IMAGING TECHNOLOGIES CORPORATION

45,000,000 SHARES OF COMMON STOCK

- o The shares of common stock offered by this prospectus are being sold by the stockholders listed in the section of this prospectus called "Selling Security Holders". We will not receive any proceeds from the sale of these shares.
- o Our common stock is traded on the OTC Bulletin Board under the symbol "ITEC".
- o On August 30, 2001, the closing price of our common stock on the OTC Bulletin Board was \$.052.

THE SECURITIES OFFERED IN THIS PROSPECTUS INVOLVE A HIGH DEGREE OF RISK. YOU SHOULD CAREFULLY CONSIDER THE FACTORS DESCRIBED UNDER THE HEADING "RISK FACTORS" BEGINNING ON PAGE 6 OF THIS PROSPECTUS.

NEITHER THE SECURITIES AND EXCHANGE COMMISSION NOR ANY STATE SECURITIES COMMISSION HAS APPROVED OR DISAPPROVED THESE SECURITIES, OR DETERMINED IF THIS PROSPECTUS IS TRUTHFUL OR COMPLETE. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

The date of this prospectus is September __, 2001

FORWARD-LOOKING STATEMENTS

This prospectus contains some forward-looking statements that involve substantial risks and uncertainties. These forward-looking statements can generally be identified by the use of forward-looking words like "may," "will," "expect," "anticipate," "intend," "estimate," "continue," "believe" or other similar words. Similarly, statements that describe our future expectations, objectives and goals or contain projections of our future results of operations or financial condition are also forward-looking statements. Our future results, performance or achievements could differ materially from those expressed or implied in these forward-looking statements as a result of certain factors, including those listed under the heading "Risk Factors" and in other cautionary statements in this prospectus.

PROSPECTUS SUMMARY

THIS SUMMARY HIGHLIGHTS INFORMATION IN THIS DOCUMENT. YOU SHOULD CAREFULLY REVIEW THE MORE DETAILED INFORMATION AND FINANCIAL STATEMENTS INCLUDED IN THIS DOCUMENT. THE SUMMARY IS NOT COMPLETE AND MAY NOT CONTAIN ALL OF THE INFORMATION YOU MAY NEED TO CONSIDER BEFORE INVESTING IN OUR COMMON STOCK. WE URGE YOU TO CAREFULLY READ THIS DOCUMENT, INCLUDING THE "RISK FACTORS" AND THE FINANCIAL STATEMENTS AND THEIR ACCOMPANYING NOTES.

THE COMPANY

Our wholly-owned direct and indirect subsidiaries include EduAdvantage.com, Inc., a Delaware corporation, DealSeekers.com, Inc., a Delaware corporation, Personal Computer Products, Inc., a California corporation, NewGen Imaging Systems, Inc., a California corporation, Prima Inc., a California corporation, Color Solutions, Inc., a California corporation, McMican Corporation, a California corporation, ITEC Europe, Ltd., a company registered under the laws of the United Kingdom and Advanced Matrix Technology Accel UK Ltd., a company registered under the laws of the United Kingdom.

We develop, manufacture, and distribute high-quality digital imaging solutions. We produce a wide range of printers and other imaging products for use in graphics and publishing, digital photography and other niche business and technical markets. Beginning with a core technology in the design and development of controllers for non-impact printers and multifunction

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

peripherals, we have expanded our product offerings to include monochrome and color printers, external print servers, digital image storage devices, and software to improve the accuracy of color reproduction. Our new generation of products incorporate advanced printer and imaging controller technologies to produce faster, enhanced image output at competitive prices.

Our ColorBlind(R) Color Management software is a suite of applications, utilities and tools designed to create, edit and apply industry standard ICC (International Color Consortium) profiles that produce accurate color rendering across a wide range of peripheral devices. "ColorBlind Aware" is being recognized as an industry standard for color accuracy as manufacturers integrate ColorBlind's Color Management resources into their product designs.

We benefit from technology alliances with industry partners to develop the next generation of embedded printer controller and digital imaging technology. We produce printer controllers that provide modularity and performance advantages for our OEM customers. Our customers benefit by outsourcing their engineering development and manufacturing to us, thus achieving faster time-to-market.

Effective December 1, 2000, we acquired all of the outstanding shares of Eduadvantage.com., a California corporation that is primarily engaged in an internet-based business. In December of 2000, we also signed a definitive agreement to purchase 75% of the stock of Pen Interconnect, Inc. However, in February of 2001, we terminated the transaction and retained a \$75,000 convertible note which is convertible into common stock of Pen Interconnect, Inc. In November of 2000, we entered into an agreement to acquire a majority interest in Quality Photographic Imaging (formerly known as Quick Pix, Inc.), a Nevada corporation that is primarily engaged in the

-3-

business of offering services to produce final color visuals. This transaction remains pending as it is subject to the approval of Quality Photographic Imaging's shareholders. However, the management of Quality Photographic Imaging has recently announced its intention to withdraw its recommendation to its shareholders that they approve our acquisition of a majority interest in their company.

We were incorporated in March, 1982 under the laws of the State of California, and reincorporated in May, 1983 under the laws of the State of Delaware. Our principal executive offices are located at 15175 Innovation Drive, San Diego, California 92128. Our main phone number is (858) 613-1300.

PCPI, NewGen, ColorBlind, LaserImage, ColorImage, ImageScript and ImageFont are trademarks of ours. This Prospectus also includes names and trademarks of companies other than us.

GOING CONCERN CONSIDERATIONS

At December 31, 2000, and for the three months then ended, we had a net loss, negative working capital and a decline in net worth which raises substantial doubt about our ability to continue as a going concern. Our losses have resulted primarily from an inability to achieve product sales and contract revenue targets due to insufficient working capital. Our ability to continue operations will depend on positive cash flow, if any, from future operations and on our ability to raise additional funds through equity or debt financing. We have reduced and/or discontinued some of our operations and, if we are unable to

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

raise or obtain needed funding, we may be forced to discontinue operations. At December 31, 2000, our net loss was \$3,962,000, our negative working capital was \$14,362,000 and our increase in net worth was \$31,000. Specific steps that we have taken to address these problems include obtaining working capital through the issuance and sale of the convertible debenture, of which this registration statement relates, reduction in overhead costs through such actions as a recent reduction in our work force, the restructuring of our lease to reduce rent payments, transferring some parts production offshore and rebuilding our distribution channels.

Furthermore, we plan to overcome the circumstances that impact our ability to remain a going concern through a combination of increased revenues and decreased costs with interim cash flow deficiencies being addressed through additional equity financing. Since the removal of the operational receiver, we have been able to re-establish relationships with some of our past customers and distributors and establish relationships with new customers. These actions have substantially increased revenues as reflected in our recent quarterly reports. At the same time, we have been able to significantly reduce our costs by reducing our number of employees and terminating unprofitable operations, such as the design and fabrication of controller boards as an OEM supplier to other computer printer manufacturers. We commenced a program to reduce our debt, which we will address more aggressively in the second quarter of our current fiscal year, partially through debt-to-equity conversions. Finally, we continue to pursue the acquisition of business units that will be consistent with these measures. All of the initiatives will be carried out throughout the fiscal year ending June 30, 2002.

THE OFFERING

CONVERTIBLE NOTE PURCHASE AGREEMENT DATED DECEMBER 12, 2000

We entered into a convertible note purchase agreement on December 12, 2000 with Amro International, S.A., Balmore Funds, S.A. and Celeste Trust Reg. Pursuant to this agreement, we sold to each of the purchasers convertible promissory notes in the aggregate principal amount of \$850,000 bearing interest at the rate of eight percent (8%) per annum, due December 12, 2003, each convertible into shares of our common stock. Interest shall be payable, at the option of the purchasers, in cash or shares of our common stock. Each note is convertible into such number of shares of our common stock as is determined by dividing (a) that portion of the outstanding principal balance of the note by (b) the conversion price. The conversion price equals the lesser of (x) \$.059 and (y) 70% of the average of the 3 lowest closing bid prices during the 30 trading days prior to the conversion date. See the section entitled "Selling Security Holders" for examples of how this formula works at various prices and the dilutive effect on our stockholders.

