audit(s); and (B) all alternative treatments of financial information within generally accepted accounting principles that have been discussed with management, the ramifications of the use of such alternative disclosures and treatments, and the treatment preferred by the Auditors;
- (iv) provide the Auditors the opportunity to report to the Audit Committee, on a timely basis, any material written communication between the Auditors and management such as any management letter or schedule of unadjusted differences;
- (v) provide the Auditors the opportunity to report all non-audit services provided to any entity in the "investment company complex"¹ that were not pre-approved by the Audit Committees;
- (vi) consider the Auditors' comments with respect to a Fund's financial policies, procedures and internal accounting controls and responses thereto by the Fund's officers in accordance with Statement of Auditing Standards No. 61, as amended;

- (viii) provide the Auditors the opportunity to report on any other matter that the Auditors deem necessary or appropriate to discuss with the Audit Committee.

(c) Change in Accounting Principles.

The Audit Committee shall consider the effect upon its respective Fund of any changes in accounting principles or practices proposed by the Auditors or the Fund's officers.

1 "INVESTMENT COMPANY COMPLEX" MEANS THE FUNDS, THE ADVISER AND ANY ENTITY CONTROLLED BY, CONTROLLING OR UNDER COMMON CONTROL WITH THE ADVISER IF SUCH ENTITY IS AN INVESTMENT ADVISER OR IS ENGAGED IN THE BUSINESS OF PROVIDING ADMINISTRATIVE, CUSTODIAN, UNDERWRITING OR TRANSFER AGENT SERVICES TO THE

FUND OR ADVISER.

E-2

- (i) Pre-Approval Requirements. Before the Auditors are engaged by a Fund to render audit or non-audit services, either:

The decision of any member to whom authority is delegated under this section shall be presented to the full Audit Committee at each of its scheduled meetings; or
- (B) The engagement to render the auditing service or permissible non-audit service is entered into pursuant to pre-approval policies and procedures established by the Audit Committee. Any such policies and procedures must (1) be detailed as to the particular service and (2) not involve any delegation of the Audit Committee's responsibilities to the Adviser. The Audit Committee must be informed of each service entered into pursuant to the policies and procedures. A copy of any such policies and procedures shall be attached as an exhibit to this Audit Committee Charter;
- (ii) De Minimis Exceptions to Pre-Approval Requirements. Pre-Approval for a service provided to a Fund other than audit, review or attest services is not required if: (1) the aggregate amount of all such non-audit services provided to a Fund constitutes not more than 5 percent of the total amount of revenues paid by the Fund to the Auditor during the fiscal year in which the non-audit services are provided; (2) such services were not recognized by the Fund at the time of the engagement to be non-audit services; and (3) such services are promptly brought to the attention of the Audit Committee and are approved by the Audit Committee or by one or more members of the Audit Committee to whom authority to grant such approvals has been delegated by the Audit Committee prior to the completion of the audit;
- (iii) Pre-Approval of Non-Audit Services Provided to the Adviser and Certain Control Persons. The Audit Committee shall pre-approve any non-audit services proposed to be provided by the Auditors to (a) the Adviser and (b) any entity controlling, controlled by, or under common control with the Adviser that provides ongoing services to the Funds, if the Auditors' engagement with the Adviser or any such control persons relates directly to the operations and financial reporting of the Funds.

Application of De Minimis Exception. The De Minimis exception set forth above under Section 5(d) (ii) applies to pre-approvals under this Section (iii) as well, except that the "total amount of revenues" calculation is based on the total amount of revenues paid to the Auditor by each Fund and any other entity that has its services approved under this Section (i.e., the Adviser or any control person).

- (iv) The pre-approval requirements set forth above are optional to the extent that any engagement is entered into with the Auditor prior to May 6, 2003 (the effective date of the Securities and Exchange Commission ("SEC") regulations establishing such requirements).² Engagements entered into prior to May 6, 2003, are subject to any limitations set forth in the transition and grandfathering provisions in the SEC rules.

2 THE FINAL RULES ADOPTED BY THE SECURITIES AND EXCHANGE COMMISSION RELATING TO PRE-APPROVAL REQUIREMENTS ARE SET FORTH IN STRENGTHENING THE COMMISSION'S REQUIREMENTS REGARDING AUDITOR INDEPENDENCE, RELEASE NO. IC-25915 (JAN. 28, 2003).

E-3

EXHIBIT G

INVESTORS FIRST FUND, INC.

Audit Committee Charter

Audit Committee Membership: The Audit Committee ("Audit Committee") of Investors First Fund, Inc. (the "Fund") shall be composed entirely of directors who are not "interested persons" (as such term is defined in the Investment Company Act of 1940, as amended). Each member of the Audit Committee shall have no relationship with the Fund, Deutsche Asset Management Inc. (the "Adviser"), or Bear Stearns Funds Management Inc. (the "Administrator"). Membership of the Fund's Audit Committee shall be determined by the Board of Directors, from time to time, at its sole discretion. If one or more members of the Audit Committee qualifies as an Audit Committee Financial expert (the "ACFE"), as defined in Section 407 of the Sarbanes-Oxley Act of 2002, at least one such member shall be designated as the Committee's ACFE. Such designation shall not impose any greater responsibility or liability on that person than the responsibility and liability imposed on such person as a member of the Audit Committee.

