### Portfolio of Investments (concluded)

March 31, 2006 (unaudited)

Valuation of Investments Market values for securities listed on the New York Stock Exchange (NYSE), NASDAQ national market or other U.S. exchanges or markets are generally based on the closing market price on the principal exchange or market on which the security is traded, generally as of the close of regular trading on the NYSE (normally 4:00 p.m. Eastern time) on each valuation date; securities not traded on the valuation date are valued at the closing bid price. Any securities not listed, for which current over-the-counter market quotations or bids are readily available, are valued at the last quoted bid price or, if available, the mean of two such prices. Forward currency contracts are valued at the current cost of the offsetting contract. Securities listed on foreign exchanges are valued at the last reported sales price, except as described below.

If events materially affecting the value of securities occur between the close of the exchange or market on which the security is principally traded and the time when the Fund\[ \] s net asset value is calculated, such securities will be valued at their fair values as determined in good faith by or under the supervision of the Board of Directors. The effect of using fair value pricing is that the net asset value of the Fund will reflect the affected securities\[ \] values as determined in the judgment of the Board of Directors or its designee instead of being determined by the market. Using a fair value pricing methodology to price securities may result in a value that is different from the most recent closing price of a security and from the prices used by other investment companies to calculate their portfolios\[ \] net asset values.

Securities and other assets for which current market quotations are not readily available are valued at fair value as determined in good faith in accordance with procedures approved by the Board of Directors.

Bonds and other fixed-income securities that are not exchange-traded are valued on the basis of prices provided by pricing services which are based primarily on institutional trading in similar groups of securities, or by using brokers quotations.

Under these procedures, in the event that the Investment Manager, a wholly-owned subsidiary of Lazard Frères & Co. LLC, determines that a significant event has occurred after the close of a market on which a foreign security is traded but before the close of regular trading on the NYSE, such that current market quotations for a security or securities are not readily available, a Valuation Committee of the Investment Manager will evaluate a variety of factors to determine the fair value of the affected securities. These factors include, but are not limited to, the type of security, the value of comparable securities, observations from financial institutions and relevant news events. Input from the Investment Manager analysts will also be considered.

#### FORM N-Q

#### Item 2. Controls and Procedures.

- (a) The Registrant's principal executive and principal financial officers have concluded, based on their evaluation of the Registrant's disclosure controls and procedures as of a date within 90 days of the filing date of this report, that the Registrant's disclosure controls and procedures are reasonably designed to ensure that information required to be disclosed by the Registrant on Form N-Q is recorded, processed, summarized and reported within the required time periods and that information required to be disclosed by the Registrant in the reports that it files or submits on Form N-Q is accumulated and communicated to the Registrant's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.
- (b) There were no changes to the Registrant's internal control over financial reporting that occurred during the Registrant's most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Registrant's internal control over financial reporting.

#### Item 3. Exhibits.

Certifications of principal executive and principal financial officers as required by Rule 30a-2(a) under the Investment Company Act of 1940 are attached as Exhibit 99.CERT.

#### **SIGNATURES**
