CNE Group, Inc. and Subsidiaries Notes To Consolidated Financial Statements (Unaudited)

1. General

Business

CNE Group, Inc. (the "Company" or "CNE") is a holding company whose primary operating subsidiaries are SRC Technologies, Inc. ("SRC") and Econo-Comm, Inc. (d/b/a Mobile Communications) ("ECI"). SRC, also a holding company, is the parent of Connectivity, Inc. ("Connectivity") and US. CommLink, Ltd. ("USCL"). Connectivity, USCL and ECI, the "SRC group of companies," market, manufacture, repair and maintain remote radio and cellular-based emergency response products to a variety of federal, state and local government institutions, and other vertical markets throughout the United States. SRC and the Company have intellectual property rights to certain key elements of these products - specifically, certain communication, data entry and telemetry devices.

The Company also generates revenue from its CareerEngine division that is engaged in the business of e-recruiting.

The Company and CareerEngine are located at 200 West 57th Street, New York, NY 10019 (212- 977-2200). SRC, Connectivity and ECI are located at 3733 NW 16th Street, Lauderhill, FL 33311 (954-587-1414). USCL is located at 6244 Preston Avenue, Livermore, CA 94550 (925-960-0097).

Corporate Matters

On April 17, 2003, pursuant to the terms of Section 251(g) of the Delaware General Corporation Law, CareerEngine Network, Inc. ("CareerEngine") became a wholly-owned subsidiary of the Company. Pursuant to this transaction, the Company acquired all of the assets of CareerEngine and all former stockholders of CareerEngine became the stockholders of the Company, which is the entity that is now publicly traded on the American and Pacific Stock Exchanges under the symbol "CNE." As a successor entity to CareerEngine, the Company's shares are deemed to be registered under Section 12(g) of the Securities Exchange Act of 1934 and Rule 12g-3 promulgated thereunder. The shares were issued without registration in reliance upon exemptions provided in Section 3(a)(9) of the Securities Act of 1933 and Rule 145 promulgated thereunder.

In addition, the officers and directors of CareerEngine became the officers and directors of the Company. On April 23, 2003, three directors of the Company resigned (Kevin J. Benoit, Edward A. Martino and James J.

Edgar Filing: CNE GROUP INC - Form 10QSB

Murtha) and their replacements were appointed (Michael J. Gutowski, Larry M. Reid and Carol L. Gutowski). Ms. Gutowski is the wife of Michael J. Gutowski. Messrs. Gutowski and Reid were also appointed the President and Chief Operating Officer and the Executive Vice President of the Company, respectively. See "Acquisition of all of the outstanding stock of SRC and ECI" below.

See Notes to Consolidated Financial Statements

6

In addition, on April 23, 2003, the Board of Directors and majority of the stockholders of the Company approved an increase in the authorized number of shares of common stock to 40,000,000 with a par value of \$0.00001 per share and approved an increase in the authorized number of shares of preferred stock to 25,000,000 with a par value of \$0.00001 per share. The preferred stock may be issued in one or more series at the discretion of the Board of Directors.

Acquisition of all of the outstanding stock of SRC and ECI

SRC

On April 23, 2003, the Company issued to Mr. and Mrs. Gutowski, the former principal common stockholders of SRC, an aggregate of 4,867,937 shares of its non-voting Series C Preferred Stock and a like number of ten year Class C Warrants, each to purchase one share of its Common Stock at \$1.00 per share. The Class C Warrants are not exercisable and are not detachable from the C Preferred Stock prior to 66 months after their issuance. See Note 9 - Preferred Stock.

The Company issued to the other former common stockholders of SRC, including Larry M. Reid, an aggregate of 899,976 shares of its Common Stock, 1,697,961 shares of its non-voting Series A Preferred Stock and a like number of ten year non-detachable Class A Warrants, each to purchase one share of its Common Stock at \$1.00 per share. The Class A Warrants are not exercisable and are not detachable from the Series A Preferred Stock prior to 66 months after their issuance. See Note 9 - Preferred Stock.