Meetings: The Audit Committee shall meet at least once a year and is empowered to hold special meetings as circumstances require.

Purpose: The purposes of the Audit Committee is to:

1. Assist the Board in its oversight of the Fund's accounting and financial reporting policies and practices, its internal controls over financial reporting and, as appropriate, the internal controls over financial reporting of certain service providers.
2. Assist the Board in its oversight of the quality and objectivity of

the Fund's financial statements and the independent audit thereof.

3. Select, oversee and set compensation of the Fund's independent auditor (the "Auditor") and to act as a liaison between the Auditor and the full Board of Directors.

The function of the Audit Committee is oversight; it is the Fund's management's responsibility to maintain appropriate systems for accounting and internal control over financial reporting, and the Auditor's responsibility to plan and carry out the audit in accordance with auditing standards generally accepted in the United States. The Auditor is ultimately responsible to the Board of Directors and the Audit Committee, as representatives of the shareholders.

Duties and Powers: To carry out its purposes, the Audit Committee shall have the following duties and powers and shall apply the following principles:

A. Selection of Auditor.

(i) The Audit Committee shall pre-approve the selection of the Auditor and shall recommend the selection, retention or termination of Auditor to the Board and, in connection therewith, to evaluate the independence of the Auditor, including whether the Auditor provides any consulting, auditing or non-audit services to the Adviser or its affiliates. The Audit Committee shall review the Auditor's specific representations as to its independence;

(ii) The Audit Committee shall review and approve the fees charged by the Auditor for audit and non-audit services in accordance with the pre-approval requirements set forth in (d) below. The Fund shall provide for appropriate funding, as determined by its Audit Committee, to compensate the Auditor for any authorized service provided to the Fund.

G-1

B. Meetings with the Auditors.

The Audit Committee shall meet with the Auditor, including private meetings, as necessary to:

(i) review the arrangements for and scope of the annual audit and any special audits;

(ii) provide the Auditor the opportunity to report to the Audit Committee, on a timely basis all critical accounting policies and practices to be used; (iii) discuss any matters of concern relating to the Fund's financial statements, including:

(A) any adjustments to such statements recommended by the Auditor, or other results of said audit; and

(B) all alternative treatments of financial information within generally accepted accounting principles that have been discussed with management, the ramifications of the use of such alternative disclosures and treatments, and the treatment preferred by the Auditor;

(iv) provide the Auditor the opportunity to report to the Audit Committee, on a timely basis, any material written communication between the Auditor and management such as any management letter or schedule of unadjusted differences;

Edgar Filing: CORNERSTONE STRATEGIC VALUE FUND INC/ NEW - Form N-14 8C

- (v) provide the Auditor the opportunity to report all non-audit services provided to any entity in the "investment company complex"³ that were not pre-approved by the Audit Committee;
- (vi) consider the Auditor's comments with respect to the Fund's financial policies, procedures and internal accounting controls and responses thereto by the Fund's officers in accordance with Statement of Auditing Standards No. 61, as amended;
- (vii) review the form of written opinion the Auditor proposes to render to the Board of Directors and shareholders; and
- (viii) provide the Auditor the opportunity to report on any other matter that the Auditor deems necessary or appropriate to discuss with the Audit Committee.

C. Change in Accounting Principles.

The Audit Committee shall consider the effect upon the Fund of any changes in accounting principles or practices proposed by the Auditor or the Fund's officers.

D. Pre-Approval Requirements.

Pre-Approval Requirements. Before the Auditor is engaged by the Fund to render audit or non-audit services, either:

1. The Audit Committee shall pre-approve all auditing services and permissible non-audit services (e.g., tax services) provided to the Fund. The Audit Committee may delegate to one or more of its members the authority to grant pre-approvals. The decision of any member to whom authority is delegated under this section shall be presented to the full Audit Committee at its scheduled meeting; or
2. The engagement to render the auditing service or permissible non-audit service is entered into pursuant to pre-approval policies and procedures established by the Audit Committee. Any such policies and procedures must (1) be detailed as to the particular service and (2) not involve any delegation of the Audit Committee's responsibilities to the Adviser. The Audit Committee must be informed of each service entered into pursuant to the policies and procedures. A copy of any such policies and procedures shall be attached as an exhibit to this Audit Committee Charter;

3 "INVESTMENT COMPANY COMPLEX" MEANS THE FUNDS, THE ADVISER AND ANY ENTITY CONTROLLED BY, CONTROLLING OR UNDER COMMON CONTROL WITH THE ADVISER IF SUCH ENTITY IS AN INVESTMENT ADVISER OR IS ENGAGED IN THE BUSINESS OF PROVIDING ADMINISTRATIVE, CUSTODIAN, UNDERWRITING OR TRANSFER AGENT SERVICES TO THE FUND OR ADVISER.

G-2

3. De Minimis Exceptions to Pre-Approval Requirements. Pre-Approval for a service provided to a Fund other than audit, review or attest services is not required if: (1) the aggregate amount of all such non-audit services provided to the Fund constitutes not more than 5 percent of the total amount of revenues paid by the Fund to the Auditor during the fiscal year in which the non-audit services are provided; (2)

such services were not recognized by the Fund at the time of the engagement to be non-audit services; and (3) such services are promptly brought to the attention of the Audit Committee and are approved by the Audit Committee or by one or more members of the Audit Committee to whom authority to grant such approvals has been delegated by the Audit Committee prior to the completion of the audit;

4. Pre-Approval of Non-Audit Services Provided to the Adviser and Certain Control Persons. The Audit Committee shall pre-approve any non-audit services proposed to be provided by the Auditor to (a) the Adviser and (b) any entity controlling, controlled by, or under common control with the Adviser that provides ongoing services to the Fund, if the Auditor's engagement with the Adviser or any such control persons relates directly to the operations and financial reporting of the Fund.