-4-

Additionally, we issued a warrant to each of the purchasers to purchase an aggregate of 19,000,000 shares of our common stock at an exercise price equal to \$.0887 per share. The purchasers may exercise the warrants through December 12, 2005. Shares issuable upon exercise of any of the warrants by the purchasers are not being registered under the registration statement of which this prospectus is a part and may not be resold to the public through this prospectus.

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

Amro International, S.A., Balmore Funds, S.A. and Celeste Trust Reg. are "underwriters" within the meaning of the Securities Act in connection with their resale of shares of our common stock under this prospectus.

CONVERTIBLE NOTE PURCHASE AGREEMENT DATED JULY 26, 2001

We entered into a convertible note purchase agreement on July 26, 2001 with Balmore Funds, S.A. Pursuant to this agreement, we sold to Balmore a convertible promissory note in the aggregate principal amount of \$1,000,000 bearing interest at the rate of eight percent (8%) per annum, due July 26, 2004, convertible into shares of our common stock. Interest shall be payable, at the option of Balmore, in cash or shares of our common stock. The note is convertible into such number of shares of our common stock as is determined by dividing (a) that portion of the outstanding principal balance of the note by (b) the conversion price. The conversion price equals the lesser of (x) \$.065 and (y) 70% of the average of the 3 lowest closing bid prices during the 30 trading days prior to the conversion date. See the section entitled "Selling Security Holders" for examples of how this formula works at various prices and the dilutive effect on our stockholders.

Additionally, we issued a warrant to Balmore to purchase 15,384,615 shares of our common stock at an exercise price equal to \$.065 per share. Balmore may exercise the warrant through July 26, 2006. Shares issuable upon exercise of the warrant by Balmore are not being registered under the registration statement of which this prospectus is a part and may not be resold to the public through this prospectus.

Balmore Funds, S.A. is an "underwriter" within the meaning of the Securities Act in connection with its resale of shares of our common stock under this prospectus.

AGREEMENT WITH AMERICAN INDUSTRIES, INC.

On February 2, 1999, a complaint was filed against us in Multnomah County Circuit Court in Oregon, entitled American Industries, Inc., et. al. v. Imaging Technologies, Inc., et. al., 99-02-01129. The complaint alleged claims for violations of the Oregon securities law, breach of contract and warranties, fraud, negligent misrepresentation and negligence. On March 1, 2001, ITEC and its chief executive officer, Brian Bonar, entered into an agreement and release with American Industries, Inc., Ellison Carl Morgan, the Ellison Carl Morgan Revocable Trust, the 2030 Investors 401K and the 2030 Investors LLC. Pursuant to this agreement, we agreed to issue to American Industries shares of our common stock in the amount of \$100,000, based upon the average of the closing bid prices of our common stock over the 10 trading days ending 5 days preceding the date of the filing of this registration statement, of which this prospectus is a part.

AGREEMENT WITH ARTIFEX SOFTWARE, INC.

On October 25, 2000, we entered into a second OEM amendment with Artifex Software, Inc. on October 25, 2000. Pursuant to this agreement, we agreed to issue to Artifex 1,200,000 shares of our common stock as a one-time license fee for the distribution of Artifex's products.

OPTIONS	682,185 (4)

- (1) 1,360,093 shares of common stock being registered and included in this prospectus is in connection with the agreements with American Industries, Inc. and Artifex Software, Inc. According to the terms of the convertible note purchase agreements between the various investors and us, the remaining shares of common stock being registered and included in this prospectus is 200% of the number of shares of common stock needed to effect conversion of all of the notes as of August 30, 2001 under the convertible note purchase agreements.
- (2) The total number of equity shares outstanding as of August 30, 2001.
- (3) The total number of shares of common stock does not include shares of common stock issuable upon the exercise of warrants associated with series D convertible preferred stock and series E convertible preferred stock.
- (4) The warrants were issued to employees, consultants and private placement investors. The exercise prices of the warrants range from \$.01 to \$6.25. The options were issued in connection with our stock option plans and/or in connection with some of our employment agreements. The exercise prices of the options range from \$.35 to \$8.45 per share.

RISK FACTORS

AN INVESTMENT IN SHARES OF ITEC COMMON STOCK INVOLVES A HIGH DEGREE OF RISK. IN ADDITION TO THE OTHER INFORMATION CONTAINED IN THIS PROSPECTUS, YOU SHOULD CAREFULLY CONSIDER THE FOLLOWING RISK FACTORS BEFORE PURCHASING ANY ITEC SHARES.

EXCEPT FOR HISTORICAL INFORMATION, THE INFORMATION CONTAINED IN THIS PROSPECTUS AND IN OUR SEC REPORTS ARE "FORWARD-LOOKING" STATEMENTS. OUR ACTUAL RESULTS COULD DIFFER MATERIALLY FROM THOSE PROJECTED OR IMPLIED IN SUCH FORWARD-LOOKING STATEMENTS. THE RISKS DESCRIBED BELOW ADDRESS SOME OF THE FACTORS THAT MAY AFFECT OUR FUTURE OPERATING RESULTS AND FINANCIAL PERFORMANCE.

IF WE ARE UNABLE TO SECURE FUTURE CAPITAL, WE WILL BE UNABLE TO CONTINUE OUR OPERATIONS.

If we are unable to secure future capital, we will be unable to continue our operations. Our business has not been profitable in the past and it may not be profitable in the future. We may incur losses on a quarterly or annual basis for a number of reasons, some within and others outside our control. See "Potential Fluctuation in Our Quarterly Performance." The growth of our business will require the commitment of substantial capital resources. If funds are not available from operations, we will need additional funds. We may seek such additional funding through public and private financing, including debt or equity financing. Adequate funds for these purposes, whether through financial markets or from other sources, may not be available when we need them. Even if funds are available, the terms under which the funds are available to us may not be acceptable to us. Insufficient funds may require us to delay, reduce

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

or eliminate some or all of our planned activities.

IF OUR QUARTERLY PERFORMANCE CONTINUES TO FLUCTUATE, IT MAY HAVE A NEGATIVE IMPACT ON OUR BUSINESS.

Our quarterly operating results can fluctuate significantly depending on a number of factors, any one of which could have a negative impact on our results of operations. The factors include:

-6-

- o the timing of product announcements and subsequent introductions of new or enhanced products by us and by our competitors,
- o the availability and cost of components,
- o the timing and mix of shipments of our products,
- o the market acceptance of our new products,
- o seasonality,
- o currency fluctuations,
- o changes in our prices and in our competitors' prices,
- o price protection offered to distributors and OEMs for product price reductions,
- o the timing of expenditures for staffing and related support costs,
- o the extent and success of advertising,
- o research and development expenditures, and
- o changes in general economic conditions.

We may experience significant quarterly fluctuations in revenues and operating expenses as we introduce new products. In addition, our component purchases, production and spending levels are based upon our forecast of future demand for our products. Accordingly, any inaccuracy in our forecasts could adversely affect our financial condition and results of operations. Demand for our products could be adversely affected by a slowdown in the overall demand for computer systems, printer products or digitally printed images. Our failure to complete shipments during a quarter could have a material adverse effect on our results of operations for that quarter. Quarterly results are not necessarily indicative of future performance for any particular period.

SINCE OUR COMPETITORS HAVE GREATER FINANCIAL AND MARKETING RESOURCES THAN WE DO, WE MAY EXPERIENCE A REDUCTION IN MARKET SHARE AND REVENUES.