The Company issued an aggregate of 440,000 shares of its Series B Preferred Stock to the former holders of the SRC Series B Preferred Stock. See Note 9 - Preferred Stock.

The Series A Preferred Stock has an aggregate liquidating preference over all other CNE equity of \$1,697,961 and the Series B Preferred Stock has an aggregate liquidating preference over all other CNE equity except the Series A Preferred Stock of \$440,000. The Series C Preferred Stock has no liquidating preference.

ECI

On April 23, 2003, the Company issued to Gary Eichsteadt and Thomas Sullivan, the former stockholders of ECI, an aggregate of 4,867,938 shares of its Series C Preferred Stock and a like number of Class C Warrants. In addition, Messrs. Eichsteadt and Sullivan retained certain of ECI's trade receivables aggregating approximately \$100,000. The Company also acquired a patent related to the operation of ECI's business from Mr. Eichsteadt for notes in the aggregate principal amount of \$2,000,000, bearing interest at the annual rate of 8%, payable quarterly, and due on October 31, 2008. Messrs. Eichsteadt and Sullivan remained executive officers ECI.

Private Financing

On April 23, 2003, the Company also effected a private financing pursuant to which it issued notes (the "Notes") in the aggregate principal amount of \$1,000,000, of which \$650,000 was to the officers of the Company, and 3,124,350 ten year Class B Warrants, each to purchase one share of its Common Stock at \$0.50 per share. The Notes bear interest at the annual rate of 10% payable quarterly and are due on April 30, 2004. The Warrants are anti-dilutive until the Notes have been repaid. The due date of the Notes may be extended at the Company's option for an additional year in consideration for the issuance of 10-year warrants to purchase 5% of the Company's then outstanding common stock at \$0.50 per share. These Warrants would also be anti-dilutive until the Notes have been repaid. In addition, the Company valued the warrants, utilizing the Black-Scholes Pricing Model, at \$699,000 which is being accounted for as debt discount and is being amortized ratably over the one-year term of the Notes.

The Company is using the funds obtained from this financing to pay certain ECI notes payable and for working capital. The financing was effected pursuant to the exemption from the registration provisions of the Securities Act of 1993 provided by Section 4(2) thereof.

2003 Stock Incentive Plan

On April 30, 2003 a majority of the stockholders and the Board of Directors of the Company approved the 2003 Stock Incentive Plan (the "2003 Plan"), which provides, among other matters, for incentive and non-qualified stock options to purchase 3,500,000 shares of Common Stock. The purpose of the 2003 Plan is to provide incentives to officers, key employees, directors, independent contractors and agents whose performance will contribute to the long-term success and growth of the Company, to strengthen the ability of the Company to attract and retain officers, key employees, directors, independent contractors and agents of high competence, to increase the identity of interests of such people with those of the Company's stockholders and to help build loyalty to the Company through recognition and the opportunity for stock ownership. The 2003 Plan is administered by the Incentive Compensation Committee of the Board. On April 30, 2003, options to purchase 1,987,500 shares of the Company's common stock, at a weighted average exercise price of \$1.32, were granted to five officers (1,800,000) and one employee (187,500) of the Company. No options granted have been exercised. In addition, on April 30, 2003, options to purchase 605,000 shares of the Company's common stock were granted to independent contractors of the Company and the Company recorded a charge of \$81,250, relating to the 325,000 options that were vested at June 30, 2003, on its Statement of Operations for the three and six month ended June 30, 2003.