Application of De Minimis Exception. The De Minimis exception set forth above under Section 5(d)(ii) applies to pre-approvals under this Section (iii) as well, except that the "total amount of revenues" calculation is based on the total amount of revenues paid to the Auditor by the Fund and any other entity that has its services approved under this Section (i.e., the Adviser or any control person).

- (h) Prohibited Activities of the Auditor. An auditor who is performing the audit for the Fund may not perform contemporaneously (during the audit and professional engagement period) the following non-audit services for the Fund:
- (x) bookkeeping or other services related to the accounting records or financial statements of the Fund;
 - (xi) financial information systems design and implementation;
 - (xii) appraisal or valuation services, fairness opinions, or contribution-in-kind reports;
 - (xiii) actuarial services;
 - (xiv) internal audit outsourcing services;
 - (xv) management functions or human resources;
 - (xvi) broker or dealer, investment adviser, or investment banking services;
 - (xvii) legal services and expert services unrelated to the audit; and
 - (xviii) any other service that the Public Company Accounting Oversight Board determines, by regulation, is impermissible.

The Auditor will be responsible for informing the Audit Committee of whether it believes that a particular non-audit service is permissible or prohibited pursuant to applicable regulations and standards.

- (i) Improprieties. Investigate improprieties or suspected improprieties in the Fund's operations.

Edgar Filing: CORNERSTONE STRATEGIC VALUE FUND INC/ NEW - Form N-14 8C

(j) Board Reports. Report its activities to the full Board on a regular basis and to make such recommendations with respect to the above and other matters, as the Audit Committee may deem necessary or appropriate.

9. Meetings with Treasurer/Advisory Personnel.

The Audit Committee, in its discretion, may meet with the Treasurer of the Fund and with personnel of the Adviser.

10. Authority to Retain Counsel.

The Audit Committee shall have the resources and authority appropriate to discharge their responsibilities, including the authority to retain special counsel and other experts or consultants at the expense of the Fund.

11. Annual Charter Review.

DESCRIPTION OF THE FUND

Cornerstone Strategic Value Fund, Inc. (the "Fund" or "CLM") was incorporated in Maryland on May 1, 1987, under its previous name "Clemente Global Growth Fund, Inc." and commenced investment operations on June 30, 1987. On April 20, 2001, the stockholders of the Fund approved a name change whereby the Fund's official name became "Cornerstone Strategic Value Fund, Inc." The Fund is registered under the Investment Company of 1940, as amended (the "Investment Company Act"), as a closed-end, diversified management investment company and is listed on the American Stock Stock Exchange, LLC ("AMEX") under the symbol "CLM." CLM seeks long term capital appreciation through investing primarily in equity securities of U.S. and Foreign companies which Fund Management believes have demonstrated fundamental investment value and favorable growth prospects, as determined by Fund Management.

The authorized capitalization of CLM consists of 25,000,000 shares of common stock having \$0.01 par value per share (the "Shares"). Shares of the Fund have equal voting rights and liquidation rights. When matters are submitted to stockholders for a vote, each stockholder is entitled to one vote for each full Share owned and fractional votes for fractional Shares owned. The Fund holds its annual meeting of stockholders within 120 days after the end of its fiscal year which ends on December 31.

Each Share of CLM represents an equal proportionate interest in the assets and liabilities belonging to CLM with each other share of CLM and is entitled to such dividends and distributions out of the income belonging to CLM as are declared by the Board of Directors (the "Directors"). The Shares do not have cumulative voting rights or any preemptive or conversion rights. In the event of the dissolution or liquidation of the Fund, the holders of shares of the Fund are entitled to share pro rata in the net assets of the Fund available for distribution to shareholders.

B-1

INVESTMENT POLICIES, RISKS AND RESTRICTIONS

The Proxy Statement/Prospectus presents the investment objective and

the principal investment strategies and risks of the Fund. The investment objective of the Fund is to seek long term capital appreciation by investing primarily in U.S. and non-U.S. companies. There can be no assurance that the Fund will achieve its investment objective. This section supplements the disclosure in the Fund's Proxy Statement/Prospectus and provides additional information on the Fund's investment policies and restrictions.

NON-PRINCIPAL INVESTMENT POLICIES

TEMPORARY DEFENSIVE POSITIONS. The Fund may, from time to time, take temporary defensive positions that are inconsistent with its principal investment strategies in attempting to respond to adverse market, economic, political or other conditions. Such investments include various short-term instruments. If the Fund takes a temporary defensive position at the wrong time, the position would have an adverse impact on the Fund's performance and it may not achieve its investment objective. The Fund reserves the right to invest all of its assets in temporary defensive positions.

