Basis of Presentation

On December 5, 2003, the Company acquired Remote Business, Inc. (RBI), a newly-formed subsidiary of Probity Investigations, Inc. (Probity), in exchange for 16,000,000 newly-issued shares of the Company's common stock. Immediately prior to the acquisition, Probity transferred security equipment inventory with a fair value of \$550,000 and the operations of its subsidiary, Remote Business Management, LLC (RBM), excluding all recorded assets and liabilities of RBM, to RBI. The acquisition will be accounted for as a purchase. Because the Company is a non-operating company and the common shares of the Company are thinly-traded, the purchase price will be deemed to be the fair value of the assets acquired. Accordingly, no goodwill will be recorded in the acquisition. The pro forma information is presented for illustrative purposes only and is not necessarily indicative of the operating results or the financial position that would have occurred if the acquisition had been consummated as of the assumed date, nor is it necessarily indicative of the future operating results or financial position of the combined companies.

The unaudited pro forma combined condensed balance sheet is based on the Company's historical balance sheet and the financial statements of RBM appearing elsewhere in this report and has been prepared to reflect the Company's acquisition of RBM as of September 30, 2003. The unaudited combined condensed pro forma statements of operations are based on the Company's historical statements of operations and the financial statements of RBM appearing elsewhere in this report, and combines the Company's results of operations and RBM for the nine months ended September 30, 2003 and the year ended December 31, 2002 as if the acquisition occurred on January 1, 2002. These pro forma unaudited combined condensed financial statements should be read in conjunction with the Company's historical financial statements and notes thereto and the financial statements of RBM included elsewhere in this report.