The markets for our products are highly competitive and rapidly changing. Some of our current and prospective competitors have significantly greater financial, technical, manufacturing and marketing resources than we do. Our ability to compete in our markets depends on a number of factors, some within and others outside our control. These factors include:

- o the frequency and success of product introductions by us and by our competitors,
- o the selling prices of our products and of our competitors' products,

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

- o the performance of our products and of our competitors' products,
- o product distribution by us and by our competitors,
- o our marketing ability and the marketing ability of our competitors, and
- o the quality of customer support offered by us and by our competitors.

A key element of our strategy is to provide competitively priced, quality products. We cannot be certain that our products will continue to be competitively priced. We have reduced prices on certain of our products in the past and will likely continue to do so in the future. Price reductions, if not offset by similar reductions in product costs, will reduce our gross margins and may adversely affect our financial condition and results of operations.

-7-

IF WE ARE UNABLE TO DEVELOP AND MANUFACTURE NEW PRODUCTS IN A TIMELY MANNER, WE MAY EXPERIENCE A SIGNIFICANT DECLINE IN SALES AND REVENUES WHICH MAY HURT OUR ABILITY TO CONTINUE OPERATIONS.

The markets for our products are characterized by rapidly evolving technology, frequent new product introductions and significant price competition. Consequently, short product life cycles and reductions in product selling prices due to competitive pressures over the life of a product are common. Our future success will depend on our ability to continue to develop and manufacture competitive products and achieve cost reductions for our existing products. In addition, we monitor new technology developments and coordinate with suppliers, distributors and dealers to enhance our existing products and lower costs. Advances in technology will require increased investment in product development to maintain our market position. If we are unable to develop and manufacture new, competitive products in a timely manner, our financial condition and results of operations will be adversely affected.

IF THE MARKET'S ACCEPTANCE OF OUR PRODUCTS CEASES TO GROW, WE MAY NOT GENERATE SUFFICIENT REVENUES TO CONTINUE OUR OPERATIONS.

The markets for our products are relatively new and are still developing. We believe that there has been growing market acceptance for color printers, color management software and supplies. We cannot be certain, however, that these markets will continue to grow. Other technologies are constantly evolving and improving. We cannot be certain that products based on these other technologies will not have a material adverse effect on the demand for our products. If our products are not accepted by the market, we will not generate sufficient revenues to continue our operations.

IF OUR SUPPLIERS CEASE LICENSING THEIR PRODUCTS TO US, WE MAY HAVE TO REDUCE OUR WORK FORCE OR CEASE OPERATIONS.

At present, many of our products use technology licensed from outside suppliers. We rely heavily on these suppliers for upgrades and support. In the case of our font products, we license the fonts from outside suppliers, who also own the intellectual property rights to the fonts. Our reliance on third-party suppliers involves many risks, including our limited control over potential hardware and software incompatibilities with our products. Furthermore, we cannot be certain that all of the suppliers of products we market will continue to license their products to us, or that these suppliers will not license their products to other companies simultaneously.

IF WE ACQUIRE COMPLEMENTARY BUSINESSES, WE MAY NOT BE ABLE TO EFFECTIVELY

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

INTEGRATE THEM INTO OUR CURRENT OPERATIONS, WHICH WOULD ADVERSELY AFFECT OUR OVERALL FINANCIAL PERFORMANCE.

In order to grow our business, we may acquire businesses that we believe are complementary. To successfully implement this strategy, we must identify suitable acquisition candidates, acquire these candidates on acceptable terms, integrate their operations and technology successfully with ours, retain existing customers and maintain the goodwill of the acquired business. We may fail in our efforts to implement one or more of these tasks. Moreover, in pursuing acquisition opportunities, we may compete for acquisition targets with other companies with similar growth strategies. Some of these competitors may be larger and have greater financial and other resources than we do. Competition for these acquisition targets likely could also result in increased prices of acquisition targets and a diminished pool of companies available for acquisition. Our overall financial performance will be materially and adversely affected if we are unable to manage internal or acquisition-based growth effectively.

Acquisitions involve a number of risks, including:

- o integrating acquired products and technologies in a timely manner;
- o integrating businesses and employees with our business;
- o managing geographically-dispersed operations;
- o reductions in our reported operating results from acquisition-related charges and amortization of goodwill;
- o potential increases in stock compensation expense and increased compensation expense resulting from newly-hired employees;
- o the diversion of management attention;
- o the assumption of unknown liabilities;
- o potential disputes with the sellers of one or more acquired entities;

-8-

- o our inability to maintain customers or goodwill of an acquired business;
- o the need to divest unwanted assets or products; and
- o the possible failure to retain key acquired personnel.

Client satisfaction or performance problems with an acquired business could also have a material adverse effect on our reputation, and any acquired business could significantly under perform relative to our expectations. We are currently facing all of these challenges and our ability to meet them over the long term has not been established. As a result, we cannot be certain that we will be able to integrate acquired businesses, products or technologies successfully or in a timely manner in accordance with our strategic objectives, which could have a material adverse effect on our overall financial performance.

In addition, if we issue equity securities as consideration for any future acquisitions, existing stockholders will experience ownership dilution and these equity securities may have rights, preferences or privileges superior to those of our common stock. See "Future Capital Needs."

IF OUR VENDORS ARE NOT ABLE TO CONTINUE TO SUPPLY GOODS AND SERVICES AT APPROPRIATE PRICES TO MEET THE PROJECTED MARKET DEMAND FOR OUR PRODUCTS, IT COULD HAVE A MATERIAL ADVERSE EFFECT ON OUR FINANCIAL PERFORMANCE.

We presently outsource the production of some of our manufactured products through a number of vendors located in California. These vendors assemble products, using components purchased by us from other sources or from their own inventory. The terms of supply contracts are negotiated separately in each instance. Although we have not experienced any difficulty over the past

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

several years in engaging contractors or in purchasing components, our present vendors may not have sufficient capacity to meet projected market demand for our products and alternative production sources may not be available without undue disruption.

Certain components used in our products are only available from single sources. Although alternative suppliers are readily available for many of our components, for some components the process of qualifying replacement suppliers, replacing tooling or ordering and receiving replacement components could take several months and cause substantial disruption to our operations. Any significant increase in component prices or decrease in component availability could have a material adverse effect on our business and overall financial performance.

IF WE ARE FOUND TO BE INFRINGING ON A COMPETITOR'S INTELLECTUAL PROPERTY RIGHTS OR IF WE ARE REQUIRED TO DEFEND AGAINST A CLAIM OF INFRINGEMENT, WE MAY BE REQUIRED TO REDESIGN OUR PRODUCTS OR DEFEND A LEGAL ACTION AT SUBSTANTIAL COSTS TO US.

We currently hold no patents. Our software products, hardware designs, and circuit layouts are copyrighted. However, copyright protection does not prevent other companies from emulating the features and benefits provided by our software, hardware designs or the integration of the two. We protect our software source code as trade secrets and make our proprietary source code available to OEM customers only under limited circumstances and specific security and confidentiality constraints. In many product hardware designs, we develop application-specific integrated circuits (ASICs) which encapsulate proprietary technology and are installed on the circuit board. This can serve to significantly reduce the risk of duplication by competitors, but in no way ensures that a competitor will be unable to replicate a feature or the benefit in a similar product.

Competitors may assert that we infringe their patent rights. If we fail to establish that we have not violated the asserted rights, we could be prohibited from marketing the products that incorporate the technology and we could be liable for damages. We could also incur substantial costs to redesign our products or to defend any legal action taken against us. We have obtained U.S. registration for several of our trade names or trademarks, including: PCPI, NewGen, ColorBlind, LaserImage, ColorImage, ImageScript and ImageFont. These trade names are used to distinguish our products in the marketplace.

IF THE PRESENT ECONOMIC CRISIS IN ASIA CONTINUES, OUR ACCOUNTS RECEIVABLES IN ASIA WILL NOT BE COLLECTIBLE AND WILL HAVE A NEGATIVE IMPACT ON OUR CONTINUED OPERATIONS AND OVERALL FINANCIAL PERFORMANCE.

