Chairman's
Letter to Shareholders

Dear Shareholder,

The financial markets in which your Funds operate continue to reflect the larger economic crosscurrents. The illiquidity that infected global credit markets over the last year appears to be slowly but steadily receding. The major institutions that are the linchpin of the international financial system are strengthening their capital structures, but many still struggle with losses in their various portfolios. There are encouraging signs of recovery in European and Asian economies, while the U.S. economy continues to feel the impact of job losses and an over-borrowed consumer. Global trends include modestly increasing trade and increased concern about the ability of the U.S. government to address its substantial budgetary deficits. Identifying those developments that will define the future is never easy, but rarely is it more difficult than at present.

After considerable volatility in the first few months of 2009, both the fixed-income and equity markets have seen a partial recovery. A fundamental component of a successful long-term investment program is a commitment to remain invested during market downturns in order to share in the rewards of the inevitable recovery. Another component is to re-evaluate investment disciplines and tactics and to confirm their validity following periods of extreme volatility and market dislocation, such as we have recently experienced. Your Board carried out an intensive review of investment performance with these objectives in mind during April and May of this year as part of the annual management contract renewal process. I encourage you to read the description of this process in the Annual Investment Management Agreement Approval Process section in this report.

Remaining invested through market downturns and reconfirming the appropriateness of a long term investment strategy is as important for our shareholders as it is for professional investment managers. For that reason, I again encourage you to remain in communication with your financial consultant on these subjects. For recent developments on all your Nuveen Funds, please visit the Nuveen web site: www.nuveen.com.

Nuveen remains committed to resolving the issues connected with outstanding auction rate preferred shares. In September 2009, Nuveen completed the refinancing at par of all the auction rate preferred shares issued by its taxable closed-end funds that were outstanding when the preferred auctions began to fail in the February 2008. For a variety of reasons, refinancing the outstanding preferred shares issued by the municipal closed-end funds is taking longer but Nuveen is diligently pursuing a range of options to accomplish this. Please consult the Nuveen web site for the most recent information about the redemption of MuniPreferred shares.

On behalf of the other members of your Fund's Board, we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,
Robert P. Bremner
Chairman of the Board
September 21, 2009

Portfolio Manager's Comments

Nuveen Senior Income Fund (NSL)

Nuveen Floating Rate Income Fund (JFR)

Nuveen Floating Rate Income Opportunity Fund (JRO)

The Funds' investment portfolios are managed by a team at Symphony Asset Management, LLC, an affiliate of Nuveen Investments. Gunther Stein, Chief Investment Officer at Symphony, leads a team with more than 25 years of combined investment management experience, much of it in evaluating and purchasing senior corporate loans and other high-yield debt. Gunther and his team have managed NSL since 2001, and JFR and JRO since their inceptions in 2004.

Here Gunther talks about the general market environment, his investment strategy and the performance of the Funds for the twelve-month period ended July 31, 2009.

What were the general market conditions for the twelve-month period ended July 31, 2009?

Certain statements in this report are forward-looking statements. Discussions of specific investments are for illustration only and are not intended as recommendations of individual investments. The forward-looking statements and other views expressed herein are those of the portfolio manager as of the date of this report. Actual future results or occurrences may differ significantly from those anticipated in any forward-looking statements and the views expressed herein are subject to change at any time, due to numerous market and other factors. The Funds disclaim any obligation to update publicly or revise any forward-looking statements or views expressed herein.

This period was among the most volatile in the history of the capital markets. Equity markets across the globe fell sharply in the fall of 2008 as the United States economy pushed further into recession. After IndyMac's bankruptcy filing in August 2008, the U.S. government engaged in one of the most dramatic market interventions in years and placed both the Federal National Mortgage Association (FannieMae) and the Federal Home Loan Mortgage Corporation (FreddieMac) into conservatorship. In September 2008, Lehman Brothers, a major Wall Street broker/dealer, filed for bankruptcy protection. AIG, one of the world's largest insurers, effectively was nationalized by the U.S. government, and Wachovia, Washington Mutual and other financial institutions were seized by U.S. regulators and/or merged into stronger banks. Merrill Lynch, concerned about its own solvency, negotiated a deal to be acquired by Bank of America. Goldman Sachs and Morgan Stanley converted to commercial banks, possibly signaling the end of the independent broker/dealer model. Compounding the situation was the subsequent collapse of values for structured financial products, which included auction rate securities, collateralized loan obligations (CLOs), collateralized debt obligations (CDOs) and other structured products. The following months included major financial write-downs in many areas of the U.S. economy, the uncovering of the largest Ponzi scheme in history, continued declines in real U.S. Gross Domestic Product, and significant spikes in market volatility.

In an effort to improve overall conditions, the Federal Reserve lowered the fed funds rate from 2.00% on August 1, 2008, to a target range of zero to 0.25% in December 2008, its lowest level on record. In March 2009, the Fed

announced that, in addition to maintaining the current target rate, it would buy \$300 billion in long-term U.S. Treasury securities in an effort to support private credit markets and up to an additional \$750 billion (for a total of

4 Nuveen Investments

\$1.25 trillion) in U.S. agency mortgage-backed securities to bolster the housing market. Additionally, the U.S. government passed a \$700 billion financial industry rescue package in October 2008, which was followed by a \$787 billion stimulus package in February 2009.

As noted, this period saw the virtual collapse of some of the largest and most respected financial firms in the world, including Lehman Brothers and AIG. While nearly every market and asset class was affected by these events, very few were impacted more than the senior loan market. The demise of Lehman Brothers, which had large amounts of credit-related assets on its books (including senior loans), led to a massive deleveraging in the credit markets. Not only were prices driven down by the forced selling of assets by Lehman Brothers into a volatile market, but Lehman also was a major counterparty in the credit default swap (CDS) market. Investors who traded with Lehman in the CDS market were attempting to offset exposure, and the uncertainty surrounding Lehman's exit created significant dislocations during the period. As Lehman began to flood the market with securities that had to be sold, buyers willing to pay acceptable prices were virtually non-existent. Many parties had some exposure to Lehman (either directly or indirectly) or held assets similar to those that Lehman was pushing out into the market at fire sale prices. Often they, too, became forced sellers. The result was the simultaneous and broad offering of assets into a marketplace with few or no buyers.

Default concerns also became more of an issue as the period progressed. As of June 2009, the trailing twelve-month default rate according to Credit Suisse stood at 11.66% for corporate high yield securities and 7.67% for senior loans. This is very close to the 8.05% default rate for senior loans seen in the economic downturn of 2001 - 2002.

In mid-December, even as some fundamentals were deteriorating further, the senior loan market's technical factors began to improve. For example, there was a decline in new-issue supply, which helped ease the supply side of the market. On the demand side, we also saw some stabilization. Buyers continued to move into the senior loan market in late December and, in January, the senior loan market began a strong rally that continued through the second half of the reporting period. The CSFB Leveraged Loan Index, the Credit Suisse High Yield Index, and the Barclays U.S. Convertibles Index all have posted consistent monthly gains in 2009. On a year-to-date basis through the end of July, the CSFB Leveraged Loan Index was up 32.4%.

What key strategies were used to manage the Funds?

While the massive technical imbalance during much of this period was painful from a mark-to-market perspective, it did create opportunities for the Funds to optimize their risk and market exposure. This was a common thread especially throughout the first half of 2009.

In December 2008, with prices at relatively low levels, we were buyers of high-quality issues from firms like Hospital Corporation of America (HCA). HCA is a large hospital company and the largest constituent in the CSFB Leveraged Loan Index. The company recently went through a leveraged buyout, which resulted in a large supply of HCA debt in the market. In a volatile environment, the investors who owned these issues often were quick to sell them as they remained fairly liquid. Within limits, we were positive on HCA from a fundamental perspective—the company has a defensive business, very good asset quality, and relatively low leverage through bank debt—as well as from a technical

perspective. We saw HCA as a good candidate to do a high yield bond offering to refinance some of its shorter-dated floating rate bank loans. This was a fairly common occurrence in the first half of 2009, with a number of companies coming to the market to refinance existing bank debt as the credit markets firmed. This provided financial flexibility for the company and a potential catalyst that could move prices quickly as discounted loans got paid off at par in a short period of time.

In many cases, this selling was driven by liquidity, meaning that investors sold what they could in order to raise cash. The senior loan market is larger and generally more liquid than the high yield bond market. The ability to use actual sales to value securities, rather than estimates or extrapolations, was one reason that senior debt underperformed less liquid securities on a mark-to-market basis during this period, despite the fact that it remained senior to high-yield bonds within a company's capital structure. In many cases, the market saw senior bank loans trading at higher implied yield than subordinated debt of the same issuers. We believe these types of anomalies created attractive longer-term investment opportunities.

While we expect the loan market to remain volatile going forward, we feel that the market presents many unprecedented values at current levels for investors who are willing to tolerate this volatility. Our buying activity toward the end of this period remained focused on higher-quality issuers. We continued to believe that many loans were at depressed levels versus their intrinsic value, and that if this environment continues it may create opportunities to purchase mispriced names.

How did the Funds perform over this twelve-month period?

The performance of the Funds, as well as the performance of widely followed market indexes, is presented in the accompanying table.

Past performance does not guarantee future results. Current performance may be higher or lower than the data shown.

Returns do not reflect the deduction of taxes that shareholders may have to pay on Fund distributions or upon the sale of Fund shares. For additional information, see the individual Performance Overview for your Fund in this report.

- 1 The CSFB Leveraged Loan Index is a representative, unmanaged index of approximately \$150 billion of tradable, U.S. dollar-denominated senior term loans rated BBB or lower and with at least one year to maturity. You cannot invest directly in an Index.
- 2 The Barclays Capital U.S. Aggregate Bond Index is a market capitalization-weighted measure of U.S.-traded investment grade bonds, including Treasury securities, government agency bonds, mortgage-backed bonds, corporate bonds, and a small amount of foreign bonds traded in the U.S. Municipal bonds and Treasury Inflation-Protected Securities are excluded. You cannot invest directly in an index.

Total Returns on Common Share Net Asset Value*

For the twelve-month period ended 7/31/09

| | 1-Year | 5-Year |
|-----|---------------|---------------|
| NSL | -12.25% | 0.35% |
| JFR | -10.37% | 0.37% |

Edgar Filing: NUVEEN SENIOR INCOME FUND - Form N-CSR

| | | |
|---|---------|--------|
| JRO | -10.57% | 0.06% |
| CSFB Leveraged Loan Index ¹ | -3.06% | -2.15% |
| Barclays Capital U.S. Aggregate Bond Index ² | 7.85% | 5.14% |

For the twelve-month period ended July 31, 2009, all three Funds underperformed the CSFB Leveraged Loan Index and the Barclays Capital Index. As previously noted, senior loans did not perform well over this period, and this unfavorable environment is reflected in the returns of both the CSFB Leveraged Loan Index and the Funds.

Additionally, a primary factor in the relative underperformance of the Funds when compared with the CSFB Index was their use of financial leverage as described further on page seven.

This twelve-month period provided few opportunities to generate positive absolute performance. While this is no excuse for the Funds' poor relative performance, it is important to understand that much of the weakness in the loan market was driven by the swift and broad collapse of the financial markets generally in the second half of 2008. As

6 Nuveen Investments

noted, this led to forced sales in the senior loan markets at very depressed prices, and it proved impossible to protect the Funds against these market-driven events.

As the market began to turn in late 2008 and rallied in 2009, we had some core, lower-volatility positions that did not enjoy the run up seen in some higher volatility names. One of these issuers was Fountainbleau Las Vegas, which was effectively flat for the first seven months of this year despite the general rally. The loan the Funds own is a hotel development project in Las Vegas, a market that was hit hard by the downturn in both business and pleasure travel. Another position that continued to trade under pressure despite this year's rising market was Philadelphia News, which like most media companies has had a difficult time as a result of decreased advertising spending.

