| 99.1 | Press release issued August 19, 2003, of NRG Energy, Inc. |

Certain statements included in this current report on Form 8-K are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements above include, but are not limited to, the successful consummation of the sale, which is dependent in part on the meeting of certain closing conditions, and the timing of the closing of such sale and approval of the bankruptcy court. Although NRG believes that its expectations are reasonable, it can give no assurance that these expectations will prove to have been correct. Factors that could cause NRG's actual results to differ materially from those contemplated in the forward-looking statements above include, among others, the possibility that all closing conditions are not met or take longer than anticipated to be met, and that the bidding process and bankruptcy proceedings take longer than anticipated to complete.

The foregoing review of factors that could cause NRG's actual results to differ materially from those contemplated in the forward-looking statements included in this current report on Form 8-K should not be construed as exhaustive. For more information regarding risks and uncertainties that may affect NRG's future results, review NRG's filings with the Securities and Exchange Commission.