-9-

We conduct business globally. Accordingly, our future results could be adversely affected by a variety of uncontrollable and changing factors including:

- o foreign currency exchange fluctuations;
- o regulatory, political or economic conditions in a specific country or region;
- o the imposition of governmental controls;
- o export license requirements;
- o restrictions on the export of critical technology;
- o trade restrictions;
- o changes in tariffs;
- o government spending patterns;
- o natural disasters;

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

- o difficulties in staffing and managing international operations; and
- o difficulties in collecting accounts receivable.

In addition, the laws of certain countries do not protect our products and intellectual property rights to the same extent as the laws of the United States.

In our 1998 fiscal year, we experienced contract cancellations and the write-off of significant receivables related to continuing economic deterioration in foreign countries, particularly in Asia. Any or all of these factors could have a material adverse impact on our business and overall financial performance.

We intend to pursue international markets as key avenues for growth and to increase the percentage of sales generated in international markets. In our 2000, 1999 and 1998 fiscal years, sales outside the United States represented approximately 2%, 56% and 57% of our net sales, respectively. We expect sales outside the United States to continue to represent a significant portion of our sales. As we continue to expand our international sales and operations, our business and overall financial performance may be adversely affected by the factors stated above.

IF IT BECOMES NECESSARY TO WRITE OFF ACCOUNTS RECEIVABLE FOR CUSTOMERS IN ASIA, AS WE DID IN FISCAL 1998, OUR FINANCIAL PERFORMANCE WOULD BE ADVERSELY AFFECTED.

In our 1998 fiscal year, we experienced contract cancellations and the write-off of significant receivables related to continuing economic deterioration in foreign countries, particularly in Asia. Although we have not had to write off any significant accounts receivable of customers in Asia since that time, if it should become necessary to do once again, our financial performance would be adversely affected.

IF ALL OF THE LAWSUITS CURRENTLY FILED WERE DECIDED AGAINST US AND/OR ALL THE JUDGMENTS CURRENTLY OBTAINED AGAINST US WERE TO BE IMMEDIATELY COLLECTED, WE WOULD HAVE TO CEASE OUR OPERATIONS.

On or about October 7, 1999, the law firms of Weiss & Yourman and Stull, Stull & Brody made a public announcement that they had filed a lawsuit against us and certain current and past officers and/or directors, alleging violation of federal securities laws during the period of April 21, 1998 through October 9, 1998. On or about November 17, 1999, the lawsuit, filed in the name of Nahid Nazarian Behfarin, on her own behalf and others purported to be similarly situated, was served on us. A motion to dismiss the lawsuit was granted on February 16, 2001 on our behalf and those individual defendants that have been served. However, on or about March 19, 2001, an amended complaint was filed on behalf of Nahid Nazarian Behfarin, Peter Cook, Stephen Domagala and Michael S. Taylor, on behalf of themselves and others similarly situated. On or about March 20, 2001, we once again filed a motion to dismiss the case along with certain other individual defendants. The motion was denied and an answer to the complaint has been filed on behalf of the company and certain individual defendants. We believe these claims are without merit and we intend to vigorously defend against them on our behalf as well as on behalf of the other defendants. The defense of this action has been tendered to our insurance carriers.

Throughout fiscal 1999, 2000 and 2001, and through the date of this filing, approximately fifty trade creditors have made claims and/or filed actions alleging the failure of us to pay our obligations to them in a total amount exceeding \$3 million. These actions are in various stages of litigation, with many resulting in judgments

being entered against us. Several of those who have obtained judgments have filed judgment liens on our assets. These claims range in value from less than one thousand dollars to just over one million dollars, with the great majority being less than twenty thousand dollars. Should we be required to pay the full amount demanded in each of these claims and lawsuits, we may have to cease our operations. However, to date, the superior security interest held by Imperial Bank has prevented nearly all of these trade creditors from collecting on their judgments.

IF OUR OPERATIONS CONTINUE TO RESULT IN A NET LOSS, NEGATIVE WORKING CAPITAL AND A DECLINE IN NET WORTH, AND WE ARE UNABLE TO OBTAIN NEEDED FUNDING, WE MAY BE FORCED TO DISCONTINUE OPERATIONS.

For several recent periods, up through the fiscal quarter ended December 31, 2000, we had a net loss, negative working capital and a decline in net worth which raises substantial doubt about our ability to continue as a going concern. Our losses have resulted primarily from an inability to achieve product sales and contract revenue targets due to insufficient working capital. Our ability to continue operations will depend on positive cash flow, if any, from future operations and on our ability to raise additional funds through equity or debt financing. Although we have reduced our work force and discontinued some of our operations, if we are unable to achieve the necessary product sales or raise or obtain needed funding, we may be forced to discontinue operations.

IF OUR WORLDWIDE DISTRIBUTORS REDUCE OR DISCONTINUE SALES OF OUR PRODUCTS, OUR BUSINESS MAY BE MATERIALLY AND ADVERSELY AFFECTED.

Our products are marketed and sold through a distribution channel of value added resellers, manufacturers' representatives, retail vendors, and systems integrators. We have a network of dealers and distributors in the United States and Canada, in the European Community and on the European Continent, as well as a growing number of resellers in Africa, Asia, the Middle East, Latin America, and Australia. We support our worldwide distribution network and end-user customers through centralized manufacturing, distribution, and repair operations headquartered in San Diego. As of February 9, 2001, we directly employed 8 individuals involved in marketing and sales activities.

Our sales are principally made through distributors which may carry competing product lines. These distributors could reduce or discontinue sales of our products which could materially and adversely affect us. These independent distributors may not devote the resources necessary to provide effective sales and marketing support of our products. In addition, we are dependent upon the continued viability and financial stability of these distributors, many of which are small organizations with limited capital. These distributors, in turn, are substantially dependent on general economic conditions and other unique factors affecting our markets. We believe that our future growth and success will continue to depend in large part upon our distribution channels. Our business could be materially and adversely affected if our distributors fail to pay amounts to us that exceed reserves we have established.

AS A COMPANY IN THE TECHNOLOGY INDUSTRY AND DUE TO THE VOLATILITY OF THE STOCK MARKETS GENERALLY, OUR STOCK PRICE COULD FLUCTUATE SIGNIFICANTLY IN THE FUTURE.

The market price of our common stock historically has fluctuated significantly. Our stock price could fluctuate significantly in the future based upon any number of factors such as:

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

- o general stock market trends;
- o announcements of developments related to our business;
- o fluctuations in our operating results;
- o a shortfall in our revenues or earnings compared to the estimates of securities analysts;
- o announcements of technological innovations, new products or enhancements by us or our competitors,
- o general conditions in the computer peripheral market and the imaging markets we serve;
- o general conditions in the worldwide economy;
- o developments in patents or other intellectual property rights; and
- o developments in our relationships with our customers and suppliers.

In addition, in recent years the stock market in general, and the market for shares of technology stocks in particular, have experienced extreme price fluctuations which have often been unrelated to the operating

-11-

performance of affected companies. Similarly, the market price of our common stock may fluctuate significantly based upon factors unrelated to our operating performance.

IF AN OPERATIONAL RECEIVER IS REINSTATED TO CONTROL OUR OPERATIONS, WE MAY NOT BE ABLE TO CARRY OUT OUR BUSINESS PLAN.

On August 20, 1999, at the request of Imperial Bank, our primary lender, the Superior Court, San Diego appointed an operational receiver to us. On August 23, 1999, the operational receiver took control of our day-to-day operations. Through further equity infusion, primarily in the form of the exercise of warrants to purchase our common stock, operations have continued, and on June 21, 2000, the Superior Court, San Diego issued an order dismissing the operational receiver as a part of a settlement of litigation with Imperial Bank pursuant to the Settlement Agreement effective as of June 20, 2000. The Settlement Agreement requires that we make monthly payments of \$150,000 to Imperial Bank until the indebtedness is paid in full. However, in the future, without additional funding sufficient to satisfy Imperial Bank and our other creditors, as well as providing for our working capital, there can be no assurances that an operational receiver may not be reinstated. If an operational receiver is reinstated, we will not be able to expand our products nor will we have complete control over sales policies or the allocation of funds.