We were able to find a few situations to make money in a collapsing market, such as the position in Alltel, which we purchased at a discount to par not only because we felt it was a good asset but because we believed the Verizon buyout might act as a catalyst to drive Alltel's term loan higher. In mid-December, our positioning in better quality began to pay off as loans issued by HCA advanced. Another positive holding was Univision, which resolved a lawsuit.

One other large position in the portfolios that enjoyed good performance was Swift Transportation. Swift, which is the largest trucking company in North America, saw its term loan trade from roughly \$35 at year end to the mid-\$70's by the end of July.

IMPACT OF LEVERAGE ON FUND PERFORMANCE AND RECENT DEVELOPMENTS REGARDING THE FUNDS' LEVERAGED CAPITAL STRUCTURES

Shortly after their inceptions, each Fund issued auction rate preferred shares to create financial leverage. The Funds use leverage because their managers believe that, over time, leveraging provides opportunities for additional income and total return for common shareholders. However, use of leverage also can expose common shareholders to additional risk—especially when market conditions are unfavorable. For example, if the prices of loans or securities held by the Funds decline, the negative impact of these valuation changes on common share net asset value and common shareholder total return are magnified by the use of leverage. This is one primary reason why each Fund's performance trailed the unleveraged indexes during this period's unfavorable market environment.

As noted in the last several shareholder reports, the auction rate preferred shares issued by many closed-end funds, including these Nuveen Funds, have been hampered by a lack of liquidity since February 2008. Since that time, more auction rate preferred shares have been submitted for sale in their regularly scheduled auctions than there have been offers to buy. This means that these auctions have failed to clear, and that many, or all, of the auction rate preferred shareholders who wanted to sell their shares in these auctions were unable to do so. This decline in liquidity in auction rate preferred shares did not lower the credit quality of these shares, and auction rate preferred shareholders unable to sell their shares received distributions at the maximum rate applicable to failed auctions, as calculated in accordance with the pre-established terms of the auction rate preferred shares.

One continuing implication for the Funds' common shareholders from the auction failures is that the Funds' cost of leverage likely has been incrementally higher at times than it otherwise might have been had the auctions continued to be successful. As a result, the Funds' common share earnings likely have been incrementally lower at times than they otherwise might have been.

Beginning in 2008, the Funds announced their intention to redeem their auction rate preferred shares and retain their leveraged structures primarily through bank borrowings. The Funds began a series of periodic, partial redemptions in 2008 and as of July 31, 2009, the amount of auction rate preferred redeemed, at par, by the Funds are as shown in the accompanying table.

| Fund | Auction Rate Preferred Shares Redeemed | % of Original Auction Rate Preferred Shares |
|-------------|---|--|
| NSL | \$20,000,000 | 43.5% |
| JFR | \$295,000,000 | 73.8% |
| JRO | \$180,000,000 | 75.0% |

On August 31, 2009, subsequent to the reporting period, the Funds announced the remaining portion of their outstanding auction rate preferred shares will be redeemed, at par, during September 2009 for JFR and JRO and October 2009 for NSL. The Funds have been granted temporary exemptive relief from Section 18 of the Investment Company Act of 1940 ('40 Act) from the Securities and Exchange Commission (SEC). This relief permits the Funds to operate temporarily (until October 31, 2010) with reduced asset coverage levels for the debt used to refinance these remaining auction rate preferred shares.

For up-to-date information, please visit the Nuveen CEF Auction Rate Preferred Resource Center at:
<http://www.nuveen.com/ResourceCenter/AuctionRatePreferred.aspx>.

Common Share Distribution
and Share Price Information

As noted earlier, these Funds use financial leverage to potentially enhance opportunities for additional income for common shareholders. The Funds' use of this leverage strategy continued to provide incremental income, although the extent of this benefit was reduced to some degree by short-term interest rates that remained relatively high during the early part of the period. This, in turn, kept the Funds' borrowing costs high. This is one reason NSL's distribution decreased twice and JFR's and JRO's distributions decreased three times over the twelve-month period.

During certain periods, each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's common share NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's common share NAV. As of July 31, 2009, all three Funds had positive UNII balances for tax purposes. For financial statement purposes, NSL had a positive UNII balance while JFR and JRO had negative UNII balances.

Common Share Repurchases and Share Price Information

The Funds' Board of Trustees approved an open-market share repurchase program on July 30, 2008, under which each Fund may repurchase an aggregate of up to 10% of its outstanding common shares.

As of July 31, 2009, JFR and JRO cumulatively repurchased common shares as shown in the accompanying table. Since the inception of this program, NSL has not repurchased any of its outstanding common shares.

| Fund | Common Shares Repurchased | % of Outstanding Common Shares |
|-------------|--------------------------------------|---|
| JFR | 9,700 | 0.0% |
| JRO | 9,700 | 0.0% |

During the twelve-month reporting period, the Funds repurchased common shares at a weighted average price and a weighted average discount per common share as shown in the accompanying table.

| Fund | Common Shares Repurchased | Weighted Average Price Per Share Repurchased | Weighted Average Discount Per Share Repurchased |
|-------------|--------------------------------------|---|--|
| JFR | 9,700 | \$7.64 | 16.08% |
| JRO | 9,700 | \$7.33 | 16.02% |

As of July 31, 2009, the Funds were trading at a discount (-) to their common share NAVs as shown in the accompanying table.

| Fund | 7/31/09 (-) Discount | Twelve-Month Average (-) Discount |
|-------------|---------------------------------|--|
| NSL | -9.65% | -11.28% |
| JFR | -14.24% | -12.71% |
| JRO | -12.47% | -13.72% |

Nuveen Floating Rate Income Fund
Nuveen Floating Rate Income Opportunity Fund

We have audited the accompanying statements of assets and liabilities, including the portfolios of investments, of Nuveen Senior Income Fund, Nuveen Floating Rate Income Fund, and Nuveen Floating Rate Income Opportunity Fund (the Funds), as of July 31, 2009, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Funds' internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of July 31, 2009, by correspondence with the custodian and selling or agent banks or by other appropriate auditing procedures where replies from selling or agent banks were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial positions of Nuveen Senior Income Fund, Nuveen Floating Rate Income Fund and Nuveen Floating Rate Income Opportunity Fund at July 31, 2009, the results of their operations and their cash flows for the year then ended, the changes in their net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended in conformity with US generally accepted accounting principles.

| | Short-Term Investments | 6.8% (4.9% of Total Investments) | | |
| \$ 11,618 | Repurchase Agreement with Fixed Income Clearing Corporation, dated 7/31/09, repurchase price \$11,617,813, collateralized by \$11,720,000 U.S. Treasury Notes, 0.875%, due 12/31/10, value \$11,851,850 | 0.050% | 8/03/09 | \$ 11,617,765 |
| | Total Short-Term Investments (cost \$11,617,765) | | | 11,617,765 |
| | Total Investments (cost \$284,803,270) | 140.8% | | 239,298,991 |
| | Borrowings (19.4)% (12) | | | (32,900,000) |
| | Other Assets Less Liabilities (6.1)% | | | (10,482,314) |
| | Preferred Shares, at Liquidation Value (15.3)% (12) | | | (26,000,000) |
| | Net Assets Applicable to Common Shares 100% | | | \$ 169,916,677 |

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Senior Loans generally are subject to mandatory and/or optional prepayment. Because of these mandatory prepayment conditions and because there may be significant economic incentives for a Borrower to prepay, prepayments of Senior Loans may occur. As a result, the actual remaining maturity of Senior Loans held may be substantially less than the stated maturities shown.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard & Poor's Group (Standard & Poor's) or Moody's Investor Service, Inc. (Moody's) rating. Ratings below BBB by Standard & Poor's or Baa by Moody's are considered to be below investment grade.
- (4) Senior Loans generally pay interest at rates which are periodically adjusted by reference to a base short-term, floating lending rate plus an assigned fixed rate. These floating lending rates are generally (i) the lending rate referenced by the London Inter-Bank Offered Rate (LIBOR), or (ii) the prime rate offered by one or more major United States banks.
Senior Loans may be considered restricted in that the Fund ordinarily is contractually obligated to receive approval from the Agent Bank and/or Borrower prior to the disposition of a Senior Loan.
- (5) At or subsequent to July 31, 2009, this issue was under the protection of the Federal Bankruptcy Court.
- (6) Non-income producing; denotes that the issuer has defaulted on the payment of principal or interest or has filed for bankruptcy.

- (7) Position, or portion of position, represents an unfunded Senior Loan commitment outstanding at July 31, 2009.
- (8) Investment valued at fair value using methods determined in good faith by, or at the discretion of, the Board of Trustees. For SFAS No. 157 disclosure purposes, investment categorized as Level 3. See Notes to Financial Statements, Footnote 2 Fair Value Measurements for more information.
- (9) Non-income producing; issuer has not declared a dividend within the past twelve months.
- (10) This issue is under protection of the Federal Bankruptcy Court. As a result, the Adviser has concluded this issue is not likely to meet its interest payment obligations and has directed the Fund's custodian to cease accruing additional income and write-off any remaining recorded balances on the Fund's records.
- (11) As of March 1, 2009, this issue is under protection of the Federal Bankruptcy Court (the Bankruptcy Court). As a result, the Adviser concluded that the issuer was not likely to meet its future interest payment obligations and directed the Fund's custodian to cease accruing additional income and write-off any remaining recorded balances on the Fund's records. Subsequent to March 1, 2009, the Fund received its June 1, 2009 and September 1, 2009, interest payments as directed by the Bankruptcy Court's Final Order and consequently accrued income on this issue during the period July 1, 2009 through September 1, 2009. As of September 2, 2009, the Fund ceased accruing additional income on this issue.
- (12) Borrowings and Preferred Shares, at Liquidation Value as a percentage of Total Investments are 13.7% and 10.9%, respectively.
- N/A Not available.
- N/R Not rated.
- WI/DD Purchased on a when-issued or delayed delivery basis.
- DD1 Portion of investment purchased on a delayed delivery basis.
- 144A Investment is exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These investments may only be resold in transactions exempt from registration which are normally those transactions with qualified institutional buyers.
- TBD Senior Loan purchased on a when-issued or delayed-delivery basis. Certain details associated with this purchase are not known prior to the settlement date of the transaction. In addition, Senior Loans typically trade without accrued interest and therefore a weighted average coupon rate is not available prior to settlement. At settlement, if still unknown, the Borrower or counterparty will provide the Fund with the final weighted average coupon rate and maturity date.

See accompanying notes to financial statements.

| | Net Assets Applicable to Common Shares | 100% | | \$ 463,026,390 |

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Senior Loans generally are subject to mandatory and/or optional prepayment. Because of these mandatory prepayment conditions and because there may be significant economic incentives for a Borrower to prepay, prepayments of Senior Loans may occur. As a result, the actual remaining maturity of Senior Loans held may be substantially less than the stated maturities shown.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard & Poor's Group (Standard & Poor's) or Moody's Investor Service, Inc. (Moody's) rating. Ratings below BBB by Standard & Poor's or Baa by Moody's are considered to be below investment grade.
- (4) Senior Loans generally pay interest at rates which are periodically adjusted by reference to a base short-term, floating lending rate plus an assigned fixed rate. These floating lending rates are generally (i) the lending rate referenced by the London Inter-Bank Offered Rate (LIBOR), or (ii) the prime rate offered by one or more major United States banks.
Senior Loans may be considered restricted in that the Fund ordinarily is contractually obligated to receive approval from the Agent Bank and/or Borrower prior to the disposition of a Senior Loan.
- (5)

Non-income producing; denotes that the issuer has defaulted on the payment of principal or interest or has filed for bankruptcy.

