- o A revolving credit facility up to \$18.0 million based on a borrowing base formula equal to the sum of 85% of eligible receivables, 50% of eligible finished goods inventories, 30% of other eligible inventories, 50% of the net book value of equipment and 75% of the net book value of real property less the current term loan balance and outstanding letters of credit. As of April 1, 2001, the maximum allowable was \$18.0 million. The revolver borrowing at quarter-end was \$3.5 million, and letters of credit outstanding totaled \$2.2 million. Unused revolving credit available at April 1, 2001 was \$12.3 million. The maturity date of the revolving credit facility is February 2002.
- o Covenants and performance criteria which involve Earnings Before Interest, Taxes, Depreciation and Amortization ("EBITDA") in relation to debt, EBITDA in relation to fixed charges, and maximum capital expenditures. In July 1998, the Company acquired tax-exempt Industrial Revenue Bond financing in the amount of \$1.3 million. The debt is payable over 10 years with an interest rate of 5.28%. Edgar Filing: LABARGE INC - Form 10-Q

Subordinated Convertible Notes:

On March 2, 1999, the Company, through its subsidiary LaBarge-OCS, Inc., purchased the remaining 90% of OCS for \$5.6 million by (1) exchanging its Subordinated Convertible Notes ("Notes") due June 2003 in the principal amount of \$4.3 million for the outstanding shares of OCS, and (2) exchanging 310,000 shares of LaBarge-OCS, Inc. common stock for outstanding options to purchase OCS common shares. The Notes bear interest at 7.5% per annum payable quarterly beginning June 29, 1999, and noteholders are entitled to participation payments if LaBarge-OCS, Inc. achieves certain levels of earnings before taxes. The Notes are convertible by the holders into LaBarge, Inc. Common Stock at \$8.00 per share at any time after the first anniversary of the Notes up to their maturity date. The 310,000 shares of LaBarge-OCS, Inc. common stock were exchanged for \$1.3 million of Notes in June 2000.

To mitigate the exposure to changes in interest rates, the Company entered into an interest rate swap agreement with a bank on February 26, 2001. The agreement, designated as a hedge, swaps a portion of the Company's exposure to three-month LIBOR rates with a fixed rate of 5.95%. The notional amount of the agreement is \$4.0 million and expires in June 2003. In accordance with FAS 133, the change in fair value of the swap, amounting to approximately \$100,000, was recorded to other comprehensive loss.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

FORWARD-LOOKING STATEMENTS

Statements contained in this Report which are not historical facts are forward-looking statements within the meaning of the federal securities laws. Forward-looking statements involve risks and uncertainties. Future events and the Company's actual results could differ materially from those contemplated by those forward-looking statements. Important factors which could cause the Company's actual results to differ materially from those projected in, or inferred by, forward-looking statements are (but are not necessarily limited to) the following: the impact of increasing competition or deterioration of economic conditions in the Company's markets; cutbacks in defense spending by the U.S. Government; unexpected increases in the cost of raw materials, labor and other resources necessary to operate the Company's business; the availability, amount, type and cost of financing for the Company and any changes to that financing.

LaBarge, Inc. ("LaBarge" or the "Company") is a Delaware Corporation. The Company is engaged in the following primary business activities:

- o The MANUFACTURING SERVICES GROUP is the Company's core electronics manufacturing business, which has been its principal business since 1985. This group designs, engineers and produces sophisticated electronic systems and devices and complex interconnect systems on a contract basis for its customers. The Company derived approximately 97% and 98% of its total revenues from this group for the three and nine months ended April 1, 2001, respectively.

The group markets its services to companies desiring an engineering and manufacturing partner capable of developing and providing high-reliability electronic equipment, including products capable of performing in harsh environmental conditions, such as high and low temperature, severe shock and vibration. The group serves customers in a variety of markets with significant revenues from customers in the government systems, defense, aerospace, and oil and gas markets. The group's manufacturing facilities are located in Arkansas, Missouri, Oklahoma and Texas.

The backlog of unshipped orders in the Manufacturing Services Group increased to \$93.2 million at April 1, 2001, compared with \$62.7 million at fiscal 2000 year-end. The growth in backlog is the result of an improved and reorganized sales and marketing effort that concentrates on the Company's core competencies and their application to targeted large customers in a variety of industries. Backlog growth during the quarter was related to commercial customers, and includes major new customer relationships in new markets with significant growth potential.

- o The NETWORK TECHNOLOGIES GROUP was started in fiscal 1999 through the acquisition of privately held Open Cellular Systems, Inc. ("OCS"). The group designs and markets proprietary cellular and network communication

Edgar Filing: LABARGE INC - Form 10-Q

system products and Internet services that provide monitoring and control of remote industrial equipment. This group is initially focusing its marketing efforts on the railroad industry to monitor railroad-crossing equipment, and on the oil and gas pipeline industry to monitor cathodic protection devices. The Company derived 3% and 2% of its total revenues from this group for the three and nine months ended April 1, 2001, respectively.