The penalty for noncompliance of the Settlement Agreement is a stipulated judgment that allows Imperial Bank to immediately reinstate the operational receiver and begin liquidation proceedings against us. We are currently meeting the monthly amount of \$150,000 as stipulated by the Settlement Agreement with Imperial Bank. However, the monthly payments have been reduced to \$100,000 for August, September and October of 2001.

UPON THE CONVERSION OF THE OUTSTANDING NOTES AND OUTSTANDING PREFERRED STOCK AND UPON EXERCISE OF OUTSTANDING OPTIONS AND WARRANTS, THE ISSUANCE OF COMMON STOCK WILL RESULT IN MUCH DILUTION, OR A LOWER BOOK VALUE PER SHARE, TO ANY INVESTOR FOLLOWING THIS OFFERING.

The issuance of our reserved shares would dilute the equity interest of existing stockholders and could have an adverse effect on the market price of our common stock. As of April 26, 2001, we had 6,911,744 shares of common stock reserved for possible future issuances upon, among other things, conversion of preferred stock and exercise of outstanding options and warrants.

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

Under the convertible note purchase agreements to which this registration statement relates, the amount of common stock issuable to each of the purchasers upon conversion of the notes is based on a formula that is tied to the market price of our common stock prior to the date of conversion of the notes. Accordingly, the issuance of some or all of the common stock upon conversion of the notes could result in dilution of the per share value of our common stock held by current investors. The lower the average trading price of our common stock at the time of conversion, the greater the number of shares of common stock that can be issued. Accordingly, this causes a greater risk of dilution. The perceived risk of dilution may cause the purchasers under the convertible note purchase agreements as well as other ITEC stockholders to sell their shares, which would contribute to the downward movement in the stock price of our common stock.

We may seek additional financing, which would result in the issuance of additional shares of our capital stock and/or rights to acquire additional shares of our capital stock. Additional issuances of capital stock would result in a reduction of current stockholders' percentage interest in ITEC. Furthermore, if the exercise price of any outstanding or issuable options or warrants or the conversion ratio of any preferred stock is lower than the price per share of common stock at the time of the exercise or conversion, then the price per share of common stock would decrease because the number of shares of common stock outstanding would increase without a corresponding increase in the dollar amount assigned to stockholders' equity.

The addition of a substantial number of shares of common stock into the market or by the registration of any other of our securities under the Securities Act may significantly and negatively affect the prevailing market

-12-

price for our common stock. Furthermore, future sales of shares of common stock issuable upon the exercise of outstanding warrants and options may have a depressive effect on the market price of the common stock, as these warrants and options would be more likely to be exercised at a time when the price of the common stock is in excess of the applicable exercise price.

The sale or issuance of any shares of preferred stock having rights superior to those of the common stock may result in a decrease in the value or market price of the common stock. The issuance of preferred stock could have the effect of delaying, deferring or preventing a change of ownership without further vote or action by the stockholders and may adversely affect the voting and other rights of the holders of common stock.

Our board of directors currently is authorized to issue up to 100,000 shares of preferred stock. The board has the power to establish the dividend rates, preferential payments on our liquidation, voting rights, redemption and conversion terms and privileges for any series of preferred stock.

THE DELISTING OF OUR COMMON STOCK FROM THE NASDAQ SMALLCAP MARKET HAS MADE IT MORE DIFFICULT TO RAISE FINANCING AND THERE IS LESS LIQUIDITY FOR OUR COMMON STOCK AS A RESULT.

The Nasdaq SmallCap Market and Nasdaq Marketplace Rules require an issuer to evidence a minimum of \$2,000,000 in net tangible assets, a \$35,000,000 market capitalization or \$500,000 in net income in the latest fiscal year or in two of the last three fiscal years, and a \$1.00 per share bid price, respectively. On October 21, 1999, Nasdaq notified us that we no longer complied

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

with the bid price and net tangible assets/market capitalization/net income requirements for continued listing on The Nasdaq SmallCap Market. At a hearing on December 2, 1999, a Nasdaq Listing Qualifications Panel also raised public interest concerns relating to our financial viability. While the Panel acknowledged that we were in technical compliance with the bid price and market capitalization requirements, the Panel was of the opinion that the continued listing of our common stock on The Nasdaq Stock Market was no longer appropriate. This conclusion was based on the Panel's concerns regarding our future viability. Our common stock was delisted from The Nasdaq Stock Market effective with the close of business on March 1, 2000. As a result of being delisted from The Nasdaq SmallCap Market, stockholders may find it more difficult to sell our common stock. This lack of liquidity also may make it more difficult for us to raise capital in the future.

Trading of our common stock is now being conducted over-the-counter through the NASD Electronic Bulletin Board and covered by Rule 15c-9 under the Securities Exchange Act of 1934. Under this rule, broker/dealers who recommend these securities to persons other than established customers and accredited investors must make a special written suitability determination for the purchaser and receive the purchaser's written agreement to a transaction prior to sale. Securities are exempt from this rule if the market price is at least \$5.00 per share.

The Securities and Exchange Commission adopted regulations that generally define a "penny stock" as any equity security that has a market price of less than \$5.00 per share. Additionally, if the equity security is not registered or authorized on a national securities exchange or the Nasdaq and the issuer has net tangible assets under \$2,000,000, the equity security also would constitute a "penny stock." Our common stock does constitute a penny stock because our common stock has a market price less than \$5.00 per share, our common stock is no longer quoted on Nasdaq and our net tangible assets do not exceed \$2,000,000. As our common stock falls within the definition of penny stock, these regulations require the delivery, prior to any transaction involving our common stock, of a disclosure schedule explaining the penny stock market and the risks associated with it. Furthermore, the ability of broker/dealers to sell our common stock and the ability of stockholders to sell our common stock in the secondary market would be limited. As a result, the market liquidity for our common stock would be severely and adversely affected. We can provide no assurance that trading in our common stock will not be subject to these or other regulations in the future, which would negatively affect the market for our common stock.

-13-

IF WE ARE UNABLE TO SELL ALL OF THE SHARES OFFERED BY US, OR IF WE ARE UNABLE TO SELL THOSE SHARES AT ANTICIPATED FIXED PRICES, WE WILL BE UNABLE TO RAISE THE AMOUNT OF CAPITAL NEEDED TO SUCCESSFULLY EXECUTE OUR BUSINESS PLAN.

We are simultaneously registering 22 million shares of common stock that have been issued or are issuable to selling security holders and will be attempting to raise capital at a fixed price(s) through the sale of 20 million shares of common stock offered by us. As a result, we may have difficulty selling the shares offered by us because the selling security holders may sell their shares for a price below our fixed offering price. The registration of the significant amount of shares offered by the selling security holders may also impact the total amount of shares that we will be able to sell. If we are unable to sell all of the shares offered by us at a sufficient fixed price(s), we will be unable to raise the amount of capital needed to successfully execute our business plan.

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

USE OF PROCEEDS

The selling security holders are selling all of the shares covered by this prospectus for their own account. Accordingly, we will not receive any proceeds from the resale of the shares. We will bear all expenses relating to this registration.

SELLING SECURITY HOLDERS

CONVERTIBLE NOTE PURCHASE AGREEMENT DATED DECEMBER 12, 2000

The shares being offered by Amro International, S.A., Balmore Funds, S.A. and Celeste Trust Reg. consist of shares of common stock upon conversion of the notes pursuant to the convertible note purchase agreement dated December 12, 2000. The natural persons who exercise sole or shared voting or investment power over the shares of common stock that Amro International, S.A. will sell are H.U. Bochofen and Michael Klee. Amro International, S.A. is primarily engaged in the business of investing in public entities. The address of Amro International, S.A. is c/o Ultra Finance, Grossmuenster Platz, #6, Zurich, Switzerland CN822.