Catastrophe of September 11, 2001

The Company's headquarters were located at Suite 2112 of Two World Trade Center in New York City. The catastrophe of September 11, 2001 involved no

Edgar Filing: CNE GROUP INC - Form 10QSB

injury to any of the Company's employees. However, with the complete destruction of the building, all of the Company's leasehold improvements, furniture and fixtures, and office and computer equipment located at this site were also destroyed. Since the attack through the date of the acquisitions and financing set forth above, the Company's management had been preoccupied with the relocation and reestablishment of its businesses, assessing and processing of insurance claims with the assistance of a risk manager with its insurers, and

See Notes to Consolidated Financial Statements

8

seeking sources of financing. In 2002, the Company received insurance proceeds in amounts that have exceeded the net carrying value of the destroyed assets and, accordingly, recorded a \$152,934 gain on assets destroyed due to this catastrophe which was recorded in the six months ended June 30, 2002. The Company also had insurance coverage for other than assets destroyed. As of June 30, 2003 all outstanding insurance claims relating to the catastrophe have been received.

In addition, the Company applied for governmental assistance grants related to the catastrophe. In April and September 2002, the Company received grants aggregating \$291,827. The grants have a restriction that could require their repayment, specifically if the Company were to relocate a substantial portion its operations outside of New York City before May 1, 2005. Until such time as this restriction shall no longer apply, the grants will be classified as a liability of the Company. Upon the satisfaction or lapse of the restrictions, the Company will remove the liability and record grant income on its financial statements or, alternatively, have to repay such grants if the above condition is not satisfied.

2. Significant Accounting Policies

The accounting policies followed by the Company are set forth in Note B to the Company's financial statements included in its Form 10-KSB, for the year ended December 31, 2002, which was filed with the Securities and Exchange Commission.

In the opinion of management, the unaudited consolidated financial statements include all adjustments necessary for a fair presentation of the Company's financial position as of June 30, 2003 and the results of its operations and its cash flows for the three-month and six-month periods ended June 30, 2003 and 2002. The financial statements as of June 30, 2003 and for the three and six months then ended are not necessarily indicative of the results that may be expected for the year ending December 31, 2003.

The Company has incurred substantial losses from continuing operations, sustained substantial operating cash outflows and has a working capital deficit. The above factors raise substantial doubt about the Company's ability to continue as a going concern. The Company's continued existence is dependent on its ability to obtain additional equity and/or debt financing to fund its operations and ultimately to achieve profitable operations. However, there is no assurance that the Company will achieve profitable operations or cash flow.

Management believes that such working capital deficit, losses and negative operating cash flows will ultimately be positively addressed by (i) the

Edgar Filing: CNE GROUP INC - Form 10QSB

acquisitions and related financing disclosed within these financial statements as of June 30, 2003 and 2002 and the three month periods then ended and (ii) the expected results of our current fund raising activities.

Revenue Recognition

The Company's operations relating to manufacturing, marketing and servicing its remote and cellular-based emergency response products recognizes revenue from the sale of a product upon installation or delivery to the customer, depending on the terms of the underlying sales agreement

See Notes to Consolidated Financial Statements

9

Fees from E-recruiting are earned on the placement of job placement and sponsorship advertisements on the Company's web site and are recognized over the period during which the advertisements are exhibited. Revenues derived from co-branding arrangements with content providers are of a similar nature and are recognized over the period during which the advertisements are exhibited. Website construction fees are recognized ratably over the construction period. Monthly hosting and maintenance fees for such sites are recognized ratably over the period of the underlying contract.

Trade Receivables

The Company evaluates collectability of trade receivables based on the creditworthiness of each customer. An allowance for doubtful accounts is established, if necessary, based on the results of management's assessment.

Concentration of Credit Risk

The Company is exposed to credit risks in the event of default by financial institutions in which balances are maintained in excess of insured limits. At June 30, 2003 such exposure aggregated \$140,392.

The Company's sales are primarily provided to customers throughout the United States. Historically, there have been no material concentration, and credit losses have not been significant.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Inventory

Inventory consists primarily of electronic parts and cellular phones. Inventory is stated at the lower of cost (first-in, first-out) or market.

Startup Activities

Edgar Filing: CNE GROUP INC - Form 10QSB

Costs associated with the organization and start-up activities of the Company were expensed as incurred.