- (6) At or subsequent to July 31, 2009, this issue was under the protection of the Federal Bankruptcy Court.
 - (7) Position, or portion of position, represents an unfunded Senior Loan commitment outstanding at July 31, 2009.
 - (8) Non-income producing; issuer has not declared a dividend within the past twelve months.
 - (9) This issue is under protection of the Federal Bankruptcy Court. As a result, the Adviser has concluded this issue is not likely to meet its interest payment obligations and has directed the Fund's custodian to cease accruing additional income and write-off any remaining recorded balances on the Fund's records.
 - (10) As of March 1, 2009, this issue is under protection of the Federal Bankruptcy Court (the Bankruptcy Court). As a result, the Adviser concluded that the issuer was not likely to meet its future interest payment obligations and directed the Fund's custodian to cease accruing additional income and write-off any remaining recorded balances on the Fund's records. Subsequent to March 1, 2009, the Fund received its June 1, 2009 and September 1, 2009, interest payments as directed by the Bankruptcy Court's Final Order and consequently accrued income on this issue during the period July 1, 2009 through September 1, 2009. As of September 2, 2009, the Fund ceased accruing additional income on this issue.
 - (11) Borrowings and Preferred Shares, at Liquidation Value as a percentage of Total Investments are 6.0% and 16.4%, respectively.
- N/R Not rated.
- DD1 Portion of investment purchased on a delayed delivery basis.
- WI/DD Purchased on a when-issued or delayed delivery basis.
- 144A Investment is exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These investments may only be resold in transactions exempt from registration which are normally those transactions with qualified institutional buyers.
- TBD Senior Loan purchased on a when-issued or delayed-delivery basis. Certain details associated with this purchase are not known prior to the settlement date of the transaction. In addition, Senior Loans typically trade without accrued interest and therefore a weighted average coupon rate is not available prior to settlement. At settlement, if still unknown, the Borrower or counterparty will provide the Fund with the final weighted average coupon rate and maturity date.

See accompanying notes to financial statements.

Nuveen Investments 33

JRO Nuveen Floating Rate Income Opportunity Fund (continued)
Portfolio of Investments July 31, 2009

| Principal Amount (000) | Description (1) | Coupon | Maturity | Value |
|------------------------------|--|---------------|------------------------------------|-----------------------|
| | Short-Term Investments | 3.3% | (2.4% of Total Investments) | |
| \$ 8,986 | Repurchase Agreement with Fixed Income Clearing Corporation, dated 7/31/09, repurchase price \$8,985,741, collateralized by \$9,065,000 U.S. Treasury Notes, 0.875%, due 12/31/10, value \$9,166,981 | 0.050% | 8/03/09 | \$ 8,985,704 |
| | Total Short-Term Investments (cost \$8,985,704) | | | 8,985,704 |
| | Total Investments (cost \$432,588,410) | 138.2% | | 374,752,010 |
| | Borrowings (13.8%) (11) | | | (37,350,000) |
| | Other Assets Less Liabilities (2.3%) | | | (6,277,288) |
| | Preferred Shares, at Liquidation Value (22.1%) (11) | | | (60,000,000) |
| | Net Assets Applicable to Common Shares 100% | | | \$ 271,124,722 |

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Senior Loans generally are subject to mandatory and/or optional prepayment. Because of these mandatory prepayment conditions and because there may be significant economic incentives for a Borrower to prepay, prepayments of Senior Loans may occur. As a result, the actual remaining maturity of Senior Loans held may be substantially less than the stated maturities shown.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard & Poor's Group (Standard & Poor's) or Moody's Investor Service, Inc. (Moody's) rating. Ratings below BBB by Standard & Poor's or Baa by Moody's are considered to be below investment grade.
- (4) Senior Loans generally pay interest at rates which are periodically adjusted by reference to a base short-term, floating lending rate plus an assigned fixed rate. These floating lending rates are generally (i) the lending rate referenced by the London Inter-Bank Offered Rate (LIBOR), or (ii) the prime rate offered by one or more major United States banks.

Senior Loans may be considered restricted in that the Fund ordinarily is contractually obligated to receive approval from the Agent Bank and/or Borrower prior to the disposition of a Senior Loan.

- (5) At or subsequent to July 31, 2009, this issue was under the protection of the Federal Bankruptcy Court.
 - (6) Position, or portion of position, represents an unfunded Senior Loan commitment outstanding at July 31, 2009.
 - (7) Non-income producing; denotes that the issuer has defaulted on the payment of principal or interest or has filed for bankruptcy.
 - (8) Non-income producing; issuer has not declared a dividend within the past twelve months.
 - (9) This issue is under protection of the Federal Bankruptcy Court. As a result, the Adviser has concluded this issue is not likely to meet its interest payment obligations and has directed the Fund's custodian to cease accruing additional income and write-off any remaining recorded balances on the Fund's records.
 - (10) As of March 1, 2009, this issue is under protection of the Federal Bankruptcy Court (the Bankruptcy Court). As a result, the Adviser concluded that the issuer was not likely to meet its future interest payment obligations and directed the Fund's custodian to cease accruing additional income and write-off any remaining recorded balances on the Fund's records. Subsequent to March 1, 2009, the Fund received its June 1, 2009 and September 1, 2009, interest payments as directed by the Bankruptcy Court's Final Order and consequently accrued income on this issue during the period July 1, 2009 through September 1, 2009. As of September 2, 2009, the Fund ceased accruing additional income on this issue.
 - (11) Borrowings and Preferred Shares, at Liquidation Value as a percentage of Total Investments are 10.0% and 16.0%, respectively.
- N/A Not available.
 N/R Not rated.
 WI/DD Purchased on a when-issued or delayed delivery basis.
 DD1 Portion of investment purchased on a delayed delivery basis.
 144A Investment is exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These investments may only be resold in transactions exempt from registration which are normally those transactions with qualified institutional buyers.
 TBD Senior Loan purchased on a when-issued or delayed-delivery basis. Certain details associated with this purchase are not known prior to the settlement date of the transaction. In addition, Senior Loans typically trade without accrued interest and therefore a weighted average coupon rate is not available prior to settlement. At settlement, if still unknown, the Borrower or counterparty will provide the Fund with the final weighted average coupon rate and maturity date.

See accompanying notes to financial statements.

Supplemental Disclosure of Cash Flow Information

Cash paid by Senior Income (NSL), Floating Rate Income (JFR) and Floating Rate Income Opportunity (JRO) for interest on borrowings (excluding amortization of borrowing costs) during the fiscal year ended July 31, 2009, was \$1,306,694, \$2,459,426 and \$1,722,255, respectively.

Non-cash financing activities not included herein consist of reinvestments of Common share distributions of \$216,446 for Floating Rate Income (JFR).

See accompanying notes to financial statements.

Notes to
Financial Statements

1. General Information and Significant Accounting Policies

The funds covered in this report and their corresponding Common share New York Stock Exchange symbols are Nuveen Senior Income Fund (NSL), Nuveen Floating Rate Income Fund (JFR) and Nuveen Floating Rate Income Opportunity Fund (JRO) (collectively, the Funds). The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end management investment companies.

Each Fund seeks to provide a high level of current income by investing primarily in senior loans whose interest rates float or adjust periodically based on a benchmark interest rate index.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with US generally accepted accounting principles.

Investment Valuation

The prices of senior loans, bonds and other securities in each Fund's investment portfolio, other than subordinated loans issued by middle market companies, are generally provided by one or more independent pricing services approved by the Fund's Board of Trustees. Floating Rate Income Opportunity (JRO) currently expects that the independent pricing services will be unable to provide a market based price for certain of the privately negotiated subordinated loans issued by middle market companies. The pricing services, with input from Symphony Asset Management, LLC (Symphony), a subsidiary of Nuveen Investments, Inc. (Nuveen), and Nuveen Asset Management (the Adviser), a wholly owned subsidiary of Nuveen, will estimate the fair value for such subordinated loans, subject to the supervision of Symphony and the Adviser. Floating Rate Income Opportunity (JRO) may engage an independent appraiser to periodically provide an independent determination of the value, or an opinion with respect to the pricing services' value, of such loans. The pricing services typically value exchange-listed securities at the last sales price on that day; and value senior loans, bonds and other securities traded in the over-the-counter market at the mean of the highest bona fide bid and lowest bona fide asked prices when current quotations are readily available. When market price quotes are not readily available, the pricing service or, in the absence of a pricing service for a particular investment, the Board of Trustees of the Funds, or its designee, may establish fair value using a wide variety of market data including yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant. Short-term investments are valued at amortized cost, which approximates value.

The senior and subordinated loans in which the Funds invest are not listed on an organized exchange and the secondary market for such investments may be less liquid relative to markets for other fixed-income securities. Consequently, the value of senior and subordinated loans, determined as described above, may differ significantly from the value that would have been determined had there been an active market for that loan.

Investment Transactions

Investment transactions are recorded on a trade date basis. Trade date for senior and subordinated loans purchased in the primary market is considered the date on which the loan allocations are determined. Trade date for senior and subordinated loans purchased in the secondary market is the date on which the transaction is entered into. Realized

gains and losses from investment transactions are determined on the specific identification method. Investments purchased on a when-issued/delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments. At July 31, 2009, Senior Income (NSL), Floating Rate Income (JFR) and Floating Rate Income Opportunity (JRO) had outstanding when-issued/delayed delivery purchase commitments of \$24,797,939, \$51,072,165 and \$22,925,593, respectively.

Investment Income

Dividend income is recorded on the ex-dividend date. Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Interest income also includes paydown gains and losses on senior and subordinated loans, if any. Fee income, consists primarily of amendment fees. Amendment fees are earned as compensation for evaluating and accepting changes to an original senior loan agreement and are recognized when received.

Notes to
Financial Statements (continued)

Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all of its net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required.

For all open tax years and all major taxing jurisdictions, management of the Funds has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Open tax years are those that are open for examination by taxing authorities (i.e., generally the last four tax year ends and the interim tax period since then). Furthermore, management of the Funds is also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

Professional Fees

Professional fees presented on the Statement of Operations consist of legal fees incurred in the normal course of operations, audit fees, tax consulting fees and, in some cases, workout expenditures. Workout expenditures are incurred in an attempt to protect or enhance an investment, or to pursue other claims or legal actions on behalf of Fund shareholders.

Dividends and Distributions to Common Shareholders

Dividends to Common shareholders are declared monthly. Net realized capital gains from investment transactions, if any, are distributed to shareholders at least annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal corporate income tax regulations, which may differ from US generally accepted accounting principles.

Preferred Shares

Senior Income (NSL) has issued and outstanding 1,040 shares of Series TH, Taxable Auctioned Preferred shares, \$25,000 stated value per share, as a means of effecting financial leverage. The dividend rate paid by the Fund is determined every 28 days, pursuant to a dutch auction process overseen by the auction agent, and is payable at the end of each rate period.

Floating Rate Income (JFR) has issued and outstanding 1,050 shares of each Series M, T, W and F, FundPreferred shares, \$25,000 stated value per share, as a means of effecting financial leverage. The dividend rate paid by the Fund is determined every seven days, pursuant to a dutch auction process overseen by the auction agent, and is payable at the end of each rate period.

Floating Rate Income Opportunity (JRO) has issued and outstanding 800 shares of each Series M, TH and F, FundPreferred shares, \$25,000 stated value per share, as a means of effecting financial leverage. The dividend rate paid by the Fund is determined every seven days, pursuant to a dutch auction process overseen by the auction agent, and is payable at the end of each rate period.

As of July 31, 2009, Senior Income (NSL), Floating Rate Income (JFR) and Floating Rate Income Opportunity (JRO) had redeemed \$20 million, \$295 million and \$180 million of their outstanding Preferred shares, at liquidation value, respectively.

Beginning in February 2008, more shares for sale were submitted in the regularly scheduled auctions for the Taxable Auctioned Preferred and Fund Preferred (collectively, Preferred) shares issued by the Funds than there were offers to buy. This meant that these auctions failed to clear, and that many Preferred shareholders who wanted to sell their shares in these auctions were unable to do so. Preferred shareholders unable to sell their shares received distributions at the maximum rate applicable to failed auctions as calculated in accordance with the pre-established terms of the Preferred shares.

These developments have generally not affected the management or investment policies of the Funds. However, one implication of these auction failures for Common shareholders is that the Funds' cost of leverage will likely be higher, at least temporarily, than it otherwise would have been had the auctions continued to be successful. As a result, the Funds' future Common share earnings may be lower than they otherwise would have been.