The natural person who exercises sole voting or investment power over the shares of common stock that Balmore Funds, S.A. will sell is Gisela Kindle, Director. Balmore Funds, S.A. is primarily engaged in the business of investment advising. The address of Balmore Funds, S.A. is c/o Trident Chambers, P.O. Box 146, Roadstown Tortola, BVI.

The natural person who exercises sole voting or investment power over the shares of common stock that Celeste Trust Reg. will sell is Thomas Hackl, Representative. Celeste Trust Reg. is primarily engaged in the business of investment advising. The address of Celeste Trust Reg. is Trevisa - Treuhand - Anstalt, Landstrasse 8, 9496 Furtentums, Balzers Lichenstein.

During the past three years, we have not had any relationship with Amro International, S.A. or Celeste Trust Reg. In January of 1999, we entered into a securities purchase agreement with Balmore Funds, S.A. whereby Balmore was issued series D preferred stock which was converted into 3,500,000 shares of our common stock. Additionally, we issued Balmore a warrant to purchase 1,750,000 shares of our common stock.

Pursuant to the convertible note purchase agreement dated December 12, 2000, Amro International S.A., Balmore Funds, S.A. and Celeste Trust Reg. have registration rights to which this registration statement relates which requires us to register the shares upon the conversion of the notes, and failure to register such shares by a specified date results in liquidated damages in favor of the purchasers. The purchasers also have prepayment rights upon an event of default, upon a major corporate transaction, or upon certain other triggering events.

-14-

CONVERTIBLE NOTE PURCHASE AGREEMENT DATED JULY 26, 2001

20,000,000 shares being offered by Balmore Funds, S.A. consist of shares of common stock upon conversion of the note pursuant to the convertible note purchase agreement dated July 26, 2001. Pursuant to this agreement, Balmore has registration rights to which this registration statement relates which

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

requires us to register the shares upon the conversion of the notes, and failure to register such shares by a specified date results in liquidated damages in favor of Balmore. Balmore also has prepayment rights upon an event of default, upon a major corporate transaction, or upon certain other triggering events.

The natural person who exercises sole voting or investment power over the shares of common stock that Balmore will sell is Gisela Kindle, Director. Balmore is primarily engaged in the business of investment advising. The address of Balmore is c/o Trident Chambers, P.O. Box 146, Roadstown Tortola, BVI.

AGREEMENT WITH AMERICAN INDUSTRIES, INC. AND AGREEMENT WITH ARTIFEX SOFTWARE, INC.

The shares being offered by American Industries, Inc. consist of shares of common stock issued pursuant to the agreement and release dated March 1, 2001. The natural person who exercises sole voting or investment power over the shares of common stock that American Industries, Inc. will sell is its President, Howard Hedinger. American Industries, Inc. is primarily engaged in the business of metals distribution and investments. The address of American Industries, Inc. is 1750 N.W. Front Avenue, Suite 106, Portland, OR 97209.

The shares being offered by Artifex Software, Inc. consist of shares of common stock issued pursuant to the second OEM amendment dated October 25, 2001. The natural person who exercises sole voting or investment power over the shares of common stock that Artifex Software, Inc. will sell is Miles Jones. Artifex Software, Inc. is primarily engaged in the business of software development. The address of Artifex Software, Inc. is 101 Lucas Valley Road, #110, San Rafael, CA 94903.

The registration statement is a part of the prospectus being filed. The shares offered in this prospectus by Amro International, S.A., Balmore Funds, S.A. and Celeste Trust Reg. are based on the various rights contained in the convertible note purchase agreements between the various purchasers and us. The shares offered in this prospectus by American Industries, Inc. are based on the various rights contained in the settlement and release. The shares offered in this prospectus by Artifex Software, Inc. are based on the various rights contained in the second OEM amendment. For additional information about the convertible note purchase agreements, settlement and release and second OEM amendment, see "The Offering."

The following table identifies the selling security holders based upon information provided to us as of August 31, 2001, with respect to the shares beneficially held by or acquirable by, the selling security holders, and the shares of common stock beneficially owned by the selling security holders which are not covered by this prospectus. Neither the selling security holders nor their respective affiliates have held any position, office, or other material relationship with us.

* 20,000,000 shares are being registered herein pursuant to the convertible note purchase agreement dated July 26, 2001.

EFFECTS ON MARKET PRICE AND DILUTION TO COMMON STOCKHOLDERS RESULTING FROM CONVERSION OF THE NOTES

Since the outstanding principal amount of the notes converts at a floating rate based on a discount to the market price of the common stock, the lower the stock price when the holder converts, the more shares of common stock the holder gets. When the selling securityholder converts and then sells the common stock, the common stock price may decrease due to the additional shares in the market. This could allow the selling securityholders to convert the notes into greater amounts of common stock, the sales of which would further depress the stock price. The significant downward pressure on the price of the common stock as the selling securityholder converts and sells material amounts of common stock could encourage short sales by the selling securityholder or others. This could place further downward pressure on the price of the common stock. The conversion of the notes may result in substantial dilution to the interests of other holders of common stock since each holder of the notes may ultimately convert and sell the full amount issuable on conversion.

DESCRIPTION OF FLOATING CONVERSION FEATURE AND EXAMPLES OF HOW THIS CONVERSION FEATURE WORKS

Each note pursuant to the convertible note purchase agreements is convertible into such number of shares of our common stock as is determined by dividing (a) that portion of the outstanding principal balance of the note by (b) the conversion price. The conversion price pursuant to the convertible note purchase agreement dated December 12, 2000 equals the lesser of (x) \$.059 and (y) 70% of the average of the 3 lowest closing bid prices during the 30 trading days prior to the conversion date. The conversion price pursuant to the convertible note purchase agreement dated July 26, 2001 equals the lesser of (x) \$.065 and (y) 70% of the average of the 3 lowest closing bid prices during the 30 trading days prior to the conversion date.

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

For example, if all of the note holders pursuant to the convertible note purchase agreements convert the full \$1,850,000 and the average closing bid price for the 3 trading days having the lowest closing bid prices during the 30 trading days prior to the conversion date is \$.02, the note holders will own an aggregate of 132,142,857 shares of our common stock (70% of \$.02 equals \$.014 and 1,850,000 divided by .014 equals 132,142,857).

If all of the note holders pursuant to the convertible note purchase agreements convert the full \$1,850,000 and the average closing bid price for the 3 trading days having the lowest closing bid prices during the 30 trading days prior to the conversion date is \$.05, the note holders will own an aggregate of 52,857,107 shares of our common stock (70% of \$.05 equals \$.035 and 1,850,000 divided by .035 equals 52,857,107).

If all of the note holders pursuant to the convertible note purchase agreements convert the full \$1,850,000 and the average closing bid price for the 3 trading days having the lowest closing bid prices during the 30 trading

-16-

days prior to the conversion date is \$.15, the note holders will own an aggregate of 17,619,007 shares of our common stock (70% of \$.15 equals \$.105 and 1,850,000 divided by .105 equals 17,619,007).

If all of the note holders pursuant to the convertible note purchase agreements convert the full \$1,850,000 and the average closing bid price for the 3 trading days having the lowest closing bid prices during the 30 trading days prior to the conversion date is \$.25, the note holders will own an aggregate of 10,571,407 shares of our common stock (70% of \$.25 equals \$.175 and 1,850,000 divided by .175 equals 10,571,407).