Income (Loss) Per Share

Basic income (loss) per share is based on the weighted average number of common shares outstanding. Employee incentive stock options and outstanding warrants did not have an effect on the computation of diluted earnings per share since they were anti-dilutive.

See Notes to Consolidated Financial Statements

10

Stock-Based Compensation

As permitted under SFAS No. 123, Accounting for Stock-based Compensation (SFAS No. 123), the Company has elected to continue to follow the guidance of APB Opinion No. 25, Accounting for Stock Issued to Employees (APB No. 25), and Financial Accounting Standards Board Interpretation No. 44, Accounting for Certain Transactions Involving Stock Compensation--an Interpretation of APB Opinion No. 25 (FIN No. 44), in accounting for its stock-based employee compensation arrangements. Accordingly, no compensation cost is recognized for any of the Company's fixed stock options granted to employees when the exercise price of each option equals or exceeds the fair value of the underlying common stock as of the grant date for each stock option. Changes in the terms of stock option grants, such as extensions of the vesting period or changes in the exercise price, result in variable accounting in accordance with APB Opinion No. 25. Accordingly, compensation expense is measured in accordance with APB No. 25 and recognized over the vesting period. If the modified grant is fully vested, any additional compensation costs is recognized immediately. The Company accounts for equity instruments issued to non-employees in accordance with the provisions of SFAS No. 123.

At June 30, 2003, the Company and two of its subsidiaries each had separate stock-based employee compensation plans. On March 14, 2003 all recipients of options granted to them under the plans of the subsidiaries rescinded their interests. As permitted under SFAS No. 148, Accounting for Stock-Based Compensation--Transition and Disclosure, which amended SFAS No. 123, the Company has elected to continue to follow the intrinsic value method in accounting for its stock-based employee compensation arrangements as defined by APB No. 25 and related interpretations including FIN No. 44. The following table illustrates the effect on net loss and loss per share if the Company had applied the fair value recognition provisions of SFAS No. 123 to stock-based employee compensation for options granted under its plan.

On April 30, 2003, options to purchase 1,987,500 shares were granted to five officers (1,800,000) and one employee (187,500) of the Company at exercise prices equal to the market price of the Company's common stock on the date of the grant. No options granted have been exercised. In addition, on April 30, 2003, options to purchase 605,000 shares were granted to independent contractors of the Company. See Note 1 - General: 2003 Stock Incentive Plan.

11

Impairment of Long-Lived Assets

Impairment losses are recognized for long-lived assets used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are not sufficient to recover the assets' carrying amount. The impairment loss is measured by comparing the fair value of the asset to its carrying amount. No write-down of assets for impairment losses were required during the three and six month periods ended June 30, 2003 and the year ended December 31, 2002.

3. Discontinued Operations

In 1997, the Company entered into a triple net, credit type lease with Carmike Cinemas, Inc. ("Carmike"), pursuant to which the Company leased to Carmike six parcels of land and the improvements thereon. Concurrently, the Company issued \$72,750,000 principal amount of its adjustable rate tender securities due November 1, 2015 (the "Bonds"). The Bonds were secured by irrevocable letters of credit issued by a group of banks. In connection therewith the Company entered into a Reimbursement Agreement with Wachovia, as agent for the banks, under which the Company was obligated to remit all rent received under the lease to Wachovia to reimburse the banks for the Bond payments made by draws on their letters of credit.

On August 8, 2000, Carmike filed a petition under Chapter 11 of the United States Bankruptcy Code. As a result of that filing and Carmike's subsequent failure to pay rent to date under the lease, the Company failed to make required payments to Wachovia under the Reimbursement Agreement. Accordingly, Wachovia declared a default under the Reimbursement Agreement and accelerated all amounts due by the Company thereunder. Wachovia also directed the Trustee under the related Indenture to redeem the Bonds. Such amounts were paid entirely through draws on the related letters of credit and were not paid with funds of the Company. However, as the Bonds are no longer outstanding, all unamortized financing costs (amounting to \$804,667) relating thereto were expensed. In addition, Carmike has not

Edgar Filing: CNE GROUP INC - Form 10QSB

disaffirmed the lease and continues to occupy the six theaters.

