**PROXY STATEMENT
FOR THE ANNUAL MEETING OF STOCKHOLDERS
To Be Held on May 23, 2002**

General

The enclosed proxy is solicited on behalf of the board of directors of Illumina, Inc., a Delaware corporation, for use at its annual meeting of stockholders to be held on Thursday, May 23, 2002. The annual meeting will be held at 10 a.m. Pacific Daylight Saving Time at **9885 Towne Centre Drive, San Diego, California 92121**. These proxy solicitation materials were mailed on or about April 23, 2002, to all stockholders entitled to vote at the annual meeting.

Voting

The specific proposals to be considered and acted upon at the annual meeting are summarized in the accompanying notice and are described in more detail in this proxy statement. On March 29, 2002, the record date for determination of stockholders entitled to notice of and to vote at the annual meeting, 32,327,591 shares of our common stock, par value \$0.01, were issued and outstanding. No shares of our preferred stock are outstanding. Each stockholder is entitled to one vote for each share of common stock held by such stockholder on March 29, 2002. Stockholders may not cumulate votes in the election of directors.

All votes will be tabulated by the inspector of election appointed for the meeting, who will separately tabulate affirmative and negative votes, abstentions and broker non-votes. Abstentions and broker non-votes are counted as present for purposes of determining the presence or absence of a quorum for the transaction of business. Abstentions will be counted toward the tabulations of votes cast on proposals presented to the stockholders and will have the same effect as negative votes, whereas broker non-votes will not be counted for purposes of determining whether a proposal has been approved.

Voting Electronically Via the Internet or by Telephone

Stockholders whose shares are registered in their own names may vote either via the Internet or by telephone. Specific instructions to be followed by any registered stockholder interested in voting via the Internet or by telephone are set forth on the enclosed proxy card. The Internet and telephone voting procedures are designed to authenticate the stockholder's identity and to allow stockholders to vote their shares and confirm that their voting instructions have been properly recorded.

If your shares are registered in the name of a bank or brokerage firm, you may be eligible to vote your shares electronically over the Internet or by telephone. A large number of banks and brokerage firms are participating in the ADP Investor Communication Services online program. This program provides eligible stockholders who receive a paper copy of this proxy statement the opportunity to vote via Internet or by telephone. If your bank or brokerage firm is participating in ADP's program, your proxy card will provide instructions. If your proxy card does not reference Internet or telephone information, please complete and return the proxy card in the self-addressed, postage paid envelope provided.

Proxies

If the enclosed form of proxy is properly signed, dated and returned, the shares represented will be voted at the annual meeting in accordance with the instructions specified on the proxy.

If the proxy does not specify how the shares are to be voted:

the proxy will be voted FOR the election of the directors nominated by the board of directors (unless the authority to vote for the election of nominee directors is withheld); and

Table of Contents

the proxy will be voted FOR the approval of Proposal 2 described in the notice and proxy statement (unless contrary instructions are given).

You may revoke or change your proxy at any time before the annual meeting by filing with the Secretary of the Company at our principal executive offices at 9885 Towne Centre Drive, San Diego, California 92121, a notice of revocation or another signed proxy with a later date. You may also revoke your proxy by attending the annual meeting and voting in person.

We do not know of other matters to be presented for consideration at the annual meeting. However, if any other matters properly come before the annual meeting, it is the intention of the persons named in the enclosed form of proxy to vote the shares they represent as the board of directors may recommend. Discretionary authority with respect to such other matters is granted by the execution of the enclosed proxy.

Solicitation

We will bear the entire cost of solicitation, including the preparation, assembly, printing and mailing of this proxy statement, the proxy and any additional solicitation materials furnished to our stockholders. Copies of solicitation materials will be furnished to brokerage houses, fiduciaries and custodians holding shares in their names that are beneficially owned by others so that they may forward this solicitation material to such beneficial owners. In addition, we may reimburse such persons for their costs in forwarding the solicitation materials to such beneficial owners. The original solicitation of proxies by mail may be supplemented by a solicitation by telephone, telegram or other means by our directors, officers or employees. No additional compensation will be paid to these individuals for any such services. We have retained EquiServe Shareholder Services and Geogeson Shareholder Communications, Inc. to aid in the solicitation of proxies, including soliciting proxies from brokerage firms, banks, nominees, custodians and fiduciaries. The fees for these services will total approximately \$2,500 plus out-of-pocket costs and expenses.