The following table illustrates the differences in the dilutive effect on our common stock at various market prices assuming the aggregate amount of all of the outstanding notes pursuant to the convertible note purchase agreements were converted simultaneously:

Market Price of shares of common stock underlying the Convertible Notes	Conversion Price	Number of Shares convertible upon exercise of the Notes	Percentage of total outstanding common stock
\$.02	\$.014	132,142,857	77.3%
\$.05	\$.035	52,857,107	30.9%
\$.10	\$.07	26,428,507	15.5%
\$.15	\$.105	17,619,007	10.3%
\$.20	\$.14	13,214,207	7.7%
\$.25	\$.175	10,571,407	6.2%

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

----- \$.50	----- \$.35	----- 5,285,710	----- 3.1%
----- \$.75	----- \$.525	----- 3,523,800	----- 2.1%
-----	-----	-----	-----

PLAN OF DISTRIBUTION

The shares may be sold or distributed from time to time by the selling security holders or by pledgees, donees or transferees of, or successors in interest to, the selling security holders, directly to one or more purchasers (including pledgees) or through brokers, dealers or underwriters who may act solely as agents or may acquire shares as principals, at market prices prevailing at the time of sale, at prices related to such prevailing market prices, at negotiated prices or at fixed prices, which may be changed. The distribution of the shares may be effected in one or more of the following methods:

- o ordinary broker transactions,
 - o transactions involving cross or block trades or otherwise on the OTC Bulletin Board,
 - o purchases by brokers, dealers or underwriters as principal and resale by such purchasers for their own accounts pursuant to this prospectus,
 - o "at the market" to or through market makers or into an existing market for the common stock,
- 17-
- o in other ways not involving market makers or established trading markets, including direct sales to purchasers or sales effected through agents,
 - o through transactions in options, swaps or other derivatives (whether exchange listed or otherwise), or
 - o any combination of the foregoing, or by any other legally available means.

In addition, the selling security holders may enter into hedging transactions with broker-dealers who may engage in short sales of shares in the course of hedging the positions they assume with the selling security holders. The selling security holders may also enter into option or other transactions with broker-dealers that require the delivery by such broker-dealers of the shares, which shares may be resold thereafter pursuant to this prospectus.

The selling security holders are "underwriters" within the meaning of the Securities Act in connection with the sale of the common stock offered hereby. Broker-dealers who act in connection with the sale of the common stock may also be deemed to be underwriters. Profits on any resale of the common stock as a principal by such broker-dealers and any commissions received by such broker-dealers may be deemed to be underwriting discounts and commissions under the Securities Act. Any broker-dealer participating in such transactions as agent may receive commissions from the selling security holders (and, if they act as agent for the purchaser of our common stock, from such purchaser). Broker-dealers may agree with the selling security holders to sell a specified

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

number of shares of our common stock at a stipulated price per share, and, to the extent such a broker-dealer is unable to do so acting as agent for any of the selling security holders, to purchase as principal any unsold common stock at the price required to fulfill the broker-dealer commitment to any of the selling security holders. Broker-dealers who acquire common stock as principal may thereafter resell the common stock from time to time in transactions (which may involve crosses and block transactions and which may involve sales to and through other broker-dealers, including transactions of the nature described above) in the over-the-counter market, in negotiated transactions or otherwise, at market prices prevailing at the time of the sale or at negotiated prices, and in connection with such resales may pay to or receive from the purchasers of such common stock commissions computed as described above.

We will not receive any proceeds from the sale of the common shares pursuant to this prospectus. We have agreed to bear the expenses of the registration of the shares, including legal and accounting fees, and such expenses are estimated to be \$17,816.20.

We have informed the selling security holders that certain anti-manipulative rules contained in Regulation M under the Securities Exchange Act of 1934, as amended, may apply to their sales of the common stock. In addition, we have informed the selling security holders of the need for delivery of copies of this prospectus.

The selling security holders may also use Rule 144 under the Securities Act, to sell the shares if they meet the criteria and conform to the requirements of such rule.

DESCRIPTION OF SECURITIES

COMMON STOCK

Holders of the common stock are entitled to one vote for each share held in the election of directors and in all other matters to be voted on by shareholders. Stockholders have cumulative voting rights in the election of directors. Holders of common stock are entitled to receive dividends as may be declared from time to time by our board of directors out of funds legally available. In the event of liquidation, dissolution or winding up, holders of common stock are to share in all assets remaining after the payment of liabilities. The holders of common stock have no preemptive or conversion rights and are not subject to further calls or assessments. There are no redemption or sinking fund provisions applicable to the common stock. The rights of the holders of the common stock are subject to any rights that may be fixed for holders of preferred stock. All of the outstanding shares of common stock are fully paid and non-assessable.

-18-

INFORMATION WITH RESPECT TO THE REGISTRANT

The information required to be disclosed in the registration statement pertaining to this prospectus is incorporated by reference, including, among other documents, our latest Form 10-K and Form 10-Q, which are both being delivered with this prospectus. See "Documents Incorporated by Reference", "Prospectus Summary", "Risk Factors" and "Material Changes."

MATERIAL CHANGES

SIGNIFICANT TRANSITIONAL PHASE AND IMPORTANT SHORT-TERM OPERATIONAL AND LIQUIDITY CHALLENGES

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

We have had operational and liquidity challenges for the past two years, characterized by declining sales and net operating losses. Furthermore, in August 1999, and continuing until June 2000, our operations were controlled by a court-appointed operational receiver, which restricted our ability to conduct normal business operations. The presence of the court-appointed operational receiver for ten months of fiscal 2000 resulted in the capture of all sales revenue by the receiver in favor of the creditor, Imperial Bank. During this period, we were not able to expand our products nor did we have complete control over sales policies or the allocation of funds. Additionally, many of our traditional customers elected to cease doing business with us, which resulted in significantly reduced revenues and associated cash flows to operate the business. Our minimum operating capital requirements to meet payroll and overhead expenses were met due to the sale of equity securities and the exercise of warrants by certain of our employees.

Shortfalls in income related to our OEM business, which traditionally represented the most profitable part of the business, were related to the election by these customers to either discontinue development projects already underway, or to cancel plans to manufacture contract-related products that would have generated royalty income for us. The component of our business has, traditionally, been volatile and we have not been able to accurately forecast revenues and profits from this business sector.

In light of the above, we elected to shift our business model, which had been reliant on engineering and royalty revenues from OEM customers who would incorporate our technologies into their products, to one focused on product sales of our printer and software products. Our ongoing financial difficulties, however, have compromised this strategy to the extent that there has been a shortage of capital for ongoing product development and marketing.

In order to address these difficulties, we have endeavored to enter into strategic acquisitions, which may provide revenues and profits to us. In December 2000, we acquired, for stock and debt assumption, EduAdvantage, Inc., an internet-based reseller of software and other computer products to the education market. The net effect of the acquisition was an increase in our sales on a consolidated basis. Also, in December 2000, we announced that we had agreed to acquire a majority interest in Quality Photographic Imaging, Inc. ("QPI"). However, this transaction is pending subject to the approval of QPI shareholders. In December 2000, we also announced that we would acquire a 75 percent interest in Pen Interconnect, Inc. However, in February of 2001, we terminated the transaction and retained a \$75,000 convertible note which is convertible into common stock of Pen Interconnect, Inc.

APPOINTMENT AND REMOVAL OF OPERATIONAL RECEIVER

On August 20, 1999, at the request of Imperial Bank, our primary lender, the Superior Court, San Diego appointed an operational receiver to us. On August 23, 1999, the operational receiver took control of our day-to-day operations. Through further equity infusion, primarily in the form of the exercise of warrants to purchase our common stock, operations have continued, and on June 21, 2000, the Superior Court, San Diego issued an order dismissing the operational receiver as a part of a settlement of litigation with Imperial Bank pursuant to the Settlement Agreement effective as of June 20, 2000. The Settlement Agreement requires that we make monthly payments of \$150,000 to Imperial Bank until the indebtedness is paid in full. However, in the future, without

-19-

additional funding sufficient to satisfy Imperial Bank and our other creditors, as well as providing for our working capital, there can be no assurances that an

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

operational receiver may not be reinstated.