Interest and fees which have been accrued on the reimbursement obligations through December 2001 have been recorded with a corresponding amount of accrued rent receivable from Carmike.

On January 31, 2002 title to the six theaters was transferred to the banks in payment of the non-recourse debt under the Reimbursement Agreement and the Company recognized a gain of \$3,512,884, representing the excess of the liabilities over the carrying value of the assets relating to the real estate leased to Carmike. In addition, the Company received \$294,755 in connection with the sale of its common membership interest in Movieplex relating to the transfer of title of the movie theaters to Wachovia.

4. Litigation

The Company is a party to various vendor related litigation. Based on the advise of legal counsel, the Company has accrued a liability of approximately \$100,000.

5. Debentures Payable

In 2000, the CareerEngine privately placed 48 units of its securities. Each unit consisted of a \$50,000 subordinated convertible debenture, 12,500 Class A Common Stock Warrants and 12,500 Class B Common Stock

Edgar Filing: CNE GROUP INC - Form 10QSB

Warrants. Each \$50,000 debenture is convertible into 25,000 shares of common stock. The Class A and B Warrants are exercisable at \$4 and \$6, respectively. The debentures bear interest at 12%, payable quarterly, commencing October 1, 2000 and mature March 31, 2010. The Class A Warrants expired on March 31, 2003 and the Class B Warrants are exercisable at any time until March 31, 2005. In the private placement, officers, stockholders and directors of the Company acquired 10.5 units for \$525,000.

At June 30, 2003, the aggregate number of shares issuable upon the exercise of all the outstanding warrants and the conversion of all the debentures is 1,800,000.

CareerEngine incurred an interest charge of \$246,875 due to the beneficial conversion feature of the debentures. In addition, CareerEngine valued the warrants at \$740,000 which was being accounted for as debt discount and was being amortized through the period the debentures were callable. The amounts ascribed to the beneficial conversion feature and the warrants aggregating \$986,875 were credited to paid-in-surplus.

See Notes to Consolidated Financial Statements

13

CareerEngine paid the placement agent cash of \$375,025 and granted the agent a warrant exercisable through June 2005 (valued at \$200,000) to purchase 5 units at \$60,000 per unit. Of the total consideration, \$426,658 was accounted for as deferred financing costs which was being amortized over the life of the debentures and \$148,367 deemed attributable to the warrant portion of the unit, was charged to paid-in surplus.

Interest accrued on debentures payable, relating to the period from April 1, 2002 through June 30, 2003, aggregating \$360,000 has not been paid through July 1, 2003. Accordingly, since the CareerEngine had not paid the interest due on July 1, 2002 by July 16, 2002 (the "grace period"), CareerEngine's obligation is considered callable by the debenture holders. However, for the debentures to be in default, the holders of no less than 51% in principal amount of the debentures must notify the Company that an event of default has occurred and may thereafter declare all debentures and related interest immediately due and payable. As of August 18, 2003, no such demand had been made by any debenture holder.

As a result of the nonpayment of interest as set forth above and the reclassification of the debentures as a current obligation, the remaining (i) unamortized debt discount on the debentures (\$661,980) was recognized as interest expense and (ii) unamortized deferred financing costs associated with the debentures (\$320,350) was recognized as expense, in 2002.

See Note 13 "Subsequent Events: Conversion of Debentures Payable."

6. Income Taxes

Commencing in August 2000, pursuant to an understanding with the IRS, the Company began paying \$30,000 per month until the assessed tax deficiency relating to the years 1985 through 1989 and interest thereon is fully satisfied. However, after a technical review by special tax counsel of the tax deficiency and related interest, management of the Company believed that there may be a basis for its reduction. Pending the ultimate

Edgar Filing: CNE GROUP INC - Form 10QSB

resolution of this matter with the IRS, in September 2001 the Company temporarily suspended making monthly payments. At June 30, 2003, the outstanding balance of the liability amounted to approximately \$946,000 including related interest.