SECURITIES LENDING. The Fund may lend its portfolio securities to broker-dealers in amounts equal to no more than 33 1/3% of the Fund's net assets. These transactions will be fully collateralized at all times with cash and/or high quality, short-term debt obligations. These transactions involve risk to the Fund if the other party should default on its obligation and the Fund is delayed or prevented from recovering the securities lent. In the event the original borrower defaults on its obligation to return lent securities, the Fund will seek to sell the collateral, which could involve costs or delays. To the extent proceeds from the sale of collateral are less than the repurchase price, the Fund would suffer a loss and you could lose money on your investment.

BORROWING. The Fund may borrow money from banks, including pursuant to a revolving line of credit established for the benefit of investment companies managed by Cornerstone Advisors, for temporary or emergency purposes in order to meet redemption requests. To reduce its indebtedness, the Fund may have to sell a portion of its investments at a time when it may be disadvantageous to do so. In addition, interest paid by the Fund on borrowed funds would decrease the net earnings of the Fund

REPURCHASE AGREEMENTS. The Fund may enter into repurchase agreements collateralized by the securities in which it may invest. A repurchase agreement involves the purchase by the Fund of securities with the condition that the original seller (a bank or broker-dealer) will buy back the same securities ("collateral") at a predetermined price or yield. Repurchase agreements involve certain risks not associated with direct investments in securities. In the event the original seller defaults on its obligation to repurchase, the Fund will seek to sell the collateral, which could involve costs or delays. To the extent proceeds from the sale of collateral are less than the repurchase price, the Fund would suffer a loss.

B-2

PRINCIPAL INVESTMENT RISKS

Please see the Fund's Proxy Statement/Prospectus for additional information concerning the Principal Investment Risks of the Fund.

INVESTMENT RESTRICTIONS

The Fund has adopted certain fundamental investment restrictions that

may not be changed without the prior approval of the holders of a majority of the Fund's outstanding voting securities. For purposes of the restrictions listed below, all percentage limitations, with the exception of the percentage limitation listed in 2 below, apply immediately after a purchase or initial investment, and any subsequent change in any applicable percentage resulting from market fluctuations does not require elimination of any security from the Fund's portfolio. Fund policies which are not fundamental may be modified by the Board of Directors if, in the reasonable exercise of the Board's business judgment, modification is determined to be necessary or appropriate to carry out the Fund's objective. Under its fundamental restrictions, the Fund may not:

1. Invest 25% or more of the total value of its assets in a particular industry. This restriction does not apply to investments in United States Government securities.

2. Issue senior securities, borrow or pledge its assets, except that the Fund may borrow from a bank for temporary or emergency purposes or for the clearance of transactions in amounts not exceeding 10% (taken at the lower of cost or current value) of its total assets (not including the amount borrowed) and may also pledge its assets to secure such borrowings. Additional investments will not be made when borrowings exceed 5% of the Fund's assets.

3. Make short sales of securities or maintain a short position in any security.

4. Purchase securities on margin, except such short-term credits as may be necessary or routine for the clearance or settlement of transactions and the maintenance of margin with respect to forward contracts or other hedging transactions.

5. Underwrite securities of other issuers, except insofar as the Fund may be deemed an underwriter under the Securities Act of 1933, as amended, in selling portfolio securities.

6. Purchase or sell commodities or real estate, except that the Fund may invest in securities secured by real estate or interests in real estate or in securities issued by companies, including real estate investment trusts, that invest in real estate or interests in real estate, and may purchase and sell forward contracts on foreign currencies to the extent permitted under applicable law.

7. Make investments for the purpose of exercising control over, or management of, the issuers of any securities.

B-3

MANAGEMENT OF THE FUND

The business and affairs of the Fund are managed under the direction of the Fund's Board of Directors, and the day-to-day operations are conducted through or under the direction of the officers of the Fund.

For information concerning CLM's Directors and Officers, please refer to CLM's Proxy Statement/Prospectus dated April __, 2004.

The Fund has an Audit Committee and a Nominating Committee each of which is comprised of all of the non-interested members of the Board of

Edgar Filing: CORNERSTONE STRATEGIC VALUE FUND INC/ NEW - Form N-14 8C

Directors. For additional information concerning the Audit Committee and the Nominating Committee, please refer to CLM's Proxy Statement/Prospectus dated April __, 2004

INVESTMENT ADVISORY AGREEMENT

The Fund's Board of Directors, including the Directors who are not interested persons of any party to the Cornerstone Agreement or its affiliates, recently determined to continue the investment advisory agreement with Cornerstone Advisors on February 20, 2004, with its legal counsel in attendance.

In approving the Cornerstone Agreement and determining to submit it to the stockholders of the Fund for their approval, the Non-Interested members of the Board of Directors considered many factors, including the nature, quality and scope of the operations and services to be provided in comparison to other comparable investment managers, the experience of Cornerstone Advisors, and the prior experience of Messrs. Bradshaw and Bentz. The Non-Interested members of the Board of Directors noted that Cornerstone Advisors, Inc. (i) has experience in providing investment advisory services to closed-end funds, (ii) has continued to take steps in an effort to reduce the discount at which the Fund's shares have historically traded at, and (iii) has continued to strive to reduce CLM's expenses. Furthermore, the Non-Interested members of the Board of Directors considered the opportunity to obtain comparable services at comparable costs. Lastly, consideration was given to the fact that there exists no arrangement or understanding in connection with the Cornerstone Agreement with respect to the composition of the Board of Directors of the Fund or of Cornerstone Advisors or with respect to the selection or appointment of any person to any office of the Fund or Cornerstone Advisors.

