ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth selected financial data on a consolidated historical basis for the Company. However, prior to March 1998, as discussed more fully in Note 1 to the Company's Consolidated Financial Statements (the "Recapitalization Transactions"), the Company did not have substantial operations or capital resources. Prior to the Recapitalization Transactions, the Company's structured finance operations were conducted by two private investment partnerships which contributed substantially all their structured finance assets to the Company in the Recapitalization Transactions in exchange for cash and shares of the Company.

Further, on November 4, 1999, as more fully discussed in Note 4 to the Company's Consolidated Financial Statements, the Company acquired TriNet, which

## Edgar Filing: ISTAR FINANCIAL INC - Form 10-K/A

increased the size of the Company's operations, and also acquired its external advisor. Operating results for the year ended December 31, 1999 reflect only the effects of these transactions subsequent to their consummation.

Accordingly, the historical balance sheet information as of and prior to December 31, 1998, as well as the results of operations for the Company for all periods prior to and including the year ended December 31, 1999, do not reflect the current operations of the Company as a well capitalized, internally-managed finance company operating in the commercial real estate industry. For these reasons, the Company believes that the information contained in the following tables relating to the 1997 period is not indicative of the Company's current business and should be read in conjunction with the discussions set forth in Item 7--"Management's Discussion and Analysis of Financial Condition and Results of Operations."

EXPLANATORY NOTES:

-----

- (1) As more fully discussed in Note 4 to the Company's Consolidated Financial Statements, this amount represents a non-recurring, non-cash charge of approximately \$94.5 million relating to the acquisition of the Company's external advisor in November 1999.
- (2) Represents one-time effect of adoption of Statement of Financial Accounting Standards No. 133, "Accounting for Derivative Instruments and Hedging Activities" as of January 1, 2001.
- (3) Prior to November 1999, earnings per common share excludes 1% of net income allocable to the Company's former class B shares. The former class B shares were exchanged for Common Stock in connection with the acquisition of TriNet and other related transactions on November 4, 1999. As a result, the Company now has a single class of Common Stock outstanding.

## Edgar Filing: ISTAR FINANCIAL INC - Form 10-K/A

- (4) The Company generally declares common and preferred dividends in the month subsequent to the end of the quarter.
- (5) Adjusted earnings represents net income in accordance with GAAP, before gains (losses) on sales of corporate tenant lease assets, extraordinary items and cumulative effect of change in accounting principle, plus depreciation and amortization, less preferred stock dividends, and after adjustments for unconsolidated partnerships and joint ventures and, for the year ended December 31, 1999, exclude the non-recurring, non-cash cost incurred in acquiring the Company's external advisor (see Note 4 to the Company's Consolidated Financial Statements).
- (6) EBITDA is calculated as total revenue minus the sum of general and administrative expenses, general and administrative--stock-based compensation, provision for loan losses and operating costs on corporate tenant lease assets.
- (7) Each of adjusted earnings and EBITDA should be examined in conjunction with net income as shown in the Consolidated Statements of Operations. Neither adjusted earnings nor EBITDA should be considered as an alternative to net income (determined in accordance with GAAP) as an indicator of the Company's performance, or to cash flows from operating activities (determined in accordance with GAAP) as a measure of the Company's liquidity, nor is either measure indicative of funds available to fund the Company's cash needs or available for distribution to shareholders. The Company's management believes that adjusted earnings and EBITDA more closely approximate operating cash flow and are useful measures for investors to consider, in conjunction with net income and other GAAP measures, in evaluating the Company's financial performance. This is primarily because the Company is a commercial finance company that focuses on real estate lending and corporate tenant leasing; therefore, the Company's net income (determined in accordance with GAAP) reflects significant non-cash depreciation expense on corporate tenant lease assets. It should be noted that the Company's manner of calculating adjusted earnings and EBITDA may differ from the calculations of similarly-titled measures by other companies.
- (8) The 1999 and 1998 EBITDA to interest expense ratios on a pro forma basis (see Note 4 to the Company's Consolidated Financial Statements) would have been 2.83x and 2.84x, respectively.
- (9) Combined fixed charges are comprised of interest expense, capitalized interest, amortization of loan costs and preferred stock dividend requirements. The 1999 and 1998 EBITDA to combined fixed charges ratios on a pro forma basis (see Note 4 to the Company's Consolidated Financial Statements) would have been 2.23x and 2.44x, respectively.
- (10) For the purposes of calculating the ratio of earnings to fixed charges, "earnings" consist of income from continuing operations before income taxes and cumulative effect of changes in accounting principles plus "fixed charges" and certain other adjustments. "Fixed charges" consist of interest incurred on all indebtedness related to continuing operations (including amortization of original issue discount) and the implied interest component of the Company's rent obligations in the years presented. For 1999, these ratios include the effect of a non-recurring, non-cash charge in the amount of approximately \$94.5 million relating to the November 1999 acquisition of the former external advisor to the Company. Excluding the effect of this non-recurring, non-cash charge, the ratio of earnings to fixed charges for that period would have been 2.5x and our ratio of earnings to fixed charges and preferred stock dividends would have been 2.0x.
- (11) As adjusted for one-for-six reverse stock split effected by the Company on June 19, 1998.