MATTERS TO BE CONSIDERED AT THE ANNUAL MEETING

PROPOSAL ONE: ELECTION OF DIRECTORS

General

Our certificate of incorporation provides for a classified board of directors consisting of three classes of directors with staggered three-year terms, with each class consisting, as nearly as possible, of one-third of the total number of directors. The board currently consists of seven persons, with two classes consisting of two directors each and the third class consisting of three directors. The class whose term of office expires at the annual meeting currently consists of two directors. The directors elected to this class will serve for a term of three years, expiring at the 2005 annual meeting of stockholders or until their respective successors have been duly elected and qualified. Both of the nominees listed below, Robert T. Nelsen and John R. Stuelpnagel, D.V.M., are currently serving on the board. The nominees have agreed to serve if elected, and management has no reason to believe that such nominees will be unable to serve. The proposal to elect the two nominees to the board requires the affirmative vote of the holders of a plurality of shares entitled to vote that are present or represented at the annual meeting and entitled to vote on such proposal. In the event the nominees are unable or decline to serve as directors at the time of the annual meeting, the proxies will be voted for any nominees who may be designated by the present board of directors to fill the vacancy. Unless otherwise instructed, the proxy holders will vote the proxies received by them FOR the nominees named below.

Recommendation of the Board of Directors

The board of directors recommends that the stockholders vote FOR the election of the nominees listed below.

The affirmative vote of a majority of the shares represented and voting at the annual meeting is required to ratify the appointment of Ernst & Young LLP.

In the event the stockholders fail to ratify the appointment, the board of directors will reconsider its selection. Even if the selection is ratified, the board of directors in its discretion may direct the appointment of a different independent auditing firm at any time during the year if the board of directors believes that such a change would be in the best interests of Illumina and its stockholders.

A representative of Ernst & Young LLP is expected to be present at the annual meeting. This representative will have the opportunity to make a statement if he or she desires to do so, and will be available to respond to appropriate questions.

All Other Fees

The aggregate fees billed by Ernst & Young LLP for professional services other than as stated under the captions Audit Fees and Financial Information Systems Design and Implementation Fees above were \$13,670. The audit committee considers the provision of these services to be compatible with maintaining the independence of Ernst & Young LLP.

(3) Prior to 2001, we had not granted any stock options to our named executive officers. However, prior to our initial public offering, each named officer had purchased restricted shares of our common stock subject to a repurchase right in our favor. All such purchases were made at the then deemed fair market value of the common stock. The repurchase right entitles us to repurchase shares at their original purchase price on termination of such executive officer's services with us, except to the extent such rights have lapsed. Our repurchase rights lapse over time on employment anniversary dates and upon achievement of certain business milestones. Additionally, the lapse of our repurchase right accelerates in connection with an acquisition of Illumina. Please see Employment Contracts, Termination of Employment and Change of Control Arrangements below for additional information regarding the terms of these acceleration provisions. Dividends will be payable on these shares if and to the extent paid on our shares generally.

(4) As of March 31, 2002, Mr. Flatley held 504,166 unvested shares of common stock and the market price of those shares, less consideration paid by Mr. Flatley for such shares, was \$4,724,035 as of such date. Our repurchase rights with respect to Mr. Flatley's shares expire as follows: 387,500 of these shares vest ratably over a five-year period ending in October 2004 and 116,666 of these shares vest ratably over a 12-month period, beginning October 2006, unless vested earlier upon the achievement of certain business milestones involving the company's financial performance and business development activities.