CODE OF ETHICS

PRINCIPAL OFFICERS CODE OF ETHICS

For additional information concerning the Code of Ethics which applies to the Fund's principal officers, please refer to CLM's Proxy Statement/Prospectus dated April __, 2004.

B-4

RULE 17J-1 OF THE 1940 ACT

The Fund and Cornerstone Advisors have adopted a written Code of Ethics that are compliant with Rule 17j-1 of the Investment Company Act, which permit personnel covered by the Code of Ethics ("Covered Persons") to invest in securities, including securities that may be purchased or held by the Fund. The Code of Ethics also contains provisions designed to address the conflicts of interest that could arise from personal trading by advisory personnel. The following are some of the requirements under the Fund's and Cornerstone Advisors' Code of Ethics: (1) all Covered Persons must report their personal securities transactions at the end of each quarter; (2) with certain limited exceptions, all Covered Persons must obtain preclearance before executing any personal securities transactions; (3) Covered Persons may not execute personal trades in a security if there are any pending orders in that security by the respective Fund; and (4) Covered Persons may not invest in initial public offerings.

Edgar Filing: CORNERSTONE STRATEGIC VALUE FUND INC/ NEW - Form N-14 8C

The Board of Directors of the Fund reviews the administration of the Code of Ethics at least annually and may impose sanctions for violations of the Code of Ethics. The Codes of Ethics for the Fund and Cornerstone Advisers can be reviewed and copied either on the EDGAR database on the SEC's website at <http://www.sec.gov> or at the Securities Exchange Commission's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling the SEC at (202) 942-8090.

PROXY VOTING POLICIES AND PROCEDURES

The Fund provides a voice on behalf of shareholders of the Fund. The Fund views the proxy voting process as an integral part of the relationship with the Fund. CLM has entered into an arrangement with Institutional Shareholders Services ("ISS") whereby ISS votes all of the Fund's portfolio companies proxy statements and records all of the proxy votes for compilation in the Form N-PX. The Fund believes that ISS is in a better position to monitor corporate actions, analyze proxy proposals, make voting decisions and ensure that proxies are submitted promptly. Therefore, the Fund delegates its authority to vote proxies to ISS, subject to the supervision of the Board of Trustees. The fundamental purpose of ISS's Domestic Corporate Governance Policy is to ensure that each vote will be in a manner that reflects the best interest of the Fund and its shareholders, and that maximizes the value of the Fund's investment.

MORE INFORMATION

The actual voting records relating to portfolio securities during the most recent 12 month period ended June 30 (starting with the year ending June 30, 2004) will be available without charge, upon request by calling toll-free, 1-866-227-3400 or by accessing the SEC's website at WWW.SEC.GOV. In addition, a copy of the Fund's proxy voting policies and procedures are also available by calling 1-866-227-3400 and will be sent within three business days of receipt of a request.

ADMINISTRATOR.

Bear Stearns Funds Management Inc. ("BSFM") serves as the Fund's administrator pursuant to an administrative agreement with each Fund. BSFM is located at 383 Madison Avenue, 23rd Floor, New York, New York 10179.

CUSTODIAN.

Custodial Trust Company, 101 Carnegie Center, Princeton, New Jersey, is the custodian for the Fund's assets.

TRANSFER AGENT AND REGISTRAR.

American Stock Transfer & Trust Co., 59 Maiden Lane, New York, New York 10038 acts as the transfer agent and registrar of the Fund.

PORTFOLIO TRANSACTIONS

Decisions to buy and sell securities for the Fund are made by Cornerstone Advisors subject to the overall review of the Fund's Board of Directors. Portfolio securities transactions for the Fund are placed on behalf of the Fund by persons authorized by Cornerstone Advisors. Cornerstone Advisors manages other investment companies and accounts that invest in securities. Although investment decisions for the Fund is made independently from those of the other accounts, investments of the type the Fund may make may also be made on behalf of those other accounts. When the Fund and one or more of those other accounts is prepared to invest in, or desires to dispose of, the same security, available investments or opportunities for each will be allocated in a manner believed by Cornerstone Advisors to be equitable. In some cases, this procedure may adversely affect the price paid or received by the Fund or the size of the position obtained or disposed of by the Fund.

Transactions on U.S. and some foreign stock exchanges involve the payment of negotiated brokerage commissions, which may vary among different brokers. The cost of securities purchased from underwriters includes an underwriter's commission or concession, and the prices at which securities are purchased from and sold to dealers in the over-the-counter markets include an

B-6

undisclosed dealer's mark-up or mark-down. Fixed income securities are generally traded on a "net" basis with dealers acting as principal for their own accounts without a stated commission, although the price of the security will likely include a profit to the dealer.

In selecting brokers or dealers to execute portfolio transactions on behalf of the Fund, Cornerstone Advisors will seek the best overall terms available. The Advisory Agreement provides that, in assessing the best overall terms available for any transaction, Cornerstone Advisors will consider the factors it deems relevant, including the breadth of the market in the security, the price of the security, the financial condition and execution capability of the broker or dealer and the reasonableness of the commission, if any, for the specific transaction and on a continuing basis. In addition, the Advisory Agreement authorizes Cornerstone Advisors in selecting brokers or dealers, to execute a particular transaction and in evaluating the best overall terms available, to consider the brokerage and research services (as those terms are defined in Section 28(e) of the Securities Exchange Act of 1934) provided to the Fund and/or other accounts over which Cornerstone Advisors exercises investment discretion. The fees payable under the Advisory Agreements are not reduced as a result of Cornerstone Advisors receiving such brokerage and research services.