Derivative Financial Instruments

Each Fund is authorized to invest in derivative financial instruments, including forwards, futures, options and swap transactions. Although each Fund is authorized to invest in such financial instruments, and may do so in the future, they did make any such investments during the fiscal year ended July 31, 2009.

Repurchase Agreements

In connection with transactions in repurchase agreements, it is each Fund's policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. If the seller defaults, and the fair value of the collateral declines, realization of the collateral may be delayed or limited.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by net credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments. Credits for cash balances may be offset by charges for any days on which a Fund overdraws its account at the custodian bank.

Borrowing Costs

Costs incurred by each Fund in connection with structuring its refinancing during the fiscal year ended July 31, 2008, were recorded as a deferred charge which were amortized through May 14, 2009, and included as a component of Interest expense on borrowings and amortization of borrowing costs on the Statement of Operations.

Indemnifications

Under the Funds' organizational documents, their Officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates

The preparation of financial statements in conformity with US generally accepted account principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

2. Fair Value Measurements

During the current fiscal period, the Funds adopted the provisions of Statement of Financial Accounting Standards No. 157 (SFAS No. 157) Fair Value Measurements. SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosure about fair value measurements. In determining the value of each Fund's investments various inputs are used. These inputs are summarized in the three broad levels listed below:

- Level 1 Quoted prices in active markets for identical securities.
- Level 2 Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).
- Level 3 Significant unobservable inputs (including management's assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of each Fund's fair value measurements as of July 31, 2009:

| Senior Income (NSL) | Level 1 | Level 2 | Level 3 | Total |
|-------------------------------------|----------------|----------------|----------------|----------------|

| Net discounts (premiums) | 370 |
| Net transfers in to (out of) at end of period fair value | 11,032 |
| Balance at end of year | \$ 89,569 |

Change in net unrealized appreciation (depreciation) of investments presented on the Statement of Operations for Senior Income (NSL) includes \$(4,724,084) of net appreciation (depreciation) related to securities classified as Level 3 at year end.

3. Derivative Instruments and Hedging Activities

During the current fiscal period, the Funds adopted the provisions of Statement of Financial Accounting Standards No. 161 (SFAS No. 161) Disclosures about Derivative Instruments and Hedging Activities. This standard is intended to enhance financial statement disclosures for derivative instruments and hedging activities and enable investors to better understand: a) how and why a fund uses derivative instruments; b) how derivative instruments are accounted for; and c) how derivative instruments affect a fund's financial position, results of operations and cash flows, if any. The Funds record derivative instruments at fair value with changes in fair value recognized on the Statement of Operations, when applicable. Even though the Funds' investments in derivatives may represent economic hedges, they are considered to be non-hedge transactions for SFAS No. 161 disclosure purposes. The Funds did not invest in

derivative instruments during the fiscal year ended July 31, 2009.

4. Fund Shares

Common Shares

On July 30, 2008, the Funds' Board of Trustees approved an open-market share repurchase program under which each Fund may repurchase an aggregate of up to approximately 10% of their outstanding Common shares.

Transactions in Common shares were as follows:

| | Senior Income (NSL) | | Floating Rate Income (JFR) | | Floating Rate Income Opportunity (JRO) | |
|--|--------------------------------|-----------------------|---------------------------------------|-----------------------|---|-----------------------|
| | Year Ended | Year Ended | Year Ended | Year Ended | Year Ended | Year Ended |
| | 7/31/2009 | 7/31/2008 | 7/31/2009 | 7/31/2008 | 7/31/2009 | 7/31/2008 |
| Common shares: | | | | | | |
| Issued to shareholders due to reinvestment of distributions | | | 34,819 | | | |
| Repurchased | | | (9,700) | | (9,700) | |
| Total | | | 25,119 | | (9,700) | |
| Weighted average Common share: | | | | | | |
| Price per share repurchased | | | 7.64 | | 7.33 | |
| Discount per share repurchased | | | 16.08% | | 16.02% | |

Preferred Shares

Transactions in Preferred shares were as follows:

| Senior Income (NSL) | | Floating Rate Income (JFR) | | | | Floating Rate Income Opportunity (JRO) | | | |
|---------------------|---------------|----------------------------|------------|---------------|------------|--|------------|---------------|------------|
| Year Ended | Year Ended | Year Ended | Year Ended | Year Ended | Year Ended | Year Ended | Year Ended | Year Ended | Year Ended |
| 7/31/09 | 7/31/08 | 7/31/09 | 7/31/08 | 7/31/09 | 7/31/08 | 7/31/09 | 7/31/08 | 7/31/09 | 7/31/08 |
| Amount | Shares | Amount | Shares | Amount | Shares | Amount | Shares | Amount | Shares |
| Shares redeemed: | | | | | | | | | |
| \$ | | \$ | 600 | \$ 15,000,000 | 2,350 | \$ 58,750,000 | 534 | \$ 13,350,000 | 1,866 |
| | | | 600 | 15,000,000 | 2,350 | 58,750,000 | | | |
| | | | 600 | 15,000,000 | 2,350 | 58,750,000 | | | |
| 800 | 20,000,000 | | 600 | 15,000,000 | 2,350 | 58,750,000 | 534 | 13,350,000 | 1,866 |
| | | | 600 | 15,000,000 | 2,350 | 58,750,000 | 532 | 13,300,000 | 1,868 |
| 800 | \$ 20,000,000 | \$ | 2,400 | \$ 60,000,000 | 9,400 | \$ 235,000,000 | 1,600 | \$ 40,000,000 | 5,600 |

Effective May 1, 2009, auction participation fees with respect to auctions that have failed have been reduced from 25 bps (annualized) to 15 bps (annualized). All auction participants have signed new agreements incorporating this change.

5. Investment Transactions

Purchases and sales (including maturities but excluding short-term investments) during the fiscal year ended July 31, 2009, were as follows:

| | Senior Income (NSL) | Floating Rate Income (JFR) | Floating Rate Income Opportunity (JRO) |
|----------------------|---------------------|----------------------------|--|
| Purchases | \$ 106,648,863 | \$ 223,582,729 | \$ 145,584,015 |
| Sales and maturities | 172,784,397 | 369,801,350 | 246,551,979 |

6. Income Tax Information

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to the treatment of paydown gains and losses, timing differences in recognizing certain gains and losses on investment transactions and for Floating Rate Income (JFR) and Floating Rate Income Opportunity (JRO) recognition of premium amortization. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts on the Statement of Assets and Liabilities presented in the annual report, based on their federal tax basis treatment; temporary differences do not require reclassification. Temporary and permanent differences do not impact the net asset values of the Funds.

At July 31, 2009, the cost of investments was as follows:

| | Senior Income (NSL) | Floating Rate Income (JFR) | Floating Rate Income Opportunity (JRO) |
|---------------------|------------------------------------|---|---|
| Cost of investments | \$ 284,861,171 | \$ 742,457,277 | \$ 432,614,371 |

Gross unrealized appreciation and gross unrealized depreciation of investments at July 31, 2009, were as follows:

| | Senior Income (NSL) | Floating Rate Income (JFR) | Floating Rate Income Opportunity (JRO) |
|---|------------------------------------|---|---|
| Gross unrealized: | | | |
| Appreciation | \$ 10,646,337 | \$ 11,697,367 | \$ 12,116,860 |
| Depreciation | (56,208,517) | (114,276,442) | (69,979,221) |
| Net unrealized appreciation (depreciation) of investments | \$ (45,562,180) | \$ (102,579,075) | \$ (57,862,361) |

Notes to
Financial Statements (continued)

The tax components of undistributed net ordinary income and net long-term capital gains at July 31, 2009, the Funds tax year end, were as follows:

| | Senior Income (NSL) | Floating Rate Income (JFR) | Floating Rate Income Opportunity (JRO) |
|---|------------------------------------|---|---|
| Undistributed net ordinary income * | \$ 1,838,117 | \$ 504,915 | \$ 1,721,769 |
| Undistributed net long-term capital gains | | | |

* Net ordinary income consists of net taxable income derived from dividends, interest, and net short-term capital gains, if any. Undistributed net ordinary income (on a tax basis) has not been reduced for the dividend declared on July 1, 2009, paid on August 3, 2009.

The tax character of distributions paid during the Funds tax years ended July 31, 2009 and July 31, 2008, was designated for purposes of the dividends paid deduction as follows:

| | Senior Income (NSL) | Floating Rate Income (JFR) | Floating Rate Income Opportunity (JRO) |
|--|------------------------------------|---|---|
| 2009 | | | |
| Distributions from net ordinary income * | \$ 14,308,050 | \$ 35,343,923 | \$ 23,471,413 |
| Distributions from net long-term capital gains | | | |

| | Senior Income (NSL) | Floating Rate Income (JFR) | Floating Rate Income Opportunity (JRO) |
|--|------------------------------------|---|---|
| 2008 | | | |
| Distributions from net ordinary income * | \$ 21,957,308 | \$ 70,123,419 | \$ 43,648,063 |
| Distributions from net long-term capital gains | | | |

* Net ordinary income consists of net taxable income derived from dividends, interest, and net short-term capital gains, if any.

At July 31, 2009, the Funds tax year end, the Funds had unused capital loss carryforwards available for federal income tax purposes to be applied against future capital gains, if any. If not applied, the carryforwards will expire as follows:

| | Senior Income (NSL) | Floating Rate Income (JFR) | Floating Rate Income Opportunity (JRO) |
|---------------|------------------------------------|---|---|
| Expiration: | | | |
| July 31, 2010 | \$ 14,207,781 | \$ | \$ |
| July 31, 2011 | 10,704,255 | | |
| July 31, 2013 | | 819,145 | 30,377 |
| July 31, 2014 | | 2,934,270 | 2,151,577 |
| July 31, 2015 | 1,002,070 | 9,492,118 | 5,017,841 |
| July 31, 2016 | | 183,234 | 1,294,188 |
| July 31, 2017 | 8,900,332 | 21,620,554 | 13,760,353 |
| Total | \$ 34,814,438 | \$ 35,049,321 | \$ 22,254,336 |

The Funds have elected to defer net realized losses from investments incurred from November 1, 2008 through July 31, 2009, the Funds' tax year end, (post-October losses) in accordance with federal income tax regulations. Post-October losses are treated as having arisen on the first day of the following fiscal year:

| | Senior Income (NSL) | Floating Rate Income (JFR) | Floating Rate Income Opportunity (JRO) |
|-----------------------------|------------------------------------|---|---|
| Post-October capital losses | \$ 33,199,865 | \$ 65,495,975 | \$ 49,010,085 |

7. Management Fees and Other Transactions with Affiliates

Each Fund's management fee is separated into two components: a complex-level component, based on the aggregate amount of all fund assets managed by the Adviser, and a specific fund-level component, based only on the amount of assets within each individual Fund. This pricing structure

enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser.

The annual fund-level fee, payable monthly, for each Fund is based upon the average daily managed net assets of each Fund as follows:

| | Senior Income (NSL) Fund-Level Fee Rate |
|--|--|
| Average Daily Managed Net Assets ⁽¹⁾ | |
| For the first \$1 billion | .6500% |
| For the next \$1 billion | .6375 |
| For the next \$3 billion | .6250 |
| For the next \$5 billion | .6000 |
| For Managed Assets over \$10 billion | .5750 |

| | Floating Rate Income (JFR) Floating Rate Income Opportunity (JRO) Fund-Level Fee Rate |
|--|--|
| Average Daily Managed Net Assets ⁽¹⁾ | |
| For the first \$500 million | .6500% |
| For the next \$500 million | .6250 |
| For the next \$500 million | .6000 |
| For the next \$500 million | .5750 |
| For Managed Assets over \$2 billion | .5500 |

The annual complex-level fee, payable monthly, which is additive to the fund-level fee, for all Nuveen sponsored funds in the U.S., is based on the aggregate amount of total fund net assets managed as stated in the following table. As of July 31, 2009, the complex-level fee was .1957%.

