Federal Trade Commission Accepts Air Products'  
Consent Decree for Acquisition of Airgas

LEHIGH VALLEY, Pa. (September 9, 2010) – Air Products (NYSE: APD) today announced that the U.S. Federal Trade Commission (FTC) has accepted a Consent Decree in connection with Air Products' proposed acquisition of Airgas, Inc (NYSE: ARG). Final approval of the Consent Decree will be determined by the FTC after a 30-day public comment period. The waiting period under the Hart-Scott-Rodino Antitrust Improvement Act of 1976 expired yesterday, September 8, 2010.

The Consent Decree permits Air Products to acquire Airgas subject to the divestiture of certain assets and permits, for a period of time, the closing of the acquisition prior to completion of the divestiture. The assets to be divested relate primarily to Airgas' liquid bulk and on-site supply of atmospheric gases, including production and related assets.

John E. McGlade, Air Products chairman, president and chief executive officer, said, "We are pleased the FTC has accepted the Consent Decree with respect to our acquisition of Airgas. All of the principal conditions to completing a transaction with Airgas have been satisfied. The only thing standing in the way of Airgas shareholders receiving a substantial premium for their shares now is the continued refusal of the Airgas Board to engage with Air Products on any level."

Air Products (NYSE:APD) serves customers in industrial, energy, technology and healthcare markets worldwide with a unique portfolio of atmospheric gases, process and specialty gases, performance materials, and equipment and services. Founded in 1940, Air Products has built leading positions in key growth markets such as semiconductor materials, refinery hydrogen, home healthcare services, natural gas liquefaction, and advanced coatings and adhesives. The company is recognized for its innovative culture, operational excellence and commitment to safety and the environment. In fiscal 2009, Air Products had revenues of \$8.3 billion, operations in over 40 countries, and 18,900 employees around the globe.