The Board of Directors of the Fund will review periodically the commissions paid by that Fund to determine if the commissions paid over representative periods of time were reasonable in relation to the benefits inuring to such Fund.

The aggregate amounts paid by CLM in brokerage commissions for the

Edgar Filing: CORNERSTONE STRATEGIC VALUE FUND INC/ NEW - Form N-14 8C

fiscal years ended December 31, 2001, 2002 and 2003 were \$69,714, \$18,188 and \$13,413, respectively. None of the brokerage commissions paid by CLM were paid to affiliated brokers.

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

For information concerning the Dividend Reinvestment and Cash Purchase Plan, please see CLM's Proxy Statement/Prospectus dated April __, 2004.

TAXATION

The following is a summary of certain material United States federal income tax considerations regarding the purchase, ownership and disposition of shares in the Fund. Each prospective shareholder is urged to consult his or her own tax adviser with respect to the specific federal, state, local and foreign tax consequences of investing in the Fund. The summary is based on the laws in effect on the date of this SAI, which are subject to change.

The Fund has qualified and elected to be treated as a regulated investment company under the Internal Revenue Code of 1986, as amended (the "Code"), and intends to continue to so qualify, which requires compliance with certain requirements concerning the sources of its income, diversification of its assets, and the amount and timing of its distributions to shareholders. Such qualification does not involve supervision of management or investment practices or policies by any government agency or bureau. By so qualifying, the Fund will not be subject to federal income or excise tax on its net investment income or

B-7

net capital gain which are distributed to shareholders in accordance with the applicable timing requirements. Net investment income and net capital gain of the Fund will be computed in accordance with Section 852 of the Code.

The Fund intends to distribute all of its net investment income, any excess of net short-term capital gains over net long-term capital losses, and any excess of net long-term capital gains over net short-term capital losses in accordance with the timing requirements imposed by the Code and therefore will not be required to pay any federal income or excise taxes. Distributions of net investment income and net capital gain will be made no later than December 31 of each year. Both types of distributions will be in shares of the Fund unless a shareholder elects to receive cash.

If the Fund fails to qualify as a regulated investment company under Subchapter M in any fiscal year, it will be treated as a corporation for federal income tax purposes. As such the Fund would be required to pay income taxes on its net investment income and net realized capital gains, if any, at the rates generally applicable to corporations. Shareholders of the a Fund would not be liable for income tax on the Fund's net investment income or net realized capital gains in their individual capacities. Distributions to shareholders, whether from the Fund's net investment income or net realized capital gains, would be treated as taxable dividends to the extent of current or accumulated earnings and profits of the Fund.

The Fund is subject to a 4% nondeductible excise tax on certain undistributed amounts of ordinary income and capital gain under a prescribed formula contained in Section 4982 of the Code. The formula requires payment to shareholders during a calendar year of distributions representing at least 98% of the Fund's ordinary income for the calendar year and at least 98% of its capital gain net income (i.e., the excess of its capital gains over capital

Edgar Filing: CORNERSTONE STRATEGIC VALUE FUND INC/ NEW - Form N-14 8C

losses) realized during the one-year period ending October 31 during such year plus 100% of any income that was neither distributed nor taxed to the Fund during the preceding calendar year. Under ordinary circumstances, the Fund expects to time its distributions so as to avoid liability for this tax.

Net investment income is made up of dividends and interest less expenses. Net capital gain for a fiscal year is computed by taking into account any capital loss carryforward of the Fund.

The following discussion of tax consequences is for the general information of shareholders that are subject to tax. Shareholders that are IRAs or other qualified retirement plans are exempt from income taxation under the Code.

Distributions of taxable net investment income and the excess of net short-term capital gain over net long-term capital loss are taxable to shareholders as ordinary income.

Distributions of net capital gain ("capital gain dividends") are taxable to shareholders as long-term capital gain, regardless of the length of time the shares of the Fund have been held by such shareholders.

B-8

Distributions of taxable net investment income and net capital gain will be taxable as described above, whether received in shares or in cash. Shareholders electing to receive distributions in the form of additional shares will have a cost basis for federal income tax purposes in each share so received equal to the net asset value of a share on the reinvestment date.

All distributions of taxable net investment income and net capital gain, whether received in shares or in cash, must be reported by each taxable shareholder on his or her federal income tax return. Dividends or distributions declared in October, November or December as of a record date in such a month, if any, will be deemed to have been received by shareholders on December 31, if paid during January of the following year. Redemptions of shares may result in tax consequences (gain or loss) to the shareholder and are also subject to these reporting requirements.

Under the Code, the Fund will be required to report to the Internal Revenue Service all distributions of taxable income and capital gains, except in the case of certain exempt shareholders. Under the backup withholding provisions of Section 3406 of the Code, distributions of taxable net investment income and net capital gain may be subject to withholding of federal income tax at the rate of 30.5% in the case of non-exempt shareholders who fail to furnish the investment company with their taxpayer identification numbers and with required certifications regarding their status under the federal income tax law, or if the Fund is notified by the IRS or a broker that withholding is required due to an incorrect TIN or a previous failure to report taxable interest or dividends. If the withholding provisions are applicable, any such distributions and proceeds, whether taken in cash or reinvested in additional shares, will be reduced by the amounts required to be withheld.