The complex-level fee schedule is as follows:

| Complex-Level Net Assets Breakpoint Level ⁽¹⁾ | Effective Rate at Breakpoint Level |
|---|---|
| \$55 billion | .2000% |
| \$56 billion | .1996 |
| \$57 billion | .1989 |
| \$60 billion | .1961 |
| \$63 billion | .1931 |
| \$66 billion | .1900 |
| \$71 billion | .1851 |
| \$76 billion | .1806 |
| \$80 billion | .1773 |
| \$91 billion | .1691 |

| | |
|---------------|-------|
| \$125 billion | .1599 |
| \$200 billion | .1505 |
| \$250 billion | .1469 |
| \$300 billion | .1445 |

- (1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate daily managed net assets of all Nuveen funds, with such daily managed net assets defined separately for each fund in its management agreement, but excluding assets attributable to investments in other Nuveen funds. For the complex-level and fund-level fee components, daily managed net assets include assets managed by the Adviser that are attributable to financial leverage. For these purposes, financial leverage includes the funds' use of preferred stock and borrowings and investments in the residual interest certificates (also called inverse floating rate securities) in tender option bond (TOB) trusts, including the portion of assets held by the TOB trust that has been effectively financed by the trust's issuance of floating rate securities, subject to an agreement by the Adviser to limit the amount of such assets for determining managed net assets in certain circumstances.

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Adviser has entered into Sub-Advisory Agreements with Symphony under which Symphony manages the investment portfolios of the Funds. Symphony is compensated for its services to the Funds from the management fees paid to the Adviser.

The Funds pay no compensation directly to those of its Trustees who are affiliated with the Adviser or to its Officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Trustees has adopted a deferred compensation plan for independent Trustees that enables Trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised funds.

Notes to
Financial Statements (continued)

For the first ten years of Senior Income s (NSL) operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily managed net assets, for fees and expenses in the amounts and for the time periods set forth below:

| Year Ending October 31, | | Year Ending October 31, | |
|------------------------------------|------|------------------------------------|------|
| 1999 * | .45% | 2005 | .35% |
| 2000 | .45 | 2006 | .25 |
| 2001 | .45 | 2007 | .15 |
| 2002 | .45 | 2008 | .10 |
| 2003 | .45 | 2009 | .05 |
| 2004 | .45 | | |

* From the commencement of operations.

The Adviser has not agreed to reimburse Senior Income (NSL) for any portion of its fees and expenses beyond October 31, 2009.

For the first eight years of Floating Rate Income s (JFR) operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily managed net assets, for fees and expenses in the amounts and for the time periods set forth below:

| Year Ending March 31, | | Year Ending March 31, | |
|----------------------------------|------|----------------------------------|------|
| 2004 * | .32% | 2009 | .32% |
| 2005 | .32 | 2010 | .24 |
| 2006 | .32 | 2011 | .16 |
| 2007 | .32 | 2012 | .08 |
| 2008 | .32 | | |

* From the commencement of operations.

The Adviser has not agreed to reimburse Floating Rate Income (JFR) for any portion of its fees and expenses beyond March 31, 2012.

For the first eight years of Floating Rate Income Opportunity s (JRO) operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily managed net assets, for fees and expenses in the amounts and for the time periods set forth below:

| Year Ending | Year Ending |
|--------------------|--------------------|
|--------------------|--------------------|

| July 31, | | July 31, | |
|-----------------|------|-----------------|------|
| 2004 * | .30% | 2009 | .30% |
| 2005 | .30 | 2010 | .22 |
| 2006 | .30 | 2011 | .14 |
| 2007 | .30 | 2012 | .07 |
| 2008 | .30 | | |

* From the commencement of operations.

The Adviser has not agreed to reimburse Floating Rate Income Opportunity (JRO) for any portion of its fees and expenses beyond July 31, 2012.

8. Senior Loan Commitments

Unfunded Commitments

Pursuant to the terms of certain of the variable rate senior loan agreements, the Funds may have unfunded senior loan commitments. Each Fund will maintain with the custodian, cash, liquid securities and/or liquid senior loans having an aggregate value at least equal to the amount of unfunded senior loan commitments. At July 31, 2009, Senior Income (NSL), Floating Rate Income (JFR) and Floating Rate Income Opportunity (JRO) had unfunded senior loan commitments of \$152,778, \$611,111 and \$350,372, respectively.

Participation Commitments

With respect to the senior loans held in each Fund's portfolio, the Funds may: 1) invest in assignments; 2) act as a participant in primary lending syndicates; or 3) invest in participations. If a Fund purchases a participation of a senior loan interest, the Fund would typically enter into a contractual agreement with the lender or other third party selling the participation, rather than directly with the Borrower. As such, the Fund not only assumes the credit risk of the Borrower, but also that of the Selling Participant or other persons interpositioned between the Fund and the Borrower. At July 31, 2009, there were no such outstanding participation commitments in any of the Funds.

9. Borrowing Arrangements

Management determined that leveraging the Funds with debt as a replacement for the Funds' Preferred shares continued to benefit the Funds' shareholders.

Senior Income (NSL) has entered into a \$75,500,000 million Revolving Credit and Security Agreement with an affiliate of Citibank. As of July 31, 2009, the Fund's outstanding balance on these borrowings was \$32,900,000. For the fiscal year ended July 31, 2009, the average daily balance outstanding and average interest rate on these borrowings were \$47,736,983 and 2.33%, respectively.

Floating Rate Income (JFR) has entered into a \$209,500,000 million Revolving Credit and Security Agreement with an affiliate of Citibank. As of July 31, 2009, the Fund's outstanding balance on these borrowings was \$38,500,000. For the fiscal year ended July 31, 2009, the average daily balance outstanding and average interest rate on these borrowings were \$88,090,128 and 2.46%, respectively.

Floating Rate Income Opportunity (JRO) has entered into a \$120,000,000 million Revolving Credit and Security Agreement with an affiliate of Citibank. As of July 31, 2009, the Fund's outstanding balance on these borrowings was \$37,350,000. For the fiscal year ended July 31, 2009, the average daily balance outstanding and average interest rate on these borrowings were \$61,623,419 and 2.37%, respectively.

In order to maintain these borrowing arrangements, the Funds must meet certain collateral, asset coverage and other requirements. Borrowings outstanding are fully secured by securities held in the Funds' Portfolios of Investments.

The aforementioned agreements will renew on May 14, 2010.

Interest expense incurred on these borrowings, which is based on a commercial paper rate, is recognized as Interest expense on borrowings and amortization of borrowing costs on the Statement of Operations. In addition to the interest expense, each Fund pays a per annum program fee, based on the average daily outstanding balance and a per annum liquidity fee, based on the total commitment amount of the borrowings through the renewal date, both of which are recognized as Fees on borrowings on the Statement of Operations.

10. Subsequent Events

Distributions to Common Shareholders

The Funds declared Common share dividend distributions from their net investment income which was paid on September 1, 2009, to shareholders of record on August 15, 2009, as follows:

| | Senior Income (NSL) | Floating Rate Income (JFR) | Floating Rate Income Opportunity (JRO) |
|--------------------|------------------------------------|---|---|
| Dividend per share | \$.0335 | \$.0410 | \$.0500 |

Financial Accounting Standards Board Statement of Financial Accounting Standards No. 165 (SFAS No. 165)

In May 2009, the Financial Accounting Standards Board issued SFAS No. 165 Subsequent Events. SFAS No. 165 requires an entity to recognize in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the balance sheet. SFAS No. 165 is intended to establish general standards of accounting and for disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. SFAS No. 165 requires the disclosure of the date through which an entity has evaluated subsequent events and the basis for that date—that is, whether that date represents the date the financial statements were issued or were available to be issued. SFAS No. 165 is effective for interim and annual periods ending after June 15, 2009. The Funds have performed an evaluation of subsequent events through

September 25, 2009, which is the date the financial statements were issued.

Preferred Shares

On August 31, 2009, subsequent to the reporting period, Senior Income (NSL), Floating Rate Income (JFR) and Floating Rate Income Opportunity (JRO) increased their borrowings an additional \$26,000,000, \$105,000,000 and \$60,000,000, respectively, to redeem, at liquidation value, the remainder of their outstanding Preferred shares during September 2009 for Floating Rate Income (JFR) and Floating Rate Income Opportunity (JRO) and October 2009 for Senior Income (NSL).

- (a) Per share Net Investment Income is calculated using the average daily shares method.
- (b) Borrowings Interest Expense includes amortization of borrowing costs, where applicable.
- * Total Return on Based Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

Total Return on Based Common Share Net Asset Value is the combination of changes in Common share net asset value, reinvested dividend income at net asset value and reinvested capital gains distributions at net asset value, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending net asset value. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its net asset value), and therefore may be different from the price used in the calculation. Total returns are not annualized.

- ** After custodian fee credit, expense reimbursement from the Adviser and legal fee refund, where applicable.

Annual Investment Management Agreement Approval Process

The Investment Company Act of 1940, as amended (the *1940 Act*), provides, in substance, that each investment advisory agreement between a fund and its investment adviser (including sub-advisers) will continue in effect from year to year only if its continuance is approved at least annually by the fund's board members, including by a vote of a majority of the board members who are not parties to the advisory agreement or interested persons of any parties (the *Independent Board Members*), cast in person at a meeting called for the purpose of considering such approval. In connection with such approvals, the fund's board members must request and evaluate, and the investment adviser is required to furnish, such information as may be reasonably necessary to evaluate the terms of the advisory agreement. Accordingly, at a meeting held on May 27-29, 2009 (the *May Meeting*), the Boards of Trustees (each, a *Board* and each Trustee, a *Board Member*) of the Funds, including a majority of the Independent Board Members, considered and approved the continuation of the advisory and sub-advisory agreements for the Funds for an additional one-year period. These agreements include the investment advisory agreements between Nuveen Asset Management (*NAM*) and each Fund and the sub-advisory agreements between NAM and Symphony Asset Management LLC (the *Sub-Adviser*). In preparation for their considerations at the May Meeting, the Board also held a separate meeting on April 21-22, 2009 (the *April Meeting*). Accordingly, the factors considered and determinations made regarding the renewals by the Independent Board Members include those made at the April Meeting.

In addition, in evaluating the applicable advisory agreements (each an *Investment Management Agreement*) and sub-advisory agreements (each a *Sub-advisory Agreement*, and each Investment Management Agreement and Sub-advisory Agreement, an *Advisory Agreement*), the Independent Board Members reviewed a broad range of information relating to the Funds, NAM and the Sub-Adviser (NAM and the Sub-Adviser are each a *Fund Adviser*), including absolute performance, fee and expense information for the Funds as well as comparative performance, fee and expense information for a comparable peer group of funds, the performance information of recognized and/or customized benchmarks (as applicable) of the Funds, the profitability of Nuveen for its advisory activities (which includes its wholly owned subsidiaries other than Winslow Capital Management, Inc. (*Winslow Capital*), which was recently acquired in December 2008), and other information regarding the organization, personnel, and services provided by the respective Fund Adviser. The Independent Board Members also met quarterly as well as at other times as the need arose during the year and took into account the information provided at such meetings and the knowledge gained therefrom. Prior to approving the renewal of the Advisory Agreements, the Independent Board Members reviewed the foregoing information with their independent legal counsel and with management, reviewed materials from independent legal counsel describing applicable law and their duties in reviewing advisory contracts, and met with independent legal counsel in private sessions without management present. The Independent Board Members considered the legal advice provided by independent legal counsel and relied upon their knowledge of the Fund Adviser, its services and the Funds resulting from their meetings and other interactions throughout the year and their own business judgment in determining the factors to be considered in evaluating the Advisory Agreements. Each Board Member may have accorded different weight to the various factors in reaching his or her conclusions with respect to a Fund's Advisory Agreements. The Independent Board Members did not identify any single factor as all-important or controlling. The Independent Board Members' considerations were instead based on a comprehensive consideration of all the information presented. The principal factors considered by the Board and its conclusions are described below.

