APTARGROUP, INC.  
PROFIT SHARING AND SAVINGS PLAN  
REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Employee Benefits Administrative Committee  
AptarGroup, Inc. Profit Sharing and Savings Plan  
Crystal Lake, Illinois

We have audited the accompanying statements of net assets available for benefits of the AptarGroup, Inc. Profit Sharing and Savings Plan (the Plan ) as of December 31, 2008 and 2007, and the related statement of changes in net assets available for benefits for the year ended December 31, 2008. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2008 and 2007, and the changes in net assets available for benefits for the year ended December 31, 2008 in conformity with U.S. generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is not a required part of the basic financial statements but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan s management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic 2008 financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic 2008 financial statements taken as a whole.

NOTE 1 DESCRIPTION OF THE PLAN

**General Plan Information**

The following description of the AptarGroup, Inc. Profit Sharing and Savings Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions. The Plan, established on April 22, 1993, is a participant-directed defined contribution plan which covers eligible full-time and part-time non-union employees of AptarGroup, Inc. and certain of its subsidiaries (the Company or the Employer). The Plan is administered by a committee appointed by the Company, consisting of Company employees. A participant (Participant or Participants) is a full-time employee who becomes eligible to participate on the first day of the month following 30 days of service, or a part-time employee who becomes eligible to participate after completion of 1000 hours of service in a defined twelve-month period. If an employee has not enrolled in the Plan within 30 days from the eligibility date, the employee will be automatically enrolled at 3%, unless the employee elects to not participate in the Plan. A participant can authorize contributions of salary to the Plan of not less than 1 percent and not more than 25 percent of earnings (subject to Internal Revenue Code (IRC) limitations). Participants' earnings are generally defined as total compensation for services rendered to the Employer. Participants may elect to suspend their contributions at any time. Eligible employees will not share in any Employer contributions for any period in which they voluntarily suspend their contributions or do not participate in the Plan. Active participation can be elected again on the next regular enrollment date.

**Contributions**

The amount of Employer contributions is determined annually by the Employer on a discretionary basis. Such contributions are computed as a matching percentage of each Participant's contribution within specified limits. The Company matched 50% of Participant contributions up to the first 6%, for the year ended December 31, 2008.

**Plan Investments**

Fidelity Management Trust Company (the Trustee) is the trustee for the Plan. Participants may direct their contributions and the employer matching contribution to any combination of the following investment options which includes the following investment funds (the Trust) available to Participants:

**Participant Accounts**

A Participant may elect to transfer certain portions of his or her account in the Plan from one fund to another up to twelve times per year subject to certain restrictions between the Retirement Government Money Market Fund and Managed Income Fund. Each participant's account is credited with contributions and an allocation of plan earnings, and reduced for benefit payments and certain administrative expenses. Plan earnings are determined and credited to each participant's account on a daily basis in accordance with the proportion of a participant's account to all accounts.

**Vesting**

Each Participant is fully vested in his or her contributions and related earnings at all times. Vesting of the Employer contribution account occurs at the rate of 20 percent per year of service on a cumulative basis for each year of service with a participating Employer. Participants may elect to receive vested benefits in the form of a lump-sum distribution, installment payments (for account portion attributable to Pittway Blue Chip Plan), or a combination of these forms (for account portion attributable to Pittway Blue Chip Plan), or a direct transfer to an eligible retirement plan. While employed, in the event of hardship, participants may withdraw a portion of their vested account balances as defined by the Plan. Upon withdrawal from the Plan, the Participant will receive the amount of his or her contributions plus the vested portion of his or her employer contributions. When a Participant terminates employment for any reason other than retirement after age 65, death or disability, the nonvested amounts of the Employer contributions will be forfeited and used to reduce administrative expenses of the Plan and then used to reduce future contributions of the Employer. The amount of such forfeitures available to reduce future contributions of the Employer was \$20,856 and \$48,553 as of December 31, 2008 and 2007, respectively.