See Note 13 "Subsequent Events: Settlement of Tax Assessment Payable."

7. Director Fees

At June 30, 2003, the Company's five outside directors have similarly agreed to forego previously accrued and unpaid directors' fees earned through December 31, 2001 and agreed to forego future compensation until further notice. The reversal of previously accrued fees has been reflected in the Company's Consolidated Statement of Operations for the three and six-month period ended June 30, 2002. Due to the nature of the Company's operations prior to the acquisitions and related financing in April, 2003, appropriate director compensation was deemed to be a nominal amount by the Company.

8. Excess of Liabilities over Assets of Activities to be Disposed

Two subsidiaries of the Company have remaining liabilities of \$4,605,447 that are substantially in excess of their remaining assets of \$103,204. Each of these subsidiaries created a trust for the benefit of their creditors. The assets of each trust consists of the remaining assets of the subsidiary (or if the assets were not transferred to the trust, their cash value determined by independent appraisals obtained for the trusts). The Trustees of each of the trusts are required to utilize such remaining assets to satisfy the remaining liabilities of such subsidiaries. The creditors who are subject to such trust arrangements have not approved or been asked to approve the extinguishment of these obligations. Company's counsel has opined that the creditors of the two subsidiaries cannot reach the assets of the Company or any of its other subsidiaries to satisfy the obligations of these two subsidiaries to such creditors. The Company expects that the creditors of these two subsidiaries will look directly to the Trustees and the remaining assets of the trusts for the satisfaction of their claims and that the Company will be freed from dealing with these issues.

The value of the intellectual property rights, amounting to \$1,550,609, acquired in the related financing was also determined by an independent appraiser. SRC and its subsidiaries Connectivity and USCL, and ECI, collectively market, manufacture, repair and maintain remote radio and cellular-based emergency response products to a variety of federal, state and local government institutions, and other vertical markets throughout the United States. Due to these acquisitions and related financing, the Company has acquired intellectual property rights to certain key elements of these products - specifically, certain communication, data entry and telemetry devices.

General

CNE Group, Inc. (the "Company" or "CNE") is a holding company whose primary operating subsidiaries are SRC Technologies, Inc. ("SRC" and Econo-Comm, Inc. (d/b/a Mobile Communications) ("ECI"). SRC, also a holding company, is the parent of Connectivity, Inc. ("Connectivity") and US. Commlink, Ltd. ("USCL"). Connectivity, USCL and ECI, the "SRC group of companies," market, manufacture, repair and maintain remote radio and cellular-based emergency response products to a variety of federal, state and local government institutions, and other vertical markets throughout the United States. SRC and the Company have intellectual property rights to certain key elements of these products - specifically, certain communication, data entry and telemetry devices.

The Company also generates revenue from its CareerEngine division that is engaged in the business of e-recruiting.

2003 Stock Incentive Plan

On April 30, 2003 a majority of the stockholders and the Board of Directors of the Company approved the 2003 Stock Incentive Plan (the "2003 Plan"), which provides, among other matters, for incentive and non-qualified stock options to purchase 3,500,000 shares of Common Stock. The purpose of the 2003 Plan is to provide incentives to officers, key employees, directors, independent contractors and agents whose performance will contribute to the long-term success and growth of the Company, to strengthen the ability of the Company to attract and retain officers, key employees, directors, independent contractors and agents of high competence, to increase the identity of interests of such people with those of the Company's stockholders and to help build loyalty to the Company through recognition and the opportunity for stock ownership. The 2003 Plan is

administered by the Incentive Compensation Committee of the Board. On April 30, 2003, options to purchase 1,987,500 shares of common stock of the Company, at a weighted average exercise price of \$1.32, were granted to five officers (1,800,000) and one employee (187,500) of the Company. Catastrophe of September 11, 2001