A. Nature, Extent and Quality of Services

In considering renewal of the Advisory Agreements, the Independent Board Members considered the nature, extent and quality of the Fund Adviser's services, including advisory services and administrative services. The Independent Board Members reviewed materials outlining, among other things, the Fund Adviser's organization

50 Nuveen Investments

and business; the types of services that the Fund Adviser or its affiliates provide and are expected to provide to the Funds; the performance record of the applicable Fund (as described in further detail below); and any initiatives Nuveen had taken for the applicable fund product line.

In reviewing the services provided and the initiatives undertaken during the past year, the Independent Board Members recognized the severe market turmoil experienced in the capital markets during recent periods, including sustained periods of high volatility, credit disruption and government intervention. The Independent Board Members considered the Fund Adviser's efforts, expertise and other actions taken to address matters as they arose that impacted the Funds. The Independent Board Members recognized the role of the Investment Services group which, among other things, monitors the various positions throughout the Nuveen fund complex to identify and address any systematic risks. In addition, the Capital Markets Committee of NAM provides a multi-departmental venue for developing new policies to mitigate any risks. The Independent Board Members further recognized NAM's continuous review of the Nuveen funds' investment strategies and mandates in seeking to continue to refine and improve the investment process for the funds, particularly in light of market conditions. With respect to closed-end funds that issued auction rate preferred shares (ARPs) or that otherwise utilize leverage, the Independent Board Members noted, in particular, NAM's efforts in refinancing the preferred shares of such funds frozen by the collapse of the auction rate market and managing leverage during a period of rapid market declines, particularly for the non-equity funds. Such efforts included negotiating and maintaining the availability of bank loan facilities and other sources of credit used for investment purposes or to satisfy liquidity needs, liquidating portfolio securities during difficult times to meet leverage ratios, and seeking alternative forms of debt and other leverage that may over time reduce financing costs associated with ARPs and enable the funds that have issued ARPs to restore liquidity to ARPs holders. The Independent Board Members also noted Nuveen's continued commitment and efforts to keep investors and financial advisers informed as to its progress with the ARPs through, among other things, conference calls, emails, press releases, information posted on its website, and telephone calls and in-person meetings with financial advisers. In addition to the foregoing, the Independent Board Members also noted the additional services that NAM or its affiliates provide to closed-end funds, including, in particular, Nuveen's continued commitment to supporting the secondary market for the common shares of its closed-end funds through a variety of programs designed to raise investor and analyst awareness and understanding of closed-end funds. These efforts include maintaining an investor relations program to provide timely information and education to financial advisers and investors; providing advertising and marketing for the closed-end funds; maintaining websites; and providing educational seminars.

As part of their review, the Independent Board Members also evaluated the background, experience and track record of the Fund Adviser's investment personnel. In this regard, the Independent Board Members considered any changes in the personnel, and the impact on the level of services provided to the Funds, if any. The Independent Board Members also reviewed information regarding portfolio manager compensation arrangements to evaluate the Fund Adviser's ability to attract and retain high quality investment personnel, preserve stability, and reward performance but not provide an incentive for taking undue risks.

In addition to advisory services, the Independent Board Members considered the quality of administrative services provided by NAM and its affiliates including product management, fund administration, oversight of service providers, shareholder services, administration of Board relations, regulatory and portfolio compliance and legal support. Given the importance of compliance, the Independent Board Members considered NAM's compliance program, including the report of the chief compliance officer regarding the Funds' compliance policies and procedures.

The Independent Board Members also considered NAM's oversight of the performance, business activities and compliance of the Sub-Adviser. In that regard, the Independent Board Members reviewed an evaluation of the Sub-Adviser from NAM. The evaluation also included information relating to the Sub-Adviser's organization, operations, personnel, assets under management, investment philosophy, strategies and techniques in managing the Funds, developments affecting the Sub-Adviser, and an analysis of the Sub-Adviser. As described in further detail

below, the Board considered the performance of the Funds. The Board also recognized that the Sub-advisory Agreements were essentially agreements for portfolio management services only and the Sub-Adviser was not expected to supply other significant administrative services to the Funds. As part of their oversight, the Independent Board Members also continued their program of seeking to visit each sub-adviser to the Nuveen funds at least once over a multiple year rotation, meeting with key investment and business personnel. The Independent Board Members noted that NAM recommended the renewal of the applicable

Annual Investment Management
Agreement Approval Process (continued)

Sub-advisory Agreements and considered the basis for such recommendations and any qualifications in connection therewith.

Based on their review, the Independent Board Members found that, overall, the nature, extent and quality of services provided (and expected to be provided) to the Funds under the respective Investment Management Agreement or Sub-advisory Agreement, as applicable, were satisfactory.

B. The Investment Performance of the Funds and Fund Advisers

The Board considered the investment performance of each Fund, including the Fund's historic performance as well as its performance compared to funds with similar investment objectives (the *Performance Peer Group*) based on data provided by an independent provider of mutual fund data as well as recognized and/or customized benchmarks. The Independent Board Members reviewed performance information including, among other things, total return information compared with the Fund's Performance Peer Group and recognized and/or customized benchmarks for the quarter-, one-, three- and five-year periods (as applicable) ending December 31, 2008 and for the same periods (as applicable) ending March 31, 2009. The Independent Board Members also reviewed performance information of the Nuveen funds managed by the Sub-Adviser in the aggregate ranked by peer group and the performance of such funds, in the aggregate, relative to their benchmark. This information supplemented the Fund performance information provided to the Board at each of its quarterly meetings.

In comparing a fund's performance with that of its Performance Peer Group, the Independent Board Members took into account that the closest Performance Peer Group in certain instances may not adequately reflect the respective fund's investment objectives and strategies thereby hindering a meaningful comparison of the fund's performance with that of the Performance Peer Group. The Independent Board Members further considered the performance of the Funds in the context of the volatile market conditions during the past year, and their impact on various asset classes and the portfolio management of the Funds.

Based on their review and factoring in the severity of market turmoil in 2008, the Independent Board Members determined that each Fund's investment performance over time had been satisfactory.

C. Fees, Expenses and Profitability

1. Fees and Expenses

The Board evaluated the management fees and expenses of each Fund reviewing, among other things, such Fund's gross management fees, net management fees and total expense ratios (before and after expense reimbursements and/or waivers) in absolute terms as well as compared to the fee and expenses of a comparable universe of unaffiliated funds based on data provided by an independent fund data provider (the *Peer Universe*) and in certain cases, to a more focused subset of funds in the Peer Universe (the *Peer Group*).

The Independent Board Members further reviewed data regarding the construction of the applicable Peer Universe and Peer Group. In reviewing the comparisons of fee and expense information, the Independent Board Members took into account that in certain instances various factors such as the asset level of a fund relative to peers, the size and particular composition of the Peer Universe or Peer Group, the investment objectives of the peers, expense anomalies, changes in the funds comprising the Peer Universe or Peer Group from year to year, levels of reimbursement and the timing of information used may impact the comparative data, thereby limiting the ability to make a meaningful comparison. The Independent Board Members also considered, among other things, the differences in the use and type of leverage compared to the peers. In reviewing the fee schedule for a Fund, the Independent Board Members also

considered the fund-level and complex-wide breakpoint schedules (described in further detail below) and any fee waivers and reimbursements provided by Nuveen (applicable, in particular, for certain closed-end funds launched since 1999).

Based on their review of the fee and expense information provided, the Independent Board Members determined that each Fund's management fees and net total expense ratio were reasonable in light of the nature, extent and quality of services provided to the Fund.

52 Nuveen Investments

2. Comparisons with the Fees of Other Clients

The Independent Board Members further reviewed information regarding the nature of services and fee rates offered by NAM to other clients. Such clients include separately managed accounts (both retail and institutional accounts) and funds that are not offered by Nuveen but are sub-advised by one of Nuveen's investment management teams. In evaluating the comparisons of fees, the Independent Board Members noted that the fee rates charged to the Funds and other clients vary, among other things, because of the different services involved and the additional regulatory and compliance requirements associated with registered investment companies, such as the Funds. Accordingly, the Independent Board Members considered the differences in the product types, including, but not limited to, the services provided, the structure and operations, product distribution and costs thereof, portfolio investment policies, investor profiles, account sizes and regulatory requirements. The Independent Board Members noted, in particular, that the range of services provided to the Funds (as discussed above) is much more extensive than that provided to separately managed accounts. Given the inherent differences in the products, particularly the extensive services provided to the Funds, the Independent Board Members believe such facts justify the different levels of fees.

In considering the fees of the Sub-Adviser, the Independent Board Members also considered the pricing schedule or fees that the Sub-Adviser charges for similar investment management services for other fund sponsors or clients (such as retail and/or institutional managed accounts) as applicable. The Independent Board Members also reviewed the fees the Sub-Adviser assesses for equity and taxable fixed-income hedge funds and hedge accounts it manages, which include a performance fee.

3. Profitability of Fund Advisers

In conjunction with its review of fees, the Independent Board Members also considered the profitability of Nuveen for its advisory activities (which incorporated Nuveen's wholly-owned affiliated sub-advisers other than Winslow Capital) and its financial condition. The Independent Board Members reviewed the revenues and expenses of Nuveen's advisory activities for the last two years, the allocation methodology used in preparing the profitability data and an analysis of the key drivers behind the changes in revenues and expenses that impacted profitability in 2008. In addition, the Independent Board Members reviewed information regarding the financial results of Nuveen for 2008 based on its Form 8-K filed on March 31, 2009. The Independent Board Members noted this information supplemented the profitability information requested and received during the year to help keep them apprised of developments affecting profitability (such as changes in fee waivers and expense reimbursement commitments). In this regard, the Independent Board Members noted that they had also appointed an Independent Board Member as a point person to review and keep them apprised of changes to the profitability analysis and/or methodologies during the year. The Independent Board Members also considered Nuveen's revenues for advisory activities, expenses, and profit margin compared to that of various unaffiliated management firms with similar amounts of assets under management and relatively comparable asset composition prepared by Nuveen.

In reviewing profitability, the Independent Board Members recognized the subjective nature of determining profitability which may be affected by numerous factors including the allocation of expenses. Further, the Independent Board Members recognized the difficulties in making comparisons as the profitability of other advisers generally is not publicly available and the profitability information that is available for certain advisers or management firms may not be representative of the industry and may be affected by, among other things, the adviser's particular business mix, capital costs, types of funds managed and expense allocations. Notwithstanding the foregoing, the Independent Board Members reviewed Nuveen's methodology and assumptions for allocating expenses across product lines to determine profitability. In reviewing profitability, the Independent Board Members recognized Nuveen's investment in its fund business. Based on their review, the Independent Board Members concluded that Nuveen's level of profitability for its advisory activities was reasonable in light of the services provided.

In evaluating the reasonableness of the compensation, the Independent Board Members also considered other amounts paid to a Fund Adviser by the Funds as well as any indirect benefits (such as soft dollar arrangements, if any) the Fund Adviser and its affiliates receive, or are expected to receive, that are directly attributable to the management of the Funds, if any. See Section E below for additional information on indirect benefits the Fund Adviser may receive as a result of its relationship with the Funds. Based on their

Annual Investment Management
Agreement Approval Process (continued)

review of the overall fee arrangements of each Fund, the Independent Board Members determined that the advisory fees and expenses of the respective Fund were reasonable.

D. Economies of Scale and Whether Fee Levels Reflect These Economies of Scale

With respect to economies of scale, the Independent Board Members have recognized the potential benefits resulting from the costs of a fund being spread over a larger asset base, although economies of scale are difficult to measure and predict with precision, particularly on a fund-by-fund basis. One method to help ensure the shareholders share in these benefits is to include breakpoints in the advisory fee schedule. Generally, management fees for funds in the Nuveen complex are comprised of a fund-level component and a complex-level component, subject to certain exceptions. Accordingly, the Independent Board Members reviewed and considered the applicable fund-level breakpoints in the advisory fee schedules that reduce advisory fees as asset levels increase. In this regard, the Independent Board Members noted that although closed-end funds may from time-to-time make additional share offerings, the growth of their assets will occur primarily through the appreciation of such funds' investment portfolio. While economies of scale result when costs can be spread over a larger asset base, the Independent Board Members also recognized that the asset levels generally declined in 2008 due to, among other things, the market downturn. Accordingly, for funds with a reduction in assets under management, advisory fee levels may have increased as breakpoints in the fee schedule were no longer surpassed.