Nonvested amounts for Participants who terminate employment for any reason other than retirement after age 65, death or disability, will be reinstated if reemployment by the Employer occurs prior to incurring five consecutive one year breaks in service as defined by the Plan agreement.

**Participant Loans**

The Plan provides that a Participant may, for specified reasons, borrow from the Plan an amount not to exceed the lesser of 50 percent of the Participant's vested account balance or \$50,000. Each Participant loan is evidenced by a note and is considered an investment to that Participant's respective account. Each Participant note carries an interest rate equal to the prime rate plus one percent (loans opened during the year ended December 31, 2008 had interest rates on outstanding notes ranging from 4.25% to 8.25%) charged by the Trustee on the date of the loan, and repayment occurs through payroll withholding over a period not to exceed 60 months.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**Basis of Accounting**

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles. Certain previously reported amounts have been reclassified to conform to the current period presentation.

**Valuation of Investments**

The Plan's investments are stated at fair value (see Note 3). Participant loans are valued at cost. The fair value of participant loans is not practicable to estimate due to restrictions placed on transferability of the loans. Purchases and sales are recorded on a trade-date basis.

While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in such contracts through its investment in the stable value fund.

**Effect of Newly Issued but not yet Effective Accounting Standards**

In April 2009, the FASB issued Staff Position (FSP) No. 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset and Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*. This FSP emphasizes that even if there has been a significant decrease in the volume and level of activity, the objective of a fair value measurement remains the same. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants. The FSP provides a number of factors to consider when evaluating whether there has been a significant decrease in the volume and level of activity for an asset or liability in relation to normal market activity. In addition, when transactions or quoted prices are not considered orderly, adjustments to those prices based on the weight of available information may be needed to determine the appropriate fair value. The FSP also requires increased disclosures. This FSP is effective for annual reporting periods ending after June 15, 2009, and shall be applied prospectively. Plan management does not expect the adoption to have a material effect on the Plan's net assets available for benefits or changes therein.

**Contributions**

Employer and participant contributions are invested directly in appropriate funds based upon participant elections made at the date of enrollment or through authorized changes in elections.

**Table of Contents**

APTARGROUP, INC.

**Plan Transfers**

Participant contributions included in the Statement of Changes in Net Assets in the amount of \$221,298 were transferred to the Plan as a result of the participant rollover provision of the Plan during 2008.

**Payment of Benefits**

Benefits are recorded when paid.

**Use of Estimates**

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of net assets and changes thereto. Actual amounts could differ from those estimates.

**Security Transactions and Investment Income**

Purchases and sales of securities, including related gains and losses, are recorded as of the trade date. Unsettled security investments represent transactions entered into prior to the end of the accounting period for which cash settlement is made in a subsequent period. Interest income is recorded when earned. Dividend income is recorded on the ex-dividend date. In accordance with the policy of stating investments at current value, net appreciation or depreciation is reflected in the Statement of Changes in Net Assets Available for Benefits. This net appreciation or depreciation consists of realized and unrealized gains and losses. Realized losses and gains are calculated as the difference between proceeds from a sales transaction and cost determined on an average basis. Unrealized losses and gains are calculated as the change in the fair value between the beginning of the year (or purchase date if later) and the end of the year.

**Trustee and Administrative Expenses**

Expenses incurred in the administration of the Plan and Marquette Investment Manager fees are paid by the Company through Plan forfeitures, except for loan service fees, which are paid by the Participants. Certain other costs of plan administration were paid by the Company.

NOTE 3 FASB No. 157, FAIR VALUE MEASUREMENTS

**Adoption of New Accounting Standards**

In September 2006, the FASB issued Statement No. 157, *Fair Value Measurements* (FAS 157). This Statement defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The effective date for the Plan is January 1, 2008. The impact of adoption of this standard as of January 1, 2008 was not material to the Plan's net assets available for benefits.