WHERE YOU CAN FIND MORE INFORMATION

We file annual, quarterly and special reports, proxy statements and other information with the SEC. You may read and copy the materials we file at the SEC's Public Reference Room at 450 Fifth Street, N.W., Washington, D.C. 20549, as well as at the SEC's regional offices at 7 World Trade Center, 13th Floor, New York, New York 10048; and at Citicorp Center, 500 West Madison Street, Room 1400, Chicago, Illinois 60661-2511. Please call the SEC at 1-800-SEC-0330 for further information on the operation of the Public Reference Rooms. Our filings are also available to the public from the SEC's World Wide Web site on the Internet at <http://www.sec.gov>. This site contains reports, proxy and information statements and other information regarding issuers that file electronically with the SEC.

INCORPORATION OF CERTAIN DOCUMENTS BY REFERENCE

The SEC allows us to "incorporate by reference" the information we file with them, which means that we can disclose important information to you by referring you to those documents. The information incorporated by reference is considered to be part of this Prospectus. We incorporate by reference the documents listed below:

1. Our Annual Report on Form 10-K for the fiscal year ended June 30, 2000 (as amended by Form 10-K/A filed on October 30, 2000);
2. Our Quarterly Reports on Form 10-Q for the fiscal quarters ended March 31, 2001, December 31, 2000, September 30, 2000, March 31, 2000, December 31, 1999, September 30, 1999 and March 31, 1999; and
3. Our Current Reports on Form 8-K filed January 19, 2001 and August 2, 2001.

This prospectus is being accompanied by a copy of our latest Form 10-K, as amended and our latest Form 10-Q, as amended. You may request a copy of these filings, without charge, by telephone at (858) 613-1300 or by writing to us at the following address:

DISCLOSURE OF COMMISSION POSITION ON INDEMNIFICATION FOR SECURITIES ACT LIABILITIES

Section 145 of the Delaware General Corporation Law permits indemnification of officers and directors of the Registrant under certain conditions and subject to certain limitations. Section 145 of the Delaware General Corporation Law also provides that a corporation has the power to purchase and maintain insurance on behalf of its officers and directors against any liability asserted against such person and incurred by him or her in such capacity, or arising out of his or her status as such, whether or not the corporation would have the power to indemnify him or her against such liability under the provisions of Section 145 of the Delaware General Corporation Law.

Article X of the Bylaws of the Registrant provides that the Registrant

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

shall indemnify its officers, directors and employees. The rights to indemnity thereunder continue as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of the heirs, executors, and administrators of the person. In addition, expenses incurred by a director or officer in defending any action, suit or proceeding by reason of the fact that he or she is or was a director or officer of the Registrant shall be paid by the Registrant unless such officer, director or employee is adjudged liable for negligence or misconduct in the performance of his or her duties.

-20-

Article Seventh of the Registrant's Certificate of Incorporation provides that the Registrant shall indemnify all persons whom it may indemnify pursuant to Section 145 of the Delaware General Corporation Law to the full extent permitted by such Section 145.

INDEMNIFICATION FOR LIABILITIES UNDER THE SECURITIES ACT OF 1933 MAY BE PERMITTED TO DIRECTORS, OFFICERS OR PERSONS CONTROLLING US ACCORDING TO THE PROVISIONS IN OUR ARTICLES OF INCORPORATION, WE HAVE BEEN INFORMED THAT IN THE OPINION OF THE SEC, THIS INDEMNIFICATION IS AGAINST PUBLIC POLICY AS EXPRESSED IN THE ACT AND IS THEREFORE UNENFORCEABLE

EXPERTS

The financial statements incorporated herein by reference to our Annual Report on Form 10-K for the year ended June 30, 2000 have been so incorporated in reliance on the report of Boros & Farrington APC, independent accountants, given on the authority of said firm as experts in auditing and accounting.

LEGAL OPINIONS

For the purpose of this offering, Jenkens & Gilchrist Parker Chapin LLP is our counsel in regard to this registration statement.

FINANCIAL INFORMATION

The following financial statements should be read in conjunction with the financial statement information contained in and incorporated by reference from our most recent report on Form 10-K, as amended, which is being furnished with this prospectus.

-21-

THIS PROSPECTUS IS PART OF A REGISTRATION STATEMENT WE FILED WITH THE SEC. YOU SHOULD RELY ON THE INFORMATION OR REPRESENTATIONS PROVIDED IN THIS PROSPECTUS. WE HAVE AUTHORIZED NO ONE TO PROVIDE YOU WITH DIFFERENT INFORMATION. THE SELLING SECURITY HOLDERS DESCRIBED IN THIS PROSPECTUS ARE NOT MAKING AN OFFER IN ANY JURISDICTION WHERE THE OFFER IS NOT PERMITTED. YOU SHOULD NOT ASSUME THAT THE INFORMATION IN THIS PROSPECTUS IS ACCURATE AS OF ANY DATE OTHER THAN THE DATE OF THIS PROSPECTUS.

ITEM 15. INDEMNIFICATION OF DIRECTORS AND OFFICERS.

Section 145 of the Delaware General Corporation Law permits indemnification of officers and directors of the Registrant under certain conditions and subject to certain limitations. Section 145 of the Delaware General Corporation Law also provides that a corporation has the power to purchase and maintain insurance on behalf of its officers and directors against any liability asserted against such person and incurred by him or her in such capacity, or arising out of his or her status as such, whether or not the corporation would have the power to indemnify him or her against such liability under the provisions of Section 145 of the Delaware General Corporation Law.

Article X of the Bylaws of the Registrant provides that the Registrant

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

shall indemnify its officers, directors and employees. The rights to indemnity thereunder continue as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of the heirs, executors, and administrators of the person. In addition, expenses incurred by a director or officer in defending any action, suit or proceeding by reason of the fact that he or she is or was a director or officer of the Registrant shall be paid by the Registrant unless such officer, director or employee is adjudged liable for negligence or misconduct in the performance of his or her duties.

Article Seventh of the Registrant's Certificate of Incorporation provides that the Registrant shall indemnify all persons whom it may indemnify pursuant to Section 145 of the Delaware General Corporation Law to the full extent permitted by such Section 145.

INDEMNIFICATION FOR LIABILITIES UNDER THE SECURITIES ACT OF 1933 MAY BE PERMITTED TO DIRECTORS, OFFICERS OR PERSONS CONTROLLING US ACCORDING TO THE PROVISIONS IN OUR ARTICLES OF INCORPORATION, WE HAVE BEEN INFORMED THAT IN THE OPINION OF THE SEC, THIS INDEMNIFICATION IS AGAINST PUBLIC POLICY AS EXPRESSED IN THE ACT AND IS THEREFORE UNENFORCEABLE

(B) REPORTS ON FORM 8-K

Form 8-K filed July 28, 2000.

Form 8-K filed January 19, 2001.

Form 8-K filed August 2, 2001.

ITEM 17. UNDERTAKINGS.

The undersigned Registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this Registration Statement to include any material information with respect to the plan of distribution not previously disclosed in this Registration Statement or any material change to such information in this Registration Statement.

(2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

The undersigned Registrant hereby undertakes that, for purposes of determining any liability under the Securities Act, each filing of the Registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the Registration Statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

The undersigned Registrant hereby undertakes to deliver or cause to be delivered with the Prospectus, to each person to whom the Prospectus is sent or given, the latest annual report to security holders that is incorporated by reference in the Prospectus and furnished pursuant to and meeting the

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

requirements of Rule 14a-3 or Rule 14c-3 under the Securities Exchange Act of 1934; and, where interim financial information required to be presented by Article 3 of Regulation S-X are not set forth in the Prospectus, to deliver, or cause to be delivered to each person to whom the Prospectus is sent or given, the latest quarterly report that is specifically incorporated by reference in the Prospectus to provide such interim financial information.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions, Delaware General Corporation Law or otherwise, the Registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefor, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer, or controlling person of the Registrant in the successful defense of any action, suit, or proceeding) is asserted by such director, officer, or controlling person in connection with the securities being registered hereunder, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question of whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, the Registrant certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form S-2 and has duly caused this Pre-Effective Amendment No. 2 to Form S-2 to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of San Diego, State of California, on the 6th day of September 2001.

IMAGING TECHNOLOGIES CORPORATION