In addition to fund-level advisory fee breakpoints, the Board also considered the Funds' complex-wide fee arrangement. Pursuant to the complex-wide fee arrangement, the fees of the funds in the Nuveen complex generally are reduced as the assets in the fund complex reach certain levels. The complex-wide fee arrangement seeks to provide the benefits of economies of scale to fund shareholders when total fund complex assets increase, even if assets of a particular fund are unchanged or have decreased. The approach reflects the notion that some of Nuveen's costs are attributable to services provided to all its funds in the complex and therefore all funds benefit if these costs are spread over a larger asset base. Generally, the complex-wide pricing reduces Nuveen's revenue because total complex fund assets have consistently grown in prior years. As noted, however, total fund assets declined in 2008 resulting in a smaller downward adjustment of revenues due to complex-wide pricing compared to the prior year.

Based on their review, the Independent Board Members concluded that the breakpoint schedules and complex-wide fee arrangement (as applicable) were acceptable and reflect economies of scale to be shared with shareholders when assets under management increase.

E. Indirect Benefits

In evaluating fees, the Independent Board Members received and considered information regarding potential fall out or ancillary benefits the respective Fund Adviser or its affiliates may receive as a result of its relationship with each Fund. In this regard, the Independent Board Members considered revenues received by affiliates of NAM for serving as agent at Nuveen's trading desk.

In addition to the above, the Independent Board Members considered whether the Fund Adviser received any benefits from soft dollar arrangements whereby a portion of the commissions paid by a Fund for brokerage may be used to acquire research that may be useful to the Fund Adviser in managing the assets of the Funds and other clients. With respect to NAM, the Independent Board Members noted that NAM does not currently have any soft dollar arrangements; however, to the extent certain bona fide agency transactions that occur on markets that traditionally trade on a principal basis and riskless principal transactions are considered as generating commissions, NAM intends

to comply with the applicable safe harbor provisions. With respect to the Sub-Adviser, the Independent Board Members considered that the Sub-Adviser currently does not enter into soft dollar arrangements; however, it has adopted a soft dollar policy in the event it does so in the future.

Based on their review, the Independent Board Members concluded that any indirect benefits received by a Fund Adviser as a result of its relationship with the Funds were reasonable and within acceptable parameters.

54 Nuveen Investments

F. Other Considerations

The Independent Board Members did not identify any single factor discussed previously as all-important or controlling. The Board Members, including the Independent Board Members, unanimously concluded that the terms of the Investment Management Agreements and Sub-advisory Agreements are fair and reasonable, that the respective Fund Adviser's fees are reasonable in light of the services provided to each Fund and that the Investment Management Agreements and the Sub-advisory Agreements be renewed.

Nuveen Investments 55

Board Members & Officers

The management of the Funds, including general supervision of the duties performed for the Funds by the Adviser, is the responsibility of the Board Members of the Funds. The number of board members of the Fund is currently set at nine. None of the board members who are not interested persons of the Funds (referred to herein as independent board members) has ever been a director or employee of, or consultant to, Nuveen or its affiliates. The names and business addresses of the board members and officers of the Funds, their principal occupations and other affiliations during the past five years, the number of portfolios each oversees and other directorships they hold are set forth below.

- (1) Board Members serve three year terms, except for two board members who are elected by the holders of Preferred Shares. The Board of Trustees is divided into three classes, Class I, Class II, and Class III, with each being elected to serve until the third succeeding annual shareholders meeting subsequent to its election or thereafter in each case when its respective successors are duly elected or appointed, except two board members are elected by the holders of Preferred Shares to serve until the next annual shareholders meeting subsequent to its election or thereafter in each case when its respective successors are duly elected or appointed. The first year elected or appointed represents the year in which the board member was first elected or appointed to any fund in the Nuveen Complex.
- (2) Mr. Amboian is an interested trustee because of his position with Nuveen Investments, Inc. and certain of its subsidiaries, which are affiliates of the Nuveen Funds.
- (3) Nuveen Advisory Corp. and Nuveen Institutional Advisory Corp. were reorganized into Nuveen Asset Management, effective January 1, 2005.
- (4) Officers serve one year terms through July of each year. The year first elected or appointed represents the year in which the Officer was first elected or appointed to any fund in the Nuveen Complex.

Nuveen Investments 61

Reinvest Automatically
Easily and Conveniently

Nuveen makes reinvesting easy. A phone call is all it takes to set up your reinvestment account.

Nuveen Closed-End Funds Dividend Reinvestment Plan

Your Nuveen Closed-End Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional Fund shares.

By choosing to reinvest, you will be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

Easy and convenient

To make recordkeeping easy and convenient, each month you will receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

How shares are purchased

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or 95% of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. If the Plan Agent begins purchasing Fund shares on the open market while shares are trading below net asset value, but the Fund's shares subsequently trade at or above their net asset value before the Plan Agent is able to complete its purchases, the Plan Agent may cease open-market purchases and may invest the uninvested portion of the distribution in newly-issued Fund shares at a price equal to the greater of the shares' net asset value or 95% of the shares' market value on the last business day immediately prior to the purchase date. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

Flexible

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

Call today to start reinvesting dividends and/or distributions

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

Glossary of Terms
Used in this Report

- n ***Average Annual Total Return:*** This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in common share NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.
- n ***Collateralized Debt Obligations (CDOs):*** Collateralized debt obligations are a type of asset-backed security constructed from a portfolio of fixed-income assets. CDOs usually are divided into different tranches having different ratings and paying different interest rates. Losses, if any, are applied in reverse order of seniority and so junior tranches generally offer higher coupons to compensate for added default risk.
- n ***Market Yield (also known as Dividend Yield or Current Yield):*** Market yield is based on the Fund's current annualized monthly distribution divided by the Fund's current market price. The Fund's monthly distributions to its shareholders may be comprised of ordinary income, net realized capital gains and, if at the end of the calendar year the Fund's cumulative net ordinary income and net realized gains are less than the amount of the Fund's distributions, a tax return of capital.
- n ***Net Asset Value (NAV):*** A Fund's NAV per common share is calculated by subtracting the liabilities of the Fund (including any Preferred shares issued in order to leverage the Fund) from its total assets and then dividing the remainder by the number of common shares outstanding. Fund NAVs are calculated at the end of each business day.

Quarterly Portfolio of Investments and Proxy Voting Information

You may obtain (i) each Fund's quarterly portfolio of investments, (ii) information regarding how the Funds voted proxies relating to portfolio securities held during the most recent twelve-month period ended June 30, 2009, and

(iii) a description of the policies and procedures that the Funds used to determine how to vote proxies relating to portfolio securities without charge, upon request, by calling Nuveen Investments toll-free at (800) 257-8787 or on Nuveen's website at www.nuveen.com.

You may also obtain this and other Fund information directly from the Securities and Exchange Commission (SEC). The SEC may charge a copying fee for this information. Visit the SEC on-line at <http://www.sec.gov> or in person at the SEC's Public Reference Room in Washington, D.C. Call the SEC at (202) 942-8090 for room hours and operation. You may also request Fund information by sending an e-mail request to publicinfo@sec.gov or by writing to the SEC's Public Reference Section at 100 F Street NE, Washington, D.C. 20549.

CEO Certification Disclosure

Each Fund's Chief Executive Officer has submitted to the New York Stock Exchange (NYSE) the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Company Manual.

Each Fund has filed with the SEC the certification of its Chief Executive Officer and Chief Financial Officer required by Section 302 of the Sarbanes-Oxley Act.

Distribution Information

The following federal income tax information is provided with respect to the Funds' distributions paid during the taxable year ended July 31, 2009: Senior Income (NSL), Floating Rate Income (JFR) and Floating Rate Income Opportunity (JRO) hereby designate 94.80%, 93.86% and 97.23%, respectively, (or the maximum amount eligible) of ordinary income distributions as Interest-Related Dividends as defined in Internal Revenue Code Section 871(k) for the taxable year ended July 31, 2009.

Common and Preferred Share Information

Each Fund intends to repurchase and/or redeem shares of its own common or preferred stock in the future at such times and in such amounts as is deemed advisable. During the period covered by this report, the Funds repurchased and/or redeemed shares of their common and/or preferred stock as shown in the accompanying table.

| Fund | Common Shares Repurchased | Preferred Shares Redeemed |
|------|------------------------------|------------------------------|
| NSL | | 800 |
| JFR | 9,700 | 2,400 |
| JRO | 9,700 | 1,600 |

Any future repurchases and/or redemptions will be reported to shareholders in the next annual or semi-annual report.

Nuveen Investments:
Serving Investors for Generations

Since 1898, financial advisors and their clients have relied on Nuveen Investments to provide dependable investment solutions. For the past century, Nuveen Investments has adhered to the belief that the best approach to investing is to apply conservative risk-management principles to help minimize volatility.

Building on this tradition, we today offer a range of high quality equity and fixed-income solutions that are integral to a well-diversified core portfolio. Our clients have come to appreciate this diversity, as well as our continued adherence to proven, long-term investing principles.

We offer many different investing solutions for our clients' different needs.

Nuveen Investments is a global investment management firm that seeks to help secure the long-term goals of Institutions and high net worth investors as well as the consultants and financial advisors who serve them. Nuveen Investments markets its growing range of specialized investment solutions under the high-quality brands of HydePark, NWQ, Nuveen, Santa Barbara, Symphony, Tradewinds and Winslow Capital. In total, the Company managed approximately \$128 billion of assets on June 30, 2009.

Find out how we can help you reach your financial goals.

To learn more about the products and services Nuveen Investments offers, talk to your financial advisor, or call us at **(800) 257-8787**. Please read the information provided carefully before you invest.

Be sure to obtain a prospectus, where applicable. Investors should consider the investment objective and policies, risk considerations, charges and expenses of the Fund carefully before investing. The prospectus contains this and other information relevant to an investment in the Fund. For a prospectus, please contact your securities representative or **Nuveen Investments, 333 W. Wacker Dr., Chicago, IL 60606**. Please read the prospectus carefully before you invest or send money.

ITEM 2. CODE OF ETHICS.

As of the end of the period covered by this report, the registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. There were no amendments to or waivers from the Code during the period covered by this report. The registrant has posted the code of ethics on its website at www.nuveen.com/CEF/Info/Shareholder/. (To view the code, click on Fund Governance and then click on Code of Conduct.)

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's Board of Directors or Trustees (Board) determined that the registrant has at least one audit committee financial expert (as defined in Item 3 of Form N-CSR) serving on its Audit Committee. The registrant's audit committee financial expert is Jack B. Evans, who is independent for purposes of Item 3 of Form N-CSR.

Mr. Evans was formerly President and Chief Operating Officer of SCI Financial Group, Inc., a full service registered broker-dealer and registered investment adviser (SCI). As part of his role as President and Chief Operating Officer, Mr. Evans actively supervised the Chief Financial Officer (the CFO) and actively supervised the CFO's preparation of financial statements and other filings with various regulatory authorities. In such capacity, Mr. Evans was actively involved in the preparation of SCI's financial statements and the resolution of issues raised in connection therewith. Mr. Evans has also served on the audit committee of various reporting companies. At such companies, Mr. Evans was involved in the oversight of audits, audit plans, and the preparation of financial statements. Mr. Evans also formerly chaired the audit committee of the Federal Reserve Bank of Chicago.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

NUVEEN SENIOR INCOME FUND

The following tables show the amount of fees that Ernst & Young LLP, the Fund's auditor, billed to the Fund during the Fund's last two full fiscal years. For engagements with Ernst & Young LLP the Audit Committee approved in advance all audit services and non-audit services that Ernst & Young LLP provided to the Fund, except for those non-audit services that were subject to the pre-approval exception under Rule 2-01 of Regulation S-X (the pre-approval exception). The pre-approval exception for services provided directly to the Fund waives the pre-approval requirement for services other than audit, review or attest services if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid by the Fund to its accountant during the fiscal year in which the services are provided; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the audit is completed.