**Table of Contents**

APTARGROUP, INC.  
PROFIT SHARING AND SAVINGS PLAN  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2008 AND 2007

The Plan's investments are reported at fair value. FAS 157 defines fair value as the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. FAS 157 establishes a fair value hierarchy which requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In many cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The fair values of mutual fund investments, money market mutual funds and publicly traded common stocks are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

The fair values of cash and cash equivalents are estimated based upon the deposit account balances, payable to the Plan on demand (level 2 inputs).

The fair values of interests in stable value funds are based upon the net asset values of such funds reflecting all investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported by the fund managers (level 2 inputs).

**NOTE 4 PARTY-IN-INTEREST TRANSACTIONS**

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the Company, and certain others. Party-in-interest transactions included investments in the AptarGroup Stock Fund. At December 31, 2008 and 2007, the Plan had \$15,485,464 and \$16,825,534, respectively, invested in Employer Stock through a unitized investment fund managed by the Trustee. The Plan held 439,429 and 411,282 shares of Employer stock as of December 31, 2008 and 2007, respectively. Dividends were paid on these shares in the amount of \$251,007 during the year ended December 31, 2008. These transactions also qualify as party-in-interest transactions.

Additionally, certain Plan investments are shares of mutual funds managed by the Trustee and participant loans; therefore, these transactions qualify as party-in-interest. Fees paid by the Plan to the Trustee for loan services and other participant-initiated transactions amounted to \$20,779 for the year ended December 31, 2008. Fees paid by the

Plan through Plan forfeitures to the Trustee and Marquette Investment Manager for trustee and investment management fees amounted to \$17,176 and \$17,000, respectively, for the year ended December 31, 2008. These transactions are not prohibited transactions as defined under the Employee Retirement Income Security Act of 1974 ( ERISA ).

NOTE 5 FEDERAL INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated April 4, 2002 that the Plan is designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and continues to be operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 6 RISKS AND UNCERTAINTIES

Investment securities are exposed to various risks, such as interest rate, market, liquidity, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect Participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

NOTE 7 AMENDMENT AND TERMINATION OF PLAN

The Plan may be amended at any time by the Company. However, no amendment may adversely affect the current rights of the Participants in the Plan with respect to contributions made prior to the date of the amendment. Although it has not expressed any intent to do so, the Company reserves the right to discontinue Employer contributions or to terminate its participation in the Plan at any time. In the event of a partial or complete termination of the Plan, all Participants with respect to whom the Plan is being terminated shall be fully vested in their accounts as of the date of the termination of the Plan. If a Participant remains an employee of the Company or its affiliates following the termination of the Plan, his benefits shall remain in the Trust until his separation from service and then shall be paid to him in accordance with the provisions of the Plan.

The Plan is subject to the provisions of ERISA applicable to defined contribution plans. Since the Plan provides for an individual account for each Participant and for benefits based solely on the amount contributed to the Participant's account and any income, expenses, gains and losses attributed thereto, its benefits are not insured by the Pension Benefit Guaranty Corporation pursuant to Title IV of ERISA.

**NOTE 9 RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500**

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2008, and 2007:

	<b>2008</b>	<b>2007</b>
Net assets available per the financial statements	\$ 79,029,623	\$ 104,658,658
Excess of contract value over estimated fair value of investment in stable value fund (1)	(284,455)	
 Net assets available for benefits per the Form 5500	 \$ 78,745,168	 \$ 104,658,658

(1) As of January 1, 2008, the Company adopted FASB Statement No. 157 which establishes a framework for measuring fair value, and expands disclosures about fair value measurements. Therefore, for comparative purposes the Statement of Net Assets Available for benefits for the Plan's financial statement as of December 31, 2007 has been retroactively revised to show the excess of the contract value over the estimated value over the estimated fair value of investment in stable fund value.

The following is a reconciliation of the change in net assets available for benefits for the year ended December 31, 2008 per the financial statements to the net increase in net assets available for benefits per the 2008 Form 5500:

Decrease in net assets available for benefits per the financial statements	\$ (25,629,035)
Change in the excess of contract value over estimated fair value of investment in stable value fund	(284,455)
 Net decrease per the Form 5500	 \$ (25,913,490)
