Ball Corporation Current Report on Form 8 K Dated September 1, 2017

Item 2.05. Costs Associated with Exit or Disposal Activities.

On August 30, 2017, the Company issued a press release, attached hereto as Exhibit 99.2, announcing that it will cease production at its Birmingham, Alabama, Chatsworth, California, and Longview, Texas, beverage packaging plants in 2018. Ball also will begin construction on a new, state-of-the-art beverage packaging facility in Goodyear, Arizona, which is expected to begin production in the second quarter of 2018. As a result of the closures, a total after-tax charge of approximately \$22 million is expected to be recorded in the Company's results. Approximately 70% of the charge is for employee severance, pension and other employee benefit costs, approximately 20% is for equipment removal and cleanup costs and approximately 10% is for accelerated depreciation and the write-down to net realizable value of certain fixed assets and related spare parts and inventory. A majority of the charge is expected to be recorded in the third quarter of 2017.