Stock Option Grants

We grant options to our executive officers under our 2000 stock plan. As of March 31, 2002, options to purchase a total of 3,574,164 shares of our common stock were outstanding under the stock plan and options to purchase 5,866,732 shares of our common stock remained available for future grant.

The following tables show for the 2001 fiscal year, information regarding options granted to, exercised by, and held at year end by, each of the named executive officers. No stock appreciation rights were granted to the named executive officers during the 2001 fiscal year.

The exercise price of each option was equal to the closing sales price of our common stock as reported on the Nasdaq Stock Market on the date of grant. The exercise price may be paid in cash or through a cashless exercise procedure involving a same-day sale of the purchased shares. The options vest ratably over a 12-month period, beginning September 2008, unless vested earlier upon the achievement of certain business milestones. Each of the options has a maximum term of 10 years measured from the applicable grant date, subject to earlier termination if the optionee's service with us ceases. In the event that we are acquired by merger or asset sale, each outstanding option which is not to be assumed by the acquiring entity will become exercisable for all the option shares, and all the outstanding unvested option shares will immediately vest.

The potential realizable value is calculated based on the 10-year term of the option at the time of grant. Stock price appreciation of 5% and 10% is assumed under the SEC rules and does not represent our prediction of our stock price performance. The potential realizable value at 5% and 10% appreciation are calculated by assuming that the stock price on the date of grant appreciates at the indicated annual rate, compounded annually for the entire term of the option and that the option is exercised and sold on the last day of its term for the appreciated stock price. There can be no assurance provided to any named executive officer or other holder of our securities that the actual stock price appreciation over the 10-year term will be at the assumed 5% and 10% levels or at any other defined level. Unless the market price of the common stock appreciates over the option term, no value will be realized from the option grants made to the named executive officers. On December 28, 2001, the last trading day of our 2001 fiscal year, the closing sales price of our common stock, as reported on the Nasdaq National Market, was \$11.51.

Percentages shown under Percentage of Total Options Granted in 2001 are based on an aggregate of 2,106,100 options granted to employees of Illumina under our stock option plans during 2001.

Employment Contracts, Termination of Employment and Change in Control Arrangements

We have not entered into employment agreements with any of our named executive officers.

We have entered into restricted stock purchase agreements with several of our executive officers, including each of our named executive officers, providing that upon the closing of an acquisition of Illumina for cash or publicly traded securities, the lapsing of our repurchase right accelerates as to 50% of each officer's shares of common stock then subject to our repurchase right and, with respect to the remaining 50%, on the first anniversary of the closing date of the acquisition. If the acquirer terminates the officer's employment without cause within one year of the closing date, our repurchase right lapses with respect to all shares.

The compensation committee of the board of directors, as plan administrator of our stock plans, has the authority to provide for accelerated vesting of any outstanding options or waiver of forfeiture restrictions of unvested stock held by our executive officers, for any reason, including upon a change of control.

Compensation Committee Interlocks and Insider Participation

Our executive compensation program has been administered by the compensation committee of our board of directors. As of December 30, 2001, the compensation committee consisted of Mr. Nelsen and Dr. Rastetter. Neither of these individuals was an employee or an officer of ours.

None of our current executive officers has ever served as a member of a board of directors or compensation committee of any other entity that has or has had one or more executive officers serving as a member of our board of directors or compensation committee during the last fiscal year.

The following reports of the compensation committee and the audit committee, reference to the audit committee members and the stock performance graph should not be considered to be part of this proxy statement. Any current or future cross-references to this proxy statement in filings with the SEC under either the Securities Act or the Securities Exchange Act will not include the report or graph reproduced below or the audit committee charter.

Board Compensation Committee Report on Executive Compensation

Edgar Filing: ILLUMINA INC - Form DEF 14A

The compensation committee's responsibility is to administer and review the base salaries, annual incentive compensation and long-term incentives of our executive officers, including our chief executive

Table of Contents

officer, and to establish the general compensation policies for such individuals. The compensation committee also has the authority to make discretionary option grants to our executive officers under our 2000 stock plan.