Shareholders of the Fund may be subject to state and local taxes on distributions received from the Fund.

A brief explanation of the form and character of the distribution

accompany each distribution. In January of each year the Fund issues to each shareholder a statement of the federal income tax status of all distributions.

THE FOREGOING IS ONLY A SUMMARY OF CERTAIN MATERIAL TAX CONSEQUENCES AFFECTING THE FUNDS AND THEIR SHAREHOLDERS. SHAREHOLDERS ARE ADVISED TO CONSULT THEIR OWN TAX ADVISERS WITH RESPECT TO THE PARTICULAR TAX CONSEQUENCES TO THEM OF AN INVESTMENT IN EITHER FUND.

The Cornerstone Strategic Value Fund, Inc.
Progressive Return Fund, Inc.
Notes to Pro Forma Financial Statements (unaudited)

1. Basis of Combination

The unaudited Pro Forma Condensed Portfolio of Investments, Pro Forma Condensed Statement of Assets and Liabilities and Pro Forma Condensed Statement of Operations give effect to the proposed merger of Progressive Return Fund, Inc. (PGF) into The Cornerstone Strategic Value Fund, Inc. ("CLM"). The proposed merger will be accounted for by the method of accounting for tax-free mergers of investment companies (sometimes referred to as the pooling-of-interest basis). The Merger provides for the transfer of all or substantially all of the assets of PGF to CLM in exchange for CLM common shares, the distribution of such CLM common shares to common shareholders of PGF and the subsequent liquidation of PGF. Each share of common stock of PGF will convert into an equivalent dollar amount of full shares of common stock of CLM based on the net asset value per share of each Fund.

The pro forma combined statements should be read in conjunction with the historical financial statements of the constituent Fund and the notes thereto incorporated by reference in the Registration Statement filed on Form N-14.

CLM is a closed-end, diversified and PGF is a closed-end non-diversified Management investment companies registered under the Investment Company Act of 1940, as amended.

Pro Forma Adjustments:

The Pro Forma adjustments below reflect the impact of the merger between CLM and PGF.

- (a) To remove certain prepaid expenses associated with PGF, in the statement of assets and liabilities, which will not be assumed by CLM.
- (b) In connection with PGF's intention to merge with CLM; PGF reclass its treasury shares held to paid-in capital.

- (c) Adjustment based on contractual agreement with Investment Manager.
- (d) Assumes the elimination of duplicative charges resulting from the combination and reflects management's estimates of combined pro forma operations.
- (e) Adjustment based on the contractual agreement with the Administrator for the combined Fund.
- (f) Adjustment based on the contractual agreement with the custodian for the combined Fund.
- (g) Assumes shareholders' meeting fees are combined with printing and reflects management's estimates of combined pro forma operations.
- (h) Adjustment based on the contractual agreement with the Accounting fees for the combined Fund.
- (i) The Investment Manager voluntarily waives its management fees to the extent that the Fund's monthly operating expenses exceed 0.10% of net assets calculated on a monthly basis.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies, which are consistently followed by each of PGF and CLM in the preparation of its financial statements.

MANAGEMENT ESTIMATES: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that may affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

PORTFOLIO VALUATION: Investments are stated at value in the accompanying financial statements. All equity securities are valued at the closing price on the exchange or market on which the security is primary traded ("Primary Market"). If the security did not trade on the Primary Market, it shall be valued at the closing price on another exchange where it trades. If there is no such sale prices, the value shall be the most recent bid, and if there is no bid, the security shall be valued at the most recent asked. If no pricing service is available and there are more than two dealers, the value shall be the mean of the highest bid and lowest ask. If there is only one dealer, then the value shall be the mean if bid and ask are available, otherwise the value shall be the bid. All other securities and assets are valued as determined in good faith by the Board of Directors. Short-term investments having a maturity of 60 days or less are valued on the basis of amortized cost. The Board of Directors has established general guidelines for calculating fair value of not readily marketable securities. The net asset value per share of each Fund is calculated weekly and on the last business day of the month with the exception of those days on which the New York Stock Exchange is closed.

INVESTMENT TRANSACTIONS AND INVESTMENT INCOME: Investment transactions are accounted for on the trade date. The cost of investments sold is determined

Edgar Filing: CORNERSTONE STRATEGIC VALUE FUND INC/ NEW - Form N-14 8C

by use of the specific identification method for both financial reporting and income tax purposes. Interest income is recorded on an accrual basis; dividend income is recorded on the ex-dividend date.

TAXES: No provision is made for U.S. federal income or excise taxes as it is each Fund's intention to continue to qualify as a regulated investment company and to make the requisite distributions to its shareholders which will be sufficient to relieve it from all or substantially all U.S. federal income and excise taxes.

DISTRIBUTIONS OF INCOME AND GAINS: Each Fund distributes at least annually to shareholders, substantially all of its net investment income and net realized short-term capital gains, if any. Each Fund determines annually whether to distribute any net realized long-term capital gains in excess of net short-term capital losses, including capital loss carryovers, if any. An additional distribution may be made to the extent necessary to avoid the payment of a 4% U.S. federal excise tax. Dividends and distributions to shareholders are recorded by each Fund on the ex-dividend date.