Edgar Filing: CNE GROUP INC - Form 10QSB

The Company's headquarters were located at Suite 2112 of Two World Trade Center in New York City. The catastrophe of September 11, 2001 involved no injury to any of the Company's employees. However, with the complete destruction of the building, all of the Company's leasehold improvements, furniture and fixtures, and office and computer equipment located at this site were also destroyed. Since the attack through the date of the acquisitions and financing set forth above, the Company's management had been preoccupied with the relocation and reestablishment of its businesses, assessing and processing of insurance claims with the assistance of a risk manager with its insurers, and seeking sources of financing. In 2002, the Company received insurance proceeds in amounts that have exceeded the net carrying value of the destroyed assets and, accordingly, recorded a \$152,934 gain on assets destroyed due to this catastrophe which was recorded in the six months ended June 30, 2002. The Company also had insurance coverage for other than assets destroyed. As of June 30, 2003 all outstanding insurance claims relating to the catastrophe have been received.

In addition, the Company applied for governmental assistance grants related to the catastrophe. In April and September 2002, the Company received grants aggregating \$291,827. The grants have a restriction that could require their repayment, specifically if the Company were to relocate a substantial portion its operations outside of New York City before May 1, 2005. Until such time as this restriction shall no longer apply, the grants will be classified as a liability of the Company. Upon the satisfaction or lapse of the restrictions, the Company will remove the liability and record grant income on its financial statements or, alternatively, have to repay such grants if the above condition is not satisfied.

Critical Accounting Policies

The Company's consolidated financial statements have been prepared in accordance with the accounting principles generally accepted in the United States of America. Certain accounting policies have a significant impact on amounts reported in the financial statements. A summary of those significant accounting policies can be found in Note B to the Company's financial statements included in its Annual Report on Form 10-KSB for the year ended December 31, 2002. The Company has not adopted any significant new accounting policies during the six-month period ended June 30, 2003.

A significant judgment made by management in the preparation of the Company's financial statements is the determination of the allowance for doubtful accounts. This determination is made periodically in the ordinary course of business.

B. Liquidity and Capital Resources

The Company has incurred substantial losses from continuing operations, sustained substantial operating cash outflows and has a working capital deficit. The above factors raise substantial doubt about the Company's ability to continue as a going concern. The Company's continued existence

Edgar Filing: CNE GROUP INC - Form 10QSB

is dependent on its ability to obtain additional equity and/or debt financing to fund its operations and ultimately to achieve profitable operations. However, there is no assurance that the Company will achieve profitable operations or cash flow.

On April 23, 2003, the Company also effected a private financing pursuant to which it issued notes (the "Notes") in the aggregate principal amount of \$1,000,000, of which \$650,000 was from the officers of the Company, and 3,124,350 ten year Class B Warrants, each to purchase one share of its Common Stock at \$0.50 per share. The Notes bear interest at the annual rate of 10% payable quarterly and are due on April 30, 2004. The Warrants are non-dilutive until the Notes have been repaid. The due date of the Notes may be extended at the Company's option for an additional year in consideration for the issuance of 10-year warrants to purchase 5% of the Company's then outstanding common stock at \$0.50 per share. These Warrants will also be non-dilutive until the Notes have been repaid. In addition, the Company valued the warrants at \$699,000 which is being accounted for as debt discount and is being amortized ratably over the one-year term of the Notes.

The Company is using the funds obtained from this financing to pay certain ECI notes payable and for working capital. The financing was effected pursuant to the exemption from the registration provisions of the Securities Act of 1993 provided by Section 4(2) thereof.

Management believes that such working capital deficit, losses and negative operating cash flows will ultimately be positively addressed by (i) the acquisitions and related financing disclosed within these financial statements as of June 30, 2003 and 2002 and the three month periods then ended and (ii) the expected results of our current fund raising activities.

We do not have any material commitments for capital expenditures as of June 30, 2003.

At June 30, 2003 the Company's Capital was \$2,069,635.