Compensation Philosophy. Our philosophy is to maintain an executive compensation program that allows us to attract, retain and reward executive officers who contribute to our long-term success and to link that compensation to both individual performance and the value created for our stockholders. We have adopted a challenging strategy with an aggressive set of underlying goals and our success will in large part be determined by the quality of personnel we are able to recruit. A competitive compensation program will be a crucial part of recruiting the people required to help us achieve these goals.

Our compensation program consist of three elements; base salary, incentive bonuses and long-term equity incentives. In general, our goal is to provide a total compensation package that is competitive with the biotechnology and life science instrumentation companies with which we compete for talent.

Base Salary. The salaries for executive officers for 2001 were generally determined on an individual basis by the board of directors. Determinations of appropriate base salary levels are made based on level of responsibility, prior experience and breadth of knowledge as well as competitive pay practices in our industry. Initial salary levels are set at the market average when compared to leading companies in our industry, adjusted for size. Subsequent changes to base salary are based on individual performance measured against pre-established objectives and competitive factors at the time.

Incentive Bonus. The compensation committee in its discretion may award bonuses to executive officers. The intent of the bonus program is to motivate and reward executives for performance as measured against well defined performance goals. The goals are based on both individual milestones that vary with the individual's position as well as our overall financial performance.

Long-Term Equity Incentives. Stock options and stock ownership are a key element in our total compensation program as it links the interests of the executive with the long-term interests of the stockholders and emphasizes the creation of stockholder value. Prior to our initial public offering, executives were provided the opportunity to purchase restricted stock at the date of hire and at other times after that date. Subsequent to our initial public offering, we have granted stock options to executives under the 2000 stock plan at both the time of hire and as subsequent awards. Grants are awarded based on a number of factors, including our achievement of specific milestones, the individual's level of responsibility, the amount and term of stock or options already held by the individual, the individual's contributions to the achievement of our financial and strategic objectives, and industry practices and norms. The size of option grants to executives is determined by the compensation committee. Options are granted at 100% of the fair market value on the date of grant. Option grants to executives generally vest over periods ranging from five to eight years, with opportunities in some cases for earlier vesting based upon the achievement of specified goals.

CEO Compensation. The compensation of Jay T. Flatley, our chief executive officer, is established consistent with Illumina's general compensation philosophy. In setting that salary, the compensation committee considered several factors, including the achievement of company goals during 2001, such as the successful launch of our oligo manufacturing and SNP service businesses, as well as the level of leadership and management required to complete development of our technology and commercialize our initial products. Mr. Flatley's salary was increased from \$275,000 in 2000 to \$300,000 in 2001 in recognition of these and other competitive factors. Mr Flatley also received a \$82,500 bonus in 2001 based on the same incentive plan as the other executive officers.

Compliance with Internal Revenue Code Section 162(m). Section 162(m) of the Internal Revenue Code disallows a tax deduction to publicly held companies for compensation paid to specified executive officers, to the extent that compensation exceeds \$1 million per covered officer in any fiscal year. The limitation applies only to compensation that is not considered to be performance-based. Non-performance based compensation paid to our executive officers for the 2001 fiscal year did not exceed the \$1 million limit per officer. The compensation committee does not anticipate that the non-performance based compensation to be paid to our executive officers for fiscal year 2002 will exceed that limit. Our stock option plans have been structured so that any compensation deemed paid in connection with the exercise of option grants made under

Table of Contents

those plan with an exercise price equal to the fair market value of the option shares on the grant date will qualify as performance-based compensation which will not be subject to the \$1 million limitation. The compensation committee's present intention is to grant future compensation that does not exceed the limitations of Section 162(m), although the compensation committee reserves the right to award compensation that does not comply with these limits on a case-by-case basis.

It is the opinion of the compensation committee that the executive compensation policies and plans provide the necessary total remuneration program to properly align our performance and the interests of our stockholders through the use of competitive and equitable executive compensation in a balanced and reasonable manner, for both the short and long-term.