The Audit Committee has delegated certain pre-approval responsibilities to its Chairman (or, in his absence, any other member of the Audit Committee).

SERVICES THAT THE FUND'S AUDITOR BILLED TO THE FUND

| Fiscal Year Ended | Audit Fees Billed to Fund ¹ | Audit-Related Fees Billed to Fund ² | Tax Fees Billed to Fund ³ | All Other Fees Billed to Fund ⁴ |
|--|---|---|---|---|
| July 31, 2009 | \$ 35,625 | \$ 0 | \$ 0 | \$ 16,000 |
| Percentage approved pursuant to pre-approval exception | 0% | 0% | 0% | 0% |
| July 31, 2008 | \$ 37,955 | \$ 0 | \$ 1,000 | \$ 7,400 |

| | | | | |
|--|----|----|----|----|
| Percentage approved pursuant to pre-approval exception | 0% | 0% | 0% | 0% |
|--|----|----|----|----|

¹ Audit Fees are the aggregate fees billed for professional services for the audit of the Fund's annual financial statements and services provided in connection with statutory and regulatory filings or engagements.

² Audit Related Fees are the aggregate fees billed for assurance and related services reasonably related to the performance of the audit or review of financial statements and are not reported under Audit Fees.

³ Tax Fees are the aggregate fees billed for professional services for tax advice, tax compliance, and tax planning.

⁴ All Other Fees are the aggregate fees billed for

products and services for agreed upon procedures engagements performed for leveraged funds.

SERVICES THAT THE FUND'S AUDITOR BILLED TO THE ADVISER AND AFFILIATED FUND SERVICE PROVIDERS

The following tables show the amount of fees billed by Ernst & Young LLP to Nuveen Asset Management ("NAM" or the "Adviser"), and any entity controlling, controlled by or under common control with NAM that provides ongoing services to the Fund ("Affiliated Fund Service Provider"), for engagements directly related to the Fund's operations and financial reporting, during the Fund's last two full fiscal years.

The tables also show the percentage of fees subject to the pre-approval exception. The pre-approval exception for services provided to the Adviser and any Affiliated Fund Service Provider (other than audit, review or attest services) waives the pre-approval requirement if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid to Ernst & Young LLP by the Fund, the Adviser and Affiliated Fund Service Providers during the fiscal year in which the services are provided that would have to be pre-approved by the Audit Committee; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the Fund's audit is completed.

| Fiscal Year Ended | Audit-Related Fees Billed to Adviser and Affiliated Fund Service Providers | Tax Fees Billed to Adviser and Affiliated Fund Service Providers | All Other Fees Billed to Adviser and Affiliated Fund Service Providers |
|--|---|---|---|
| July 31, 2009 | \$ 0 | \$ 0 | \$ 0 |
| Percentage approved pursuant to pre-approval exception | 0% | 0% | 0% |
| July 31, 2008 | \$ 0 | \$ 0 | \$ 0 |
| Percentage approved pursuant to pre-approval exception | 0% | 0% | 0% |

NON-AUDIT SERVICES

The following table shows the amount of fees that Ernst & Young LLP billed during the Fund's last two full fiscal years for non-audit services. The Audit Committee is required to pre-approve non-audit services that Ernst & Young LLP provides to the Adviser and any Affiliated Fund Services Provider, if the engagement related directly to the Fund's operations and financial reporting (except for those subject to the pre-approval exception described above). The Audit Committee requested and received information from Ernst & Young LLP about any non-audit services that Ernst & Young LLP rendered during the Fund's last fiscal year to the Adviser and any Affiliated Fund Service Provider. The Committee considered this information in evaluating Ernst & Young LLP's independence.

| Fiscal Year Ended | Total Non-Audit Fees Billed to Fund | Total Non-Audit Fees billed to Adviser and Affiliated Fund Service Providers (engagements related directly to the operations and financial reporting of the Fund) | | Total Non-Audit Fees billed to Adviser and Affiliated Fund Service Providers (all other engagements) | Total |
|-------------------|---|---|------|---|----------|
| | | | | | |
| July 31, 2009 | \$ 16,000 | \$ 0 | \$ 0 | \$ 0 | \$16,000 |
| July 31, 2008 | \$ 8,400 | \$ 0 | \$ 0 | \$ 0 | \$ 8,400 |

Non-Audit Fees billed to Fund for both fiscal year ends represent Tax Fees and All Other Fees billed to Fund in their respective amounts from the previous table.

Audit Committee Pre-Approval Policies and Procedures. Generally, the Audit Committee must approve (i) all non-audit services to be performed for the Fund by the Fund's independent accountants and (ii) all audit and non-audit services to be performed by the Fund's independent accountants for the Affiliated Fund Service Providers with respect to operations and financial reporting of the Fund. Regarding tax and research projects conducted by the independent accountants for the Fund and Affiliated Fund Service Providers (with respect to operations and financial reports of the Fund) such engagements will be (i) pre-approved by the Audit Committee if they are expected to be for amounts greater than \$10,000; (ii) reported to the Audit Committee chairman for his verbal approval prior to engagement if they are expected to be for amounts under \$10,000 but greater than \$5,000; and (iii) reported to the Audit Committee at the next Audit Committee meeting if they are expected to be for an amount under \$5,000.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant's Board has a separately designated Audit Committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended (15 U.S.C. 78c(a)(58)(A)). The members of the audit committee are Robert P. Bremner, Jack B. Evans, David J. Kundert, William J. Schneider and Terence J. Toth.

ITEM 6. SCHEDULE OF INVESTMENTS.

(a) See Portfolio of Investments in Item 1.

(b) Not applicable.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

SYMPHONY

Symphony Asset Management (Symphony) votes proxies with the objective of maximizing shareholder value for its clients and in accordance with the firm s Policies and Procedures for Proxy Voting. Symphony s Proxy Voting Committee is responsible for establishing proxy voting guidelines; review and oversight of the firm s Policies and Procedures for Proxy Voting; oversight of day-to-day proxy voting related activities; and, for overseeing the activities of proxy service providers utilized by the firm.

Symphony has established guidelines for proxy voting based on the recommendations of an independent third-party proxy service provider. Symphony utilizes one or more independent third-party service providers to vote proxy in accordance with Symphony s guidelines. Service providers also provide proxy voting related research material as required.

In its Policies and Procedures for Proxy Voting, Symphony specifies a process for identifying and managing conflicts of interest in the proxy voting process so that votes are cast in the best interests of clients. Conflicts of interest may arise from relationships Symphony has with its clients, vendors and lenders. Symphony portfolio managers may change a proxy vote recommended by the firm s guidelines to resolve a conflict of interest or for other reasons in the best economic interests of clients. Symphony s Proxy Voting Committee reviews vote changes.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The Adviser has engaged Symphony Asset Management (also referred to as Sub-Adviser) as Sub-Adviser to provide discretionary investment advisory services. The following section provides information on the portfolio managers of the Sub-Adviser.

SYMPHONY ASSET MANAGEMENT

A. PORTFOLIO MANAGER BIOGRAPHIES

Gunther Stein, Director of Fixed Income Strategies, Portfolio Manager

Gunther Stein is the lead portfolio manager for both high yield and convertible bond strategies at Symphony Asset Management as well as the lead portfolio manager of Nuveen s senior loan asset management team. Prior to joining Symphony in 1999, Stein was a high yield portfolio manager at Wells Fargo Bank, where he was responsible for investing in public high yield bonds and bank loans and also managed a team of credit analysts. Stein joined Wells Fargo in 1993 as an Associate in its Loan Syndications/Leveraged Finance Group. Previously, Stein worked for four years as a euro-currency deposit trader with First Interstate Bank. He has also worked for Standard Chartered Bank, Mexico City and Citibank Investment Bank, London. He completed Wells Fargo s Credit Management Training program and holds an M.B.A. from the University of Texas, Austin. He graduated from the University of California at Berkeley with a B.A. in Economics.

B. OTHER ACCOUNTS

OTHER ACCOUNTS MANAGED BY Gunther Stein AS OF 7/31/09

| | Gunther Stein |
|---------------------------|----------------------|
| (a) RICs | |
| Number of accts | 6 |
| Assets | \$1.586 billion |
| (b) Other pooled accts | |
| Non-performance fee accts | |
| Number of accts | 3 |
| Assets | \$58 million |

| | |
|-----------------------|---------------|
| Number of accts | 3 |
| Assets | \$4 million |
| Performance fee accts | |
| Number of accts | 1 |
| Assets | \$217 million |

C. POTENTIAL MATERIAL CONFLICTS OF INTEREST

As described above, the portfolio managers may manage other accounts with investment strategies similar to the Fund, including other investment companies and separately managed accounts. Fees earned by the Sub-Adviser may vary among these accounts and the portfolio managers may personally invest in some but not all of these accounts. These factors could create conflicts of interest because a portfolio manager may have incentives to favor certain accounts over others, resulting in other accounts outperforming the Fund. A conflict may also exist if a portfolio manager identified a limited investment opportunity that may be appropriate for more than one account, but the Fund is not able to take full advantage of that opportunity due to the need to allocate that opportunity among multiple accounts. In addition, the portfolio managers may execute transactions for another account that may adversely impact the value of securities held by the Fund. However, the Sub-Adviser believes that these risks are mitigated by the fact that accounts with like investment strategies managed by a particular portfolio manager are generally managed in a similar fashion, subject to exceptions to account for particular investment restrictions or policies applicable only to certain accounts, differences in cash flows and account sizes, and other factors. In addition, the Sub-Adviser has adopted trade allocation procedures that require equitable allocation of trade orders for a particular security among participating accounts.

D. FUND MANAGER COMPENSATION

Symphony investment professionals receive compensation based on three elements: fixed-base salary, participation in a bonus pool and certain long-term incentives.

The fixed-base salary is set at a level determined by Symphony and is reviewed periodically to ensure that it is competitive with base salaries paid by similar financial services companies for persons playing similar roles. The portfolio manager is also eligible to receive an annual bonus from a pool based on Symphony's aggregate asset-based and performance fees after all operating expenses. The level of this bonus to each individual portfolio manager is determined by senior management's assessment of the team's performance, and the individual's contribution to and performance on that team. Factors considered in that assessment include the total return and risk-adjusted total return performance of the accounts for which the individual serves as portfolio manager relative to any benchmarks established for those accounts; the individual's effectiveness in communicating investment performance to investors and/or their advisors; and the individual's contribution to the firm's overall investment process and to the execution of investment strategies. The portfolio manager also receives long-term incentives tied to the performance and growth of Symphony and Nuveen.

E. OWNERSHIP OF NSL SECURITIES AS OF JULY 31, 2009.

| Name of Portfolio Manager | Dollar range of equity securities beneficially owned in Fund |
|---------------------------|--|
| Gunther Stein | \$10,001-\$50,000 |

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the registrant's Board implemented after the registrant last provided disclosure in response to this Item.

ITEM 11. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule 30a-3(b) under the 1940 Act (17

Edgar Filing: NUVEEN SENIOR INCOME FUND - Form N-CSR

CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (the Exchange Act) (17 CFR 240.13a-15(b) or 240.15d-15(b)).

- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d)) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

File the exhibits listed below as part of this Form. Letter or number the

exhibits in the sequence indicated.

(a)(1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable because the code is posted on registrant's website at www.nuveen.com/CEF/Info/Shareholder/ and there were no amendments during the period covered by this report. (To view the code, click on Fund Governance and then Code of Conduct.)

(a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)) in the exact form set forth below: Ex-99.CERT Attached hereto.

(a)(3) Any written solicitation to purchase securities under Rule 23c-1 under the 1940 Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons. Not applicable.

(b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the 1940 Act (17 CFR 270.30a-2(b)); Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed filed for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference. Ex-99.906 CERT attached hereto.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