B-13

The board of Directors of each Fund may, if it is determined to be in the best interest of each Fund and its shareholders, time to time authorize and declare distribution that may be substantially characterized as a return of capital.

The character of distributions made during the year from net investment income or net realized gains may differ from their ultimate characterization for U.S. federal income tax purposes due to U.S. generally accepted accounting principles/tax differences in the character of income and expense recognition.

OTHER: Securities denominated in currencies other than U.S. dollars are subject to changes in value due to fluctuations in exchange rates.

The Cornerstone Strategic Value Fund, Inc.
Investor First Fund, Inc.
Notes to Pro Forma Financial Statements (unaudited)

1. Basis of Combination

The unaudited Pro Forma Condensed Portfolio of Investments, Pro Forma Condensed Statement of Assets and Liabilities and Pro Forma Condensed Statement of Operations give effect to the proposed merger of Investor First Fund, Inc. (MGC) into The Cornerstone Strategic Value Fund, Inc. ("CLM"). The proposed merger will be accounted for by the method of accounting for tax-free mergers of investment companies (sometimes referred to as the pooling-of-interest basis). The Merger provides for the transfer of all or substantially all of the assets of MGC to CLM in exchange for CLM common shares, the distribution of such CLM common shares to common shareholders of MGC and the subsequent liquidation of MGC. Each share of common stock of MGC will convert into an equivalent dollar amount of full shares of common stock of CLM based on the net asset value per share of each Fund.

The pro forma combined statements should be read in conjunction with the historical financial statements of the constituent Fund and the notes thereto incorporated by reference in the Registration Statement filed on Form N-14.

CLM and MGC are both closed-end, diversified management investment companies registered under the Investment Company Act of 1940, as amended.

Pro Forma Adjustments:

The Pro Forma adjustments below reflect the impact of the merger between CLM and MGC.

- (a) To remove certain prepaid expenses associated with MGC, in the statement of assets and liabilities, which will not be assumed by CLM.
- (b) Adjustment based on contractual agreement with Investment Manager.
- (c) Assumes the elimination of duplicative charges resulting from the combination and reflects management's estimates of combined pro forma operations.
- (d) Adjustment based on the contractual agreement with the Administrator for the combined Fund.
- (e) Adjustment based on the contractual agreement with the custodian for the combined Fund.
- (f) Assumes shareholders' meeting fees are combined with printing and reflects management's estimates of combined pro forma operations.
- (g) Adjustment based on the contractual agreement with the Accounting fees for the combined Fund.
- (h) The Investment Manager voluntarily waives its management fees to the extent that the Fund's monthly operating expenses exceed 0.10% of net assets

calculated on a monthly basis.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies, which are consistently followed by each of CLM and MGC in the preparation of its financial statements.

MANAGEMENT ESTIMATES: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that may affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

PORTFOLIO VALUATION: Investments are stated at value in the accompanying financial statements. All equity securities are valued at the closing price on the exchange or market on which the security is primary traded ("Primary Market"). If the security did not trade on the Primary Market, it shall be valued at the closing price on another exchange where it trades. If there is no such sale prices, the value shall be the most recent bid, and if there is no bid, the security shall be valued at the most recent asked. If no pricing service is available and there are more than two dealers, the value shall be the mean of the highest bid and lowest ask. If there is only one dealer, then the value shall be the mean if bid and ask are available, otherwise the value shall be the bid. All other securities and assets are valued as determined in good faith by the Board of Directors. Short-term investments having a maturity of 60 days or less are valued on the basis of amortized cost. The Board of Directors has established general guidelines for calculating fair value of not readily marketable securities. The net asset value per share of each Fund is calculated weekly and on the last business day of the month with the exception of those days on which the New York Stock Exchange is closed.

INVESTMENT TRANSACTIONS AND INVESTMENT INCOME: Investment transactions are accounted for on the trade date. The cost of investments sold is determined by use of the specific identification method for both financial reporting and income tax purposes. Interest income is recorded on an accrual basis; dividend income is recorded on the ex-dividend date.

TAXES: No provision is made for U.S. federal income or excise taxes as it is each Fund's intention to continue to qualify as a regulated investment company and to make the requisite distributions to its shareholders which will be sufficient to relieve it from all or substantially all U.S. federal income and excise taxes.

DISTRIBUTIONS OF INCOME AND GAINS: Each Fund distributes at least annually to shareholders, substantially all of its net investment income and net realized short-term capital gains, if any. Each Fund determines annually whether to distribute any net realized long-term capital gains in excess of net short-term capital losses, including capital loss carryovers, if any. An additional distribution may be made to the extent necessary to avoid the payment of a 4% U.S. federal excise tax. Dividends and distributions to shareholders are recorded by each Fund on the ex-dividend date.

B-23

The board of Directors of each Fund may, if it it determined to be in the best interest of each Fund and its shareholders, time to time authorize and declare distribution that may be substantially characterized as a return of capital.

The character of distributions made during the year from net investment income or net realized gains may differ from their ultimate characterization for U.S. federal income tax purposes due to U.S. generally accepted accounting principles/tax differences in the character of income and expense recognition.

OTHER: Securities denominated in currencies other than U.S. dollars are subject to changes in value due to fluctuations in exchange rates.