12

13

The backlog of unshipped orders in the Network Technologies Group was \$1.4 million at April 1, 2001, compared with \$382,000 at fiscal 2000 year-end. Contracts with the railroad industry represented the majority of the growth in the backlog.

SIGNIFICANT EVENTS

Recent significant events include:

- o On June 30, 2000, LaBarge Clayco Wireless was sold to Evolution Holdings, Inc. of Phoenix, Arizona. For its 90% interest in the joint venture, the Company received \$4.6 million in cash and a three-year convertible note with an estimated fair value of \$115,000. The Company recognized a one-time gain on the sale of \$2.8 million, net of taxes. LaBarge Clayco Wireless has been accounted for as a discontinued operation.
- o During the latter part of fiscal 2000, it was determined that significant additional investment would be required to continue development of NotiCom L.L.C.'s BusCall(TM) product. During the fourth quarter, the Company determined it would not provide such additional funding for NotiCom. Consequently, NotiCom attempted to raise additional equity in the capital markets. To date, these efforts have not been successful. Given these events, during the fourth quarter of fiscal 2000, the Company wrote-down its remaining investment in NotiCom and the related technology to zero. The total loss to LaBarge, including its share of NotiCom's operations and the write-down was \$4.2 million (before taxes) in fiscal 2000.

ScadaNET Network(TM) was selected by several rail organizations as the system of choice for their remote monitoring programs. The system is being installed at nearly 2,600 active crossings by The Burlington Northern and Santa Fe Railway Company, Union Pacific Railroad, Montana Rail Link and I&M Rail Link. Second-quarter sales represented the continuation of this build-out program. The ScadaNET Network is a standard component of all new and upgraded rail crossings built by the Union Pacific Railroad and Burlington Northern and Santa Fe Railway Company. In January 2001, the Company reached an agreement with Union Pacific Railroad to provide equipment and remote monitoring services to retrofit 1,100 crossings in the state of Illinois.

	=====	=====	=====	=====

Selling and administrative expense rose for the three and nine months ended April 1, 2001 as compared with prior periods, reflecting much higher sales levels. However, selling and administrative expense declined as a percentage reflecting increased sales without a proportionate increase in selling and administrative expense. Growth in prior periods' selling and administrative expense was in anticipation of higher levels of sales and bookings that were realized in the third quarter and the expected sales levels for the remainder of the fiscal year.

MANUFACTURING SERVICES GROUP. Selling and administrative expense for this group was \$4.1 million (13.0% of sales) for the quarter ended April 1, 2001 and \$3.4 million (15.7% of sales) for the same period of fiscal 2000.

For the same period of fiscal 2000, these expenses totaled \$679,000, including \$240,000 of goodwill. Selling and administrative expense increased in the fiscal 2001 periods due to additional selling and development activity, larger sales volume and greater allocation of corporate expenses.

	=====	=====	=====	=====

The increase in earnings from continuing operations for the quarter ended April 1, 2001, compared with the same period of fiscal 2000, is primarily attributable to significantly higher sales (an increase of \$9.8 million) and gross profit (an increase of \$1.6 million) from the Manufacturing Services Group, a \$125,000 reduction in the pretax loss of the Network Technologies Group and the absence of a charge associated with NotiCom L.L.C.

The Company sold certain technology during the quarter ended October 1, 2000, for a total of \$575,000. Revenue recognized in connection with this sale in the quarter ended April 1, 2001, was approximately \$119,000.

STOCKHOLDERS' EQUITY AND DEBT (dollars in thousands)

	APRIL 1, 2001	July 2, 2000
Stockholders' equity	\$28,502	\$25,773
Debt	\$18,966	\$26,578
	=====	=====

The Company's continuing operations provided \$748,000 of net cash for the quarter ended April 1, 2001. A reduction in cash balances, together with cash from earnings, offset by an increase in net working capital assets, reduced short-term and long-term borrowings during the quarter ended April 1, 2001.

Currently, our total debt-to-equity ratio is .67 to 1 versus 1.03 to 1 at the

end of fiscal 2000.

RISK FACTORS

The Company operates in a competitive marketplace and is exposed to risks associated with economic conditions.

The Network Technologies Group, as a relatively new operation, has used cash since its acquisition in March 1999. It is too early to predict the timing and the extent of the potential widespread acceptance of this segment's products and its contribution to future earnings and cash flow.

Overall, we believe our availability of funds going forward from cash generated from operations and available credit with the bank should be sufficient to support the planned operations and capital expenditures of our business for the next two years.