We conclude our report with the acknowledgement that no member of the compensation committee is a current officer or employee of Illumina.

COMPENSATION COMMITTEE

CERTAIN TRANSACTIONS

We entered into a license agreement with Tufts University in 1998 in connection with the license of patents filed by Dr. David Walt, one of our directors. Dr. Walt is the Robinson Professor of Chemistry at Tufts. Under that agreement, we will pay royalties to Tufts upon the commercial sale of products based on the licensed technology. It is our understanding that Tufts University will pay a portion of the royalties received from us to Dr. Walt. We also provide Tufts University with \$100,000 per year in funding for research relating to the development of our BeadArray technology. In addition, we and Tufts University were co-investigators under a research grant for DNA sequencing sponsored by the Department of Energy. All future transactions between us and our officers, directors, principal stockholders and affiliates will be approved by a majority of the independent and disinterested members of our board of directors, and will be on terms no less favorable to us than could be obtained from unaffiliated third parties.

All of our former preferred stockholders have registration rights with respect to their shares of common stock. Under these registration rights, holders of at least a majority of the then outstanding registrable

securities may require on two occasions that we register their shares for public resale. We are obligated to register, on two separate occasions, these shares if the holders of a majority of the eligible shares request registration and only if the shares to be registered have an anticipated public offering price of at least \$5,000,000. In addition, holders of registrable securities may require that we register their shares for public resale on Form S-3 or similar short-form registration, if we are eligible to use Form S-3 or similar short-form registration, and the value of the securities to be registered is at least \$1,000,000. If we elect to register any of our shares of common stock for any public offering, the holders of registrable securities are entitled to include shares of common stock in the registration. However we may reduce the number of shares proposed to be registered in view of market conditions. We will pay all expenses in connection with any registration, other than underwriting discounts and commissions.

The bylaws provide that we will indemnify our directors and executive officers and may indemnify other officers, employees and other agents to the fullest extent permitted by the Delaware General Corporation Law. We are also empowered under our bylaws to enter into indemnification contracts with our directors and officers and to purchase insurance on behalf of any person whom we are required or permitted to indemnify. Pursuant to this provision, we have entered into indemnity agreements with each of our directors and officers.

In addition, our certificate of incorporation provides that to the fullest extent permitted by Delaware law, our directors will not be liable for monetary damages for breach of their fiduciary duty of care to Illumina and its stockholders. This provision in the certificate of incorporation does not eliminate the duty of care, and in appropriate circumstances equitable remedies such as an injunction or other forms of nonmonetary relief would remain available under Delaware law. Each director will continue to be subject to liability for breach of the director's duty of loyalty to Illumina, for acts or omissions not in good faith or involving intentional misconduct or knowing violations of law, for acts or omissions that the director believes to be contrary to the best interests of Illumina or its stockholders, for any transaction from which the director derived an improper personal benefit, for acts or omissions involving a reckless disregard for the director's duty to Illumina or its stockholders when the director was aware or should have been aware of a risk of serious injury to Illumina or its stockholders, for acts or omissions that constitute an unexcused pattern of inattention that amounts to an abdication of the director's duty to Illumina or its stockholders, for improper transactions between the director and Illumina and for improper distributions to stockholders and loans to directors and officers. This provision also does not affect a director's responsibilities under any other laws, such as the federal securities laws or state or federal environmental laws.

COMPLIANCE WITH SECTION 16(a) OF THE SECURITIES EXCHANGE ACT

The members of our board of directors, our executive officers and persons who hold more than 10% of our outstanding common stock are subject to the reporting requirements of Section 16(a) of the Securities Exchange Act which require them to file reports with respect to their ownership of our common stock and their transactions in such common stock. Based solely upon our review of copies of Section 16(a) reports, which we received from such persons for their transactions during the 2001 fiscal year, we believe that all reporting requirements under Section 16(a) for such fiscal year were met in a timely manner by these individuals.
