- (1) Title of each class of securities to which transaction applies:

(2) Aggregate number of securities to which transaction applies:

Edgar Filing: REAL ESTATE INCOME FUND INC - Form DFAN14A

(3) Per unit price or other underlying value of transaction computed pursuant to Exchange Act Rule 0-11 (set forth the amount on which the filing fee is calculated and state how it was determined):

(4) Proposed maximum aggregate value of transaction:

(5) Total fee paid:

Fee paid previously with preliminary materials:

Check box if any part of the fee is offset as provided by Exchange Act Rule 0-11(a)(2) and identify the filing for which the offsetting fee was paid previously. Identify the previous filing by registration statement number, or the form or schedule and the date of its filing.

(1) Amount previously paid:

(2) Form, Schedule or Registration Statement No.:

(3) Filing Party:

(4) Date Filed

A CRITICAL MESSAGE

TO

REAL ESTATE INCOME FUND INC. STOCKHOLDERS

FROM

KARPUS MANAGEMENT, INC. AND WESTERN INVESTMENT LLC

Dear Fellow Stockholders:

October 28, 2005

Karpus Management, Inc. (Karpus) and Western Investment LLC (Western) have previously written to you expressing our outrage with Real Estate Income Fund s (RIT) proposals to approve a new management agreement and a new subadvisory agreement which would result in an enormous \$3.7 billion payout to Citigroup. Rather than spending their time artfully devising deals to enrich Citigroup, management and the board should be taking action to close RIT s wide discount to net asset value.

We are assuming that you invested in RIT to make money.

Eliminating the current discount to RIT s net asset value is the real issue!

Since RIT s stock price currently trades at a 10% discount to RIT s net asset value, your investment is worth 10% less than what it should be.

The discount could further widen during 2005 the discount has been as high as 16%.

If action is not taken immediately, your investment may continue to languish between 10% and 16% below what it should be worth, or even less.

Merging RIT with an open end fund with similar objectives is an obvious solution.

We believe that IXIS - AEW Real Estate Fund (NRFAX), an open end REIT fund, is an extremely attractive merger candidate for RIT. The portfolio manager of NRFAX is also the sub-advisor for RIT and both funds have similar investment objectives and portfolios. An even more compelling common denominator making the two funds attractive merger partners is their substantially similar performance as seen in the tables below. **Once the funds are merged, the current 10% discount would be eliminated and investors would have the option of selling their shares at net asset value or continuing to invest with the same manager with a substantially similar return history. In fact, the annual rate of return of RIT and NRFAX since August 2002 was 21.3% and 22.6%, respectively.**

IF THE RIT BOARD IS TRULY COMMITTED TO MAXIMIZING STOCKHOLDER VALUE, IT WILL AGREE WITH US THAT MERGING RIT WITH AN OPEN END FUND IS IN THE BEST INTEREST OF THE VAST MAJORITY OF THE STOCKHOLDERS

We have attempted to discuss our ideas with management on how the interests of all stockholders can be addressed. Management has refused to return our phone calls and continues to vigorously defend the merits of the Legg Mason transaction. Due to RIT s apparent concern that a quorum to conduct the special meeting might not be present, it postponed the special meeting date to November 15 and has stepped up its efforts to push through its proposals. Most recently, management has attempted to scare stockholders into voting for their proposals with vague warnings that RIT will face considerable uncertainty and its ability to pursue its investment objective may be disrupted for an indefinite period if the new management agreement is not approved.

We believe this eleventh-hour tactic is designed to scare us into voting for management s proposals instead of doing what is in the overall best interest of the stockholders.

Below is a brief overview of RIT s discount to net asset value during 2005:

Edgar Filing: REAL ESTATE INCOME FUND INC - Form DFAN14A

On June 24, 2005, the day Citigroup announced that it had entered into the transaction with Legg Mason, the discount to NAV was 15.81%.

Between January 3, 2005 and June 24, 2005, the discount to NAV ranged from a daily high of 16.01% to a daily low of 12.03%.

On August 25, 2005, the day Karpus and Western filed their preliminary proxy statement with the SEC, the discount to NAV was 13.54%.

Since August 25, 2005, the discount to NAV has declined to 10.66% as of October 27, 2005.

Would the discount have narrowed without our opposition to RIT's proposals?

Is it realistic that the discount to net asset value will ever be eliminated if the proposed transaction with Legg Mason is approved?

We believe that this is what the upcoming vote at the special meeting is all about.

VOTE THE GREEN PROXY CARD AGAINST THE NEW MANAGEMENT AGREEMENT TODAY!

Very truly yours,

Karpus Management, Inc.
